JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 2055) making appropriations for military construction, the Department of Veterans Affairs, and related agencies for the fiscal year ending September 30, 2012, and for other purposes, submit the following joint statement to the House and Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report.

This conference agreement includes the Department of Defense Appropriations Act, 2012; the Energy and Water Development Appropriations Act, 2012; the Financial Services and General Government Appropriations Act, 2012; the Department of Homeland Security Appropriations Act, 2012; the Department of the Interior, Environment, and Related Agencies Appropriations Act, 2012; the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2012; the Legislative Branch Appropriations Act, 2012; the Military Construction and Veterans Affairs and Related Agencies Appropriations Act, 2012; and the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2012.

The conference agreement includes a provision stating that each amount designated by Congress as being for Overseas Contingency Operations/Global War on Terrorism is contingent on the President so designating all such amounts and transmitting such designations to Congress. The provision is consistent with new requirements enacted in the Budget Control Act of 2011 for Overseas Contingency Operations/Global War on Terrorism designations by the President.

The conference agreement does not contain any congressional earmarks, limited tax benefits, or limited tariff benefits as defined by clause 9 of rule XXI of the Rules of the House of Representatives.

DIVISION A—DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, 2012

The conference agreement on the Department of Defense Appropriations Act, 2012, incorporates some of the provisions of both the House and the Senate versions of the bill. The language and allocations set forth in House Report 112–110 and Senate Report 112–77 shall be complied with unless specifically addressed to the contrary in the accompanying bill and explanatory statement.

DEFINITION OF PROGRAM, PROJECT, AND ACTIVITY

The conferees agree that for the purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177) as amended by the Balanced Budget and Emergency Deficit Control Reaffirmation Act of 1987 (Public Law 100-119) and by the Budget Enforcement Act of 1990 (Public Law 101-508), the terms program, project, and activity for appropriations contained in this Act shall be defined as the most specific level of budget items identified in the Department of Defense Appropriations Act, 2012, the related classified annexes and explanatory statements, and the P-1 and R-1 budget justification documents as subsequently modified by congressional action. The following exception to the above definition shall apply: for the military personnel and the operation and maintenance accounts, for which the term “program, project, and activity” is defined as the appropriations accounts contained in the Department of Defense Appropriations Act.

At the time the President submits the budget for fiscal year 2013, the Department of Defense is directed to transmit to the congressional defense committees budget justification documents to be known as the “M-1” and “O-1” which shall identify, at the budget activity, activity group, and subactivity group level, the amounts requested by the President to be appropriated to the Department of Defense for military personnel and operation and maintenance in any budget request, or amended budget request, for fiscal year 2013.

In carrying out any Presidential sequestration, the Department of Defense and related agencies shall conform to the definition for “program, project, and activity” set forth above except that military personnel accounts will be exempt from sequestration per the notification made by the Director of the Office of Management and Budget on August 10, 2011.

CLASSIFIED ANNEX

Adjustments to classified programs are addressed in the accompanying classified annex.

CONGRESSIONAL SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” are congressional special interest items for purposes of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, as specifically addressed in these materials.

REPROGRAMMING GUIDANCE

The Department of Defense is directed to continue to follow the reprogramming guidance for acquisition accounts as specified in the report accompanying the House version of the fiscal year 2008 Department of Defense Appropriations bill (H.R. 110-279). For operation and maintenance accounts, the Department of Defense shall continue to follow the reprogramming guidelines specified in the conference report accompanying H.R. 3222, the Department of Defense Appropriations Act, 2008, which are also expressed under

title II of this statement. The dollar threshold for reprogramming funds shall remain at \$15,000,000 for operation and maintenance; \$20,000,000 for procurement; and \$10,000,000 for research, development, test and evaluation.

Also, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for service and defense-wide accounts in titles I, II, III, and IV of this Act. Reports for titles III and IV shall comply with guidance specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of an operation and maintenance (O-1), a procurement (P-1), or a research, development, test and evaluation (R-1) line exceeds the identified threshold, the Department of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this statement.

FUNDING INCREASES

The funding increases outlined in the tables for each appropriation account shall be provided only for the specific purposes indicated in the tables.

TITLE I—MILITARY PERSONNEL

The conference agreement provides \$131,090,539,000 in Title I, Military Personnel, instead of \$132,092,225,000 as proposed by the House and \$131,000,559,000 as proposed by the Senate. The conference agreement on items addressed by either the House or the Senate is as follows:

MILITARY PERSONNEL ANTI-DEFICIENCY ACT VIOLATIONS

Since 2001, the Department of Defense has had 11 violations of the Anti-Deficiency Act (ADA) in its military personnel accounts. The conferees recognize the uncertainty that exists in the military personnel accounts due to their entitlement nature and the fact that resource requirements are driven by millions of individual and organizational personnel decisions. To further complicate management of these accounts, a significant number of obligations are incurred in the fourth quarter of the fiscal year. The conferees recognize the Department's efforts to improve the management and oversight of these accounts, but remain concerned over the Department's failure to adequately manage the military personnel budgets.

Therefore, the recommendation includes a new general provision requiring the Inspector General of the Department of Defense to conduct a review of military personnel ADA violations and their causes. Based on the findings of the review, the Inspector General shall submit to the congressional defense committees a report examining the Department's budgeting and oversight of the military personnel accounts, including recommendations for corrective actions to avoid additional ADA violations going forward. This report should be submitted to the congressional defense committees not later than 180 days after enactment of this Act.

RESERVE COMPONENT BUDGET STRUCTURE

The conferees direct each of the reserve components to provide a semi-annual detailed report to the congressional defense committees showing transfers between subactivities within the military personnel appropriation accounts. Reports shall be submitted not later than 30 days following the end of the second quarter and 30 days following the end of the fiscal year.

EXCESS BAGGAGE FEES FOR SERVICEMEMBERS

The conferees are concerned by recent incidents in which servicemembers on military orders deploying to or returning from overseas contingency operations on commercial airlines have been charged excess baggage fees. In some instances, servicemembers were asked to pay out of their own pockets for charges placed on checked baggage carrying U.S. military equipment and not personal effects. Servicemembers make great sacrifices to serve their country in dangerous wartime conditions. They should not be asked to endure personal financial hardships as a result of traveling to and from overseas deployments.

Although the Department of Defense states that it has the authority to pay for excess baggage fees and to reimburse servicemembers for any fees they have paid, the conferees firmly believe that servicemembers should not be burdened with out-of-pocket expenses at all. The conferees strongly encourage the Department to avoid entering into contract agreements with airlines that charge excess baggage fees to servicemembers who are traveling on military orders and are being deployed to or returning from overseas contingency operations. In addition, the Secretary of Defense is directed to submit a report to the congressional defense

committees not later than 90 days after enactment of this Act on measures being taken that will prevent servicemembers from having to pay out-of-pocket costs on checked baggage in such instances.

The budget request includes \$120,570,000 in title II and \$180,000,000 in title IX. The conference agreement includes all funds for these activities in title IX of this division as proposed by the House. Of the \$120,570,000 requested in title II, the conference agreement includes program reductions totaling \$16,795,000 and transfers the remaining \$103,775,000 to title IX. The allocation of funding by combatant command and funding levels for certain programs is specifically delineated in the classified annex accompanying this Act. The conferees direct that these delineations shall be considered congressional special interest items and be subject to normal reprogramming procedures.

The conferees agree that combatant commanders need the ability to effectively communicate in their respective areas of responsibility and provide adequate resources to support such military objectives. The conferees appreciate the progress made by the Office of the Secretary of Defense over the past three years to define and consolidate strategic communications (SC) and IO into a more accountable and transparent structure within the Department and improve interagency coordination. Even with this progress, concerns remain that some activities being funded under IO/MISO and SC are duplicative of, or operate at cross purposes with, other federal agencies' efforts. As the Secretary of Defense Memorandum dated January 25, 2011 indicates, further refinements are necessary to identify IO-related costs and develop standardized budgeting methodologies for SC and IO-related capabilities and activities, as well as MISO costs. In an era of declining budgets, Department of Defense funding for these activities must be fully captured and carefully reviewed to ensure that each request meets a primary military requirement.

The conference agreement does not provide funds within the fiscal year 2012 base budget for these activities, but instead continues funding them within title IX of this division. The conferees will consider transitioning the funding for SC and IO/MISO pro-

grams to the base budget in fiscal year 2013 after a review of the comprehensive budget requests for SC, IO/MISO, and IO-related capabilities and activities.

The conferees reiterate the direction included in the House report requiring the Secretary of Defense to develop a format for improving the budget submission for these programs in fiscal year 2013. The submission shall include, at a minimum, a delineation of all programs and activities, and the funding associated with each, for all SC and IO/MISO programs within the Department of Defense. The conferees further direct the Secretary of Defense to follow the direction in the House report regarding execution reports for funds provided for these programs.

ENERGY INDEPENDENCE AND SECURITY ACT

The conference agreement does not include a provision (House Section 10011) on the Energy Independence and Security Act of 2007. The conferees note that the enforcement of section 526 of the Energy Independence and Security Act of 2007 may lead to higher fuel costs for federal fleets in the absence of competitively priced new generation fuels that emit fewer emissions. In carrying out this statute, the Secretary of Defense and the Service Secretaries should work to ensure that costs associated with fuel purchases necessary to carry out the missions of their respective departments and agencies should be minimized to the extent possible under the law.

OVERHEAD COSTS AT NAVAL SHIPYARDS

One of the major themes of the Department of Defense's fiscal year 2012 budget submission has been the generation of efficiency savings through reduced overhead and improved business practices. However, the Navy's own budget materials indicate a plan to spend over \$1,700,000,000 for overhead costs at Naval shipyards in fiscal year 2012, an amount equal to 33 percent of Naval shipyard funding. The conferees believe there are opportunities to find Naval shipyard efficiency savings and direct the Secretary of the Navy to carefully assess shipyard overhead costs with a goal of identifying and eliminating all unnecessary overhead expenditures. The conferees recommend that funding garnered from overhead savings be reapplied to ship depot and intermediate maintenance in order to improve the readiness of the fleet.

VISIBILITY OF DEPOT MAINTENANCE FUNDING

All depot maintenance funding contained in the Air Force's fiscal year 2012 budget request has been identified, consolidated, and displayed in the Depot Maintenance Subactivity Group. In fiscal year 2013, all depot maintenance funds requested in the budget must be discretely visible and fully justified. Air Force officials have provided assurances that contracts will be modified as necessary to include specific accounting of depot maintenance costs and that implementation of the Air Force's Next Generation Contractor Logistics Support concept will provide needed data in the required format to achieve full cost visibility and proper accounting of depot maintenance funding in the future.

UNITED STATES COURT OF APPEALS FOR THE ARMED SERVICES

The conference agreement provides \$13,861,000 for the United States Court of Appeals for the Armed Services, as proposed by both the House and the Senate.

ENVIRONMENTAL RESTORATION

The conference agreement provides \$1,517,363,000 for the Environmental Restoration program, as proposed by the Senate, instead of \$1,467,363,000 as proposed by the House.

CONTRACT OVERSIGHT AND TRANSPARENCY

The conferees are pleased that the adoption of performance-based contracting has led to increased efficiencies within the Department of Defense Environmental Restoration program. However, improved oversight and management would bring even greater benefits. The conferees direct the Secretary of Defense to implement measures to improve management of the program and to institute a process by which better oversight can be conducted of the contracting process and progress of cleanup.

Additionally, included as part of the Defense Environmental Program's Annual Report to Congress, the Secretary of Defense is directed to provide the following information: the amount of environmental restoration funding provided to each installation during the previous year as well as the subsequent reduction in the projected cost-to-complete at that installation, a listing along with explanation of those installations where the cost-to-complete is not reduced by the corresponding amount of monetary investment, a detailed justification regarding any increase of ten percent or more in the projected cost-to-complete from the previous year at an installation, and a detailed justification for any installation in which the projected "response complete" date has been delayed by a year or more from the previous year.

ENVIRONMENTAL RESTORATION, ARMY

The conference agreement provides \$346,031,000 for Environmental Restoration, Army, as proposed by both the House and the Senate.

ENVIRONMENTAL RESTORATION, NAVY

The conference agreement provides \$308,668,000 for Environmental Restoration, Navy, as proposed by both the House and the Senate.

ENVIRONMENTAL RESTORATION, AIR FORCE

The conference agreement provides \$525,453,000 for Environmental Restoration, Air Force, as proposed by both the House and the Senate.

ENVIRONMENTAL RESTORATION, DEFENSE-WIDE

The conference agreement provides \$10,716,000 for Environmental Restoration, Defense-Wide, as proposed by both the House and the Senate.

ENVIRONMENTAL RESTORATION, FORMERLY USED DEFENSE SITES

The conference agreement provides \$326,495,000 for Environmental Restoration, Formerly Used Defense Sites, as proposed by the Senate, instead of \$276,495,000 as proposed by the House.

NATIONAL CAPITAL REGION ENVIRONMENTAL HEALTH STUDY

The conferees encourage the Secretary of Defense to support both new and ongoing public health scoping studies of densely populated residential communities located on or near formerly used defense sites that have conducted research and tested chemical agents, equipment, and munitions.

OVERSEAS HUMANITARIAN, DISASTER, AND CIVIC AID

The conference agreement provides \$107,662,000 for Overseas Humanitarian, Disaster, and Civic Aid, as proposed by both the House and the Senate.

COOPERATIVE THREAT REDUCTION ACCOUNT

The conference agreement provides \$508,219,000 for the Cooperative Threat Reduction Account, as proposed by both the House and the Senate.

DEPARTMENT OF DEFENSE ACQUISITION WORKFORCE DEVELOPMENT FUND

The conference agreement provides \$105,501,000 for the Department of Defense Acquisition Workforce Development Fund (DAWDF), as proposed by the House, instead of \$175,501,000 as proposed by the Senate, a reduction of \$200,000,000 below the request.

Along with the funding reduction due to carryover from large unobligated balances for the past several years, the conferees believe the Department should reassess further growth of its acquisition workforce in light of two considerations. First, the goal of 147,000 personnel set forth in the 2010 Human Capital Plan Update should be revisited considering today's uncertain fiscal environment and budgetary outlook. For example, 10 USC 1705 mandates annual funding floors for the DAWDF—floors that exceed \$1,000,000,000 in the outyears. The conferees believe that these floors may need to be adjusted and direct the Secretary of Defense to provide recommendations for appropriate funding levels to the congressional defense committees not later than 180 days after enactment of this Act. Second, the conferees are aware that the Department has not yet completed competency assessments for all of the functional areas that compose this workforce, which suggests the ability to assess the full range of required competencies within the workforce may be limited. Having these assessments completed

is essential to understanding how best to prioritize future hiring and to optimize workforce training. The conferees direct the Secretary of Defense to publish a revised strategic Human Capital Plan Update for the defense acquisition workforce not later than August 1, 2012, detailing future workforce needs. In so doing, the conferees expect the Secretary to ensure that competency assessments for all functional areas that make up the defense acquisition workforce are completed, using DAWDF resources to facilitate this task if necessary.

To assist in the Human Capital Plan Update, the conferees direct the Comptroller General to report on the funding mechanisms and statutory limits established for the DAWDF through Section 852 of the National Defense Authorization Act, 2008 and codified by 10 USC 1705 to the congressional defense committees not later than 180 days after enactment of this Act. The current statute should be revisited in the near term. Absent this, the Department will be forced either to over-commit precious resources or violate the law, neither of which is an acceptable option. Therefore, the Comptroller General report should include recommendations to improve the overall funding process for the DAWDF.

TITLE III—PROCUREMENT

The conference agreement provides \$104,579,701,000 in Title III, Procurement, instead of \$107,581,474,000 as proposed by the House and \$102,118,282,000 as proposed by the Senate. The conference agreement on items addressed by either the House or the Senate is as follows:

SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” in this report are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount specifically addressed in the explanatory statement.

REPROGRAMMING GUIDANCE FOR ACQUISITION ACCOUNTS

The conferees direct the Department of Defense to continue to follow the reprogramming guidance specified in the report accompanying the House version of the fiscal year 2006 Department of Defense Appropriations bill (H.R. 109–119). Specifically, the dollar threshold for reprogramming funds will remain at \$20,000,000 for procurement and \$10,000,000 for research, development, test and evaluation. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative. Therefore, if the combined value of transfers into or out of a procurement (P–1) or research, development, test and evaluation (R–1) line exceeds the identified threshold, the Department of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this statement.

REPROGRAMMING REPORTING REQUIREMENTS

The conferees direct the Under Secretary of Defense (Comptroller) to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for Service and defense-wide accounts in titles III and IV of this Act as required in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006.

JOINT STRIKE FIGHTER

The conference agreement reduces the budget request by \$151,000,000 for the procurement of one F–35A Conventional Take-off and Landing aircraft, by \$94,500,000 for advance procurement of Conventional Take-off and Landing aircraft, and by \$109,000,000 for advance procurement of Carrier Variant aircraft. Additionally, the conferees are concerned with the cost of concurrency changes on the Joint Strike Fighter program and provide \$100,000,000 to help offset the cost of concurrency for lot six aircraft and previously procured aircraft. The conferees encourage the Joint Strike Fighter Team to review processes and oversight of concurrency changes and establish a process that will reduce the time it takes to discover a problem, develop a solution, and implement this solution to reduce future concurrency change costs.

The conferees recognize that, for a variety of reasons, the Joint Strike Fighter program is burdened with what could be the highest

level of concurrency ever seen in an acquisition program. Therefore, the conferees direct the Secretary of Defense to provide a semi-annual report to the congressional defense committees that shows the actual concurrency costs for the Joint Strike Fighter program. The report showing these actual concurrency costs shall be made available to the Director, Cost Assessment and Program Evaluation for the purposes of cost estimating and to develop lessons learned from allowing programmatic concurrency, so this cost can be considered when decisions are made regarding allowing such a high degree of concurrency in future programs.

M1 TANK

The conferees are aware that the Army has been reviewing alternative courses of action for future tank production. Options have been studied ranging from a temporary shutdown and storage of facilities to adding funds to the tank program in order to maintain a steady flow of new tanks and a ready capacity in case of urgent need. Both the House and the Senate added funds for the Abrams Upgrade Program in fiscal year 2012. The House proposed a funding increase of \$272,000,000 and the Senate proposed a funding increase of \$240,000,000. The conference agreement provides an additional amount of \$255,000,000 above the President's request to continue upgrading M1 tanks to the M1A2SEP variant. The additional funding supports production of 42 additional M1A2SEP tanks. The conferees direct the Secretary of the Army to provide a report not later than 60 days after enactment of this Act on the plan for the use of the additional funds, including the plan to sustain tank production.

MQ-8 UNMANNED AERIAL VEHICLE

The conference agreement provides \$191,986,000 for the procurement of 12 MQ-8 unmanned aerial vehicles and associated support equipment. Although the budget justification materials provided by the Navy were unclear about the MQ-8 model to be procured, the conferees understand that the Navy will actually procure the longer range MQ-8C variant. The conferees fully support this decision as the longer range will provide greater operational flexibility for the various missions the aircraft is expected to conduct.

RETIREMENT OF B-1 AIRCRAFT

The fiscal year 2012 budget request includes a proposal to retire six B-1 bomber aircraft. The conferees understand that the B-1 fleet continues to operate almost constantly over Afghanistan in support of troops on the ground and that the B-1 is a critical component of the Nation's long-range strike capabilities. The Air Force proposed to reinvest less than 40 percent of the savings from aircraft retirements in the B-1 modernization program across the Future Years Defense Program. The conferees are concerned that premature retirement of six B-1 aircraft could negatively impact long-range strike capabilities. Therefore, the conferees direct the Secretary of the Air Force to reinvest a larger portion of savings realized from B-1 aircraft retirements, to the extent authorized by law, in the sustainment and modernization of the B-1 fleet.

SPACE ACQUISITION AND THE EVOLUTIONARY ACQUISITION FOR SPACE EFFICIENCY ACTIVITIES

The conferees continue to support block buys of satellites that are evolved from previous designs as described in the "Evolutionary Acquisition for Space Efficiency (EASE)" concept. However, the conferees remain concerned that the details associated with the technology insertion program are missing in the budget justification material. Therefore, the conferees direct that of the funds appropriated for the Advanced Extremely High Frequency (AEHF) system Capabilities/Affordability Insertion Program (CAIP), no more than 50 percent shall be available for obligation until the Secretary of the Air Force submits a report to the congressional defense committees on the individual CAIP efforts with a description of the technology insertion plans being pursued. Further, the conferees direct the Secretary of the Air Force to include the detailed budget definition for each of the CAIP efforts in the R-3 documents for the fiscal year 2013 and future budget submissions. The conferees also direct that not more than the specified amounts shall be obligated for the AEHF CAIP/Space Modernization Initiative unless the Secretary of the Air Force notifies the congressional defense committees in writing 15 days prior to the obligation of funds which exceeds the following amounts: \$28,300,000 for cryptology parts obsolescence; \$20,000,000 for radiation hardened parts technologies; \$3,200,000 for remotely piloted aircraft concept definition; \$58,700,000 for protected military satellite communications (MILSATCOM) designs for affordability; \$7,000,000 for hosted payloads; and \$25,000,000 for MILSATCOM architecture and support.

In addition, the conferees reiterate their opposition to using advance appropriations for procurement of satellites and recommend that an alternative concept be proposed in future budget submissions.

Finally, the conferees are disappointed that it took the Department of Defense over two years to develop a 15-year space strategic plan. It is the intention of the conferees that such plans be regularly developed and updated; therefore, the conferees direct that the next 15-year space strategic plan be delivered with the fiscal year 2014 budget submission.

SM-3 BLOCK IB MISSILE

The fiscal year 2012 budget request includes \$565,393,000 for the procurement of SM-3 Block IB missiles in support of Aegis Ballistic Missile Defense. The conferees have been informed by the Missile Defense Agency (MDA) that following a recent flight test failure, those funds are partially ahead of need. The conferees have also been informed that funding is required for a failure review of the SM-3 Block IB, sustainment of the industrial base, and the procurement of SM-3 Block IA missiles before SM-3 Block IB missiles will be procured. The conferees understand that the details of the specific funding requirements are currently being analyzed by MDA and direct MDA to submit a prior approval reprogramming request prior to executing funds from this line.

SPECIAL OPERATIONS COMMAND AVIATION FOREIGN INTERNAL
DEFENSE

The conferees are aware of ongoing reviews of the proposed expansion of the Aviation Foreign Internal Defense (AvFID) mission in the Special Operations Command. While these reviews are not yet complete, the conferees believe that the rapid expansion of this mission, as proposed in the fiscal year 2012 budget request, must be tempered. The agreement contains reductions of \$45,000,000 from procurement of AvFID fixed-wing aircraft, \$10,000,000 from procurement of an AvFID rotary-wing aircraft simulator, and \$17,607,000 from operation and maintenance for aircraft that will not deliver until fiscal year 2013. The agreement fully funds the procurement of two AvFID rotary-wing aircraft and associated support equipment.

The conferees direct that no funds provided for fixed-wing Aviation Foreign Internal Defense aircraft may be obligated until 30 days after submission of a report by the Commander, Special Operations Command to the congressional defense committees describing how the funds will be used to support the AvFID or the non-standard aviation (NSAV) missions, a summary of AvFID and NSAV funding contained in the fiscal year 2013 budget request and the Future Years Defense Program, and an analysis of alternatives used to justify the described program. The report shall be submitted not later than February 15, 2012.

LONG TERM CONTRACTS

The conferees believe that the time and money being invested by the Department of Defense in biofuels and alternative energy will reap dividends not only for the Nation's armed forces, but eventually for the Nation itself. The conferees want the Department to be in the best position possible to take advantage of the expected breakthroughs in this area and encourage the Department to eventually pursue extended multi-year contracts, pursuant to the Financial Management Regulation, for biofuels products in order to maximize efficiencies of scale for the best purchase price.

ADDITIONAL FUNDING

The conferees recognize the critical role the Defense Production Act program serves in strengthening the Nation's industrial base. Therefore, the conferees provide \$150,000,000 over the budget request to supplement this important program. As stated in the Senate report, the conferees direct the Under Secretary of Defense (Acquisition, Technology and Logistics) to award this funding to multiple projects using full and open competition and to notify the congressional defense committees not later than 30 days in advance of this funding being obligated.

TITLE IV—RESEARCH, DEVELOPMENT, TEST AND
EVALUATION

The conference agreement provides \$72,420,675,000 in Title IV, Research, Development, Test and Evaluation, instead of \$72,983,469,000 as proposed by the House and \$71,033,956,000 as proposed by the Senate. SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” in this report are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount specifically addressed in the explanatory statement.

REPROGRAMMING GUIDANCE FOR ACQUISITION ACCOUNTS

The conferees direct the Department of Defense to continue to follow the reprogramming guidance specified in the report accompanying the House version of the fiscal year 2006 Department of Defense Appropriations bill (H.R. 109–119). Specifically, the dollar threshold for reprogramming funds will remain at \$20,000,000 for procurement and \$10,000,000 for research, development, test and evaluation. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative. Therefore, if the combined value of transfers into or out of a procurement (P–1) or research, development, test and evaluation (R–1) line exceeds the identified threshold, the Department of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this statement.

REPROGRAMMING REPORTING REQUIREMENTS

The conferees direct the Under Secretary of Defense (Comptroller) to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for service and defense-wide accounts in titles III and IV of this Act as required in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006.

DEPARTMENT OF DEFENSE AND SERVICE CYBER ACTIVITIES

The conferees acknowledge the threat to and from the cyber realm has been well documented; however, the resources being expended against the threat have not. In order to better evaluate the planning and resourcing for Department of Defense cyber activities, the conferees direct the Commander, United States Cyber Command, in coordination with the Secretary of Defense and each of the Service Secretaries, to provide the congressional defense committees separate budget justification material, in the form of the budget documents as defined in the Department’s own Financial Management Regulation, that details the year-to-year budgets, schedule, and milestone goals over the Future Years Defense Program for the individual programs that support the goals of the cyber initiative. The programs detailed must include cyberspace operations, computer network operations, information assurance, and

full spectrum cyber operations for the Department of Defense and the Services.

The conferees suggest that the Department continue to refine what activities, budget lines, and programs should be considered cyber in order to better coordinate and track these budgets.

ARMY MODERNIZATION AND ACQUISITION

The conferees agree with the Army's steps to improve acquisition processes through implementation of the Decker-Wagner Army Acquisition Review findings as well as introducing other metrics and monthly reports to enable and strengthen senior civilian oversight across all Army modernization portfolios. The conferees believe continued acquisition improvement is only achievable with a strong, stable acquisition workforce and therefore urge the Secretary of the Army and the Secretary of Defense to guard against misguided efforts that shrink the acquisition workforce as was done in the 1990s with disastrous results. The conferees also believe that even with improvements in acquisition processes and a stable workforce, these steps alone will not ensure that the Army will achieve its modernization objectives.

After both the House and Senate Appropriations Committees completed their reviews of the fiscal year 2012 budget request, the Army provided additional information for its top-ten priority programs. Of these top-ten programs, six programs had undergone significant acquisition strategy modifications causing schedule and programmatic perturbations. As a result of these changes, the Army identified over \$1,000,000,000 from its original fiscal year 2012 budget request as excess to its funding requirements in fiscal year 2012. Additionally, the Army notified the congressional defense committees of over \$309,000,000 in excess funds from its budget request due to program terminations and requested transfers of over \$282,000,000 among ten different programs. This magnitude of change in funding across a multitude of programs, identified after submitting the budget only ten months prior, indicates a pervasive instability in Army programs.

While the conferees recognize that ten years of continuous war can force out-of-cycle changes, the Army's acquisition challenges precede the post-September 11, 2001 war efforts. Since 1995, the Army has spent \$32,000,000,000 on development of 22 programs that were eventually cancelled. The conferees believe this history of programmatic instability indicates a lack of focus and discipline in the requirements generation process that must be corrected before the Army will see any improvement in its ability to successfully modernize. Improvement must begin with clearly documented, stable, and affordable requirements. The conferees are aware that Army acquisition has taken on the responsibility of vetting each requirement for technical maturity and affordability prior to initiating a contract action, but the conferees are concerned that this is a short-term correction to a larger institutional problem with the requirements generation process.

Furthermore, while the conferees congratulate the Army on the success of the newly implemented Network Integration Evaluations, which ensure new equipment is interoperable, effective, and adds benefit to deployed troops, the process has revealed that a handful of programs would not be effective if deployed. The evaluations are causing the Army to reevaluate, restructure, and even terminate several programs that began years ago with established requirements. Thus, the conferees question the long-standing requirements process that serves as the foundation for Army mod-

ernization. Therefore, in addition to implementing changes identified in the Decker-Wagner Army Acquisition Review, the Secretary of the Army is encouraged to undertake a similar examination of the requirements generation process.

FUTURE COMBAT SYSTEMS' SYSTEM OF SYSTEMS ENGINEERING AND PROGRAM MANAGEMENT AND NETWORK INTEGRATION EVALUATION

The conference agreement provides \$298,872,000 for the Future Combat Systems' System of Systems Engineering and Program Management, instead of \$311,872,000 as proposed by the House and \$283,872,000 as proposed by the Senate. The conferees note that this line now funds the Army's bi-annual Network Integration Evaluations (NIE). The conferees support the NIE and direct the Army to regularly update the congressional defense committees on the cost, schedule, scope, and methods for the tests and other associated reviews to be accomplished in the NIE, as well as outcomes and findings. Additionally, the conferees are aware of the savings the Army has achieved in Future Combat Systems termination costs and the lower costs projected for the fiscal year 2012 NIE. The conferees note that the continued use of the former "Future Combat Systems" terminology has become a counter-productive distraction and recommend updating program descriptions to improve communications among those who review and shape defense appropriations and to more accurately reflect the purpose for which appropriations are requested. The conferees believe that funding requirements for the NIE should be presented distinctly and separately in future budget submissions.

ACTIVE AND SEMI-ACTIVE VEHICLE SUSPENSION COMPONENTS

The conferees are aware that the Army has begun the testing and development of active and semi-active vehicle suspension components with regenerative capabilities. The conferees understand that this technology may improve vehicle fuel efficiency and reduce maintenance. Accordingly, the conferees encourage the Army to continue the testing and development of this technology and to fully explore the potential benefits for application across vehicle programs.

SUPPORT FOR BASE REALIGNMENT AND CLOSURE 2005 ACTIONS

The conferees support actions taken by the Army and the Defense Logistics Agency to fully fund the integration of their information technology systems in a timely manner to support the 2005 Base Realignment and Closure (BRAC) Commission's mandate to transfer re-procurement of depot level repairables. The conferees are aware that although the BRAC Commission determined the transfer has the potential to save millions of dollars, the Government Accountability Office has recently concluded that the savings are jeopardized by inadequate up-front funding for BRAC implementation. The conferees note that the Army's Tank and Automotive Research, Development, and Engineering Command (TARDEC) manages the repository of all ground vehicle technical data for the Army, and has built infrastructure for use by all Army programs to store weapons system technical information, drawings,

and specifications. The conferees urge that the TARDEC use funds available for this effort to assist in meeting the 2005 BRAC recommendation for depot-level repairable transfer.

ARMORED MULTI-PURPOSE VEHICLE

The conferees recommend \$14,300,000 for the Armored Multi-purpose Vehicle instead of \$31,400,000 as proposed by the House and no funding as proposed by the Senate. The conferees note that the requirement to find a replacement for the M113 series of vehicles has received scant attention for too long. The conferees believe that prompt and decisive action is needed to select and advance a near-term solution rather than continuing a long-term search for the perfect solution. The conferees note that the recommendation fully funds the Analysis of Alternatives, as requested by the Army. Subsequently, after notification to the congressional defense committees, available funds may be applied to expedite the acquisition effort.

GROUND COMBAT VEHICLE

The conferees recommend \$449,387,000 for the Ground Combat Vehicle, instead of \$768,053,000 as proposed by the House and \$240,387,000 as proposed by the Senate. The conferees have been informed of a change to the acquisition strategy and note that the recommendation fully funds this revised strategy.

ARMED SCOUT HELICOPTER

The conferees recommend no funding for technology development of the Armed Scout Helicopter (ASH), instead of \$63,690,000 as proposed by the House and \$4,761,000 as proposed by the Senate, because contrary to plans submitted with the fiscal year 2012 budget submission, the Army does not plan to award a technology development contract in fiscal year 2012. The conferees recommend \$15,000,000 for a flight demonstration of ASH capabilities, as requested by the Army. The conferees understand that this flight demonstration will occur in the spring of 2012, and direct the Army to brief the congressional defense committees in detail on the outcome of this demonstration not later than 30 days after its completion.

JOINT LIGHT TACTICAL VEHICLE

The budget request includes \$243,940,000 within Army and Marine Corps accounts for the development of the Joint Light Tactical Vehicle (JLTV). The JLTV program has undergone significant changes since its inception and the submission of the fiscal year 2012 budget request. The principal reason for the changes is the discovery that the plan to acquire multiple variants of a limited number of vehicles with demanding performance specifications would result in an unaffordable program for both the Army and Marine Corps. As a result, the program will now pursue a competitively-selected single vehicle with a less complex design on a significantly accelerated timeline.

The conferees are encouraged to see the Army and Marine Corps taking definitive action to change their approach in evalu-

ating requirements, technology, key performance parameters, and costs as they apply to this acquisition program. Continuing on the nine year path of studies, development, and testing to field a light-weight tactical vehicle that will carry four passengers and 3,500 pounds of cargo onto the battlefield was unacceptable.

Recognizing the renewed focus and approach, the conference agreement provides \$87,300,000 in Research, Development, Test and Evaluation, Army and \$46,700,000 in Research, Development, Test and Evaluation, Navy for continued JLTV development, in accordance with revised estimates for the program. The conferees strongly encourage the Army and Marine Corps, in conjunction with the Under Secretary of Defense (Acquisition, Technology and Logistics), to examine the feasibility of accelerating a competition for production through more efficient testing and acquisition practices and by embracing off-the-shelf technology demonstrated by industry so that improved vehicles are delivered to the warfighter as soon as possible. Accordingly, the Army and Marine Corps are encouraged to acquire, test, and evaluate, as necessary, available off-the-shelf systems that meet the essential program requirements.

INTEGRATED AIRCREW ENSEMBLE

The conference agreement provides \$3,980,000 for the Integrated Aircrew Ensemble (IAE), a decrease of \$2,000,000 below the request. The conferees understand that the IAE will provide more fully integrated upgrades to various flight safety gear and special protections in unique threat environments and is not a redesign of the current flight suit. Given existing and prospective budget constraints, the conferees urge the Air Force to proceed with the program in a requirements-focused and fiscally sustainable manner.

KC-46A

The conferees direct the Secretary of the Air Force to submit the reports regarding the KC-46A required in House Report 112-110 on a quarterly basis, with the first report to be submitted not later than March 30, 2012.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, DEFENSE-WIDE

The conference agreement on items addressed by either the House or the Senate is as follows:

DEFENSE ADVANCED RESEARCH PROJECTS AGENCY

The conferees recommend a total of \$166,122,000 in undistributed reductions throughout the Defense Advanced Research Projects Agency (DARPA). The conferees direct the Director of DARPA to provide a report to the congressional defense committees, not later than 60 days after enactment of this Act, detailing by program element and project the application of each undistributed reduction.

PROMPT GLOBAL STRIKE

The fiscal year 2012 budget request includes \$204,824,000 to continue the Prompt Global Strike program. The conferees recommend \$179,824,000, a reduction of \$25,000,000, based on program delays caused by two consecutive flight test failures of the Hypersonic Technology Vehicle 2. The conferees remain supportive of the Prompt Global Strike program and direct that the reduction not be applied to the Advanced Hypersonic Weapon program, which just completed a successful flight demonstration.

SPECIAL OPERATIONS COMMAND UNDERSEA MOBILITY CONCEPTS

The fiscal year 2012 budget request includes \$92,242,000 for several programs that are designed to collectively fill the capability gap that remains following termination of the Advanced SEAL Delivery System and its successor, the Joint Multi-Mission Submersible. The conferees note that unobligated prior year appropriations, combined with funds provided in the Department of Defense Appropriations Act, 2012, would allow the Special Operations Command (SOCOM) to award several commercial contracts to develop a Family of Systems to meet its requirement. The conferees direct the Commander, SOCOM to provide separate cost estimates for the Technology Development and Engineering and Manufacturing Development phases for each of the projects in support of Undersea Mobility, as well as the estimated procurement costs, with the fiscal year 2013 budget submission.

ISRAELI COOPERATIVE PROGRAMS

The fiscal year 2012 budget request includes \$106,100,000 to continue Israeli Cooperative Programs, a decrease of over \$100,000,000 from amounts appropriated in fiscal year 2011. The conferees find the request insufficient and provide an additional \$129,600,000 to address Israel's security requirements. Within this amount, \$15,000,000 shall be used only for the Low Rate Initial Production activities as included in the David's Sling Weapon System project agreement between the two governments.

MEDICAL COUNTERMEASURES INITIATIVE

The conferees recommend \$101,670,000, instead of \$151,670,000 as proposed by the House and no funding as proposed by the Senate, for the Medical Countermeasures Initiative (MCMI) System Development and Demonstration. The conferees support the purpose of the MCMI program but are concerned that synergies with other government programs have not been sufficiently explored and that the government is creating slightly distinct, yet

largely redundant capabilities. Therefore, the conferees direct the Assistant Secretary of Defense (Nuclear, Chemical, and Biological Defense Programs) to continue efforts to reduce costs and program overlap.

90NM NEXT GENERATION FOUNDRY

The recommendation includes no funding for the requested 90nm Next Generation Foundry, due to the lack of justification in support of the budget submission. However, the conferees recognize the criticality of ensuring a safe and stable supply of microchips to the Department of Defense and will revisit this issue in the future.

DEFENSE HEALTH PROGRAM REPROGRAMMING PROCEDURES

The conferees remain concerned over the transfer of funds from Direct (or In-house) Care to pay for contractor-provided medical care. To limit such transfers and continue oversight within the Defense Health Program operation and maintenance account, the conferees include bill language which caps the funds available for Private Sector Care under the TRICARE program subject to prior approval reprogramming procedures. The bill language and accompanying statement language included by the conferees should not be interpreted by the Department of Defense as limiting the amount of funds that may be transferred to the Direct Care System from other budget activities within the Defense Health Program. In addition, the conferees continue to designate the funding for the Direct Care System as a special interest item. Any transfer of funds from the Direct (or In-house) Care budget activity into the Private Sector Care budget activity or any other budget activity will require the Department of Defense to follow prior approval reprogramming procedures.

The Department shall also provide written notification to the House and Senate Appropriations Committees of cumulative transfers in excess of \$15,000,000 out of the Private Sector Care budget activity. The conferees further direct the Assistant Secretary of Defense (Health Affairs) to provide quarterly reports to the House and Senate Appropriations Committees on budget execution data for all of the Defense Health Program accounts and to adequately reflect changes to the budget activities requested by the Services in future budget submissions.

CARRYOVER

For fiscal year 2012, the conferees recommend one percent carryover authority for the operation and maintenance account of the Defense Health Program. The conferees direct the Assistant Secretary of Defense (Health Affairs) to submit a detailed spending plan for any fiscal year 2011 designated carryover funds to the congressional defense committees not fewer than 15 days prior to executing the carryover funds.

PEER-REVIEWED CANCER RESEARCH PROGRAM

The conference agreement provides \$12,800,000 for a Peer-Reviewed Cancer Research Program that would research cancers not addressed in the breast, prostate, ovarian, and lung cancer research programs currently executed by the Department of Defense, and specifically by the U.S. Army Medical Research and Materiel Command.

The funds provided are directed to be used to conduct research in the following areas: melanoma and other skin cancers, pediatric brain tumors, genetic cancer research, pancreatic cancer, kidney cancer, blood cancer, colorectal cancer, mesothelioma, and listeria vaccine for infectious disease and cancer.

The funds provided under the Peer-Reviewed Cancer Research Program shall only be used for the purposes listed above. The Assistant Secretary of Defense (Health Affairs) is directed to provide a report not later than 60 days after enactment of this Act to the

congressional defense committees on the status of the Peer-Reviewed Cancer Research Program. For each research area, the report should include the funding amount awarded, the progress of the research, and the relevance of the research for servicemembers and their families.

JOINT WARFIGHTER MEDICAL RESEARCH PROGRAM

The conference agreement provides \$50,000,000 for the Joint Warfighter Medical Research Program. Funds shall be used to augment and accelerate high priority Department of Defense and Service medical requirements and to continue prior year initiatives that are close to achieving their objectives and yielding a benefit to military medicine. The funds shall not be used for new projects or for basic research. The funding shall be awarded at the Department's discretion following a review of medical research and development gaps, as well as unfinanced medical requirements of the Services. Further, the conferees direct the Assistant Secretary of Defense (Health Affairs) to provide a report not later than 120 days after enactment of this Act to the congressional defense committees, which lists the projects that receive funding. The report should include the amount of funding provided to each project and a thorough description of each project's research.

PEER-REVIEWED MEDICAL RESEARCH PROGRAM

The conference agreement provides \$50,000,000 for a Peer-Reviewed Medical Research Program. The conferees direct the Secretary of Defense, in conjunction with the Service Surgeons General, to select medical research projects of clear scientific merit and direct relevance to military health. Research areas considered under this funding are restricted to: arthritis, composite tissue transplantation, drug abuse, dystonia, epilepsy, food allergies, Fragile X syndrome, hereditary angioedema, inflammatory bowel disease, interstitial cystitis, lupus, malaria, nanomedicine for drug delivery science, neuroblastoma, osteoporosis and related bone disease, Paget's disease, polycystic kidney disease, post-traumatic osteoarthritis, scleroderma, tinnitus, and tuberculosis. The conferees emphasize that the additional funding provided under the Peer-Reviewed Medical Research Program shall be devoted only to the purposes listed above.

TITLE IX—OVERSEAS CONTINGENCY OPERATIONS

The conference agreement provides \$115,082,635,000 in Title IX, Overseas Contingency Operations, instead of \$118,669,277,000 as proposed by the House and \$117,583,000,000 as proposed by the Senate. The conference agreement on items addressed by either the House or the Senate is as follows:

REPORTING REQUIREMENTS

The conferees direct that the Department continue to report incremental contingency operations costs for Operation New Dawn and Operation Enduring Freedom on the monthly basis in the Cost of War Execution report as required by Department of Defense Financial Management Regulation, Chapter 23, Volume 12. The conferees further direct the Department to continue providing Cost of War reports to the congressional defense committees that include the following information by appropriation account: funding appropriated, funding allocated, monthly obligations, monthly disbursements, cumulative fiscal year obligations, and cumulative fiscal year disbursements.

The conferees expect that in order to meet unanticipated requirements, the Department of Defense may need to transfer funds within these appropriations accounts for purposes other than those specified in this report. The conferees direct the Department of Defense to follow normal prior approval reprogramming procedures should it be necessary to transfer funding between different appropriations accounts in this title.

MILITARY ACTIVITIES IN LIBYA

General provisions 10003 and 10017, included in the House version of the Department of Defense Appropriations bill, restricted the use of Department of Defense funding for certain activities in or against Libya. The conference agreement does not include those provisions. Since the House passage of the Department of Defense Appropriations bill, political conditions in Libya have changed and power has transferred to a new regime.

As part of a greater NATO force, the United States participated in, and took direct forceful action against the country of Libya to topple its former regime. The action was successful and fortunately no American lives were lost during this incursion. However, the conferees insist that when determining that military engagements are necessary, the President is subject to the terms of the War Powers Resolution (50 U.S.C. 1541 et seq.).

EXTREMIST ORGANIZATIONS

The conferees are aware that certain governments and organizations such as the Government of Iran, Hamas, and Hizbullah have policies and practices counter to the best interests of the United States. The conferees reiterate that extremist governments and organizations should not be funded by this Act and that the conferees will closely monitor the expenditure of funds by the Department of Defense regarding such matters.

HUMAN RIGHTS ABUSES

The House included language directing reports on human rights abuses. The conferees direct the initial report be completed not later than 60 days after enactment of this Act and quarterly throughout the fiscal year.

MILITARY PERSONNEL

The conference agreement provides \$11,639,252,000 for Military Personnel, instead of \$10,813,624,000 as proposed by the House and \$11,657,252,000 as proposed by the Senate. The conference agreement on items addressed by either the House or the Senate is as follows:

PAKISTAN COUNTERINSURGENCY FUND

The House version of the Department of Defense Appropriations bill included \$1,100,000,000 for the Pakistan Counterinsurgency Fund. The Senate included an appropriation for this fund in the State, Foreign Operations, and Related Agencies Appropriations bill. The fund is addressed in the State, Foreign Operations, and Related Agencies Division of this Act.

AFGHANISTAN RESOURCES OVERSIGHT COUNCIL

The conferees have modified Section 9009 of the Senate version of the Department of Defense Appropriations bill to include revised thresholds for contracts requiring approval of the Afghanistan Resources Oversight Council (AROC) and other responsibilities of the AROC. As outlined in this section, the AROC is responsible for approving all financial and activity plans for the Afghanistan Security Forces Fund (ASFF). The conferees direct the AROC to establish policies, regulations, and processes to include consideration of the extent of competition and the relevant qualifications and eligibility of contractors as part of the acquisition plan for major purchases of goods and services. The conferees further direct the AROC to establish business rules and criteria for reviewing ASFF construction and sustainment plans for infrastructure and to establish a plan for the oversight of contractor performance and services and goods rendered. These are critical steps in ensuring that proper oversight is conducted on one of the largest Department of Defense programs.

PROCUREMENT

The conference agreement provides \$13,633,461,000 for Procurement, instead of \$13,375,288,000 as proposed by the House and \$15,518,701,000 as proposed by the Senate. The conference agreement on items addressed by either the House or the Senate is as follows:

Additional Funding for Ongoing Work.—The fiscal year 2012 budget request does not reflect the extent of need for project studies funding. The Corps has numerous continuing studies that will be suspended under the limits of the budget request. These studies could lead to projects with significant economic benefits, particularly by increasing national competitiveness through marine transportation improvements and by avoiding damages caused by flooding and coastal storms. The conference agreement includes additional funds to continue ongoing studies. While this additional funding is shown in the feasibility column, the Corps should utilize these funds in any applicable phase of work. The intent of these funds is for ongoing work that either was not included in the Administration's request or was inadequately budgeted. In no case shall funds be used to initiate new studies within this account.

A study shall be eligible for this funding if it has received funding, other than through a reprogramming, in at least one of the previous three fiscal years. Funding associated with each category may be allocated to any eligible study within that category; funding associated with each subcategory may be allocated only to eligible studies within that subcategory. The list of subcategories is not meant to be exhaustive. The conferees direct that priority in allocating these funds be given to completing or accelerating ongoing studies which will enhance the nation's economic development, job growth and international competitiveness, or are for projects located in areas that have suffered recent natural disasters.

Within 45 days of enactment of this Act, the Corps shall provide to the House and Senate Committees on Appropriations a work plan delineating how these funds are to be distributed and in which phase the work is to be accomplished. A document providing the Administration's criteria for justifying the funding decisions made shall accompany this work plan. No funds shall be obligated for any project under this program which has not been justified in such a report.

Water Resources Principles and Guidelines.—No funds are provided for the line item proposed for Water Resources Principles and Guidelines, as this is considered a new start. No funds provided to the Corps shall be used to develop or implement rules or guidance if an update or replacement to the document dated March 10, 1983, and entitled "Economic and Environmental Principles and Guidelines for Water and Related Land Resources Implementation Studies" is finalized during the fiscal year period covered by the Energy and Water Development Act for 2012. The Corps shall continue to use the Water Resources Principles and Guidelines in effect as of the date of enactment of this Act during that same period.

CONSTRUCTION

The conference agreement provides \$1,694,000,000 for Construction, instead of \$1,565,191,000 as proposed by the House and \$1,610,000,000 as proposed by the Senate. The Act does not include a rescission of \$50,000,000 as proposed by the House. The Act does not include language regarding expenditure of funds as proposed by the House.

Napa River, Salt Marsh Restoration, California.—The conferees support language in the Senate report regarding this project.

Savannah Harbor Expansion, Georgia.—The budget request for this item that was proposed in the Investigations account has been moved to this account where it has been funded for the past 3 fiscal years.

Chicago Sanitary and Ship Canal Dispersal Barrier, Illinois.—The budget request includes funding for this project in both the Construction and Operation and Maintenance accounts. Since the submission, however, the Corps informed the Committees that the entire amount is required in the Construction account and no funding is needed in the Operation and Maintenance account. The conference agreement accommodates this shift in funding.

Norfolk Harbor, Craney Island, Virginia.—The conferees support language in the Senate report regarding this project.

Additional Funding for Ongoing Work.—The Corps has ongoing, authorized Construction projects that would cost tens of billions of dollars to complete, yet the Administration continues to request a mere fraction of the funding necessary to complete those projects. The conference agreement includes additional funds to continue ongoing projects and activities to enhance the nation's economic growth and international competitiveness. The intent of these funds is for ongoing work that either was not included in the Administration's request or was inadequately budgeted. None of these funds may be used to start new projects. None of these funds shall be used for projects in the Continuing Authorities Program. Funding associated with each category may be allocated to any eligible project within that category; funding associated with each subcategory may be allocated only to eligible projects within that subcategory. The list of subcategories is not meant to be exhaustive.

The Corps shall evaluate all ongoing projects that have received funding, other than through a reprogramming, in at least one of the previous three fiscal years. Priority in allocating these funds should consider the following: number of jobs created directly by the funded activity; the benefits of the funded work to the national economy; ability to obligate the funds allocated within the fiscal year, including consideration of the ability of the non-federal sponsor to provide any required cost-share; ability to complete the project, separable element, or project phase within the funds allocated; for flood and storm damage reduction, population at risk and economic activity or public infrastructure at risk; and for navigation, number of jobs or level of economic activity to be supported by completion of the project, separable element, or project phase.

Within 45 days of enactment of this Act, the Corps shall provide to the House and Senate Committees on Appropriations a work plan delineating how these funds are to be distributed. A document detailing the Administration's specific criteria and project evaluations used to justify the funding decisions shall accompany this work plan. No funds shall be obligated for any project under this program which has not been justified in such a report.

Continuing Authorities Program.—The conferees believe the various sections of the Continuing Authorities Program provide a useful tool for the Corps to undertake small localized projects without the lengthy study and authorization process typical of most larger

Corps projects. The conference agreement rejects the Administration's proposal to reprogram prior-year appropriations to fund only sections 111, 204, 206, and 1135 in fiscal year 2012. Instead a total of \$49,430,000 is provided for eight CAP sections. The management of the program should continue consistent with the guidelines outlined in the Senate report.

Inland Waterways Users Board.—The conferees note that the terms of all members of the Inland Waterways Users Board (IWUB) have expired and no appointments to reconstitute the Board have been forthcoming from the Secretary of the Army. The IWUB was created by Congress in the 1986 Water Resources Development Act for the express purpose of providing expert advice to the U.S. Army Corps of Engineers and to the Congress on the implementation of the inland waterways navigation infrastructure modernization programs. This aging system is vital to the movement of commerce. The conferees direct the Secretary of the Army to act on the appointments to the IWUB as expeditiously as possible.

MISSISSIPPI RIVER AND TRIBUTARIES

The conference agreement provides \$252,000,000 for Mississippi River and Tributaries, instead of \$210,000,000 as proposed by the House and \$250,000,000 as proposed by the Senate. The Act does not include language regarding expenditure of funds as proposed by the House.

The allocation for projects and activities within the Mississippi River and Tributaries account is shown in the following table:

Additional Funding for Ongoing Work.—After a flood such as was experienced this year on the Mississippi River, the value of prior investments in the Mississippi River and Tributaries Project cannot be disputed. Yet considerable work remains to complete this vital project in the heart of our nation. The budget request reflects neither the need nor the importance of this project. Therefore, the conferees provide additional funds to continue ongoing studies, projects or maintenance. The conferees direct that these funds be used for flood control, navigation, water supply, ground water protection, waterfowl management, bank stabilization and environmental restoration work. The intent of these funds is for ongoing work primarily along the Mississippi River tributaries that either was not included in the Administration's request or was inadequately budgeted. While this additional funding is shown under remaining items, the Corps should utilize these funds in any applicable phase of work. None of these funds may be used to start new projects or activities.

The conferees direct that priority in allocating these funds be given to completing or accelerating ongoing work which will enhance the region and Nation's economic development, job growth and international competitiveness, or is located in areas that have suffered recent natural disasters. Within 45 days of enactment of this Act, the Corps shall provide to the House and Senate Committees on Appropriations a work plan delineating how these funds are to be distributed. A document providing the Administration's criteria for justifying the funding decisions made shall accompany this work plan. No funds shall be obligated for any project under this program which has not been justified in such a report.

OPERATION AND MAINTENANCE

The conference agreement provides \$2,412,000,000 for Operation and Maintenance, instead of \$2,368,925,000 as proposed by the House and \$2,360,000,000 as proposed by the Senate. The Act includes legislative language proposed by the House directing the Corps to allocate no more than 99 percent of the funds provided in this Act for Operation and Maintenance prior to the fourth quarter. This measure is intended to allow Headquarters flexibility to respond to national emergencies. The Act does not include language regarding expenditure of funds as proposed by the House.

The allocation for projects and activities within the Operation and Maintenance account is shown in the following table:

Additional Funding for Ongoing Work.—The fiscal year 2012 budget request does not fund operation, maintenance, and rehabilitation of our nation's aging infrastructure sufficiently to ensure continued competitiveness in a global marketplace. Federal navigation channels maintained at only a fraction of authorized dimensions, and navigation locks and hydropower facilities well beyond their design life result in economic inefficiencies and risks infrastructure failure, which cause substantial economic losses. The conferees believe that investing in operation, maintenance, and rehabilitation of infrastructure today will save taxpayers money in the future.

The conference agreement includes additional funds to continue ongoing projects and activities. The intent of these funds is for ongoing work that either was not included in the Administration's request or was inadequately budgeted. None of these funds may be used to start new projects or programs. The conferees direct that priority in allocating these funds be given to completing ongoing work maintaining authorized depths and widths of harbors and shipping channels, including where contaminated sediments are present, and for addressing critical maintenance backlog. Particular emphasis should be placed on projects where there is a U.S. Coast Guard presence; that will enhance national, regional, or local economic development; or that will promote job growth or international competitiveness.

The conferees are concerned that the Administration's criteria for navigation maintenance does not allow small, remote, or subsistence harbors and waterways to properly compete for scarce navigation maintenance funds. The conferees urge the Corps to revise the criteria used for determining which navigation maintenance projects are funded in order to develop a reasonable and equitable allocation under this account. The criteria should include the economic impact that these projects provide to local and regional economies, in particular, those with national defense or public health and safety importance.

Funding associated with each category may be allocated to any eligible project within that category; funding associated with each subcategory may be allocated only to eligible projects within that subcategory. The list of subcategories is not meant to be exhaustive. Priority in allocating these funds should consider the following: number of jobs created directly by the funded activity; benefits to the local, regional or national economy; ability to obligate the funds allocated within the fiscal year; ability to complete the project, separable element, or project phase within the funds allocated; and risk of imminent failure or closure of the facility.

Within 45 days of enactment of this Act, the Corps shall provide to the House and Senate Committees on Appropriations a work plan delineating how these funds are to be distributed. A document providing the Administration's criteria for justifying the funding decisions made shall accompany this work plan. No funds shall be obligated for any project under this program which has not been justified in such a report.

Coastal and Ocean Systems Data.—The conferees have provided funding to ensure the maintenance of wave observations and the expansion of the national wave monitoring network as outlined

in the National Operational Wave Observation Plan. Funds are also included for continuation of integrated long-term beach surveys to monitor shoreline risk.

REGULATORY PROGRAM

The conference agreement provides \$193,000,000 for the Regulatory Program as proposed by the Senate, instead of \$196,000,000 as proposed by the House. The Act includes language making funds available until September 30, 2013, as proposed by the Senate.

FORMERLY UTILIZED SITES REMEDIAL ACTION PROGRAM

The conference agreement provides \$109,000,000 for the Formerly Utilized Sites Remedial Action Program as proposed by the House and Senate. The Corps is directed to prioritize sites that are nearing completion. Within the funds provided in accordance with the budget request, the Corps is directed to complete the Remedial Investigation/Feasibility Study of the former Sylvania nuclear fuel site at Hicksville, New York, and, as appropriate, to proceed expeditiously to a Record of Decision and initiation of any necessary remediation in accordance with the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA).

FLOOD CONTROL AND COASTAL EMERGENCIES

The conference agreement provides \$27,000,000 for Flood Control and Coastal Emergencies as proposed by the House and Senate.

EXPENSES

The conference agreement provides \$185,000,000 for Expenses as proposed by the Senate, instead of \$177,640,000 as proposed by the House. The Act includes language making funds available until September 30, 2013, as proposed by the Senate. Within the funds provided, the Institute for Water Resources is directed to submit to the Senate and House Committees on Appropriations within 180 days of enactment of this Act, a report on how the Congress should address the critical need for additional port and inland waterway modernization to accommodate post-Panamax vessels. This study will not impede nor delay port or inland waterway projects already authorized by Congress. Factors for consideration should include costs associated with deepening and widening deep-draft harbors; the ability of the waterways and ports to enhance the nation's export initiatives benefitting the agricultural and manufacturing sectors; the current and projected population trends that distinguish regional ports and ports that are immediately adjacent to population centers; the availability of inland intermodal access; and the environmental impacts resulting from the modernization of inland waterways and deep-draft ports.

OFFICE OF THE ASSISTANT SECRETARY OF THE ARMY FOR CIVIL WORKS

The conference agreement provides \$5,000,000 for the Office of the Assistant Secretary of the Army for Civil Works as proposed by the House and Senate. The Act includes language making funds available until September 30, 2013, as proposed by the Senate.

Indian Water Rights Settlements.—The conference agreement includes funds for these activities in the Water and Related Resources account as proposed by both the House and Senate, instead of in a separate account as proposed in the budget request.

San Joaquin River Restoration.—The conference agreement does not include a separate account for this item. Funding is included in the Water and Related Resources account as a separate line item under the Friant Division of the Central Valley Project. The conferees note that the San Joaquin River Restoration Settlement Act has two goals: to restore and maintain fish populations in good condition and to reduce or avoid adverse water supply impacts to long-term contractors and other water users. The conferees direct the Bureau of Reclamation to continue to work with all relevant state and federal agencies, settlement parties, and third party interests to address all concerns so the mutual goals of the Settlement Act can be achieved.

Arthur Bowman Dam.—The conference agreement includes House direction regarding hydropower development at Arthur Bowman Dam located in Crook County, Oregon.

Buried Metallic Water Pipe.—The conferees are aware of several concerns regarding implementation and review of Reclamation's Technical Memorandum 8140-CC-2004-1 ("Corrosion Considerations for Buried Metallic Water Pipe"). Specifically, the conferees are concerned that Reclamation's use of this memorandum may be holding different materials to different standards of reliability and increasing project costs unnecessarily. Therefore, Reclamation should not use the memorandum as the sole basis to deny funding or approval of a project or to disqualify any material from use in highly corrosive soils. Additionally, the conferees direct Reclamation to follow the recommendation of the National Academy of Sciences to assemble data on pipeline reliability for all types of pipe specified in Table 2 of Technical Memorandum 8140-CC-2004-1 along with the specified corrosion protection applied in the various soil types ("Review of the Bureau of Reclamation's Corrosion Prevention Standards for Ductile Iron Pipe" (2009)) and to conduct an analysis of the performance of these types of pipe installed in the same or similar conditions. This review should also include an analysis of the economics, cost-effectiveness and life-cycle costs associated with the various materials under evaluation.

Additional Funding for Water and Related Resources Work.—The conference agreement includes additional funds as proposed by the Senate. The conferees direct that priority in allocating these funds should be to advance and complete ongoing work, improve water supply reliability, improve water deliveries, enhance regional or local economic development, promote job growth or for critical backlog maintenance and rehabilitation activities. Within 30 days of enactment, Reclamation shall provide to the House and Senate Committees on Appropriations a report delineating how these funds are to be distributed, in which phase the work is to be accomplished, and an explanation of the criteria and rankings used to justify each allocation. This report shall also include the reassessment of allocation among rural water systems as directed by the House.

CENTRAL VALLEY PROJECT RESTORATION FUND

The conference agreement provides \$53,068,000 for the Central Valley Project Restoration Fund, as proposed by the House and Senate.

CALIFORNIA BAY-DELTA RESTORATION

(INCLUDING TRANSFERS OF FUNDS)

The conference agreement provides \$39,651,000 for the California Bay-Delta Restoration program as proposed by the Senate, instead of \$35,928,000 as proposed by the House.

POLICY AND ADMINISTRATION

The conference agreement provides \$60,000,000 for Policy and Administration as proposed by the House and Senate. The Act includes language making funds available until September 30, 2013, as proposed by the Senate.

ADMINISTRATIVE PROVISION

The conference agreement includes a provision limiting the Bureau of Reclamation to purchase not more than five passenger vehicles for replacement only, as proposed by the House.

GENERAL PROVISIONS—DEPARTMENT OF THE INTERIOR

The conference agreement includes a provision proposed by the Senate outlining the circumstances under which the Bureau of Reclamation may reprogram funds. The House proposed a similar provision.

The conference agreement includes a provision proposed by the House and Senate regarding the San Luis Unit and the Kesterson Reservoir in California.

The conference agreement does not include a provision proposed by the House permanently rescinding mandatory funds from the San Joaquin River Restoration Fund. The Senate proposed no similar provision.

The conference agreement includes a provision proposed by the Senate regarding the Lake Mead/Las Vegas Wash Program. The House proposed no similar provision.

The conference agreement modifies a provision proposed by the Senate extending authorizations under the Water Desalination Act of 1996. The House proposed no similar provision.

The conference agreement includes a provision proposed by the Senate regarding the Bay Delta Conservation Plan. The House proposed no similar provision.

The conference agreement includes a provision proposed by the Senate regarding participation in non-federal groundwater banking programs. The House proposed no similar provision.

The conference agreement includes a provision proposed by the Senate regarding water transfers in California. The House proposed no similar provision.

The conference agreement does not include a provision proposed by the Senate regarding expenditure of mandatory funds

under the San Joaquin River Restoration Fund. The House proposed no similar provision.

The conference agreement includes a provision proposed by the Senate regarding the Desert Terminal Lakes Program. The House proposed no similar provision.

TITLE III

DEPARTMENT OF ENERGY

The summary tables at the end of this title set forth the dispositions with respect to the individual appropriations, programs, and activities of the Department of Energy. Additional items in the Act are discussed below.

The conference agreement provides \$25,748,081,000 for the Department of Energy, instead of \$24,722,046,000 as proposed by the House and \$25,548,976,000 as proposed by the Senate, to fund programs in its five primary mission areas: science, energy, environment, nuclear non-proliferation and national security.

Contractor Pensions and Benefits.—The conferees support actions taken to improve headquarters oversight of contractor pensions and other post-retirement benefits. Given the government has assumed the long-term liability for pension costs, the conferees encourage the Department to evaluate alternatives to contractually formalize requirements for the management of pension and other post-retirement benefits. Instead of the House direction on reporting requirements for pensions and prohibition on contribution amounts, the conferees direct the Department to report current plan status, funding ratios, reimbursement levels, projected plan status at budgeted levels, and any updates to funding ratios and contributions with or as supplemental information to the budget request. This information should be updated in April and September of each year. Changes to expected contribution levels should be clearly explained and the Department should note any changes in plan management that have impacted contribution amounts. Any funding request which proposes a contribution in excess of the minimum ERISA or Pension Protection Act requirements should include a detailed justification.

Nuclear Safety.—Instead of the House direction for a safety review of all cleanup sites, the conferees direct the Secretary of Energy to review all Department of Energy nuclear facility construction projects with a total project cost greater than \$1,000,000,000 to determine if those projects are being managed in a way which could pressure contractors or Department managers to disregard nuclear safety in order to demonstrate acceptable project performance. The review should investigate contract management, including the award of contractor fee, project management practices, and the framing of program and policy goals to evaluate if Department practices have complicated efforts to foster a positive nuclear safety culture or resolve nuclear safety-related design issues. The Secretary shall report to the House and Senate Committees on Appropriations no later than May 1, 2012, on improvements to contracting and other management practices which will assist Department managers in ensuring that design flaws and safety issues do not go ignored or unrecognized.

H-Canyon.—Instead of the House requirement to provide funding to the National Academy of Sciences, the Department shall conduct its own review to explore the full range of potential uses for the chemical processing areas of H-Canyon at the Savannah River Site and report back to the House and Senate Committees on Appropriations within 3 months of enactment of this Act. The options considered should not be limited to uses by the Office of Environmental Management, but should incorporate uses which may contribute to meeting the goals of other program offices within the Department of Energy and the National Nuclear Security Administration.

Exascale Computing.—The conferees support the Department's initiative to develop exascale computing as a crucial component of long-term U.S. leadership, but are concerned that the Department has not yet developed an integrated strategy and program plan. The Department is directed to submit to the House and Senate Committees on Appropriations, not later than February 10, 2012, a joint, integrated strategy and program plan for the crosscutting effort to develop exascale computing that includes:

- a target date for developing an operational exascale platform;
- interim milestones toward reaching that target;
- minimum requirements for an exascale system, including power consumption efficiency goals;
- multi-year budget estimates for the exascale initiative and costs of meeting each interim milestone;
- clear roles and responsibilities for each office involved in exascale research and development; and
- a complete listing of exascale activities included in the fiscal year 2013 budget request broken out by program, project and activity with comparisons to the current year's funding levels.

Energy Innovation Hubs.—For each Energy Innovation Hub funded in this Act, the Department is directed to deliver to the House and Senate Committees on Appropriations, not later than 120 days after enactment of this Act, a report detailing milestones and performance goals for the end of each of the Hub's five fiscal years, and specific milestones and performance criteria the Hub must meet to be considered for a second five-year term. For Hubs established in prior fiscal years, the report shall include current performance against planned milestones, and a summary of progress against plans for staffing and facilities. For new Hubs, the report shall include a plan and timeline for selecting an awardee.

PCAST Recommendations.—The conferees direct the Secretary of Energy, within 6 months of enactment of this Act, to submit a report detailing how the Department has or will implement in all Energy Programs the following features that have been used successfully in ARPA-E and highlighted by the President's Council of Advisors on Science and Technology:

- a rigorous review process;
- contract or grant negotiations completed in just a few months;

- co-location within the program offices of such support functions as procurement, contracts, human resources, and information technology services; and
- an agile and innovative workforce.

REPROGRAMMING REQUIREMENTS

The conference agreement carries the Department's reprogramming authority in statute to ensure that the Department carries out its programs consistent with congressional direction, as proposed by the House. This modified provision includes reprogramming authority internal to each account, as long as no program, project or activity is increased or decreased by more than \$5,000,000 or 10 percent, compared to the levels included in the "Conference" column in the "Department of Energy" table included under the heading "Title III—Department of Energy" in this joint explanatory statement. No new transfer authority between accounts other than that explicitly granted in this Act is included or implied. The conferees expect the Department to use this additional flexibility to improve budget execution, meet emergent program needs, and reduce program costs. For reallocations above the \$5,000,000 or 10 percent cumulative threshold, a reprogramming request must be submitted to the House and Senate Committees on Appropriations for consideration and may not be implemented prior to approval by the Committees. Any reallocation of new or prior-year budget authority or prior-year de-obligations, or any request to implement a reorganization which includes moving previous appropriations between appropriations accounts must be submitted to the House and Senate Committees on Appropriations in writing and may not be implemented prior to approval by the Committees.

Definitions.—A reprogramming includes the reallocation of funds from one program, project or activity to another within an appropriation.

The conferees are concerned the Department is over-committing future budgets by announcing multi-year awards subject to future appropriations for a substantial portion of activities within Energy Programs. The Department is directed to transition to a model in which it fully funds multi-year awards with appropriated funds, except in the cases of major capital projects, management and operating contracts, and large research centers which require multi-year awards subject to appropriations. As part of that transition, the conference agreement includes a provision requiring that any multi-year award must be subject to appropriations and the Department must notify the House and Senate Committees on Appropriations at least 14 calendar days prior to public announcement of the award. The Department shall deliver each notification as a cumulative list of all notifications under this subsection, to include: recipient; appropriations account, program, and activity; award date; total amount of award; amount awarded from fiscal year 2012 appropriations; amount awarded from prior appropriations; amount awarded subject to future appropriations; and an explanation of the special circumstances justifying commitment of future funds. The conferees do not include a House provision prohibiting the use of multi-year awards, but will reconsider this legisla-

tive prohibition in future years depending on the Department's performance in transitioning to fully funding its multi-year awards.

ENERGY PROGRAMS

ENERGY EFFICIENCY AND RENEWABLE ENERGY

(INCLUDING RESCISSION OF FUNDS)

The conference agreement provides \$1,825,000,000 in new budget authority for Energy Efficiency and Renewable Energy, instead of \$1,308,436,000 as proposed by the House and \$1,795,641,000 as proposed by the Senate, and rescinds \$9,909,000 in prior-year balances.

The conference agreement does not include a Senate provision directing energy efficiency rulemakings for televisions and set-top boxes within 12 months of enactment of this Act. The conference agreement does not include a Senate provision regarding the Defense Production Act.

Biomass and Biorefinery Systems Research and Development.—The conferees strongly encourage the Department to conduct only research, development, and demonstration activities advancing technologies that produce fuels and electricity from biomass, crops and crop components that could not otherwise be used as food. To that end, the conferees support efforts to develop cellulosic feedstocks and direct the Department to consider a broad portfolio of options, including biofuels sources such as the non-food components of biomass sorghum.

Within available funds, a total of \$30,000,000 is provided for algae biofuels. The conference agreement includes no funds for the cellulosic biofuels reverse auction proposed in the request.

Solar Energy.—The conferees support the Department's existing solar energy research, development, and demonstration activities, and encourage the Department to include in these efforts disruptive solar energy utilization technologies, fabrication methods that yield ultra-low cost solar cells, technologies for ultra-high efficiency solar cells, technologies designed to simulate the operation of solar cells, and other methods to yield advanced science and engineering approaches to solar cells.

Wind Energy.—The conferees support the Department's efforts to develop advanced offshore wind energy technologies, including freshwater, deepwater, shallow water, and transitional depth installations.

Geothermal Technology.—The Geothermal Technology program may not announce new funding opportunities that result in total mortgages on future fiscal years in excess of half of the program's fiscal year 2012 appropriation. Within available funds, the conferees direct the Department to make not less than \$5,000,000 available to continue development and deployment of low-temperature geothermal systems. The Department shall continue its support of comprehensive programs that support academic and professional development initiatives. For future awards, the full spectrum of geothermal technologies as authorized by the Energy Independence and Security Act of 2007 (Public Law 110–140) shall be

eligible for the funds appropriated for Geothermal Technology by this Act.

Water Power.—The conference agreement provides \$59,000,000 for Water Power, of which \$34,000,000 is for marine and hydrokinetic technology research, development and demonstration, and \$25,000,000 is for conventional hydropower research, development and demonstration. Within available funds, the Department is directed to provide not less than \$10,000,000 to build necessary infrastructure, including environmental performance monitoring, at marine and hydrokinetic industry testing sites designated by the Department as National Marine Renewable Energy Centers.

Vehicle Technologies.—The conference agreement includes \$28,244,000 for lightweight materials, to include \$4,000,000 for modeling and design for vehicle optimization. The conferees provide \$28,000,000 for Vehicle Technologies Deployment, of which \$3,000,000 is to commission a National Academies study on electric vehicle market barriers, as directed in the House report.

Building Technologies.—The conference agreement includes \$24,300,000 for the Energy Efficient Building Systems Design Energy Innovation Hub, and the House direction for a strategic plan regarding geothermal heat pumps. The conferees provide \$25,832,000 for lighting research and development, to include \$12,000,000 for research and development into manufacturing improvements for general illumination solid state lighting. The conference agreement includes no funds within Commercial Buildings Integration for new state and municipal government grant programs relating to codes, performance standards and regulations.

Industrial Technologies.—The conference agreement includes \$20,000,000 for the Energy Innovation Hub for Critical Materials. Within available funds, the conference agreement includes not less than \$4,205,000 for improvements in production in the steel industry, and the Department is directed to continue supporting improvements in mechanical insulation. The Department is directed to continue funding mortgages on all past multi-year awards within the Combined Heat and Power program, unless a project fails to meet milestones or other terms of the award. The conferees provide no funding for Manufacturing Energy Systems.

Strategic Programs.—The Department is directed to only fund activities within the International Program that directly benefit domestic industry, increase American energy self-sufficiency, further United States research efforts, or reduce domestic pollution. Within available funds, the conference agreement includes \$2,000,000 for the U.S.-Israel energy cooperative agreement.

Weatherization Assistance.—The conference agreement includes a provision giving the Secretary authority to waive the weatherization formula in order to distribute fiscal year 2012 funds to states, once they have spent all prior-year and emergency funds, at a rate of spending consistent with the fiscal year 2011 level.

ELECTRICITY DELIVERY AND ENERGY RELIABILITY

The conference agreement provides \$139,500,000 for Electricity Delivery and Energy Reliability, instead of \$139,496,000 as proposed by the House and \$141,010,000 as proposed by the Senate.

The conferees provide \$25,490,000 for Clean Energy Transmission and Reliability, and include no funds for the proposed Smart Grid Technology and Systems Energy Innovation Hub. The conference agreement includes \$24,000,000 for Smart Grid Research and Development, \$20,000,000 for Energy Storage, and \$30,000,000 for Cyber Security for Energy Delivery Systems.

NUCLEAR ENERGY

The conference agreement provides \$768,663,000 for nuclear energy activities, instead of \$733,633,000 as proposed by the House and \$583,834,000 as proposed by the Senate.

The conferees direct the Department to develop a strategy for the management of spent nuclear fuel and other nuclear waste within 6 months of publication of the final report of the Blue Ribbon Commission on America's Nuclear Future.

Nuclear Energy Enabling Technologies.—The conference agreement provides \$74,880,000, to include \$14,580,000 for the National Science User Facility at Idaho National Laboratory, \$24,300,000 for the Modeling and Simulation Energy Innovation Hub, and \$36,000,000 for Crosscutting Research.

Small Modular Reactor Licensing Technical Support.—The conference agreement includes \$67,000,000 to provide licensing and first-of-a-kind engineering support for small modular reactor designs that can be deployed expeditiously, to be administered as specified in the budget request. The Department is directed to consider applications utilizing any small modular reactor technologies. The conferees expect the program to total \$452,000,000 over five years.

The conference agreement includes \$40,000,000 for the Next Generation Nuclear Plant program, \$30,000,000 of which is to accelerate fuel development and qualification activities and \$10,000,000 of which is to continue ongoing research and development projects begun in prior fiscal years.

Fuel Cycle Research and Development.—The conference agreement provides \$187,351,000.

The conference agreement includes \$60,000,000 for Used Nuclear Fuel Disposition. Within available funds, \$10,000,000 is for development and licensing of standardized transportation, aging, and disposition canisters and casks. Multiple geologic repositories will ultimately be required for the long-term disposition of the nation's spent fuel and nuclear waste; the Department should build upon its current knowledge base to fully understand all repository media and storage options and their comparative advantages, and the conferees direct the Department to focus, within available funds, \$3,000,000 on development of models for potential partner-

ships to manage spent nuclear fuel and high level waste, and \$7,000,000 on characterization of potential geologic repository media. The Department is directed to preserve all documentation relating to Yucca Mountain, including technical information, records, and other documents, as well as scientific data and physical materials.

The conference agreement includes \$10,000,000 to expand the Department's capabilities for assessing issues related to the aging and safety of storing spent nuclear fuel, to include experimentation, modeling, and simulation for dry storage casks, as well as for spent fuel pools, as necessary.

The conference agreement includes \$59,000,000 for Advanced Fuels, and directs that priority for the increase in funding be given to efforts to develop and qualify meltdown-resistant, accident-tolerant nuclear fuels that would enhance the safety of light water reactors.

Radiological Facilities Management.—The conference agreement provides \$64,902,000 for space and defense infrastructure, to include \$15,000,000 for nuclear infrastructure at Oak Ridge National Laboratory. The conferees provide no funds for the Plutonium-238 Production Restart Project.

FOSSIL ENERGY RESEARCH AND DEVELOPMENT

(INCLUDING RESCISSION OF FUNDS)

The conference agreement provides \$534,000,000 in new budget authority for Fossil Energy Research and Development, instead of \$476,993,000 as proposed by the House and \$445,471,000 as proposed by the Senate, and rescinds \$187,000,000 in prior-year balances, as proposed by the Senate. The conference agreement does not include the use of prior-year balances, as proposed by the House and the Senate.

The conference agreement includes \$100,000,000 for Advanced Energy Systems, to include \$5,000,000 for Coal and Coal-Biomass to Liquids, and not less than \$25,000,000 to continue research, development, and demonstration of solid oxide fuel cell systems.

Within CCS and Power Systems, the conference agreement includes \$35,031,000 for NETL Coal Research and Development, to include Integrated Gasification Combined Cycle, Turbines, Carbon Sequestration, Fuels, Fuel Cells, and Advanced Research activities. The reduction in Program Direction funding reflects the relocation of NETL Direct Program Direction into this research line, in order to increase transparency by grouping together all fossil energy research activities and by including only oversight and management activities within Program Direction. The Department is directed to continue including in the budget request all full-time equivalent information within this program line, as it has been doing previously within Program Direction.

Natural Gas Technologies.—The conference agreement provides \$15,000,000, of which \$10,000,000 is for gas hydrates research.

Other Programs.—Within available funds, the conference agreement includes \$2,000,000 for the Department to continue the Risk Based Data Management System.

NAVAL PETROLEUM AND OIL SHALE RESERVES

The conference agreement provides \$14,909,000 for the operation of the Naval Petroleum and Oil Shale Reserves as proposed by the House and Senate.

STRATEGIC PETROLEUM RESERVE

The conference agreement provides \$192,704,000 for the Strategic Petroleum Reserve as proposed by the House and Senate.

SPR PETROLEUM ACCOUNT

(INCLUDING RESCISSION OF FUNDS)

The conference agreement includes a rescission of funds in the amount of \$500,000,000 from existing balances within this account, rather than direction included in the House and Senate bills to sell an additional \$500,000,000 of Reserves to enable operational maintenance of the caverns. A sale in calendar year 2011 unanticipated by the Administration's fiscal year 2012 budget request provides the necessary flexibility to address the infrastructure needs. The conference agreement includes no repeal or modification of royalty-in-kind provisions, as proposed by the Senate and House, respectively.

NORTHEAST HOME HEATING OIL RESERVE

(INCLUDING RESCISSION OF FUNDS)

The conference agreement provides \$10,119,000 for the Northeast Home Heating Oil Reserve as proposed by the House and Senate. The conference agreement includes a rescission of excess revenues from a sale in fiscal year 2011, valued at approximately \$100,000,000, as proposed by the House and Senate. The conference agreement includes a provision proposed by the House affirming the Administration's plans to limit the size of the Reserve to one million barrels of petroleum distillate.

ENERGY INFORMATION ADMINISTRATION

The conference agreement provides \$105,000,000 for the Energy Information Administration.

The conference agreement provides \$235,721,000 for Non-Defense Environmental Cleanup, instead of \$254,121,000 as proposed by the House and \$219,121,000 as proposed by the Senate.

Small Sites.—The conference agreement provides \$67,430,000 for Small Sites. In response to a lack of progress on addressing existing contamination and seismic deficiencies within buildings that are located in heavily used areas at some Department national laboratories, the Department is directed to use additional funds above

the amount requested to improve health and safety by cleaning up existing contamination and improving the seismic standards of buildings within Department laboratory grounds. The conference agreement directs the Department to provide a report on Small Sites as directed in the House and Senate reports within 3 months of enactment of this Act.

URANIUM ENRICHMENT DECONTAMINATION AND DECOMMISSIONING FUND

The conference agreement provides \$472,930,000 for activities funded from the Uranium Enrichment Decontamination and Decommissioning Fund, instead of \$449,000,000 as proposed by the House and \$429,000,000 as proposed by the Senate. This amount includes post closure contract liabilities, pensions, and community and regulatory program support. The conference agreement does not include the House provision restricting the Department's use of up to \$150,000,000 in proceeds from the barter, transfer, or sale of uranium to carry out uranium enrichment facility decontamination and decommissioning and remedial actions.

The conferees are aware that the Department has yet to alter the contractual mechanism by which it has been transferring uranium to a contractor in exchange for additional cleanup services at Portsmouth in order to correct the violations of federal law cited in the Government Accountability Office's report "Clarifying DOE's Disposition Options Could Help Avoid Further Legal Violations" (GAO-11-846). This type of arrangement continues to be off-budget and inappropriately bypasses the congressional appropriations process. There is also considerable concern that the increasing amount of uranium being transferred could destabilize the uranium market and thereby adversely impact our domestic uranium mining industry.

The conferees request the Comptroller General to report to the Committees on Appropriations of the House of Representatives and the Senate, not later than March 15, 2012, on the progress the Department has made in resolving the concerns raised in GAO-11-846. To increase transparency into Department of Energy actions, the Department shall fully adhere to the reporting requirements in this Act and have a current determination by the Secretary that any barter, transfer or sale of uranium carried out by the Department will not have an adverse material impact on the domestic uranium mining, conversion, or enrichment industry. The Department is further directed to provide the full details of any proposed barter, transfer or sale of uranium in its fiscal year 2013 budget request.

SCIENCE

The conference agreement provides \$4,889,000,000 for Science, instead of \$4,800,000,000 as proposed by the House and \$4,842,665,000 as proposed by the Senate.

The conference agreement includes the House direction for a report regarding underrepresented college minorities in science, technology, engineering, and mathematics areas.

In order to increase transparency and accountability across all Science activities, the Department is directed, not later than September 1, 2012, to create a performance ranking of all ongoing multi-year research projects across the six major Science research programs, including those at universities, national laboratories, Energy Frontier Research Centers, Energy Innovation Hubs and other recipients, by comparing current performance with original project goals. The report shall include an inventory of the number and dollar amount of awards that have been terminated in fiscal years 2011 and 2012 before their multi-year awards have concluded.

The conferees direct the Department to provide to the House and Senate Committees on Appropriations, not later than February 10, 2012, a budget scenario for fiscal years 2013 and 2014 with the Office of Science funded at the fiscal year 2012 level, highlighting funding levels for each major program and project, including activities, such as ITER, with scheduled changes in funding requirements.

Advanced Scientific Computing Research.—The conferees provide \$442,000,000 for Advanced Scientific Computing Research. The conferees support the exascale initiative, but note that future funding for the initiative is contingent upon delivery of the joint exascale plan, as directed. The conferees provide the budget request for the Leadership Computing Facilities and for High Performance Production Computing, in support of continuing petascale upgrades at the three facilities.

Basic Energy Sciences.—The conference agreement provides \$1,694,000,000 for Basic Energy Sciences. The conference agreement includes \$24,300,000 to continue the Fuels from Sunlight Energy Innovation Hub, and \$20,000,000 to establish the Batteries and Energy Storage Energy Innovation Hub. The conference agreement includes up to \$100,000,000 for the existing Energy Frontier Research Centers; \$10,000,000 for predictive modeling of internal combustion engines; \$8,520,000 for the Experimental Program to Stimulate Competitive Research; and no funding for gas hydrates research within the Office of Science.

The conference agreement includes \$97,000,000 to fund each major item of equipment at the level provided in the budget request. Funding provided for the Linac Coherent Light Source II at SLAC is for the exploration and design of the two-tunnel option.

Biological and Environmental Research.—The conference agreement provides \$611,823,000 for Biological and Environmental Research. Within available funds, the conference agreement includes \$12,000,000 to continue nuclear medicine research with human application. The conferees direct the Department to report to the House and Senate Committees on Appropriations, not later than June 1, 2012, on the Administration's strategy to continue funding this research through more appropriate federal agencies with health-focused missions.

Within available funds, \$16,000,000 is provided for radiobiology to help determine health risks from exposures to low levels of ionizing radiation to properly protect radiation workers and the general public, and to conduct studies of health impacts at and around the Fukushima Daiichi nuclear plant.

Fusion Energy Sciences.—The conference agreement provides \$402,177,000 for Fusion Energy Sciences, of which not more than \$105,000,000 is for U.S. Contributions to ITER. The conference agreement includes \$24,741,000 for the High Energy Density Laboratory Plasma program, of which \$12,000,000 is to be evenly distributed among heavy-ion fusion, laser-driven fusion, and magneto-inertial fusion. The conference agreement includes direction for the submission of a 10-year fusion plan as provided by both the House and Senate.

High Energy Physics.—The conference agreement provides \$791,700,000 for High Energy Physics research.

The conferees understand that the United States has unique capabilities to develop a world-leading neutrino science program. To begin the transition to the intensity frontier, the conferees provide \$21,000,000 for the Long Baseline Neutrino Experiment, which includes \$17,000,000 for research and development and \$4,000,000 for project engineering and design. The conferees provide no funding for long-lead procurements or construction activities. The conferees are concerned that this project is not mature enough for construction because a location and technology for the underground detectors has not been selected. Before consideration of congressional approval of construction, the Department is directed to provide to the House and Senate Committees on Appropriations a detailed project plan and refined total cost estimate for construction, not later than April 1, 2012.

Within available funds, the conferees provide \$15,000,000 as requested, \$10,000,000 within High Energy Physics and \$5,000,000 within Nuclear Physics, to support minimal, sustaining operations at the Homestake Mine in South Dakota.

Nuclear Physics.—The conference agreement provides \$550,000,000 for Nuclear Physics. Within available funds, the conference agreement includes \$22,000,000 for the Facility for Rare Isotope Beams, and \$50,000,000 for the 12 GeV upgrade of the Continuous Electron Beam Accelerator Facility.

NUCLEAR WASTE DISPOSAL

The conference agreement provides \$0 for nuclear waste disposal, as proposed by the Senate, instead of \$25,000,000 as proposed by the House.

ADVANCED RESEARCH PROJECTS AGENCY—ENERGY

The conference agreement provides \$275,000,000 for the Advanced Research Projects Agency—Energy, of which \$20,000,000 is provided for Program Direction.

TITLE 17 INNOVATIVE TECHNOLOGY LOAN GUARANTEE PROGRAM

The conference agreement provides \$38,000,000 for administrative expenses for the Title 17 Innovative Loan Guarantee Program, as proposed by the House and Senate. This appropriation is fully offset by revenue, resulting in a \$0 net appropriation. The conference agreement includes no funding for new loan guarantees, instead of \$160,000,000 as proposed by the House and \$200,000,000 as proposed by the Senate.

ADVANCED TECHNOLOGY VEHICLES MANUFACTURING LOAN PROGRAM

The conference agreement provides \$6,000,000 for Advanced Technology Vehicles Manufacturing Loan Program, as proposed by the House and Senate.

DEPARTMENTAL ADMINISTRATION

The conference agreement provides \$237,623,000 for Departmental Administration as proposed by the Senate, instead of \$63,374,000 as proposed by the House. The conferees provide \$1,000,000 within available funds to contract with the National Academy of Public Administration (NAPA) for an independent review of the management and oversight of the Department's national laboratories. NAPA should consider such issues as whether existing laboratory performance metrics for the Department's management and operations contractors measure critical aspects of their performance and how the Department utilizes performance metrics and data. NAPA should coordinate with the GAO and the National Academy of Sciences over the course of its study to prevent duplication of effort by using the results of their studies to the extent that they are available. NAPA should submit a report with its findings, conclusions, and recommendations no later than 9 months after the Department has contracted with NAPA pursuant to this directive.

OFFICE OF THE INSPECTOR GENERAL

The conference agreement provides \$42,000,000 for the Office of the Inspector General, instead of \$41,774,000 as proposed by the House and Senate.

ATOMIC ENERGY DEFENSE ACTIVITIES

NATIONAL NUCLEAR SECURITY ADMINISTRATION

The National Nuclear Security Administration (NNSA), a semi-autonomous agency within the Department of Energy, manages the nation's nuclear weapons programs, nuclear nonproliferation programs, and naval reactors activities.

The conference agreement provides \$11,000,000,000 for the National Nuclear Security Administration.

Warhead Life Extensions.—The NNSA is directed to fully adhere to the new reporting requirements for early life extension activities contained in the House report beginning with submission of the fiscal year 2013 budget request, and to the reporting requirement for the B61 Life Extension Program in the Senate report within 3 months of enactment. In lieu of the JASON B61 study directed in the Senate report, if the NNSA's selected option for the B61 Life Extension Program includes any nuclear scope, the JASON group of scientific advisors shall submit an assessment by September 1, 2012, to the House and Senate Committees on Appropriations on the extent to which the nuclear scope is needed to enhance the safety, security, and maintainability of a refurbished B61 and whether changes to the weapon will affect its long-term safety, security, reliability, and military characteristics.

Maintenance and Operations.—The conferees support the guidance in the House and Senate reports to establish standardized direct reporting for facility and infrastructure maintenance costs at each site and to identify separate maintenance funding by site in the fiscal year 2014 budget request for Readiness in Technical Base and Facilities.

Human Capital.—In order to meet human capital requirements for the NNSA sites and to support the NNSA's strategic efforts to strengthen its science, technology, management and engineering base, the NNSA should provide incentives for its management and operations contractors, including those at the production sites, to work with universities and other institutions of higher education to develop programs that support graduate research assistantships, implement educational programs that meet NNSA technical needs, and implement workforce development initiatives.

WEAPONS ACTIVITIES

The conference agreement provides \$7,233,997,000 for Weapons Activities, instead of \$7,091,661,000 as proposed by the House and \$7,190,000,000 as proposed by the Senate.

Directed Stockpile Work.—The conference agreement provides \$1,879,527,000 for Directed Stockpile Work. The NNSA is directed to use \$175,000,000 within Stockpile Systems and \$64,000,000 within Stockpile Services for surveillance activities. If the NNSA accomplishes the planned scope of surveillance activities more efficiently than estimated, up to 10 percent of the \$175,000,000 and \$64,000,000 may be reallocated to other activities. The NNSA is directed to provide full funding within amounts provided for Management, Technology, and Production to implement JASON Surety Study recommendations to counter current and future threats to the stockpile. The NNSA is further directed to adhere to the guidance in the Senate report to provide a report on maintaining a pit manufacturing capability to meet stockpile needs to the House and Senate Committees on Appropriations within 3 months of enactment of this Act.

The conference agreement provides \$223,562,000 for the B61 Life Extension Program, as requested. Of these funds, \$134,137,000 shall not be made available for the B61 Life Extension Program.

sion Program until the NNSA submits to the House and Senate Committees on Appropriations the outcome of the Phase 6.2/2A design definition and cost study. The conferees remain concerned about the NNSA's ability to execute its planned scope for the B61 under an affordable life extension program that will meet the requirement to refurbish the first unit by 2017.

The conference agreement provides \$99,518,000 for W78 Stockpile Systems as proposed by the House, which includes \$37,087,000 for a life extension study of the W78 because of delays in commencing the Phase 6.1 study. The conference agreement provides \$75,728,000 for W88 Stockpile Systems, which includes \$30,000,000 to commence a conceptual study for a minor refurbishment of the W88. The NNSA is directed to maintain separate accounting for the W78 and W88 studies and to identify those costs separately within the budget request for Stockpile Systems.

Campaigns.—The conference agreement provides \$1,701,982,000 for the science, technology and engineering campaigns. The conferees provide \$476,274,000 for the Inertial Confinement Fusion and High Yield Campaign, which includes \$62,500,000 for Omega at the University of Rochester, \$48,000,000 for the Z facility at Sandia National Laboratory, and \$5,000,000 for the Naval Research Laboratory, as requested.

Readiness in Technical Base and Facilities.—The conference agreement provides \$2,009,155,000 for Readiness in Technical Base and Facilities. No funding is provided for Institutional Site Support. Historically, the NNSA has used this funding line to mask underfunding in the request for individual site facility operations. More recently, it has pushed the costs of contractor pensions into this activity. Since the conference agreement fully funds operations and maintenance at each site and separately budgets for legacy pensions, this activity is no longer required. Infrastructure activities that are not site specific, such as headquarters contractor support and assessments, may be funded under Program Readiness.

TRU Waste Facility.—The conferees provide \$9,881,000 for Phase A of the TRU Waste Facility project, which consists of site infrastructure preparatory work. No Phase B activities are permitted until a project baseline is completed and provided to the House and Senate Committees on Appropriations.

Chemistry and Metallurgy Research Replacement (CMRR) Project.—The conference agreement provides \$200,000,000. No construction activities are funded for the CMRR-Nuclear Facility during fiscal year 2012.

Legacy Contractor Pensions.—The conference agreement provides \$168,232,000 for Legacy Contractor Pensions to meet the ongoing costs of the University of California contractor defined benefit pension plans. The NNSA requested these funds within Readiness in Technical Base and Facilities and a separate line is provided to improve transparency.

National Security Applications.—The conference agreement provides \$10,000,000, for Advanced Analysis, Tools, and Technologies activities to continue improved support to the intelligence community and to maintain the nuclear technical capabilities for nuclear weapons assessments.

DEFENSE NUCLEAR NONPROLIFERATION
(INCLUDING RESCISSION OF FUNDS)

The conference agreement provides \$2,324,303,000 for Defense Nuclear Nonproliferation, instead of \$2,091,770,000 as proposed by the House and \$2,383,300,000 as proposed by the Senate, and rescinds \$21,000,000, as proposed by the Senate.

Nonproliferation and Verification Research and Development.—The conference agreement provides \$356,150,000 for Nonproliferation and Verification Research and Development. Within this amount, the conferees provide \$132,800,000 for Nuclear Detonation Detection, which includes an additional \$5,700,000 above the request for underground, underwater, and atmospheric detonation detection. The request included \$55,823,000 for legacy contractor pensions that are provided separately, as well as an additional \$15,625,000 above program needs to meet anticipated growth in contractor defined benefit pension plan costs that are no longer needed.

Nonproliferation and International Security.—The conference agreement provides \$155,305,000 for Nonproliferation and International Security. Within this amount, the conferees provide \$14,972,000 for the Global Initiative for Proliferation Prevention.

Fissile Materials Disposition.—The conference agreement provides \$685,386,000 for Fissile Materials Disposition. The conferees provide no construction funding for the Pit Disassembly and Conversion (PDCF) project because the NNSA has not completed a study of alternatives or a conceptual design report with a cost and schedule estimate that is required under Department of Energy guidance. Instead of the Senate requirement for an update of the costs for the PDCF and the MOX Fuel Fabrication Facility, the conferees direct the NNSA to provide a report on the status of plans to provide adequate plutonium feedstock to operate the MOX facility to the House and Senate Committees on Appropriations within 3 months of enactment of this Act. The conferees direct the use of \$20,500,000 in prior-year uncommitted balances within U.S. Plutonium Disposition to prepare plutonium feedstock at H-Canyon in fiscal year 2012 and to identify funding for both H-Canyon and ARIES within the fiscal year 2013 budget request.

Global Threat Reduction Initiative.—The conference agreement provides \$500,000,000 for the Global Threat Reduction Initiative. The conference agreement does not include House direction which restricts funding for Domestic Radiological Material Removal.

Legacy Contractor Pensions.—The conference agreement provides \$55,823,000 for Legacy Contractor Pensions to meet the ongoing costs of the legacy University of California defined benefit pension plans. The NNSA requested these funds within Nonproliferation and Verification Research and Development and a separate line is provided to improve transparency.

Rescission.—The conference agreement rescinds \$21,000,000 in prior-year balances and directs their application to meet fiscal year 2012 needs as described above.

NAVAL REACTORS

The conference agreement provides \$1,080,000,000 for Naval Reactors, instead of \$1,030,600,000 as proposed by the House and \$1,100,000,000 as proposed by the Senate. The conference agreement does not include House language directing a transition to budgeting by ship system. Funding for Naval Reactors Operations and Maintenance is provided under the following control points starting in fiscal year 2012, in order to improve the transparency of the major multi-year initiatives and to distinguish the cost of operations and infrastructure from the cost of research and development.

OHIO Replacement Reactor Systems Development.—The conference agreement provides \$121,300,000 as requested.

S8G Prototype Refueling.—The conference agreement provides \$99,500,000 as requested.

Naval Reactors Development.—The conference agreement provides \$421,000,000.

Naval Reactors Operations and Infrastructure.—The conference agreement provides \$358,300,000, which includes funding for conceptual design of the Spent Fuel Infrastructure Recapitalization Project at Idaho in order to continue critical path activities.

OFFICE OF THE ADMINISTRATOR

The conference agreement provides \$410,000,000 for the Office of the Administrator, instead of \$400,000,000 as proposed by the House and \$404,000,000 as proposed by the Senate. The conference agreement includes the requested amount of \$6,000,000 for Weapons, \$3,000,000 for Defense Nuclear Nonproliferation, and \$1,000,000 for Naval Reactors to engage Historically Black Colleges and Universities, and further directs the engagement of Hispanic Serving Institutions and minority outreach at other colleges and universities.

The conferees are concerned with overlap and duplication between the NNSA Office of Congressional Affairs, the Department of Energy (DOE) Office of Congressional Affairs, and the DOE Chief Financial Officer's External Coordination office (CFO ExCo). The conferees believe that the CFO ExCo can provide appropriate liaison support to the Committees on Appropriations and that one consolidated Congressional Affairs office can provide adequate support to the rest of the legislative branch. The conferees direct the Department to propose a consolidation of the NNSA Congressional Affairs functions into DOE's CFO ExCo, Office of Congressional Affairs, or a combination of both, within 60 days of enactment of this Act. Such consolidation should provide \$1–2 million in budgetary savings.

ENVIRONMENTAL AND OTHER DEFENSE ACTIVITIES

DEFENSE ENVIRONMENTAL CLEANUP

The conference agreement provides \$5,023,000,000 for the Defense Environmental Cleanup program, instead of \$4,937,619,000 as proposed by the House and \$5,002,308,000 as proposed by the Senate. Within the amounts provided, the Department is directed

to fund hazardous waste worker training at \$10,000,000. The conferees direct the Department to adhere to the House requirement to report all operating projects with a total project cost greater than \$10,000,000 no later than 90 days after enactment of this Act.

The conference agreement provides a net appropriation of \$95,968,000 for the Western Area Power Administration, as proposed by the House and Senate. An additional \$3,000,000 is recorded separately as a scorekeeping adjustment.

FALCON AND AMISTAD OPERATING AND MAINTENANCE FUND

The conference agreement provides a net appropriation of \$220,000 for the Falcon and Amistad Operating and Maintenance Fund, as proposed by the House and Senate. An additional \$1,000,000 is recorded separately as a scorekeeping adjustment.

FEDERAL ENERGY REGULATORY COMMISSION

SALARIES AND EXPENSES

The conference agreement provides \$304,600,000 for the Federal Energy Regulatory Commission (FERC), as proposed by the House and Senate. Revenues for FERC are set to an amount equal to the budget authority, resulting in a net appropriation of \$0. The Act does not include language proposed by the Senate directing a rulemaking.

The conferees are aware of significant local concerns with the process for developing, reviewing and approving shoreline management plans at Smith Mountain Lake and Lake of the Ozarks. As the licensees develop and FERC reviews and approves shoreline management plans, both parties must not only ensure the continued unimpeded operation of the project, but also recognize the rights and concerns of private property owners and local communities. The parties should develop innovative and mutually agreeable solutions to resolve conflicts among project purposes and private property, which should be implemented without delay. The conferees note that several options already exist for resolving such conflicts—such as realigning project boundaries, grandfathering non-conforming structures, or conveying the disputed property—

and that the removal of private structures should only be required, if at all, when all other options are inadequate. The conferees direct FERC to review the shoreline management plan process to identify any improvements that could be made to address local concerns at each stage of the process and to submit to the appropriate congressional committees a report detailing any administrative changes to be undertaken as well as any recommended legislative changes that may be necessary.

SOUTHEAST CRESCENT REGIONAL COMMISSION

The conference agreement provides \$250,000 for the Southeast Crescent Regional Commission, as proposed by the House, instead of \$213,000 as proposed by the Senate.

NUCLEAR REGULATORY COMMISSION

SALARIES AND EXPENSES

The conference agreement provides \$1,027,240,000 for the Nuclear Regulatory Commission (NRC) salaries and expenses, as proposed by the Senate, instead of \$1,037,240,000 as proposed by the House. This amount is offset by estimated revenues of \$899,726,000, resulting in a net appropriation of \$127,514,000. The fee recovery is consistent with that authorized by section 637 of the Energy Policy Act of 2005. The conference agreement does not include \$20,000,000 to be made available from the Nuclear Waste

Fund to support the geological repository for nuclear fuel and waste, as proposed by the House. The Senate proposed no similar provision.

The conference agreement includes a National Academy of Sciences study of the lessons learned from the events at the Fukushima nuclear plant, as proposed by the Senate. The Commission is directed to transfer \$2,000,000 to the National Academy of Sciences for this study within 30 days of enactment of this Act.

The conference agreement includes \$15,000,000, as proposed by the House, to support university education programs relevant to the NRC mission, of which not less than \$5,000,000 is for grants to support research projects that do not align with programmatic missions but are critical to maintaining the discipline of nuclear science and engineering.

The conferees recognize the progress that the Nuclear Regulatory Commission has made on the recommendations of the Near Term Task Force. Commission staff has proposed a prioritized list of the Task Force recommendations that reflects the order regulatory actions are to be taken. The conferees direct the Commission to implement these recommendations consistent with, or more expeditiously than, the “schedules and milestones” proposed by NRC staff on October 3, 2011. The conferees direct the Commission to maintain an implementation schedule such that the remaining recommendations (not identified as Tier 1 priorities) will be evaluated and acted upon as expeditiously as practicable. The conferees request that the Commission provide a written status report to the House and Senate Committees on Appropriations on its implementation of the Task Force recommendations on the one year anniversary of the Fukushima disaster.

OFFICE OF INSPECTOR GENERAL

The conference agreement includes \$10,860,000 for the Office of the Inspector General in the Nuclear Regulatory Commission, as proposed by the House and Senate. This amount is offset by revenues of \$9,774,000, for a net appropriation of \$1,086,000.

NUCLEAR WASTE TECHNICAL REVIEW BOARD

SALARIES AND EXPENSES

The conference agreement provides \$3,400,000 for the Nuclear Waste Technical Review Board, as proposed by the House and Senate.

OFFICE OF THE FEDERAL COORDINATOR FOR ALASKA NATURAL GAS TRANSPORTATION PROJECTS

The conference agreement provides \$1,000,000 for the Office of the Federal Coordinator for Alaska Natural Gas Transportation Projects, as proposed by the Senate, instead of \$4,032,000 as proposed by the House. The conference agreement does not include a House provision addressing excess fees.

GENERAL PROVISIONS—INDEPENDENT AGENCIES

The conference agreement modifies a provision proposed by the House relating to the Nuclear Regulatory Commission. The Senate proposed no similar provision.

The conference agreement does not include a provision proposed by the Senate relating to spent fuel pools. Language addressing this issue is included under the heading “Nuclear Regulatory Commission—Salaries and Expenses” in the Statement of Managers.

The conferees include a modified Senate provision regarding certain NRC requirements. The House proposed no similar provision. The conferees intend that licensees proactively evaluate new information and, where necessary, improve their facilities to keep them current with all NRC requirements relevant to their licenses, including all updates, and urge the NRC to continue its efforts to ensure all license requirements are updated to incorporate the latest knowledge of external hazards facing each site.

TITLE V

GENERAL PROVISIONS

The conference agreement includes a provision proposed by the House and Senate relating to transfer authority.

The conference agreement does not include a provision proposed by the House prohibiting funds to be provided in contravention of section 6(b) of the Iran Sanctions Act. The Senate proposed no similar provision. The conferees direct the Administration to continue to follow these requirements.

The conference agreement includes a provision proposed by the House requiring new federal hires to be vetted through the E-Verify Program. The Senate proposed no similar provision.

The conference agreement modifies a provision proposed by the House prohibiting the government from entering into contracts or agreements with any corporation that was convicted of a felony criminal violation under any federal law within the preceding 24 months. The Senate proposed no similar provision.

The conference agreement modifies a provision proposed by the House prohibiting funds for contracts or agreements with entities with unpaid federal tax liabilities that have not entered into payment agreements to remedy the liability. The Senate proposed no similar provision.

The conference agreement does not include a provision proposed by the House prohibiting development of a proposal to expand the authorized uses of the Harbor Maintenance Trust Fund. The Senate proposed no similar provision. The conferees support language in the House report opposing the diversion of revenue from existing authorized purposes, namely maintenance dredging, and in light of widespread congressional opposition to the budget proposal, suggest a wiser course of action would be to focus on utilizing the annual receipts for additional harbor dredging work rather than allowing the balance in the Trust Fund to continue to increase.

The conference agreement does not include a provision proposed by the House prohibiting funds for International activities at the Office of Energy Efficiency and Renewable Energy of the Department of Energy in China. The Senate proposed no similar provision.

The conference agreement includes a provision proposed by the House prohibiting funds to be used in contravention of the executive order entitled "Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations". The Senate proposed no similar provision.

dential appointees who fall under certain exemptions to Senate confirmation. The Senate proposed no similar provision.

The conference agreement does not include a provision proposed by the House prohibiting funds for International activities of the Office of Energy Efficiency and Renewable Energy at the Department of Energy, except for the U.S.-Israel program. The Senate proposed no similar provision.

The conference agreement does not include a provision proposed by the House prohibiting funds in this bill from being used to close the Yucca Mountain license application process until a specific condition is met or for actions that would remove the possibility that Yucca Mountain might be an option in the future. The Senate proposed no similar provision.

The conference agreement does not include a provision proposed by the House prohibiting funds to implement any new requirement regarding the disclosure of political contributions. The Senate proposed no similar provision.

TITLE V/VI

DIVISION C—FINANCIAL SERVICES AND GENERAL
GOVERNMENT APPROPRIATIONS ACT, 2012

References in this statement to the Senate bill are to the bill (S. 1573) as reported to the Senate by the Committee on Appropriations on September 15, 2011 (S. Rept. 112–79). References to the House bill are to the bill (H.R. 2434) as reported to the House by the Committee on Appropriations on July 7, 2011 (H. Rept. 112–136).

Language included in House Report 112–136 or Senate Report 112–79 that is not changed by this joint explanatory statement is approved by the committee of conference. This explanatory statement, while repeating some report language for emphasis, is not intended to negate the language in the referenced House and Senate committee reports unless expressly provided herein.

Where the House or Senate has directed submission of a report, that report is to be submitted to the Committees on Appropriations of both the House of Representatives and the Senate.

TITLE I

DEPARTMENT OF THE TREASURY

DEPARTMENTAL OFFICES

SALARIES AND EXPENSES

The conference agreement provides \$308,388,000 for departmental offices salaries and expenses, instead of \$185,749,000 as proposed by the House and \$306,388,000 as proposed by the Senate.

Within the amount provided under this heading, the conference agreement provides \$100,000,000 for the Office of Terrorism and Financial Intelligence and within that amount no more than \$26,608,000 for administrative expenses. The conference agreement also provides full funding for the Secretary’s security and travel, both domestic and international (including civilian and military).

Judgment Fund.—The conferees adopt the House report language regarding the Judgment Fund, except that the first report is due within 180 days of enactment of this Act and annually thereafter.

Volcker Rule.—The conferees note that consistent with Public Law 111–203, the appropriate Federal banking regulators and the U.S. Securities and Exchange Commission proposed regulations implementing the “Volcker Rule,” and the U.S. Commodity Futures Trading Commission is expected to propose a similar rule, that appropriately accommodates the business of insurance by permitting trading by a regulated insurance company for its general account. These accommodations are subject to subsections (d)(1)(F) and (d)(2)(A) of section 13 (or “sections 13(d)(1)(F) and 13(d)(2)(A)”) of the Bank Holding Company Act of 1956.

Economic Sanctions and Divestments.—The conferees direct the Department to fully implement the sanctions and divestment measures applicable to North Korea, Burma, Belarus, Iran, Sudan, and Zimbabwe. The Department is further directed to promptly no-

tify the Appropriations Committees of any resource constraints that adversely impact the implementation of these sanctions programs.

Management of Capital Investments.—The conferees reiterate the Senate report language regarding management of capital investments and direct the Department to continue improving the management of capital investments, specifically focusing on integrating all of the Department's bureaus into improvement efforts and institutionalizing improvements so that taxpayers will benefit from better management of future capital projects. The conferees note that section 121 of this Act requires the Secretary of the Treasury to develop an annual Capital Investment Plan, to be submitted to the Committees on Appropriations of the Senate and the House of Representatives within 30 days following submission of the President's annual budget request. The conferees direct the Office of the Chief Information Officer to ensure that adequate resources are devoted both to projects in the capital phase and to proper maintenance and modernization of existing systems and to ensure that all projects are tracked properly and described completely in the annual Capital Investment Plan.

OFFICE OF INSPECTOR GENERAL

SALARIES AND EXPENSES

The conference agreement provides \$29,641,000 for the Office of Inspector General as proposed by the House and the Senate.

TREASURY INSPECTOR GENERAL FOR TAX ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement provides \$151,696,000 for salaries and expenses of the Treasury Inspector General for Tax Administration as proposed by the House and the Senate.

SPECIAL INSPECTOR GENERAL FOR THE TROUBLED ASSET RELIEF PROGRAM

SALARIES AND EXPENSES

The conference agreement provides \$41,800,000 for salaries and expenses of the Office of the Special Inspector General for the Troubled Asset Relief Program (SIGTARP) as proposed by the Senate, instead of \$41,801,000 as proposed by the House.

FINANCIAL CRIMES ENFORCEMENT NETWORK

SALARIES AND EXPENSES

The conference agreement provides \$110,788,000 for salaries and expenses of the Financial Crimes Enforcement Network (FinCEN), as proposed by the House and the Senate.

The conferees reiterate the House and Senate language rejecting the Administration's proposed \$3 million in reductions for State and local and intelligence community access to Bank Secrecy Act information and the Senate language rejecting the Administration's proposal to fund a portion of FinCEN's needs in fiscal year 2012 using proceeds from the Treasury Forfeiture Fund.

TREASURY FORFEITURE FUND

(RESCISSION)

The conference agreement includes a rescission of \$950,000,000 of the unobligated balances in the Treasury Forfeiture Fund.

The funds collected, disbursed and rescinded out of the Treasury Forfeiture Fund (the Fund) are incidental to law enforcement priorities that led to the seizures and forfeitures. Disrupting and dismantling criminal organizations that pose the greatest threat to public safety and security is the highest priority of any law enforcement agency. The Fund can ensure resources are managed efficiently to cover the costs of an effective asset seizure and forfeiture program, including the costs of seizing, evaluating, inventorying, maintaining, protecting, advertising, forfeiting and disposing of property, but it must not be used to augment agency funding or to circumvent the appropriations process. Reliance on the Fund to offset the day-to-day operations, or to pay for new activities, creates an incentive to pursue cases suspected of high valued forfeitures rather than to target individuals or organizations that perpetrate the worst crimes against society.

In addition to the Department of Treasury, the Department of Homeland Security is the other primary participant in the Fund since it does not have the authority or expertise to operate its own forfeiture fund. In fiscal year 2010, the Department of Homeland Security activities resulted in approximately 30 percent of the collections to the Fund and accounted for approximately 50 percent of the costs incurred by the Fund. In recent years, the available balances in the Fund have increased as the Federal Government has taken enforcement actions against large banks, increasing the surplus funding available. This surplus funding can either be used to fund law enforcement expenses to enhance forfeiture capabilities, be held in reserve or be rescinded. In considering the allocation of super surplus balances or rescission of resources in the Fund, the conferees direct the Administration not to use a formulaic approach where agencies that conduct seizures automatically get to spend or rescind surplus balances. The resources in the Fund should not be considered a "bounty" for the collecting agencies. Future proposed rescissions and super surplus spending requests should be based on programmatic need and funding priorities not a predetermined formula. Using a formulaic approach, such as distributing super surplus funds and rescissions in proportion to an agency's collections, would distort the role of the Fund.

FINANCIAL MANAGEMENT SERVICE

SALARIES AND EXPENSES

The conference agreement provides \$217,805,000 for salaries and expenses of the Financial Management Service as proposed by the Senate instead of \$216,617,000 as proposed by the House.

ALCOHOL AND TOBACCO TAX AND TRADE BUREAU

SALARIES AND EXPENSES

The conference agreement provides \$99,878,000 for salaries and expenses of the Alcohol and Tobacco Tax and Trade Bureau as proposed by the Senate instead of \$96,899,000 as proposed by the House. Within this amount, \$2,000,000 is for the cost of special law enforcement agents to target tobacco smuggling and other criminal diversion activities.

UNITED STATES MINT

UNITED STATES MINT PUBLIC ENTERPRISE FUND

The conference agreement provides that not more than \$20,000,000 in new liabilities and obligations may be incurred during fiscal year 2012 for circulating coinage and protective service capital investments of the U.S. Mint, as proposed by the House and the Senate.

BUREAU OF THE PUBLIC DEBT

ADMINISTERING THE PUBLIC DEBT

The conference agreement provides \$173,635,000 for costs associated with administering the public debt, as proposed by the Senate instead of the \$171,979,000 as proposed by the House. Within this amount, \$10,000,000 is available until September 30, 2014, to reduce improper payments. The conference agreement further directs that \$8,000,000 in user fees be used to offset the appropriated amounts.

COMMUNITY DEVELOPMENT FINANCIAL INSTITUTIONS FUND
PROGRAM ACCOUNT

The conference agreement provides \$221,000,000 for the Community Development Financial Institutions (CDFI) Fund program.

The conference agreement waives the matching fund requirement for the Small and/or Emerging CDFI applicants (SECA) and the Native Initiatives for only one year. SECAs are insured depository institutions and depository institution holding companies with total assets up to \$250 million, insured credit unions with total assets up to \$10 million, venture capital funds with total assets up to \$10 million, or other type of certified/certifiable CDFI with total assets up to \$5 million as of September 30, 2011, or began operations on or after January 1, 2008.

The conference agreement designates no funding for the Bank on USA Initiative.

INTERNAL REVENUE SERVICE

TAXPAYER SERVICES

The conference agreement provides \$2,239,703,000 for Internal Revenue Service (IRS) Taxpayer Services. Within the overall amount, not less than \$9,750,000 is for low-income taxpayer clinic grants, and not less than \$5,600,000 is for the Tax Counseling for

TITLE II

EXECUTIVE OFFICE OF THE PRESIDENT AND FUNDS
APPROPRIATED TO THE PRESIDENT

COMPENSATION OF THE PRESIDENT

The conference agreement provides \$450,000 for compensation of the President as proposed by the Senate. The House proposed funding this mandatory cost as a general provision.

THE WHITE HOUSE

SALARIES AND EXPENSES

The conference agreement provides \$56,974,000 for the salaries and expenses of the White House, instead of \$55,513,000 as proposed by the House and \$57,851,000 as proposed by the Senate.

The conferees note that a lengthy clearance process at the Executive Office of the President (EOP) often delays submission of information requested by the Committees on Appropriations. The conferees expect EOP to respond to such requests in a timely manner because such information is critical to the Committees' ability to make informed budgetary decisions. In that regard, the conferees have encountered particular difficulty in receiving timely and comprehensive responses to requests for information from the Office of National Drug Control Policy (ONDCP) and therefore, direct EOP to remedy this issue. Language has also been included on this topic in the ONDCP section.

EXECUTIVE RESIDENCE AT THE WHITE HOUSE

OPERATING EXPENSES

The conference agreement provides \$13,425,000 for the Executive Residence at the White House, instead of \$12,989,000 as proposed by the House and \$13,536,000 as proposed by the Senate.

WHITE HOUSE REPAIR AND RESTORATION

The conference agreement provides \$750,000 for repair, alteration and improvement of the Executive Residence at the White House, instead of \$1,000,000 as proposed by the House and \$990,000 as proposed by the Senate.

COUNCIL OF ECONOMIC ADVISERS

SALARIES AND EXPENSES

The conference agreement provides \$4,192,000 for the salaries and expenses of the Council of Economic Advisers as proposed by the Senate, instead of \$3,982,000 as proposed by the House.

NATIONAL SECURITY COUNCIL AND HOMELAND SECURITY COUNCIL

SALARIES AND EXPENSES

The conference agreement provides \$13,048,000 for the salaries and expenses of the National Security Council and Homeland Security

rity Council as proposed by the Senate, instead of \$12,396,000 as proposed by the House.

OFFICE OF ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement provides \$112,952,000 for the salaries and expenses of the Office of Administration, instead of \$109,297,000 as proposed by the House and \$114,908,000 as proposed by the Senate. The conference agreement includes \$10,403,000, to remain available until expended, for information technology modernization.

OFFICE OF MANAGEMENT AND BUDGET

SALARIES AND EXPENSES

The conference agreement provides \$89,456,000 for the salaries and expenses of the Office of Management and Budget (OMB), instead of \$82,575,000 as proposed by the House and \$90,833,000 as proposed by the Senate.

The conferees direct OMB to submit a report to the Committee within 120 days of enactment of this Act detailing current capabilities of and deficiencies in the Federal Government's core budgeting system.

In light of increased efforts to identify government-wide efficiencies and anticipate the cost of major infrastructure projects, the Committee instructs OMB to examine Circular A-94. The Committee expects OMB's review of Circular A-94 to include an examination of the potential to incorporate life-cycle cost analysis. Moreover, this analysis should be as accurate, complete and reflective of the real costs and lifespans of materials as possible, including the use of material-specific discount rates and maintenance scheduled cost. OMB is directed to report to the Committee within 180 days of enactment of this Act on the status of reviewing Circular A-94. OMB should include appropriate experts in the field of life-cycle cost analysis, as well as appropriate industry experts and research centers.

The conferees believe that agency staffing decisions should be based on agency workload and the level of funds made available, rather than pre-determined formulaic reductions. Decisions to backfill vacant positions should be based on the number of staff with the combination of skills and qualifications necessary to carry out the agency's mission within available funding levels. The OMB Director shall report in February annually to the House and Senate Appropriations Committees on any agencies not adhering to the policies mentioned above.

The conferees direct OMB to issue guidance, consistent with section 735 of division D of the Omnibus Appropriations Act, 2009, Public Law 111-8, and section 739(a)(1) of division D of the Consolidated Appropriations Act, 2008 (Public Law 110-161), and section 327 of the 2008 National Defense Authorization Act (Public Law 110-181), regarding use of direct conversions to contract out, in whole or in part, activities or functions last performed by Federal employees.

The conferees expect OMB to honor the terms and conditions of appropriations Acts by not only reviewing reprogramming requests submitted to the Committees on Appropriations pursuant to the reprogramming conditions of this or any other Act, but also by reviewing agency activities for compliance with reprogramming conditions. With regard to section 608 of this Act, the conferees find that reimbursable agreements and other similar funding mechanisms utilized for the purpose of reallocating funding shall be considered a reprogramming of funds under such section. When determining the applicability of section 608, OMB and the agencies should consult with the Committees on Appropriations.

OFFICE OF NATIONAL DRUG CONTROL POLICY

SALARIES AND EXPENSES

The conference agreement provides \$24,500,000 for salaries and expenses of the Office of National Drug Control Policy (ONDCP), instead of \$23,000,000 as proposed by the House and \$26,125,000 as proposed by the Senate.

The conferees note that a lengthy clearance process at the Executive Office of the President (EOP) often delays submission of information requested by the Committees on Appropriations. The conferees have encountered particular difficulty in receiving timely and comprehensive responses to requests for information from ONDCP. The conferees expect ONDCP to respond to such requests in a timely manner because such information is critical to the Committees' ability to make informed budgetary decisions. The conferees expect EOP to remedy this issue and improve ONDCP's responsiveness. Language has also been included on this topic under the White House Office account.

FEDERAL DRUG CONTROL PROGRAMS

HIGH INTENSITY DRUG TRAFFICKING AREAS PROGRAM

(INCLUDING TRANSFERS OF FUNDS)

The conference agreement provides \$238,522,000 for the High Intensity Drug Trafficking Areas Program as proposed by the House and the Senate.

OTHER FEDERAL DRUG CONTROL PROGRAMS

(INCLUDING TRANSFERS OF FUNDS)

The conference agreement provides \$105,550,000 for Other Federal Drug Control Programs, instead of \$101,978,000 as proposed by the House and \$105,950,000 as proposed by the Senate. The agreement allocates funds among specific programs as follows:

National Youth Anti-Drug Media Campaign	\$0
Drug-Free Communities Program	92,000,000
(Training	2,000,000)
Drug court training and technical assistance	1,400,000
Anti-Doping activities	9,000,000
World Anti-Doping Agency (U.S. membership dues)	1,900,000
Discretionary Grants as authorized by PL 109-469, section 1105	1,250,000

The conference agreement provides no funding for the media campaign, as proposed by the House and the Senate. The conferees are supportive of a plan to preserve the substantial federal investment in anti-drug messaging and direct ONDCP to report to the Committees on Appropriations on the planned uses of the remaining unobligated balances for the media campaign not later than 180 days after enactment of this Act.

The conferees expect grant funding provided under ONDCP's Other Federal Drug Control Programs be awarded through a competitive process.

The conferees are troubled by ONDCP's decision-making in the management of unobligated balances. The President's budget proposed rescinding \$11,328,000 from the Counterdrug Technology Assessment Center. Despite this, ONDCP obligated \$6,083,361 of those balances. The conferees believe that ONDCP's decision to obligate funds that the President's budget proposed to rescind demonstrates an inability to effectively manage their funds.

INTEGRATED, EFFICIENT AND EFFECTIVE USES OF INFORMATION TECHNOLOGY

(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$5,000,000 for this activity as proposed by the House, instead of no funds as proposed by the Senate. The conferees direct that information technology reform initiatives shall not be a substitute for consideration of agency requirements and the Executive Office of the President shall keep the Committees on Appropriations informed of changes in information technology spending plans.

The conferees reiterate Senate language noting material weakness in the security of NARA's holdings. The conferees direct NARA to institute and enforce effective inventory controls and adequate levels of security within its facilities to reduce the risk of loss and damage to our Nation's documents and records.

In addition, the conferees direct NARA to continue to work with agencies on records management policies, especially those related to document destruction. The conferees believe it is critical for all agencies to be aware of the importance of these policies and to have proper systems in place for document retention and preservation.

The report shall include detailed descriptions and planned spending.

SECURITIES AND EXCHANGE COMMISSION

SALARIES AND EXPENSES

The conference agreement provides \$1,321,000,000 for the Securities and Exchange Commission (SEC), instead of \$1,185,000,000 as proposed by the House and \$1,407,483,130 as proposed by the Senate. The conference agreement provides that \$1,321,000,000 be derived from offsetting collections resulting in no net appropriation.

The conference agreement provides that the SEC Office of Inspector General shall receive no less than \$6,795,000 as proposed by the Senate, instead of \$6,790,000 as proposed by the House.

The conferees do not adopt the Senate designation of \$483,130 specifically for the strengthening of the acquisition workforce. However, while not designating funding, the Committee remains concerned about the SEC's acquisition processes and expects the SEC to dedicate sufficient resources to strengthening the agency's capacity and capabilities of the acquisition workforce.

The conferees remain seriously concerned with the SEC's lack of judgment in its past leasing practices, most notably the mismanagement of the agency's Constitution Center lease. The conferees are unconvinced that the SEC's efforts to reform their leasing practices have fully addressed the problems. The agency's leasing and budgetary recording practices over the last 20 years of independent leasing authority have led the SEC to experience budget deficiencies. The conferees consider this unacceptable and expect the SEC to carefully evaluate all prospective leases and renewals of existing leases going forward in relation to the budget resources. The conferees are aware of the SEC's arrangement with the General Services Administration, which the conferees believe is a good first step. The conferees intend to closely monitor how the SEC exercises its leasing authority to ensure that the SEC has adequately reformed its leasing practices.

The conferees are also highly concerned about the unauthorized destruction of documents by the SEC which spanned a decade and remained ongoing even after the National Archives and Records Administration asked for an explanation. The preservation of agency documents is critical to the record keeping of every agency and Federal rules have been established in the interest of transparency and disclosure. As the agency tasked with monitoring companies' disclosures, this latest chapter of mismanagement at the SEC contravenes the agency's own mission and distracts SEC management from focusing on the critical work of protecting investors.

Due to the above concerns, the conferees direct the SEC to provide the House and Senate Appropriations Committees with corrective action reports, submitted to the SEC Inspector General, related to lease agreements and document destruction no later than 30 days after enactment of this Act.

Of the amount provided under this heading, \$245,000,000 is for the operating expenses of the SBA and \$172,348,000 is for non-credit programs.

The conferees direct that no less than the following amounts shall be dedicated to the following SBA non-credit programs:

Veterans Programs	\$2,500,000
7(j) Technical Assistance Programs	3,100,000
Small Business Development Centers	112,500,000

PRIME	3,500,000
HUBZone	2,500,000
Entrepreneurial Development Initiative (Clusters)	5,000,000
<hr/>	<hr/>
Total, non-credit programs	172,348,000

The conferees direct that the SBA shall not reduce these non-credit programs from the amounts specified above and the SBA shall not merge any of the non-credit programs without advance written approval from the Committees on Appropriations.

Although set-aside funding for the Emerging Leaders program is not specified, the conferees note that in prior years SBA derived funds for the Emerging Leaders program from base resources in the Salaries and Expenses account.

The conferees adopt Senate report language regarding veterans' business outreach centers.

The following is an explanation of the effects of Division D, which makes appropriations for the Department of Homeland Security for fiscal year 2012. Unless otherwise noted, reference to the House and Senate reports are to House Report 112–91 and Senate Report 112–74, respectively. The language and allocations contained in House Report 112–91 and Senate Report 112–74 should be complied with and carry the same emphasis as the language included in the explanatory statement, unless specifically addressed to the contrary in the conference report or this explanatory statement. While repeating some report language for emphasis, this explanatory statement does not intend to negate the language referred to above unless expressly provided herein. When this explanatory statement refers to the Committees or the Committees on Appropriations, unless otherwise noted, this reference is to the House Subcommittee on Homeland Security and the Senate Subcommittee on the Department of Homeland Security. In cases where the explanatory statement directs the submission of a report, such report shall be provided to the Committees on Appropriations by February 15, 2012, unless otherwise directed. In cases where the explanatory statement directs a briefing, such briefing shall be provided to the Committees by February 15, 2012, unless otherwise directed.

Stafford Disaster Relief and Emergency Assistance Act, Public Law 93–288 is referenced as the Stafford Act; Budget Control Act of 2011, Public Law 112–25, is referenced as the Budget Control Act (BCA); the Department of Homeland Security is referenced as DHS or the Department; the Government Accountability Office is referenced as GAO; and the Office of Inspector General of the Department of Homeland Security is referenced as OIG. In addition, any reference to “full-time equivalents” shall be referred to as FTE; any reference to “program, project, and activity” shall be referred to as PPA; and any reference to the Secretary shall be interpreted to mean the Secretary of Homeland Security.

Classified Programs

Recommended adjustments to classified programs are addressed in a classified annex accompanying this explanatory statement.

TITLE I—DEPARTMENTAL MANAGEMENT AND OPERATIONS

OFFICE OF THE SECRETARY AND EXECUTIVE MANAGEMENT

A total of \$133,159,000 is provided for “Office of the Secretary and Executive Management.” Not to exceed \$51,000 of this funding shall be for official reception and representation expenses, including \$17,000 for the Office of Policy to support Visa Waiver Program negotiations in Washington, DC, and for other international activities. This Act also includes a provision requiring that funds made

available for “Immediate Office of the Secretary” and “Immediate Office of the Deputy Secretary” shall be used to pay costs associated with use of government aircraft by DHS personnel in support of official travel of the Secretary and Deputy Secretary.

The amount provided for this appropriation by PPA is as follows:

Immediate Office of the Secretary	\$5,000,000
Immediate Office of the Deputy Secretary	1,918,000
Office of the Chief of Staff	2,300,000
Office of Counternarcotics Enforcement	1,800,000
Executive Secretary	8,100,000
Office of Policy	40,000,000
Office of Public Affairs	5,800,000
Office of Legislative Affairs	6,000,000
Office of Intergovernmental Affairs	2,650,000
Office of General Counsel	22,400,000
Office for Civil Rights and Civil Liberties	22,500,000
Citizenship and Immigration Services Ombudsman	6,200,000
Privacy Officer	8,491,000
Total, Office of the Secretary and Executive Management	133,159,000

Biometric Exit

Congress has long sought the Department’s determination on the path forward for implementing biometric exit, and the conferees have asked for a detailed plan to include costs. On October 17, 2011, the Secretary sent a letter to the chairmen and ranking members of relevant appropriations and authorization committees outlining general concerns about implementation, particularly the cost of such an undertaking, and proposing legislative changes to existing law. While the Secretary states, “DHS remains committed to introducing a biometric component to the exit process”, the letter does not constitute a detailed plan for implementation. Therefore, statutory language is included in this Act withholding funds from the Office of the Secretary until the plan is submitted, to include identifying associated costs.

Office of Counternarcotics Enforcement

A total of \$1,800,000 is provided for “Office of Counternarcotics Enforcement” (CNE), which is available until March 30, 2012, to continue CNE operations while the Department conducts an orderly termination of the Office. This funding may be transferred to the Office of Policy, which is expected to assume policy development and coordination responsibilities currently assigned to CNE, and any such funds transferred will be available until September 30, 2012. The Assistant Secretary for Policy shall provide, as part of the requirement for an expenditure plan for the Office of Policy, a detailed description of any such transfers.

The termination of CNE reflects the need to streamline Executive Branch efforts to carry out the counternarcotics enforcement mission. Allowing the funds to be transferred to the Office of Policy will ensure the Department can integrate the existing CNE policy planning and coordination activities within the broader Depart-

ment enforcement and security missions and make optimum use of the existing planning and operations elements of its key law enforcement agencies. It will also enable the Department, through the Office of Policy, to coordinate DHS policy and programs that are carried out with the Office of National Drug Control Policy and other Federal, State, local, and international government partners. As CNE will be terminated, the GAO is neither required to submit an assessment of progress in implementing OIG recommendations concerning CNE, nor to assess DHS counternarcotics coordination, as required in the House report.

Expenditure Plans

The Department shall prepare expenditure plans for fiscal year 2012 for the agencies funded under this appropriation as specified in the Senate report, with the exception of CNE which is being terminated. The plans shall be submitted to the Committees no later than March 30, 2012. The plan for the Office of Policy shall list planned projects for each sub-office within the Office of Policy, with their associated funding and staffing requirements. In addition, should the funds made available for either counternarcotics or risk management and analysis functions be transferred to the Office of Policy, as permitted by this Act, those resources should be delineated in the manner specified for each sub-office in the expenditure plan, including missions, planned expenditures, and activities. In addition to expenditure plans described above, the Act requires additional fiscal year 2012 expenditure plans, including a plan for TSA passenger screening and checked baggage technology programs, the Office of Infrastructure Protection and the National Cyber Security Division, the Office of Health Affairs, and the Federal Emergency Management Agency.

The Department has failed to deliver a number of statutorily required fiscal year 2011 expenditure plans, or has delivered them unacceptably late. The Department is expected to comply with Congressional direction and demonstrate the priority it places on these programs and submit required expenditure plans as directed and in accordance with the specified deadlines. The Department should already have these expenditure plans as part of its routine management activities; therefore, it is notable, and entirely inexcusable, that the Department did not, for example, submit fiscal year 2011 expenditure plans for the Office of Policy or US-VISIT—and it is well past the end of the fiscal year.

Quarterly Reports

The Department is directed to continue submitting the quarterly Secure Border Initiative (SBI) reports, now to be called the Border Security Status Report. The new reports shall continue to include all performance metrics and resource data from past reports in their current format, with the exception that they no longer should include resource data on SBI total budget obligations and outlays and budget execution reports. That information already is contained in the annual Border Security Fencing, Infrastructure, and Technology expenditure plan. Additionally, the Department shall include the following in the report: (a) estimates of

the impact of programs (such as Operation Streamline) that are intended to reduce the rate of recidivism of illegal border crossers; (b) for ports of entry, the maritime domain, and between the ports of entry: (1) estimates of total attempted border crossings; (2) the rate of apprehension of attempted border crossings; and (3) the inflow into the United States of illegal entrants that evade apprehension; and (c) data on the subsequent enforcement actions associated with Customs and Border Protection (CBP) apprehensions, such as voluntary return, expedited removal, transfer to Immigration and Customs Enforcement (ICE) custody, transfer for criminal prosecution, Mexican Interior Repatriation Program, and other categories necessary to provide an accurate accounting of such actions.

The Department is directed to submit quarterly reports on operations in a timely manner, including the overdue SBI Quarterly Status reports, the new Border Security Status Reports, the Secure Communities Quarterly Reports, and the Detention and Removal Operations Quarterly Reports. These reports present critical operational statistics, readily available to the Department, which are necessary for appropriate oversight. However, in many instances, the Department has failed to provide these reports in accordance with specified deadlines, with submissions being so late that these reports limit the Committees' ability to ensure timely oversight.

Working Capital Fund

The Department shall include a separate justification in its fiscal year 2013 budget request for the Working Capital Fund (WCF), as specified in the House report. This justification shall identify and explain cross-cutting initiatives or activities that benefit multiple organizations and are not included in the WCF. The Department shall notify the Committees promptly of any changes made to the WCF during the fiscal year and should not use the WCF to support activities for which funding requests were previously disapproved by the Committees.

Official Reception and Representation Allowances

The Department is directed to submit quarterly reports to the Committees listing obligations for all DHS Reception and Representation Expenses by purpose and dollar amount, at a level of detail provided in fiscal year 2011, or in greater detail if that is required to explain how funds were used. The Department shall review the level of reception and representation allowances for its agencies and components to assure they align with missions and responsibilities and submit any proposed changes as part of the fiscal year 2013 budget request.

Coordination of Federal Chemical Security Efforts

The Department is expected to execute a Memorandum of Agreement between the National Protection and Programs Directorate and the Coast Guard regarding harmonization of chemical security responsibilities established by Chemical Facilities Anti-Terrorism Standards regulations and Maritime Transportation Security Act regulatory programs no later than March 30, 2012. The Deputy Secretary is directed to submit reports on chemical security

efforts to the Committees on Appropriations as directed in the Senate report. However, the reports shall be submitted on a semi-annual basis instead of quarterly with the first report due no later than March 30, 2012.

Federally Funded Research and Development Centers

The Department is directed to report semi-annually to the Committees on Appropriations on projects tasked to Federally Funded Research and Development Centers as directed in the Senate report and to immediately submit reports for fiscal years 2010 and 2011, which are unacceptably late.

Cybersecurity

Both the Department of Homeland Security and the National Guard have capabilities, in conjunction with the private sector, to respond to issues related to cybersecurity. In an effort to improve coordination between the Federal government and the private sector and to exploit and enhance the capabilities of both sectors, the conferees direct the Deputy Secretary of DHS, jointly with the Deputy Secretary of Defense, to submit a report to the Committees no later than May 1, 2012, regarding the capabilities for a coordinated response to a cyber attack. The report shall evaluate the costs and benefits of deploying the National Guard, or other equivalent civilian teams, to supplement current abilities to prevent and recover from a cyber attack. The report shall also include: a description of current activities of both DHS and the National Guard related to the deployment of teams to help prevent or recover from a cyber attack; the authorities of each Department, including the boundaries of such authorities and statutory changes that may be necessary to use joint authorities in a domestic response; a description of training and education efforts; and a discussion of how critical relationships can be established across the agencies to fulfill cybersecurity responsibilities.

Freedom of Information Act

The Privacy Officer is directed to report to the Committees on Appropriations no later than 30 days after the date of enactment of this Act on measures put in place to implement the OIG's recommendations to fix problems identified with the Department's Freedom of Information (FOIA) activities (OIG-11-67), including whether and how recent adjustments to DHS FOIA policies and procedures have improved the processing of inquiries, such as decreasing wait times for approval of significant requests.

Departmental Integrity Efforts

Since Congress initiated significant increases in funding for border security and immigration enforcement in 2005, CBP has hired more than 19,176 new employees, a 46 percent increase, and ICE has hired over 4,747 new personnel, a 31 percent increase. Since 2007, in an effort to reduce the potential for increased corruption, the Congress has provided over \$11,000,000 more than Presidents have requested for program integrity efforts. It is ex-

pected that the President will join Congress in the effort to get ahead of this problem by including increased resources in the fiscal year 2013 budget request.

OFFICE OF THE UNDER SECRETARY FOR MANAGEMENT

A total of \$235,587,000 is provided for “Office of the Under Secretary for Management,” of which not to exceed \$2,500 shall be for official reception and representation expenses. Within this amount, \$5,000,000 shall be available until September 30, 2016, solely for costs of facilities alteration and improvement, tenant improvements, and relocations to consolidate DHS headquarters operations at the Nebraska Avenue Complex.

Pursuant to section 560, a total of \$55,979,000 is provided for “Office of the Under Secretary for Management” for costs associated with headquarters consolidation and mission support consolidation. These funds shall be prioritized towards the completion of phase I of the headquarters consolidation project at the St. Elizabeths site in order to avoid further increases to cost and schedule. The Under Secretary shall submit an expenditure plan no later than 90 days after the date of enactment of this Act detailing how these funds will be allocated, including a revised schedule and cost estimates for headquarters consolidation. Quarterly briefings are required on headquarters and mission support consolidation activities, including any deviation from the expenditure plan.

The amount provided for this appropriation by PPA is as follows:

Immediate Office of the Under Secretary for Management	\$2,550,000
Office of Security	70,000,000
Office of the Chief Procurement Officer	78,000,000
Office of the Chief Human Capital Officer:	
Salaries and Expenses	25,165,000
Human Resources Information Technology	14,172,000
Subtotal	39,337,000
Office of Chief Administrative Officer:	
Salaries and Expenses	40,700,000
Nebraska Avenue Complex	5,000,000
Subtotal	45,700,000
Total, Office of the Under Secretary for Management... ..	235,587,000

Polar Icebreaker Program

None of the requested funding is provided for a new study of the need for Coast Guard icebreakers. Given the findings of previous reports and analyses of this issue, the Department is urged to develop a concept of operations and resource plan to meet national icebreaking needs, including leveraging expertise within the Coast Guard and Science and Technology Directorate. The Under Secretary shall brief the Committees on the status of this plan no later than 90 days after the date of enactment of this Act.

Comprehensive and Quarterly Acquisition Status Reports

Senate Report 111–31 directed the submission of quarterly acquisition reports for major acquisitions. The quarterly reports for fiscal year 2010 were not submitted to Congress at the end of each quarter as directed, but instead all four quarterly reports were combined into one report and submitted on April 12, 2011—over six months after the end of fiscal year 2010. This lack of responsiveness is unacceptable, especially since the information requested is already required by the Department as part of its own acquisition oversight process.

In order to obtain the information necessary for in-depth congressional oversight, statutory language is included in this Act under “Office of the Under Secretary for Management” that requires a Comprehensive Acquisition Status Report to be included as part of the submission of the President’s fiscal year 2013 budget, with quarterly updates to be submitted 30 days after the completion of each quarter. The requirements for both reports are addressed below.

The Comprehensive Acquisition Status Report shall include programs identified for Major Acquisition Oversight as defined in the Department memorandum titled “Department of Homeland Security Major Acquisition Oversight List” dated January 25, 2011, and programs that have been classified for major acquisition oversight subsequent to the referenced memorandum.

The Comprehensive Acquisition Status Report shall include for each major acquisition:

1. A narrative description to include current gaps and shortfalls, the capabilities to be fielded, and the number of planned increments and/or units;
2. Acquisition Review Board (or other board designated to review the acquisition) status of each acquisition, including the current acquisition phase, the date of the last review and a listing of the required documents that have been reviewed with the dates reviewed and/or approved;
3. The most current approved Acquisition Program Baseline (to include project schedules and events);
4. A comparison of the original Acquisition Program Baseline, the current Acquisition Program Baseline, and the current estimate;
5. Whether or not an Independent Verification and Validation has been implemented, with an explanation for the decision and a summary of any findings;
6. A rating of cost risk, schedule risk, and technical risk associated with the program (including narrative descriptions and mitigation actions);
7. Contract status (to include earned value management data as applicable);
8. A life-cycle cost of the acquisition, and time basis for the estimate;
9. A planned procurement schedule, including the best estimate of the annual cost and increments/units to be procured annually until procurement is complete;

10. A table delineated by appropriation that provides (for prior years; past year; current year; budget year; budget year plus one; budget year plus two; budget year plus three; budget year plus four and beyond; and total cost) the actual or estimated appropriations, obligations, unobligated authority, and planned expenditures;

11. The reason for any significant changes (from the previous comprehensive report) in acquisition quantity, cost, or schedule;

12. Key Events/Milestones from the prior fiscal year; and

13. Key Events/Milestones for the current fiscal year.

Quarterly reports shall include:

1. An updated status report on any major acquisition for which there has been an approved or a new acquisition program baseline, a new acquisition decision memorandum, or where there has been significant deviation from the prior report with respect to acquisition cost, quantity, or schedule (a significant change is any deviation in cost or quantity that exceeds eight percent or any change in schedule that exceeds six months).

2. A table depicting the title of the program, quantity and cost based on the original Acquisition Program Baseline, quantity and cost based on the most current acquisition program baseline, the quantity and cost of the most current estimate, and the explanation for any change in quantity and cost from prior reports.

3. If applicable, a copy of the acquisition decision memorandum, together with a copy of the Letter of Assessment signed by the Director of Testing and Evaluation.

The requirements described under this heading shall replace those included in Senate Reports 111–31 and 112–74.

Office of the Chief Procurement Officer

A total of \$78,000,000 is provided for “Office of the Chief Procurement Officer” (OCPO), including an increase of \$3,403,000 to enhance DHS acquisition capabilities.

OCPO shall brief the Committees no later than February 15, 2012, on its acquisition workforce initiative, as directed in the House and Senate reports, including: a baseline analysis of its workforce and requirements used in defining the gaps in DHS acquisition capacity and determining the skill sets and positions needed to fill those gaps; risks of not filling needed positions; and the long-term strategy to close competency gaps. In cases where component requests for the Federal Acquisition Workforce Initiative were not funded at the requested amount, components should use existing appropriations and fee authority to hire and train highly qualified acquisition personnel for which there are clearly defined requirements.

Office of the Chief Human Capital Officer

A total of \$39,337,000 is provided for “Office of the Chief Human Capital Officer” (OCHCO), including an increase of \$688,000 for salaries and expenses to enhance the Balanced Workforce Program Office, workforce training, and leadership development. A total of \$14,172,000 is included for the Human Resources Information Technology program.

Secretary's Efficiency Review and the Balanced Workforce Initiative

The Under Secretary for Management and the Chief Human Capital Officer are directed to brief the Committees on Appropriations no later than February 15, 2012, on the results of the Secretary's Efficiency Review and the ongoing Balanced Workforce Initiative. The briefing should cover, by priority, efficiencies identified through the Review and progress in implementing them; components and specific procurements where additional oversight personnel are required and where they are being or are planned to be deployed; and how reforms in headquarters structure and function are improving support and management for Department field operations. The briefing should cover the status of the ongoing Balanced Workforce Initiative; provide the most current list of positions DHS plans to convert from contractor to Federal positions, and progress against that list; and discuss estimated savings from that effort and the methodology used to calculate those savings.

The Department is directed to arrange for an independent evaluation of its efficiency review and provide the results to the Committees on Appropriations no later than 30 days after its completion.

OFFICE OF THE CHIEF FINANCIAL OFFICER

A total of \$50,860,000 is provided for "Office of the Chief Financial Officer." The amount provided includes a decrease from the budget request of \$11,000,000 for the Transformation and Systems Consolidation (TASC) project due to the Department's decision to cancel acquisition plans for TASC.

Annual Budget Justifications

Both Senate and House reports call for improvements in the content, detail, and format of annual Congressional Budget Justifications submitted by the Department and its components. It is essential to the work of Congress that such information be timely, accurate, concise, and organized in such a way that facilitates the comparison of current with proposed appropriations for programs, projects, and activities. Developing comprehensive and clear justifications not only disciplines the planning and resource allocation process but could also reduce the need for ancillary budget explanations and program and project expenditure plans and the associated withholding of funding necessitated by the Department's failure to submit these in a complete or timely manner.

Current budget presentation materials, while lengthy and containing a wide range of program data, do not uniformly provide the information the Committees need to assess the impact of the funding being proposed, how it compares to prior year actual appropriations and funded FTE levels, or to evaluate activities proposed to be continued, terminated, or initiated. Terminology is sometimes ambiguous, or used inconsistently, including terms such as inter-agency transfers or "transfers" between PPAs; adjustments to base; "authorized" rather than "funded" position and FTE levels; or unspecified references to "technical adjustments" or "administrative savings."

Current services descriptions of agency activity and accomplishments, while providing a context for agency operations and budgets, should be consolidated and presented separately from the core justification for appropriations.

To address the concerns described above, the Chief Financial Officer is directed to ensure that fiscal year 2013 budget justifications for classified and unclassified budgets of all Department components are submitted on February 6, 2012, concurrent with the President's budget submission to Congress. The justifications shall include:

1. Detailed data and explanatory descriptions for each appropriations request, and for each PPA reflected in the table accompanying this statement, including offices that have been identified as PPAs. Information regarding actual and planned accomplishments should be in quantifiable terms and demonstrate a direct relationship to funding;

2. Tables that reflect actual and estimated funding by PPA for fiscal years 2011 and 2012; identify each increase, decrease, transfer, and staffing change proposed in fiscal year 2013; and explain such year-to-year changes in terms that are clear and unambiguous, and exclude nonspecific terms such as "technical adjustment" or "administrative savings" unless accompanied by a detailed explanation. To establish a common baseline reference, the fiscal year 2012 discretionary data shall tie to the fiscal year 2012 discretionary total in the table accompanying this statement or have a table identifying each change. Explanations of adjustments to base funding, whether increases or decreases, should be specific, and programmatic changes and initiatives should be clearly identified and justified;

3. For each PPA that is comprised of acquisition and procurement activity, the justification should address all proposed spending using a zero-based budget description;

4. Information by appropriations account and PPA on all reimbursable agreements and significant uses of the Economy Act for each fiscal year;

5. A detailed table identifying the last year that authorizing legislation was enacted into law for each PPA, including the amount of the authorization and the appropriation in the last year of authorization;

6. The text and citation of all Department appropriations provisions enacted to date that are permanent law;

7. Explanations and justifications for all proposed legislative language changes, whether they are new or amend existing law, whether they are substantive or technical in nature, with an annotated comparison of proposed versus existing language; and

8. A report on the status of overdue Committee reports, plans, and briefings for each of fiscal years 2011 and 2012.

Consistent with section 874 of Public Law 107-296, the Department shall submit a Future Years Homeland Security Program budget as part of the fiscal year 2013 budget justification, reflecting anticipated spending for fiscal years 2013-2017. It shall be in unclassified form so as to be accessible to the general public.

Financial Management Improvement

The Office of the Chief Financial Officer is directed to keep the Committees fully informed on financial management improvement plans for the Department, as required in the House and Senate reports, including any centralized or decentralized solutions that would fulfill the objectives originally set for the TASC project and any plans for integrating the Department’s remaining management systems for acquisitions and assets. Balances remain available for TASC from prior-year appropriations, which may be obligated for TASC closeout costs or obligated for additional financial management plans in fiscal year 2012 if a new strategy is approved by the DHS Acquisition Review Board and if the Department completes an independent evaluation to validate that strategy prior to obligation of any of these funds. In order to maintain other Department-wide management initiatives, \$5,000,000 is rescinded from unobligated balances related to this effort. This rescission is from funds appropriated in fiscal years 2005 and 2006.

Nuclear Detection Technology Acquisition

The Office of Program Analysis and Evaluation is directed to undertake an evaluation of the Department’s current approach to acquisition of technology and systems for its nuclear detection mission, which is presently conducted through the Domestic Nuclear Detection Office, and an analysis of alternative approaches, including assigning acquisition responsibilities and resources to component agencies that own and operate the technology. The evaluation shall include a cost-benefit analysis of the relevant options. The results of this review shall be submitted to the Committees no later than 120 days after the date of enactment of this Act.

User Fees

The Department is directed to continue submitting user fee collections and balances on a semi-annual basis rather than quarterly, including steps taken to mitigate any shortfalls in collections.

OFFICE OF THE CHIEF INFORMATION OFFICER

A total of \$257,300,000 is provided for “Office of the Chief Information Officer.”

The amount provided for this appropriation by PPA is as follows:

Information Technology Services	38,800,000
Infrastructure and Security Activities	69,000,000
Homeland Secure Data Network	44,000,000
	\$257,300,000
Total, Office of the Chief Information Officer	\$257,300,000

Salaries and Expenses

A total of \$105,500,000 is provided for “Salaries and Expenses.” Within the funding provided for this appropriation, \$253,000 is provided to strengthen acquisition workforce capabilities.

Infrastructure and Security Activities

A total of \$69,000,000 is provided for “Infrastructure and Security Activities.” The multi-year investment and management plan shall include details on how the activities under this heading are to be funded.

Data Center Migration

Section 556 provides \$70,000,000 for data center migration. The CIO shall notify the Committees on the initial allocation of this funding within 45 days after the date of enactment of this Act. The CIO shall continue to provide quarterly briefings to the Committees on the progress of data center development and migration. Given that component data center migration schedules may shift during the course of the fiscal year based on changing circumstances and priorities the general provision includes authority for the Secretary to transfer funds made available for data center migration, as necessary, among components based on revised schedules and priorities with 15 days prior notice to the Committees.

ANALYSIS AND OPERATIONS

A total of \$338,068,000 is provided for “Analysis and Operations,” of which \$141,521,000 shall remain available until September 30, 2013. No funding is provided for the C2 Gap Filler Technology initiative. The Department’s Chief Intelligence Officer is directed to submit an expenditure plan no later than 60 days after the date of enactment of this Act to the Committees, as required in the Senate report. Additional information on funding levels and reporting requirements are detailed in the classified annex accompanying this statement.

State and Local Fusion Center Program

The Office of Intelligence and Analysis (I&A) is directed to develop robust programmatic justification to better identify and quantify the Federal benefit and return on investment from the State and Local Fusion Center (SLFC) program. I&A shall submit such justification at the time the President’s fiscal year 2013 budget is submitted and provide semi-annual briefings on the fusion center program, in lieu of a quarterly reporting requirement in the House report and quarterly briefing requirements in the Senate report. The first briefing shall occur no later than February 15, 2012, conform to the requirements outlined in the Senate report, and include metrics to judge the success of the SLFC program.

OFFICE OF INSPECTOR GENERAL

A total of \$141,000,000 is provided for “Office of Inspector General,” including \$117,000,000 in direct appropriations and \$24,000,000 transferred from the Disaster Relief Fund (DRF) for audits and investigations related to that funding. The OIG is directed to submit a plan for expenditure of all funds no later than 30 days after the date of enactment of this Act, in lieu of the 90 day requirement in the Senate report. The Office is further directed

to notify the Committees of all transfers from the DRF by including them in the Department of Homeland Security Chief Financial Officer's monthly budget execution reports submitted to the Committees, in lieu of the 15-day advance notification required in the Senate report. These reports shall satisfy the requirements for notification of DRF transfers under section 503 of this Act.

Integrity Investigations

Within the funding provided for this appropriation, an increase of no less than \$4,000,000 is provided for integrity investigations. In lieu of the 45-day requirement in the Senate report OIG is directed to submit, no later than 30 days after the date of enactment of this Act, a plan for expenditure of integrity oversight funds in coordination with CBP and ICE. This plan shall be submitted along with the overall expenditure plan for OIG.

TITLE II—SECURITY, ENFORCEMENT, AND INVESTIGATIONS

U.S. CUSTOMS AND BORDER PROTECTION

SALARIES AND EXPENSES

A total of \$8,680,118,000 is provided for "Salaries and Expenses." The request for Headquarters, Management, and Administration is reduced by \$3,452,000 for the Acquisition Workforce Initiative, the data center migration funds, and \$10,400,000 in additional administrative savings. Data center migration is funded through a general provision. The funding level also reflects an additional \$5,000,000 for integrity programs.

Border Security Inspections and Trade Facilitation is funded at \$2,484,235,000, including the following for requested initiatives: \$44,407,000 for the adjustment for law enforcement journeyman pay costs; \$86,109,000 for prior year annualization of 963 CBP officers; \$20,692,000 for an additional 300 CBP officers at new and expanded ports of entry; \$2,212,000 for additional canine units at ports of entry; and \$7,499,000 to expand the Immigration Advisory Program to four additional locations. Funds provided for the following critical operations include increases above the request:

\$74,557,000 for International Cargo Screening, including \$3,287,000 for the Secure Freight Initiative and \$71,270,000 for the Container Security Initiative;

\$41,400,000 for Automated Targeting Systems which will enable enhancements to one of the Department's most effective counter-terrorism and security capabilities;

\$51,950,000 for the National Targeting Center, including the requested increase of \$16,400,000 for 45 new CBP officers and 20 new analysts, as well as an additional \$5,000,000 to ensure operations are appropriately staffed; and

\$151,298,000 for trade compliance and enforcement efforts in the Office of Trade, including an increase of \$5,000,000 for personnel, enhanced targeting, and strategy development.

The enacted funding level has been adjusted to reflect the passage of Public Law 112-42, which removed the exemption from COBRA fee collections for certain travelers. This will result in ad-

ditional revenue of \$110,000,000 annually and \$83,000,000 in fiscal year 2012, to support CBP inspection services. Such revenue is to directly support 21,186 CBP officers.

Border Security and Control between Ports of Entry is funded at \$3,619,604,000, which reflects an increase of \$191,459,000 for prior year annualization of 1,000 additional agents along with support personnel funded in the fiscal year 2010 Border Security Supplemental, as well as \$184,717,000 for the adjustment for law enforcement journeyman pay costs, as requested. This overall level will support a Border Patrol agent force of 21,370 (compared to 12,349 in fiscal year 2006), including 2,212 deployed to the Northern Border and 18,415 deployed to the Southwest Border.

The amount provided for this appropriation by PPA is as follows:

Headquarters, Management, and Administration:	
Management and Administration, Border Security Inspections and Trade Facilitation	\$667,794,000

Total, CBP Salaries and Expenses	\$8,680,118,000

Revised Budget Structure

CBP is directed to propose a subdivision of the Inspections, Trade, and Travel Facilitation at Ports PPA and the Border Security and Control PPA within the "Salaries and Expenses" appropriation in conjunction with the budget submission for fiscal year 2013. At funding levels of \$2,484,235,000 and \$3,530,994,000, respectively, the PPAs and the accompanying budget justifications have not provided adequate detail for appropriate oversight of these funds. CBP shall brief the Committees on its proposed structure prior to submission of its budget request. For instance, each PPA could be subdivided into budget activities, such as: officer or agent pay, civilian pay, equipment, operations and maintenance, and procurement. CBP should provide a crosswalk from the 2012 budget structure to the new 2013 budget structure so that the

Committees can easily compare funding levels for the activities within these new PPAs.

Further, CBP is directed to comply with the direction included under the heading “Office of Chief Financial Officer” with respect to improved budget justifications.

Financial Plan by Office Requirements

CBP is directed to provide the financial plan by office as required by the Senate report. In addition, CBP shall include its estimate by office with the budget justification material for fiscal year 2013.

Staffing and Fees Supporting CBP Port of Entry Operations

CBP is directed to submit its staffing model for Field Operations no later than February 15, 2012. In addition, CBP shall address the reporting requirements related to manpower and innovation in the House report and considerations related to the staffing model in the Senate report.

Outbound Inspections

CBP shall brief the Committees no later than February 15, 2012, on its plans for outbound operations, as outlined in the House report, and its 3-year strategy to improve and deploy technology for outbound inspections, as discussed in the Senate report.

Entry Process Improvements for Travelers

CBP shall submit a report no later than February 15, 2012, on actions taken to improve the entry process, as discussed in the Senate report.

Trusted Traveler Programs

The Department shall brief the Committees on all DHS trusted traveler programs, as discussed in the Senate report, no later than February 15, 2012.

Cargo Screening Activities

As discussed in the House and Senate reports, CBP shall brief the Committees no later than February 15, 2012, on its guidelines regarding low risk shipments and how it is improving trade processing and coordination.

Non-Intrusive Inspection and Radiation Detection Equipment

CBP is required to provide an investment and management plan for CBP’s Non-Intrusive Inspection and Radiation Detection Equipment needs. The plan shall address all funds from all sources, not just the Inspection and Detection Technology PPA, including funding within the Domestic Nuclear Detection Office “Systems Acquisition” appropriation.

Automated Targeting Systems and National Targeting Center

CBP shall brief the Committees no later than January 13, 2012, on the use of the additional funds provided for these critical activities.

Maritime Supply Chain Security

No funds are provided for the 100 percent scanning pilots proposed in the President's budget request. DHS has failed to provide any details or plans regarding how the proposed \$7,500,000 would be used. Furthermore, while the Administration has been working on a supply chain security strategy to address this mandate, it has still not been submitted to the Committees. For that reason, these funds have been applied to address shortfalls in the request for the Container Security Initiative, a key supply chain security layer.

Border Patrol and Border Security between Ports of Entry

CBP shall submit a report to the Committees no later than 90 days after the date of enactment of this Act on its five-year staffing and deployment plan for the Border Patrol. In addition, the budget justification for fiscal year 2013 shall include a plan detailing staffing and funding for the Northern Border. CBP and ICE shall provide semi-annual briefings on assaults on personnel, threats to the border, and progress made on addressing the threats as required in the Senate report, with the first briefing no later than February 15, 2012. At the first briefing, CBP also shall brief on funds allocated for the health, welfare, and safety of Border Patrol agents, as directed in the House report.

Access to Federal Lands

As provided in the House report, the Departments of Homeland Security, Agriculture, and Interior are directed to brief the Committees no later than February 15, 2012, on their plan to address the Border Patrol's access to Federal lands, as appropriate and necessary, to ensure the border security of the United States. DHS shall also brief the Committees no later than February 15, 2012, on its implementation of GAO's recommendations for border security coordination on Southwest Federal lands contained in GAO-11-38 and GAO-11-177.

Joint Field Command Structure

While CBP allocated funds within its budget for the Joint Field Command (JFC), it is important to understand the cost-benefit for establishing the JFC and whether CBP intends to establish this concept in other areas along the border. As discussed in the House and Senate reports, CBP is directed to brief the Committees no later than February 15, 2012.

Integrity Programs

An additional \$5,000,000 above the amount requested is provided for CBP's integrity programs, for a total of \$165,681,000.

CBP is directed to provide the briefing required in the House report by January 13, 2012.

Detention Statistics

CBP is directed to review how it collects and manages information about individuals arrested and detained in CBP custody for less than 72 hours, including the facilities used for detaining such individuals. The review shall include ways to address data quality, standardize definitions, and utilize current reporting systems to routinely report on short-term detention. In a briefing to occur no later than 120 days after the date of enactment of this Act, CBP shall brief the Committees on its review and on its policies and procedures relating to conditions of facilities and what standards govern the conditions and duration of custody.

Trade Compliance and Enforcement

An additional \$5,000,000 above the amount requested is provided for trade compliance and enforcement efforts. CBP is directed to submit to the Committees the reports specified in the Senate report, including the 3-year trade compliance strategy and the anti-dumping and countervailing duty reports, within the timeframes detailed in that report. In addition, CBP shall submit the reports under the headings “Textile Transshipment Enforcement” and “Circumvention of Customs Duties—Imports from China,” as discussed in the House report, within the timeframes detailed in that report.

Multi-Year Investment and Management Plans

As provided in section 568, CBP is required to submit a multi-year investment and management plan with the congressional budget justification materials for all appropriated funds from all sources executed by the Office of Information Technology (OIT) to provide a full picture of CBP’s information technology activities. It is expected that the acquisition program baselines for Level I and II programs under OIT will be provided as part of the comprehensive acquisition status reports provided by the Under Secretary for Management.

A similar requirement is also included for funds in the “Border Security Fencing, Infrastructure, and Technology” (BSFIT) appropriation.

Transportation of Aliens

In response to OIG inquiries and OIG 11–27, CBP has taken great strides to streamline its costs associated with transportation and removal of aliens between Field Operations and Border Patrol. ICE has also made progress in analyzing and more efficiently managing its transportation costs. The next step, however, has not been taken in a comprehensive manner—exploring options for coordination of transportation locally, regionally, and nationally, or sharing of transportation resources between CBP and ICE given constrained resources across DHS. CBP and ICE are directed to brief the Committees no later than 180 days after the date of enactment

of this Act on the results of their joint efforts to take advantage of such efficiencies.

Office of Technology Innovation and Acquisition

There is no clear plan for the Office of Technology Innovation and Acquisition (OTIA), including staffing and financing. CBP does not have authority to use funds provided to the “Automation Modernization” or the BSFIT appropriations for OTIA expenses. If additional funding from appropriations outside of “Salaries and Expenses” can be justified, a transfer request must be submitted pursuant to section 503 of this Act. All funds for OTIA shall be requested within the “Salaries and Expenses” appropriation for fiscal year 2013.

Invasive Species

CBP is directed to fund activities associated with control of invasive species, such as Carrizo cane, from within the BSFIT appropriation.

AUTOMATION MODERNIZATION

A total of \$334,275,000 is provided for “Automation Modernization.” Of that amount, not less than \$140,000,000 is for the Automated Commercial Environment (ACE). As provided in a general provision, CBP is required to submit a multi-year investment and management plan with the congressional budget justification materials for all funds executed by OIT to provide a full picture of CBP’s information technology activities.

ACE and International Trade Data System

CBP shall brief the Committees on a quarterly basis on ACE progress, including the same information they have previously provided in quarterly reports. CBP shall use funds as necessary for the International Trade Data System (ITDS). Furthermore, prior year balances for ITDS are available for other priorities, such as ensuring completion of Cargo Release as planned. At the second quarterly briefing of fiscal year 2012, CBP shall provide its plans for use of these prior year balances.

TECS

CBP and ICE are directed to jointly brief the Committees on the status of modernization efforts, including their progress and plans forward, on a semi-annual basis.

BORDER SECURITY FENCING, INFRASTRUCTURE, AND TECHNOLOGY

A total of \$400,000,000 is provided for BSFIT. Within the total provided under this heading, \$20,000,000 is for Northern Border technology, \$40,000,000 is for tactical communications, and \$3,000,000 is for environmental assessment and mitigation, as requested. When the amount made available under this heading is combined with unobligated balances, a total of \$774,874,359 is available for this function in fiscal year 2012.

While it is clear that the Border Patrol requires additional tools and technology to execute its critical mission, concerns remain about the proposed Arizona Border Technology Plan and the Administration's slow execution of funds provided in this appropriation. The prolonged delay in procurements, particularly for purchase and upgrade of Remote Video Surveillance Systems, is extremely concerning. Further, the fact that the President's request includes a plan to procure three off-the-shelf integrated fixed tower systems after the Secretary's decision to terminate SBInet, despite the benefits now being realized by the Border Patrol from the system, raises questions. Under the best of circumstances, the contract for two of these towers would not be awarded until the summer of 2012, delaying the execution of the associated funds into fiscal year 2013. As a result, \$60,000,000 is withheld for obligation from this appropriation until a detailed expenditure plan is provided to the Committees, no later than 90 days after the date of enactment of this Act. The expenditure plan shall clearly specify how DHS proposes to allocate funds among the BSFIT PPAs.

Multi-Year Investment and Management Plan

A new multi-year investment and management plan for BSFIT funds is required to be submitted by the Commissioner with the fiscal year 2013 budget request. To the extent possible, CBP is encouraged to incorporate requirements from the multi-year investment and management plan into the fiscal year 2012 expenditure plan.

Invasive Species

CBP is directed to fund activities associated with control of invasive species, such as Carrizo cane from within the BSFIT appropriation.

Review of Contracts and Task Orders

The Inspector General is no longer required to review contracts and task orders on SBInet pursuant to conference report 109-699 accompanying P.L. 109-295.

Communications Along the Border

DHS is encouraged to explore the establishment of public-private partnerships with cellular carriers, residents, and State and local governments to extend mobile communications capabilities in isolated border areas with limited cellular coverage for the purposes of public safety.

AIR AND MARINE INTERDICTION, OPERATIONS, MAINTENANCE, AND PROCUREMENT

A total of \$503,966,000 is provided for "Air and Marine Interdiction, Operations, Maintenance, and Procurement." The funding includes \$365,087,000 for operations and maintenance and \$138,879,000 for procurement. The procurement funds include an additional \$6,900,000 for UH-60 Black Hawk conversions (to ensure completion of two conversions) and \$22,500,000 for purchase

of an additional multi-enforcement aircraft (a high priority for CBP, particularly important given the increasing aircraft retirements CBP expects). Given the increasing reliance by CBP on unmanned aircraft systems (UAS) for patrolling our borders, \$4,000,000 is provided above the request for UAS operations and maintenance. It is imperative that sufficient funds be included in the fiscal year 2013 budget to operate and sustain these systems over multiple shifts.

Civil Air Patrol

As directed in the House report, the Comptroller General shall provide a report regarding the functions and capabilities of the civil air patrol in homeland security. The report shall be submitted no later than November 1, 2012.

Aircraft Upgrades

CBP is required to update its 5-year strategic recapitalization plan, which should also include direction outlined in the Senate report. Strong support for CBP's service life extension program (SLEP) for the P-3 fleet is reiterated. Further, CBP is directed to brief the Committees on its decision regarding the inclusion of the last two P-3's in the SLEP no later than the submission of the President's fiscal year 2013 budget request.

Unmanned Aircraft Operations

CBP is directed to brief the Committees on its efforts with the Department of Defense and the Federal Aviation Administration on ways to increase effective use of CBP air assets, including UAS. Further, the briefing shall include information regarding any restrictions on UAS operations related to availability of air traffic control.

CONSTRUCTION AND FACILITIES MANAGEMENT

A total of \$236,596,000 is provided for "Construction and Facilities Management." The funding includes \$182,500,000 for Facilities Construction and Sustainment and \$54,096,000 for Program Oversight and Management. Statutory language is included directing the Commissioner to submit annually a real property inventory and requiring submission with the budget request of an annually-updated 5-year plan for all port of entry projects.

Future Land Border Port of Entry Requirements

As detailed in the Senate report, the Department shall work with the General Services Administration and the Office of Management and Budget on a multi-year strategy to address land border port of entry construction requirements and financing options, including the use of public-private partnerships.

U.S. IMMIGRATION AND CUSTOMS ENFORCEMENT
SALARIES AND EXPENSES

A total of \$5,528,874,000 is provided for “Salaries and Expenses” to ensure robust enforcement of our Nation’s immigration laws. Within this amount, no less than \$1,600,000,000 is allocated to finance ICE’s various efforts to identify aliens with criminal records who are incarcerated or at-large, and to remove those who are deportable. Of this amount, \$189,064,000 is provided for continued expansion of the Secure Communities program, \$5,000,000 above the President’s budget request, to digitize paper fingerprint cards and enroll them into DHS’s Automated Biometric Identification System (IDENT). An additional \$4,400,000 is provided for the Visa Security Program above the request to support expansion. The request for Headquarters, Management, and Administration was reduced by \$3,591,000 for the Acquisition Workforce Initiative, the data center migration funds, and \$1,000,000 in additional administrative savings. Data center migration is funded through a general provision.

In addition, ICE is directed to comply with the direction included under the heading “Office of Chief Financial Officer” with respect to improved budget justifications.

The amount provided for this appropriation by PPA is as follows:

ICE Domestic Investigations

For ICE Domestic Investigations, \$1,725,234,000 is provided. ICE is directed to continue to provide quarterly data on investigative activities and expenditures on a timely basis. Of the funds above the request, \$4,000,000 is for enhancing investigations of

antidumping/countervailing duty (AD/CVD) violations, intellectual property rights (IPR) investigations, and severe forms of human trafficking and smuggling activities. ICE is directed to submit to the Committees a plan for expenditure of these additional, targeted resources within 90 days after the date of enactment of this Act. The conferees also direct ICE to submit by February 13, 2012, a 3-year strategy to improve AD/CVD enforcement, per the Senate report, and the information required on the National IPR Coordination Center in the House report.

Improving Immigration Enforcement Activities

A total of \$12,000,000 above the request is provided to improve immigration enforcement activities, of which \$5,000,000 is included in Secure Communities for digitization of paper fingerprint cards from legacy immigration files. Both the House and Senate reports outlined areas for focus, such as: Developing a comprehensive strategy to address the visa overstay problem, modernizing the Alien Criminal Response Information Management System (ACRIME) to support the identification of criminal aliens and individuals attempting to overstay a visa, enhancing ICE capabilities for law enforcement support for immigration-related inquiries from State and local law enforcement, and digitizing old fingerprint records. ICE is directed to brief the Committees, with US-VISIT and other DHS components as appropriate, on its plan for utilization of these funds, no later than 60 days after the date of enactment of this Act. ICE is also directed, in conjunction with US-VISIT and United States Citizenship and Immigration Services (USCIS), to report to the Committees no later than 120 days after the date of enactment of this Act on the methodology of prioritizing files for the digitization effort as well as the overall projected cost of the project to ensure electronic availability of appropriate biometrics in IDENT.

Law Enforcement Support Center

The Law Enforcement Support Center (LESC) is the national entity which provides, among other things, immigration status information about individuals encountered by State and local law enforcement agencies. The significant expansion of Secure Communities has increased the status inquiries submitted by law enforcement. Recently, the LESL has been reorganized and the functions split between the Office of Investigations and Detention and Removal Operations. Prior to the reorganization, the LESL had the flexibility to move personnel between the functions depending on workload, but it now appears that flexibility has been lost. Additionally, as Secure Communities has matured, some of the early resource allocation decisions would benefit from further review, specifically regarding the creation of the Interoperability Response Centers. ICE is directed to review the separation of LESL functions and the requirements of the Interoperability Response Centers and brief the Committees 90 days after the date of enactment of this Act. In addition, concerns have been raised about the progress of modernization of the information technology systems that sustain the Law Enforcement Support Center, such as ACRIME. ICE is di-

rected to brief the Committees no later than 30 days after the date of enactment of this Act on the current status of ACRIME modernization and any revised development timelines.

Visa Security Program

A total of \$33,889,000 is provided for the ICE Visa Security Program, an increase of \$4,400,000 above the amount requested for expansion of the program to two additional overseas consular posts. ICE is directed to brief the Committees in a classified format no later than 60 days after the date of enactment of this Act on its plan for utilizing these additional funds.

Investigative Resources

ICE is directed to brief the Committees no later than February 15, 2012, on its efforts throughout the Caribbean basin, as outlined in the House report.

Intelligence

ICE is encouraged to ensure the Office of Intelligence supports investigations into AD/CVD violations, IPR violations, and human trafficking and smuggling organizations.

Detention and Removal Operations

A total of \$2,750,843,000 is provided for ICE Detention and Removal Operations, \$26,718,000 more than the request to raise the minimum number of detention bed spaces that ICE must maintain on a daily basis to 34,000. ICE is directed to intensify its enforcement efforts, fully use these resources, and manage detention and removal costs as efficiently as possible. As outlined in the House report, ICE is directed to provide comprehensive, regular briefings to the Committees on all steps being taken to reduce the costs of detention and removal, including: strategies to minimize transportation costs and house detainees at the lowest cost facilities; working with the Executive Office of Immigration Review (EOIR) to speed processing consistent with due process; continuing to review contracts to ensure maximum flexibility and lowest cost to ICE; and considering the cost-benefits of public and private providers for all services, including food and medical services. As required in the House and Senate reports, ICE is directed to brief the Committees on its detention bed space funding model, providing details on its bed space costs across the country and on the components of those costs, including food, medical, mental health, dental, pharmacy, and electronic health record services by location, and whether these components are provided by public agencies or private contract services. Such services must be aligned to humanitarian needs and should be provided in a cost-effective manner. The first comprehensive briefing shall take place no later than 30 days after the date of enactment of this Act.

Additionally, ICE is encouraged to look at ways to increase the short-term detention capacity in certain regions of the United States while minimizing the loss of existing detention capacity, personnel, and contracts at other facilities. ICE shall brief the Com-

mittees semi-annually on its efforts regarding detention space alternatives, as discussed in the Senate report.

Secure Communities

A total of \$189,064,000 is provided to continue implementation of the Secure Communities program. ICE is directed to continue quarterly reports on the Secure Communities program, submit those reports within 45 days of the close of the quarter, and provide briefings within 45 days of the close of the quarter. Further, ICE is directed to develop analyses, for inclusion in these reports, to track the effect Secure Communities is having on ICE detention facilities, the EOIR docket, and the speed with which ICE is able to remove criminal aliens and high-risk detainees from the country once they are judged deportable. The reports shall also provide statistics on results of the program, including the number of individuals administratively arrested by ICE in each jurisdiction by the crime for which they are charged and the crime for which they have been convicted (if applicable); the number of individuals whom ICE identifies each quarter and intends to administratively arrest but must await the adjudication of the individual's criminal charges and/or the completion of a sentence as well as identify the crimes for which they are charged and crimes for which they have been convicted (if applicable); and the number of removals achieved as a result of the program, as outlined in the Senate report. Additionally, the briefings shall include quarterly data on the number of instances in which Secure Communities identifies when someone who is arrested is in this country illegally, the number of times ICE issues a detainer on such individuals (delineated by categories stipulating the reasons why a decision is made to issue or not issue a detainer), and the number actually deported.

Secure Communities is an effective and significant law enforcement tool; its deployment and use should not be hampered by any jurisdiction or official. It is important to remember that Secure Communities is applied to everyone booked into a jail. All individuals are treated the same, and no profiling occurs. Through the use of biometrics, ICE is able to determine not only an individual's immigration status, but also if the individual has committed more serious crimes in the past.

ICE is directed to brief the Committees no later than February 15, 2012, on any considerations associated with realigning the Secure Communities program under the Criminal Alien Program after interoperability has been accomplished.

ICE Support to State and Local Law Enforcement

ICE is directed to update the Committees on its progress toward closing all OIG recommendations on the 287(g) program no later than January 13, 2012. The Department is directed to immediately provide the status of all pending memoranda of agreement for 287(g) participation.

Hiring and Staffing Reports

ICE shall submit quarterly staffing and hiring reports. Further, as directed in the House report, ICE shall brief the Committees on appropriate staffing levels.

Worksite Enforcement

Of the funds provided for Domestic Investigations, \$134,626,000 is for worksite enforcement activities, as requested. ICE is directed to brief the Committees quarterly on how it is meeting this level of effort no later than 30 days after the end of each quarter. Further, ICE shall provide an annual report on worksite enforcement activities as directed in the Senate report.

Detention and Removal Reporting

Statutory language is included, as requested, ensuring that all illegally present or otherwise removable aliens encountered when enforcing our immigration laws are apprehended. However, the Department does not collect or report comprehensive statistics on all of its encounters with inadmissible and deportable aliens by source as well as the disposition of all such encounters. For that reason, ICE, in conjunction with CBP and USCIS, is directed to develop a methodology and a means of collecting and reporting such information on a quarterly basis for fiscal year 2013. In the most transparent, concise manner possible, the reporting should cover all actions in the reporting period for all stages of the immigration enforcement process: encounters by identification source (i.e., Fugitive Operations, Criminal Alien Program, Border Patrol Southwest border between ports); subsequent enforcement action by agency (i.e., expedited removal, arrest, detention, release); detention/non-detention by program (i.e., ICE detention, bond, alternatives to detention); and processing/removal outcome (i.e., deferred action, relief, removal, administrative closing). The reporting shall clearly provide the number of aliens who received deferred action, including a renewal or extension of previously-granted deferred action. ICE, CBP, and USCIS shall brief the Committees no later than 120 days after the date of enactment of this Act on the developed methodology and means of collecting and reporting, including any information technology issues. Additionally, the agencies shall note where this comprehensive reporting could supersede other reports currently provided.

For fiscal year 2012, ICE is directed to continue reporting quarterly on detention and removal, including the number of deportation, exclusion, and removal orders sought and obtained by ICE. The first fiscal year 2012 quarterly report is to be submitted no later than February 15, 2012. ICE shall include "policy closure" reporting subdivided to clearly report where deferred action has been granted.

Personnel Recovery Units

ICE is directed to brief the Committees no later than February 15, 2012, on its interest in establishing a trained unit to handle abduction or evacuation of ICE personnel.

Multi-Year Investment and Management Plan

As provided in Section 568, ICE is required to submit a multi-year investment and management plan with the congressional budget justification materials for all funds executed by the Office of Information Technology (OIT) to provide a full picture of ICE's information technology activities. It is expected that the acquisition program baselines for Level I and II programs under OIT will be provided as part of the comprehensive acquisition status reports provided by the Under Secretary for Management.

Transportation of Aliens

In response to OIG inquiries and OIG Report 11-27, CBP has taken great strides to streamline its costs associated with transportation and removal of aliens between Field Operations and Border Patrol. ICE has also made progress in analyzing and more efficiently managing its transportation costs. The next step, however, has not been taken in a comprehensive manner—exploring options for coordination of transportation locally, regionally, and nationally, or sharing of transportation resources between CBP and ICE given constrained resources across DHS. CBP and ICE are directed to brief the Committees no later than 180 days after the date of enactment of this Act on the results of their joint efforts to take advantage of such efficiencies.

Unexpended Construction Balances

ICE is directed to brief the Committees no later than February 15, 2012, on the unexpended balances in the ICE Construction appropriation.

AUTOMATION MODERNIZATION

A total of \$21,710,000 is provided for “Automation Modernization.” CBP and ICE are directed to jointly brief the Committees on the status of TECS modernization efforts, including their progress and plans forward, on a semi-annual basis.

Transportation Security Administration

AVIATION SECURITY

A total of \$5,253,956,000 is provided for “Aviation Security.” In addition to the amounts appropriated, a mandatory appropriation totaling \$250,000,000 is available through the Aviation Security Capital Fund. Statutory language reflects the collection of \$2,030,000,000 from aviation security fees, as authorized.

The amount provided for this appropriation by PPA is as follows:

Screening Operations:	
Screener Workforce:	
Privatized Screening	\$ 144,193,000
Screener Personnel, Compensation, and Benefits	3,025,771,000
	<hr/>
Subtotal, Screener Workforce	3,169,964,000

Checkpoint Support	204,768,000
EDS/ETD Systems:	
EDS Procurement and Installation	222,738,000

Screening Technology Maintenance and Utilities	320,365,000
Subtotal, EDS/ETD Systems	543,103,000
Subtotal, Screening Operations	4,167,631,000
Aviation Security Direction and Enforcement:	
Aviation Regulation and Other Enforcement	369,984,000
Airport Management and Support	570,226,000
Federal Flight Deck Officer and Flight Crew Training	25,461,000

Subtotal, Aviation Security Direction and Enforcement	1,086,325,000
Total, Aviation Security	\$5,253,956,000

Impact of Checked Baggage Fees

As noted in the Senate report, TSA checkpoint screening costs have risen significantly as a result of the growth in the volume of carry-on baggage transported by passengers in response to the imposition of checked baggage fees by most airlines. This increase in checkpoint screening costs, however, comes at the expense of other TSA security programs, and none of the air carrier revenue collected from the checked baggage fees has been used to offset the additional TSA workload. The Department is encouraged to work with the relevant authorizing Committees to find ways to recoup these costs, and ensure the best alignment between resources needed to achieve and sustain both security and efficient checkpoint operations.

Privatized Screening

A total of \$144,193,000 is provided for "Privatized Screening." TSA is to give full and fair consideration to applicants for participation in the Screening Partnership Program that can demonstrate their capacity to undertake passenger and baggage screening in a manner more cost effective than TSA and to provide a level of security comparable to that of Federal screening. If TSA approves the applications, it is authorized, and expected, to finance the transition to privatized operations using funding within "Screening Operations".

Screener Personnel and Training

A total of \$3,025,771,000 is provided for the "Screener Personnel, Compensation, and Benefits" PPA, and a total of \$249,796,000 is included for the "Screener Training and Other" PPA. Language is included that limits TSA's use of funds to recruit or hire more than 46,000 full-time equivalent screeners. The limitation does not apply to screeners hired as part-time employees. Statutory language is included that requires the Secretary to submit to the Committees no later than 90 days after the date of enactment of this Act a detailed report on how DHS is using its resources to develop more capable and cost-effective screening technology. The report shall also detail how it is deploying its existing workforce to optimize screening operations, their effectiveness, and labor savings from improved technology deployment, including how such savings are employed or reinvested. Funding is included to staff 250 new advanced imaging technology (AIT) systems, with the expectation that hiring for those positions will occur later than as-

sumed in the request due to procurement delays. As directed in the Senate report, TSA is to work in coordination with airlines, airports, and cross-disability/medical organizations to design education and outreach programs that ensure access to the Nation's aviation system is available to everyone. TSA shall also work with airports to expand mock boarding events, such as those held for families with autistic children, and shall continue to improve the screening process for young passengers, as directed in the Senate report. TSA is to brief the Committees no later than 90 days after the date of enactment of this Act on its efforts in these areas.

Behavioral Detection Officers

Funding is included for 145 new behavioral detection officers (BDO). TSA is directed to brief the Committees no later than 90 days after the date of enactment of this Act on its plans and actions to implement recommendations rising from the study of Screening of Passengers by Observation Techniques (SPOT) that was sponsored by the Science and Technology Directorate. In addition, the briefing should cover how TSA is addressing issues raised in recent Government Accountability Office reviews of the program. These include validation, management, and communications issues identified in GAO-10-763 and recommendations for approaches to BDO assignment and cost-benefit analysis included in GAO-11-461T and GAO-10-157. Finally, the briefing should describe what TSA is doing to ensure its standardization testing of the SPOT program is carried out at airports with a frequency that will support consistent program execution and optimal BDO training.

Checkpoint Support

A total of \$204,768,000 is provided for "Checkpoint Support," including funding for 250 new AIT systems and other security technology requested and listed in the Senate report. This excludes \$39,200,000 requested for explosives trace detection systems funded in fiscal year 2011, and an additional \$4,000,000 due to other acquisition delays. TSA is directed, as detailed in the Senate report, to brief the Committees no later than 30 days after the date of enactment of this Act on AIT procurement and deployment details and on progress in developing and deploying additional automated target recognition capability. In addition, TSA is directed to include a five-year budget estimate with each annual Congressional budget justification, beginning with its fiscal year 2013 submission, that projects funding for each passenger screening technology acquisition as specified in the Senate report.

Facilitating Passenger Screening and Reducing Wait Times

TSA is directed to brief the Committees no later than 90 days after the date of enactment of this Act on its efforts to meet a goal of keeping average passenger wait times below 10 minutes at screening checkpoints. Once TSA has begun deploying new automated wait time technology funded by this Act, TSA is directed to provide quarterly briefings to the Committees on wait times at screening checkpoints where such technology is in place.

Exit Lane Security

The TSA Administrator shall submit a report to the Committees no later than 180 days after the date of enactment of this Act making recommendations for improving security at each airport location where passengers exit the sterile area, as specified in the Senate report.

Explosives Detection Systems

A total of \$472,738,000 is provided for “Explosives Detection Systems (EDS) Procurement and Installation,” including \$250,000,000 in mandatory funding from the Aviation Security Capital Fund and \$222,738,000 in discretionary funding. Not less than 10 percent of the funds provided shall be available for the purchase and installation of certified EDS at medium- and small-sized airports. Allocation of this funding between new projects, recapitalization, advanced surveillance systems, and payroll shall be detailed in the fiscal year 2012 EDS expenditure plan. In addition, the expenditure plan is to address the issue of eligible EDS costs incurred by airports that were not recipients of funding agreements, as specified in the Senate report.

Screening Technology Maintenance and Utilities

A total of \$320,365,000 is provided for the “Screening Technology Maintenance and Utilities” PPA, which reflects downward adjustments in estimates for the cost of maintenance warranties.

AVIATION REGULATION AND OTHER ENFORCEMENT

A total of \$369,984,000 is provided for the “Aviation Regulation and Other Enforcement” PPA, including an increase of \$3,500,000 above the request for international security enhancements related to air cargo security; \$5,000,000 above the request for 20 new canine teams; and \$11,755,000 for 12 new Visible Intermodal Prevention and Response (VIPR) teams, with the assumption that personnel for the teams will not be hired until late in fiscal year 2012. Air Cargo

A total of \$120,654,000 is provided for the “Air Cargo” PPA, \$6,000,000 above the request for international security enhancements to air cargo security. In combination with an additional \$3,500,000 provided under Aviation Regulation and Other Enforcement, this funding will support enhanced air cargo inspection and other security oversight and improvements, with the expectation that this will help TSA meet its statutory requirement of 100 percent system-wide screening of air cargo on passenger aircraft, including those originating overseas, and to enhance inspection, investigation, and monitoring efforts on all-cargo flights, including through additional international air cargo inspectors and transportation security specialists to assess all-cargo airports and increase inspection visits at high-risk airports. TSA is to continue working

with U.S. Customs and Border Protection, in furtherance of TSA’s mission, on the application of the Automated Targeting System to screen air cargo bound for the United States on all-cargo and passenger flights. The air cargo expenditure plan shall include progress on these ongoing efforts.

SURFACE TRANSPORTATION SECURITY

A total of \$134,748,000 is provided for “Surface Transportation Security.” TSA is directed to submit a report no later than six months after the date of enactment of this Act on passenger and mass transit rail tunnel security, as specified in the Senate report.

TRANSPORTATION THREAT ASSESSMENT AND CREDENTIALING

A total of \$204,274,000 is provided for “Transportation Threat Assessment and Credentialing.” This includes \$27,800,000 for TTAC Infrastructure Modernization (TIM) in recognition of scheduling delays in the modernization contract and an increase of \$10,000,000 to support risk-based screening.

TSA is directed to brief the Committees no later than 30 days after the date of enactment of this Act on developments in the TIM program, as specified in the House report.

Risk-Based Screening

A total of \$10,000,000 is provided to support risk-based screening efforts, including: the development of systems architecture; the procurement of hardware and software; testing and implementation of new capabilities to expand known-traveler populations; and increases in the effectiveness, security, and efficiency of passenger screening. TSA is directed to report to the Committees no later than 90 days after the date of enactment of this Act on the status of its efforts, including current and planned pilots to develop such a known traveler program, funding requirements, and any legal or resource obstacles to implementation.

Universal Enrollment Centers

TSA is directed to expand the number of Universal Enrollment Centers to achieve at least a 50 percent increase in the number of TWIC enrollment sites and to brief the Committees no later than

180 days after the date of enactment of this Act as specified in the Senate report, on resource needs, security impacts, and prospects for direct shipment of TWIC cards to participants.

TRANSPORTATION SECURITY SUPPORT

A total of \$1,031,926,000 is provided for “Transportation Security Support.”

The amount provided for this appropriation by PPA is as follows:

Headquarters Administration	\$ 292,334,000

Intelligence	<u>42,992,000</u>
Total, Transportation Security Support	\$1,031,926,000

Expenditure Plans

Statutory language is included withholding \$20,000,000 from obligation for “Headquarters Administration” until the Administrator submits detailed expenditure plans to the Committees on air cargo security; checkpoint support; and EDS procurement, refurbishment, and installation on an airport-by-airport basis for fiscal year 2012. These plans should include details on technologies purchased, timelines for deployment, obligation schedules, and actual and anticipated unobligated balances at the close of the fiscal year. TSA shall brief the Committees on a quarterly basis with updates on performance against the expenditure plan.

In fiscal years 2010 and 2011, the Department and TSA failed to comply with statutory direction to provide expenditure plans for checkpoint and EDS activity. For fiscal year 2010, the required plan was submitted April 20, 2011—almost seven months into the next fiscal year. Similarly, TSA has not submitted its plan for fiscal year 2011. Such delays reflect either an inability to compile and transmit information about ongoing and planned activities, or disregard for Congress’ oversight role. For fiscal year 2012, TSA is expected to act expeditiously to deliver the required expenditure plans.

Headquarters Administration

A total of \$292,334,000 is provided for the “Headquarters Administration” PPA, including \$1,998,000 for enhanced acquisition management, as requested, and \$2,000,000 above the request for the TSA Office of Professional Responsibility. In lieu of the Senate briefing requirement related to administrative savings, TSA is directed to clearly delineate assumed savings from reductions to administrative and support functions and assumed efficiencies in its budget justification, as directed in this statement under Departmental Management and Operations “Office of the Chief Financial Officer” heading.

Availability of Appropriations

TSA is directed to brief the Committees no later than February 15, 2012, on a proposed PPA structure that reflects one-year availability of appropriations for salaries and expenses.

Passenger Complaints

TSA is directed to make every effort to ensure members of the traveling public are aware of the procedures and process for making complaints about passenger screening. GAO is directed to complete a review no later than nine months after the date of enactment of this Act on TSA policies and procedures for resolving passenger complaints, including an assessment of the organizational independence of the office.

FEDERAL AIR MARSHALS

A total of \$966,115,000 is provided for "Federal Air Marshals" (FAMS), including \$842,500,000 for Management and Administration and \$123,615,000 for Travel and Training. TSA shall continue to provide quarterly reports on the FAMS mission coverage, staffing levels, and hiring rates as directed in previous appropriations Acts and in the classified annex to this statement.

In light of the significant increase in sustained, enhanced flight coverage since the Christmas Day bombing attempt, TSA is directed to brief the Committees no later than 120 days after the date of enactment of this Act on its analysis of the optimal staffing, scheduling, and resource requirements for FAMS in light of the full range of security capabilities that TSA and the Department can use to complement FAMS operations. This analysis should include an independent assessment of the definitions of flights that present "high-security risks" and whether that review validates the current risk assessment model being used by the FAMS, or whether changes may be required that could warrant adjustments in current staffing levels.

COAST GUARD

OPERATING EXPENSES

A total of \$7,051,054,000 is provided for "Operating Expenses," including \$24,500,000 from the Oil Spill Liability Trust Fund, and including \$598,000,000 for defense activities, of which \$258,000,000 is designated as being for the global war on terrorism and overseas contingency operations. Funds provided in support of the global war on terrorism and overseas contingency operations under this heading may be allocated notwithstanding section 503 of this Act. The Coast Guard is directed to brief the Committees no later than 30 days after the date of enactment of this Act on any changes expected to funding for the global war on terrorism and overseas contingency operations during fiscal year 2012 or projected transition costs expected in fiscal year 2013.

Within the funding provided for this appropriation, the following amounts are provided for requested initiatives: \$10,666,000 for enhancements to marine safety; \$11,485,000 for enhancements to marine environmental response; \$9,300,000 for enhancements to military family childcare; \$39,000,000 for restoration of polar operations funding; \$8,600,000 for network security upgrades; and \$6,300,000 for the Distress Alerting Satellite System.

The amount provided for this appropriation includes the following reductions from the budget request: a decrease of

\$8,000,000 in the costs of data center migration; a decrease of \$18,000,000 in technical adjustments; a decrease of \$12,000,000 in unneeded health care costs; a decrease of \$9,000,000 in unneeded permanent change of station costs; and a decrease in unneeded surface and air asset follow-on operational costs resulting from procurement delays totaling \$7,451,000.

The amount provided for this appropriation includes the following increases above the budget request: an additional \$3,700,000 to annualize fiscal year 2011 funding for marine environmental response capabilities; an additional \$20,300,000 to address unfunded depot level maintenance priorities; and an additional \$4,000,000 for small boat tactical training.

A total of \$75,000,000 is withheld from obligation for Headquarters Directorates until a future-years capital investment plan for fiscal years 2013–2017, as specified in statutory language under the Coast Guard “Acquisition, Construction, and Improvements” heading is submitted to the Committees.

Issues pertaining to the Coast Guard’s classified and sensitive programs are addressed in the classified annex accompanying this statement.

The amount provided for this appropriation by PPA is as follows:

Military Pay and Allowances	\$3,413,061,000

Operating Funds and Unit Level Maintenance	1,109,623,000
Centrally Managed Accounts	336,653,000
Intermediate and Depot Level Maintenance	936,140,000
Global War on Terrorism Overseas Contingency Operations	258,000,000
<hr/>	
Total, Operating Expenses	\$7,051,054,000

Depot Level Maintenance

An additional \$20,300,000 above the amount requested is provided to partially address the backlog of critical, but unfunded depot maintenance activities, as proposed by both the House and the Senate. In lieu of the specified subdivision of this funding enhancement contained in the House report, the Coast Guard is directed to provide the Committees within 30 days after the date of enactment of this Act a plan for expenditure of these additional funds. Furthermore, the Coast Guard is directed to apply a portion of these funds to the most urgent, but unfunded maintenance projects pertaining to the improvement of crew habitability aboard legacy cutters. Funds allocated toward crew habitability improvements shall be clearly delineated in the required expenditure plan.

Administrative Savings, Efficiencies, and Reductions to Support Functions

The Coast Guard is directed to clearly delineate assumed savings from reductions to administrative and support functions and assumed efficiencies in its annual budget justification, as directed by both the House and Senate, and as directed in this statement under the Departmental Management and Operations “Office of the Chief Financial Officer” heading.

Performance Metrics

The Coast Guard shall continue to include performance metrics, with particular emphasis on measures of operational proficiency, as well as all Government Performance and Results Act reporting requirements within its annual budget justification in lieu of the direction regarding a distinct submittal contained in the House report.

Financial Management

In lieu of the direction contained in the House and Senate reports, the Coast Guard is directed to semi-annually brief the Committees on its efforts to address material weaknesses in financial management. These briefings shall include, but not be limited to: the progress towards achievement of obtaining an unqualified opinion with respect to unauditables; progress towards implementation of the Financial Strategy for Transformation and Audit Readiness plan; and detailed explanations of how the Coast Guard is working with the DHS Office of the Chief Financial Officer on such efforts. The first of these semi-annual briefings shall occur no later than March 15, 2012.

Maritime Surveillance

The Coast Guard is directed to submit the two reports regarding maritime surveillance hours no later than February 15, 2012, as required in the House report.

Marine Safety and Marine Environmental Protection

A total of \$15,185,000 is provided for marine environmental response enhancements, including an additional \$3,700,000 to annualize fiscal year 2011 costs. In addition, \$10,666,000 is provided for marine safety enhancements, as requested. Within 45 days after the date of enactment of this Act, the Coast Guard is directed to submit to the Committees the following: the updated Marine Safety Performance Plan, as directed in the Senate report; the Marine Environmental Response Mission Performance Plan, as directed in the House report, to include the specified reporting requirements delineated in the Senate report; and a 5-year strategic plan, including comprehensive funding estimates, to implement marine environmental protection mission requirements, as specified in the Senate report.

Gulf of Mexico Oil Spill Response

The Coast Guard is directed to submit a plan no later than 90 days after the date of enactment of this Act for addressing the recommendations contained in the Incident Specific Preparedness Review that was issued following the sinking and subsequent oil outflow from the Mobile Offshore Drilling Unit Deepwater Horizon, as required in the Senate report.

Coast Guard Yard

The Coast Guard Yard located at Curtis Bay, Maryland, is recognized as a critical component of the Coast Guard’s core logistics capability which directly supports fleet readiness. The Yard has been a vital part of the Coast Guard’s readiness and infrastructure for more than 100 years and the Committees believe sufficient industrial work should be assigned to the Yard to maintain this capability.

Comprehensive and Quarterly Acquisition Status Reports

To strengthen oversight for all Departmental acquisition programs, a statutory requirement is included for the Department of Homeland Security Under Secretary for Management to submit to the Committees a comprehensive acquisition status report in tandem with the fiscal year 2013 budget request with quarterly updates on any deviations. Because the Department-wide comprehensive report will encompass Coast Guard acquisition data, a duplicative effort to submit Coast Guard specific quarterly reports is no longer necessary or required. In addition, acquisition specific information is required in the Coast Guard Capital Investment Plan (CIP), which has been expanded for the purpose of in-depth oversight. GAO shall review the CIP and brief the Committees on the results of the review.

In lieu of separate briefings on individual acquisitions, as required in the Senate report, the Coast Guard shall brief the Committees quarterly on all major acquisitions. These briefings shall include: the objective for operational hours the Coast Guard expects to achieve; the gap between that objective, current capabilities, and stated mission requirements; and how the acquisition of the specific asset closes the gap. The information presented at these required briefings shall also include a discussion of how the Coast Guard calculated the operational hours, an explanation on

risks to mission performance associated with the current shortfall, and the operational strategy to mitigate such risks.

Fleet Mix Analysis

The Coast Guard is directed to submit to the Committees phases one and two of the Fleet Mix Analysis and the Cutter Fleet Mix Analysis, as specified by the Senate report.

National Security Cutter

A total of \$77,000,000 is repurposed from the budget request and provided for the acquisition of long-lead time materials necessary for production of the sixth National Security Cutter (NSC). In addition, statutory language specifies immediate availability of these funds, notwithstanding the availability of funds for production costs or post-production activities. The funding to support long-lead time materials along with the statutory direction is intended to enable a contract award approximately 90 days after the date of enactment of this Act. As noted in both the House and Senate reports, the Committees disagree with the Administration's current acquisition policy towards the NSC since it will result in substantially higher costs to the Coast Guard and the taxpayer, extension of the NSC acquisition program baseline, significant engineering inefficiencies, and an increased strain on the Coast Guard's legacy assets, including escalation of maintenance costs. By contrast, the funding of long-lead time materials in fiscal year 2012 will accelerate NSC production and result in not only direct savings of \$45,000,000 to \$60,000,000 per cutter, but also expedite completion of the NSC acquisition program baseline of eight NSCs. The conferees strongly support the acquisition of the planned eight NSCs in the most cost effective manner within the guidelines of proper program oversight and governance.

Offshore Patrol Cutter

Notwithstanding the direction of the Senate report, the Coast Guard is directed to include updated information on the acquisition of the Offshore Patrol Cutter within the required comprehensive and quarterly acquisition status reports, as described in this statement under the Departmental Management and Operations "Under Secretary for Management" heading.

Fast Response Cutter

As requested, a total of \$358,000,000 is provided for the acquisition of six Fast Response Cutters (FRCs) and the re-procurement data and licensing rights package (RDLP). Funding for six cutters is provided to maximize production capabilities and to realize a total savings of \$30,000,000, or \$5,000,000 per FRC. Funds provided for the RDLP should sustain the acquisition program baseline and enable the planned re-competition of the next FRC contract award.

Response Boat-Medium

As requested, \$110,000,000 is provided to acquire 40 Response Boat-Mediums (RB-Ms). The acquisition of 40 RB-Ms will enable the Coast Guard to complete the RB-M acquisition program baseline one year ahead of schedule and achieve programmatic savings of approximately \$6,000,000.

C4ISR

An additional \$4,000,000 above the amount requested is provided to support the costs of installation of modernized communications systems on legacy cutters. The Coast Guard shall notify the Committees no later than February 15, 2012, on the planned expenditure of these additional funds as well as its deployment plan for C4ISR upgrades to the NSC fleet.

In-Service Sustainment

The Coast Guard shall develop a long-term plan of investments to address its in-service cutter sustainment requirements, as described in the Senate report.

Rotary Wing Aircraft Reset

As requested, \$18,300,000 is provided for a replacement HH-60 helicopter.

Long-Range Surveillance Aircraft

A new PPA combining HC-130J acquisition and HC-130H refurbishment is established, as directed by the House, in order to allow the Coast Guard to leverage its limited funding for the most cost effective budgeting for Long Range Surveillance Aircraft. The Coast Guard is directed to brief the Committees by February 15, 2012, on its evaluation of options presented in the recently completed Naval Air Systems Command business case analysis of the optimal mix of refurbished HC-130Hs and new HC-130Js.

Unmanned Aircraft Systems

Funding for unmanned aircraft systems is addressed under the Coast Guard "Research, Development, Testing, and Evaluation" heading and is not provided in this appropriation.

Program Oversight and Management

A total of \$26,000,000 is provided for Program Oversight and Management, a reduction of \$9,000,000 from the request due to budgetary constraints. This PPA is renamed from, "Government Program Management" to more accurately reflect the nature of the activities supported by the funding provided. The Coast Guard shall provide a more detailed budget justification, by activity, for this PPA in the fiscal year 2013 budget justification materials.

Major Shore Construction, Aids to Navigation, and Survey and Design

As requested, \$92,900,000 is provided for Major Shore Construction, Aids to Navigation, and Survey and Design. The Coast Guard is directed to submit a prioritized list of shore construction projects, as directed in the Senate report, which includes all unfunded and backlogged projects, to the Committees no later than 45 days after the date of enactment of this Act.

Infrastructure Improvement Plan for the Coast Guard Training Center

The Coast Guard shall submit to the Committees a plan to upgrade the barracks at the Coast Guard Training Center to include fire suppression systems and gender-equivalent facilities, as specified in the Senate report.

Major Acquisition Systems Infrastructure

A total of \$81,500,000 is provided for Major Acquisition Systems Infrastructure, a reduction of \$13,000,000 from the amount requested due to revised cost estimates. The Coast Guard is directed to submit a current expenditure plan on selected homeports to the Committees no later than 45 days after the date of enactment of this Act. Furthermore, the Coast Guard is directed to include within its annual budget justification materials the associated infrastructure costs of each operational asset proposed to be acquired.

Military Housing

As requested, \$20,000,000 is provided for military housing. The Coast Guard is directed to provide an exhaustive, prioritized listing of all military housing needs to the Committees no later than 45 days after the date of enactment of this Act.

Acquisition Personnel

A total of \$110,192,000 is provided for the direct costs of acquisition personnel. However, these funds do not support the costs of the requested enhancement to acquisition staffing due to: (1) an inadequate budget justification that does not fully explain baseline capabilities and how existing gaps in skills and capabilities will be addressed by the requested enhancement; and (2) the fact that the Coast Guard has not adequately budgeted to support the existing acquisition workforce. Therefore, the funds provided are intended to annualize the full costs of supporting acquisition personnel and related support to include resources that were reprogrammed at the request of the Coast Guard in fiscal year 2011. The Coast Guard is directed to brief the Committees on acquisition personnel management, as required by the Senate report, no later than February 15, 2012. This briefing shall also include a proposal for incorporating funding for acquisition staffing within the Coast Guard "Operating Expenses" appropriation and a method for tracking the budget for this function if it were to be merged with the funds that

currently support personnel within the “Operating Expenses” appropriation.

RESEARCH, DEVELOPMENT, TEST, AND EVALUATION

A total of \$27,779,000 is provided for “Research, Development, Test, and Evaluation” (RDT&E). The Coast Guard is directed to revise its annual budget justification for this function, as per the standards and direction contained in this statement under the Departmental Management and Operations “Office of the Chief Financial Officer” heading. This revised justification shall also include a prioritized listing of planned RDT&E activities relative to stated mission needs and goals.

Unmanned Aircraft Systems

Within the amount provided under this heading, \$8,000,000 is provided for cutter-based unmanned aircraft systems (UAS). This funding, in addition to amounts previously appropriated, is provided for the purposes of procurement of shipboard integration equipment and to support an advanced concept technology demonstration.

RETIRED PAY

A total of \$1,440,157,000 is provided for “Retired Pay”. The Coast Guard’s “Retired Pay” appropriation is a mandatory budgetary activity.

UNITED STATES SECRET SERVICE

SALARIES AND EXPENSES

A total of \$1,661,237,000 is provided for “Salaries and Expenses.” Within this total, the following amounts are provided for requested initiatives: \$57,300,000 for Operational Mission Support enhancements (within “Protection of Persons and Facilities”); \$113,462,000 for 2012 Presidential Campaign costs; \$19,307,000 for “National Special Security Events”; \$371,000 for enhanced acquisition management support; and \$43,843,000 for “Information Integration and Technology Transformation” (IITT). Of the funds provided for IITT, \$20,000,000 is withheld from obligation for the purchase or installation of information technology equipment until the DHS Chief Information Officer submits a report to the Committees certifying that all plans for integration and transformation are consistent with the Department’s data center migration and enterprise architecture requirements. In addition, the Secret Service is directed to submit an updated, prioritized plan for the execution of Operational Mission Support that reflects the funding provided.

The amount provided for this appropriation by PPA is as follows:

Protection:	
Protection of Persons and Facilities	\$832,463,000
Protective Intelligence Activities	68,125,000
National Special Security Events	19,307,000
Presidential Candidate Nominee Protection	113,462,000

Subtotal, Protection	1,051,829,000

Investigations:	
Domestic Field Operations	223,991,000
International Field Office Administration, Operations and Training	32,971,000
Electronic Crimes Special Agent Program and Electronic Crimes Task Forces	53,051,000
Support for Missing and Exploited Children	8,366,000
<hr/>	
Subtotal, Investigations	318,379,000
Headquarters, Management and Administration	191,588,000
Rowley Training Center	55,598,000
Information Integration and Technology Transformation	43,843,000
<hr/>	
Total, Salaries and Expenses	\$1,661,237,000

Account Structure

The current PPA structure does not provide visibility into the management of funding provided for information technology and system investments, or identify costs associated with the site-specific, critical protective physical infrastructure, which merits ongoing investment and refreshment. The Secret Service is directed to adjust its PPA structure to align to the tables at the end of this statement and to build this revised structure into its fiscal year 2013 budget request. Costs associated with protective mission operations and support, including those based on unit cost elements for staffing and operational activities, excluding facilities and significant infrastructure investments, should continue to be reflected in the existing PPA for protection of persons and facilities. However, the Secret Service is directed to include a new PPA in its fiscal year 2013 budget submission which better captures the costs associated with investment and sustainment requirements for protective infrastructure, for which a substantial increase in funding was requested for fiscal year 2012 under “Protection of Persons and Facilities.”

Overseas Offices

Within the funding provided for this appropriation, \$2,000,000 above the request is provided for the Secret Service to open and staff a new office in Lima, Peru. In lieu of the briefings on field operations required in the House and Senate reports, the Secret Service is directed to provide a briefing on the establishment of the office in Lima, Peru, as well as current and future funding requirements for a permanent office in Beijing, China, no later than February 15, 2012.

ACQUISITION, CONSTRUCTION, IMPROVEMENTS, AND RELATED EXPENSES

A total of \$5,380,000 is provided for “Acquisition, Construction, Improvements, and Related Expenses.”

TITLE III—PROTECTION, PREPAREDNESS, RESPONSE, AND RECOVERY

NATIONAL PROTECTION AND PROGRAMS DIRECTORATE

MANAGEMENT AND ADMINISTRATION

A total of \$50,695,000 is provided for Management and Administration of the National Protection and Programs Directorate (NPPD).

This includes \$7,326,000 for management, planning, and administration activities in the Office of the Assistant Secretary for Infrastructure Protection and \$5,494,000 for the Office of the Assistant Secretary for Cybersecurity and Communications that were previously funded in “Infrastructure Protection and Information Security”.

As discussed under Departmental Management and Operations, “Office of the Chief Financial Officer,” NPPD shall provide, with the submission of the fiscal year 2013 budget request, a fully justified budget by PPA and line item. Further, the budget request shall be submitted in the PPA structure provided in this statement. The budget justification shall also include a full explanation of any funds that are requested with availability in excess of one year including a program description, the reason for the additional required availability, and a schedule for execution of the funding.

Risk Management and Analysis

A recent National Academy of Sciences (NAS) report highlighted several shortcomings in the NPPD Office of Risk Management and Analysis (RMA) program. While the NAS study concluded that the basic risk framework used by RMA is a sound approach to assessing risk, it identified other significant deficiencies in the Office’s risk analysis approach, limiting the level of confidence with which it can be used to support DHS decision-making. The NAS recommended major reforms to the current approach, but to date the Department has not submitted a plan to reform RMA. Such lack of needed reforms is unacceptable in the current fiscally constrained environment. Therefore, the Secretary has been provided the authority to transfer up to \$4,241,000 to the DHS Office of Policy, subject to notification, in order to reform and improve oversight of the Department’s risk management and analysis functions. A transfer is also designed to elevate the importance of a strong risk modeling, analysis, and strategic planning function within the Department. If the Secretary does not submit a notification to transfer the risk management function to the Office of Policy, the funds shall be used to effect the orderly termination of RMA by March 30, 2012.

The Committees must receive the notification for such a transfer no later than 90 days after the date of enactment of this Act. Further, no later than the date upon which the notification is submitted, the Secretary shall provide to the Committees a plan identifying and justifying the specific risk modeling, analysis, and strategic planning functions of value and use to the Department and its individual components. The plan is to include the funding and

personnel being allocated to each function and any reforms being made, including those undertaken in response to the NAS findings.

INFRASTRUCTURE PROTECTION AND INFORMATION SECURITY

A total of \$888,243,000 is provided for “Infrastructure Protection and Information Security” (IPIS), of which \$200,000,000 is available until September 30, 2013. A total of \$93,348,000 is provided for Infrastructure Security Compliance. This amount combined with the carryover balance of \$19,705,120 provides \$113,053,120 for program implementation in fiscal year 2012.

Statutory language is included requiring expenditure plans for the Office of Infrastructure Protection and the National Cyber Security Division. The plans shall include a description by PPA and line item with the associated costs subdivided by quarter. The plan shall provide sufficient detail on the items and services procured and the outcomes of those services or items. As requested in the President’s budget, \$28,927,000 is included for Control Systems Security; \$14,876,000 is included for cyber education; and \$8,012,000 is included for cybersecurity outreach and awareness. Any funding used for acquisition of workforce improvements shall be clearly identified. Funding levels for all Information, Sharing and Analysis Centers, the National Infrastructure Simulation and Analysis Center, and for vulnerability assessments shall also be clearly identified.

A provision that requires an investment and management plan is not included for the National Cybersecurity Protection System as directed in the House report. Additionally, a separate report for Next Generation Network Priority Services is not required as directed in the Senate report. NPPD shall instead comply with the requirements for the Comprehensive and Quarterly Acquisition Status Reports in Departmental Management and Operations under the heading “Under Secretary for Management.”

With respect to sector cooperation, the Under Secretary for NPPD is to provide a report regarding the results of a review to streamline the processes for coordination and information sharing with industry partners, and GAO is to conduct an evaluation of the effort, as directed in the Senate report.

The Under Secretary is directed to provide a report that details the Department’s definition of inherently safer technology as it relates to chemical facilities under the purview of the Chemical Facility Anti-Terrorism Standards program.

FEDERAL PROTECTIVE SERVICE

A total of \$1,261,537,000 is provided for the “Federal Protective Service” (FPS), as requested, for fiscal year 2012. This amount is fully offset by collections of security fees. A provision is included requiring the Secretary and the Director of the Office of Management and Budget to certify, no later than December 31, 2011, that FPS will collect a sufficient amount in fees to cover the total number of FTE requested in the budget, or adjust the fee to cover all costs.

The Director of FPS shall provide an expenditure plan by PPA for fiscal year 2012 no later than 60 days after the date of enactment of this Act. The plan shall include a description by line item and distinct activity with the expenditures subdivided quarterly. With the submission of the fiscal year 2013 budget, the Director of FPS shall comply with the requirements as detailed in Departmental Management and Operations, “Office of the Chief Financial Officer” with respect to fiscal year 2013 budget justifications. The justification provided in fiscal year 2013 shall include all funding sources, including reimbursables.

FPS is directed to provide a strategic human capital plan and a plan to assume security and protection responsibilities from agencies that currently hold delegated authority to the Committees and GAO as directed in the Senate report. Further, GAO is directed to comply with the directions with respect to reviewing such plans.

UNITED STATES VISITOR AND IMMIGRANT STATUS INDICATOR TECHNOLOGY

A total of \$306,802,000 is provided for US-VISIT. No funds are included for the Acquisition Workforce Initiative. Statutory language is included to require a multi-year investment and management plan. In addition, US-VISIT is directed to comply with the direction included under the heading “Office of the Chief Financial Officer” with respect to improved budget justifications.

Overstay Backlog Elimination

Given the current budgetary environment, security requirements that must be met immediately, and the lack of an implementation plan for biometric air exit, unobligated balances from US-

VISIT are rescinded for distribution to other security priorities across the Department for which funds can be more quickly executed. An increase of \$9,400,000 is provided for US-VISIT to prepare a comprehensive plan for implementation of biometric air exit, as well as for improvement of biographic entry-exit matching capabilities and to prevent future overstay backlogs. DHS is encouraged to identify additional funds to enhance funding for its biographic efforts. The Department is directed to brief the Committees no later than January 13, 2012, on its plan for use of these funds, to include elimination of the backlog of “unvetted” overstay records and the prevention of reoccurrence of backlogs.

Semi-Annual Briefings

US-VISIT shall continue to provide briefings to the Committees on biometric exit planning; interoperability in conjunction with its interagency counterparts; hirings and conversions; and other operations. The briefings will be on a semi-annual rather than a quarterly basis.

Identity Management and Screening Services

As required in the House report, US-VISIT shall brief the Committees quarterly on its workload and service levels, including any backlogs that may result from an influx of transactions or new users.

US-VISIT 1.0

Funds are not provided for “US-VISIT 1.0” due to insufficient justification regarding the use of such funds. US-VISIT is encouraged to continue planning efforts for modernization of IDENT, including ensuring that it can operate efficiently to meet the growing and evolving needs of its users and provide the critical capabilities necessary for our Nation’s security. IDENT modernization should be outlined in the US-VISIT investment and management plan.

OFFICE OF HEALTH AFFAIRS

A total of \$167,449,000 is provided for the Office of Health Affairs (OHA). The Assistant Secretary for the OHA is directed to provide an expenditure plan that includes a description by line item and distinct activity, with the expenditures subdivided by quarter, within 60 days after the date of enactment of this Act. Further, OHA is directed to comply with the direction included in Departmental Management and Operations, “Office of the Chief Financial Officer” with respect to improved budget justifications.

A total of \$12,013,000 is provided for the National Biosurveillance Integration System (NBIS), \$5,000,000 above the budget request, including funds to diversify DHS’s biosurveillance capabilities. OHA is not required to collocate the National Biosurveillance Integration Center as directed in the Senate report.

A total of \$5,439,000 is provided for the Chemical Defense Program, of which \$3,000,000 is provided above the request for at least two additional demonstration projects, to be competitively selected.

FEDERAL EMERGENCY MANAGEMENT AGENCY
SALARIES AND EXPENSES

A total of \$895,350,000 is provided for Salaries and Expenses under what was formerly called "Management and Administration." When combined with amounts available from other accounts, a total of \$1,031,378,000 is available for Salaries and Expenses including grant program execution.

The amount provided for this appropriation by PPA is as follows:

Administrative and Regional Offices	\$110,495,000
Office of National Capital Region Coordination	(5,493,000)
Preparedness and Protection	109,873,000
Response	226,228,000

Recovery	78,373,000
Mitigation	43,675,000
Mission Support	219,433,000
Centrally Managed Accounts	107,273,000
	<hr/>
Total, Salaries and Expenses	\$895,350,000

FEMA shall provide an expenditure plan no later than 90 days after the date of enactment of this Act. The plan shall be detailed by the PPA structure as detailed in this statement and by office. It shall include actual funding from the prior year, the current fiscal year, and deviations between the two years. Each year shall include the number of positions, the number of FTE, the amount for salaries and benefits, and the amount for the program, showing all sources of funding. Specific information regarding the transfer of funding from other appropriations should be included, with the same level of detail currently provided to the Committees.

For fiscal year 2013, the budget request for FEMA shall comply with the direction included in Departmental Management and Operations under the "Office of the Chief Financial Officer" with respect to improved budget justifications. Further, the budget request shall be detailed by office and under the new PPA structure provided and submitted in the same format as the required expenditure plan for fiscal year 2012.

FEMA is directed to study the feasibility to, on a quarterly basis, post on the FEMA website a summary of the financial status of funds appropriated under "State and Local Programs."

FEMA is provided the authority to reprogram funds within "Salaries and Expenses," notwithstanding the requirements of section 503 of this Act. This temporary authority shall expire on April 16, 2012.

A provision is included requiring the Administrator to submit the National Preparedness Report and a comprehensive plan to implement a system to measure the effectiveness of grants to State and local communities to the Committees in fiscal year 2012. Further, \$1,400,000, 25 percent of the funds for the Office of the Administrator, is withheld from obligation until the Report and the plan are submitted.

Within 90 days of the date of the enactment of this Act, the Administrator of FEMA, in consultation with the Commander of the U.S. Army Corps of Engineers (USACE), shall provide a report on the cost of debris removal. Specifically, the report shall address

the disparity between the cost factors for the USACE as compared to other options communities have for debris removal services.

Program, Project, and Activity Restructuring

In order to provide additional visibility, the FEMA “Salaries and Expenses” account, formerly the “Management and Administration” account, has been subdivided into PPA lines. The Administrative and Regional Offices PPA includes the Office of the Administrator, Office of Policy and Program Analysis, Office of External Affairs, Disability Integration and Coordination, Office of Equal Rights, Office of Chief Counsel, Office of the Chief Financial Officer, Office of National Capital Region Coordination, Regional Operations, Federal Coordinating Officers, and Evaluations and Assessments. The Preparedness and Protection PPA includes the Office of Preparedness and National Protection, National Continuity, National Preparedness Directorate, Grants Programs Directorate, and Technical Assistance. The Response PPA includes the Office of Response and Recovery, Response Programs, and Logistics Programs. The Recovery PPA includes Recovery Programs. The Mitigation PPA includes Mitigation Programs. The Mission Support PPA includes the Office of the Associate Administrator, Chief Administrative Officer, Chief Security Officer, Chief Information Officer, Chief Human Capital Officer, Chief Procurement Officer, and Regional Support. The Centrally Managed Accounts PPA includes centrally managed functions in the Office of the Chief Financial Officer as well as the Enterprise Operations in the Office of the Chief Administrative Officer, Chief Information Officer, and Chief Security Officer. The Emergency Management Institute is funded under the “State and Local Programs” account.

Technical Assistance and Evaluations and Assessments

Funding for activities under Technical Assistance and Evaluations and Assessments has been provided under this heading instead of under the “State and Local Programs” account as in previous years. A total of \$10,000,000 is provided for Technical Assistance within the new Preparedness and Protection PPA, and \$10,000,000 is provided for Evaluations and Assessments within the new Administrative and Regional Offices PPA.

Facilities Management

A total of \$12,000,000 is provided for capital improvements at Mount Weather, as requested. Additionally, \$5,000,000 above the requested amount is provided to address unfunded repairs and capital improvement on priority projects across FEMA. None of these funds may be obligated until five days after the Chief Financial Officer (CFO) of FEMA briefs the Committees on an execution plan for these funds.

Automation Modernization

A total of \$13,662,000 is provided for FEMA to address automation modernization requirements. None of these funds may be obligated until five days after the CFO and the Chief Information

Officer (CIO) of FEMA brief the Committees on the execution plan for these funds. A provision is included requiring FEMA to provide a strategic plan within 180 days after the date of enactment of this Act to modernize its automation and information systems. As noted in both the Senate and House reports, a recent OIG report (OIG-11-69) highlighted a systemic information management and systems problem within FEMA which leaves the Agency less able to efficiently and effectively accomplish its mission. FEMA relies on a time consuming and manual process to estimate its needs for disaster relief funding. Further, FEMA has been unable to quantify National preparedness capabilities, and gaps in capabilities, despite Congress's call to do so since before 2007. Lastly, FEMA is unable to efficiently work with partners in homeland security and emergency management due to a lack of comparable technology capability.

The lack of a comprehensive approach and needed investments to modernize systems has also left FEMA less able to integrate the preparedness, prevention, response, mitigation, and recovery missions with which it is charged. The funding and planning requirement established in the Act is to provide the means and the direction for FEMA to modernize for better performance and future cost savings. FEMA shall include the DHS CIO in planning efforts to ensure compatibility with DHS systems where practicable. Further, the needs of the Office of National Capital Region Coordination (ONCRC) shall be considered in the automation and information systems strategy. The Deputy Administrator is directed to brief the Committees within 45 days after the date of the enactment of this Act regarding the implementation of the findings of OIG report OIG-11-69, and the initial effort to formulate the modernization plan for each major component within FEMA. These requirements are in lieu of separate requirements addressed in Senate and House reports with respect to the information technology and modernization within the CIO, Preparedness and Protection, Recovery, Mission Support, and the ONCRC.

Funding for data center migration is not included in this account but is instead addressed under General Provisions in Title V.

Disaster Relief Fund Financial Management Policy

Within 90 days after the date of the enactment of this Act, the Administrator and the CFO of FEMA shall develop a policy and issue guidance on the implementation of the restriction to immediate needs funding, or any other spending restrictions administratively imposed in the Disaster Relief Fund (DRF). This policy shall include thresholds for when a restriction will be implemented and identify which programs are impacted under the restriction. FEMA shall brief the Committees within 90 days after the date of the enactment of this Act on the completed policy. Further, FEMA is directed to notify the Committees no later than 15 days prior to the implementation of immediate needs funding restrictions, to the extent practicable.

To improve the validity and veracity of requests for disaster relief funding in future budgets, the Administrator and the CFO of FEMA shall develop policy and guidance that defines the methodology used to formulate the budget estimate for the DRF. The pol-

icy shall be consistent with the Budget and Control Act and shall include a clear description of the data used as a basis for the request, the office responsible for providing the data, and the source(s) of data used. The Office of the Administrator and the CFO of FEMA shall brief the Committees within 90 days of the date of the enactment of this Act on the proposed policy and guidance. Using this policy and guidance, the CFO of FEMA shall work with a qualified third party organization to review the methodology and create estimating tools that will enable rigorous and more consistent forecasting of the requirements for the Disaster Relief Fund. Up to \$500,000 is provided for this effort. The Committees shall be regularly briefed by the CFO on the status of the project.

Further, to improve the management of the DRF and assistance programs, FEMA needs to improve the quality and timeliness of project worksheets for public assistance grants, as well as the process for sharing that information with regional offices, FEMA headquarters, and the Office of Management and Budget (OMB). Therefore, FEMA shall work with the Homeland Security Studies and Analysis Institute, or an independent organization with expertise in grants management, to review the project worksheet process and flow of information, and provide a report to the Committees no later than May 1, 2012. The organization shall provide recommendations to FEMA and the Committees on how to improve the collection and sharing of grant information between the regions, FEMA headquarters, and OMB. The review shall include a delineation of the time an application, or an application appeal, currently spends at each office and stage of the process including the joint field office, FEMA regional office, FEMA headquarters, DHS, and OMB; and ways to streamline the information and reduce the time needed to adjudicate applications.

Office of the National Capital Region Coordination

A total of \$5,493,000 is provided for the ONCRC. The ONCRC was created to oversee and coordinate Federal programs for and relationships with State, local, and regional authorities in the National Capital Region. Strides have been made in coordinating efforts, especially among the State and local partners, however, there is much more to do, especially in regard to coordination and communication among Federal entities in the area. The Office of the Administrator of FEMA, in conjunction with ONCRC, shall provide a briefing within 60 days after the date of enactment of this Act, on a clear strategy and an action plan to ensure that ONCRC activities are focused in the most efficient and effective manner. The briefing shall provide an understanding of specific outcomes of the ONCRC for fiscal year 2012, and the timeframe in which they will be completed. Further, the Administrator of FEMA is directed to comply with section 882 of the Homeland Security Act of 2002 with respect to the submission of the ONCRC annual report. The annual report shall be submitted within 60 days of the date of enactment of this Act.

A provision is continued requiring the inclusion of the Governors of the State of West Virginia and the Commonwealth of Pennsylvania in the National Capital Region decision-making and planning process for mass evacuation.

Urban Search and Rescue

A total of \$41,250,000 is for the Urban Search and Rescue Response System, an increase of \$6,070,000 over fiscal year 2011. The increase provides for updating the chemical, biological, radiological, nuclear, or explosives equipment for existing teams and to add an additional team, if warranted, to ensure adequate response times and coverage across the Nation. None of the additional funds provided may be obligated until five days after FEMA briefs the Committees on the requirements and justification for the expenditure of funds. FEMA is directed to provide the details of the complete review of the System without delay.

Unaccompanied Minors Registry

A total of no less than \$500,000 is provided to automate the unaccompanied minors registry and call center as directed in the Senate report.

Presidential Policy Directive—8

The conferees are pleased the National Preparedness Goal was submitted this past September, in accordance with the Presidential Policy Directive—8, and expect to receive a report describing the National Preparedness System before January 2012. Within 15 days after receiving the report, FEMA shall brief the Committees on the recommendations of the report, timelines for their implementation, and their budgetary impacts.

STATE AND LOCAL PROGRAMS

(INCLUDING TRANSFER OF FUNDS)

A total of \$1,349,681,000 is provided for State and Local programs. The amount provided for this appropriation by PPA is as follows:

State and Local Programs Grants	\$1,118,000,000
Education, Training, and Exercises:	
Emergency Management Institute	16,181,000
Center for Domestic Preparedness	62,500,000
National Domestic Preparedness Consortium	93,000,000
National Exercise Program	34,000,000
Continuing Training	26,000,000
	<hr/>
Subtotal, Education, Training, and Exercises	231,681,000
	<hr/>
Total, State and Local Programs	\$1,349,681,000

The funds provided for State and Local Program grants are to be allocated according to threat, vulnerability, and consequence to assist high-risk urban areas, States, local and Tribal governments, and other homeland security partners in preventing, preparing for, protecting against, and responding to acts of terrorism. Congress has appropriated over \$34,000,000,000 to homeland security grants to date to build first responder capabilities and secure infrastructure. Given the current fiscal climate, the Department should work with the appropriate Committees of jurisdiction to clearly define the Federal role and reassess the most effective delivery of support

and resources to sustain and improve homeland security capabilities.

The Secretary and the Administrator of FEMA are directed to study the current grant programs in order to make them the most effective and to reduce impediments to the timely expenditure of homeland security grant funds. The results of such study shall be provided to the Committees in conjunction with the required comprehensive plan to implement a system to measure the effectiveness of grants.

Several provisions are included related to grant administration. Grant guidance shall be issued within 60 days, applicants shall apply within 80 days, and award decisions shall be made within 65 days. Grantees may not use more than 5 percent of a grant for grant administration and shall provide reports on the use of funds as determined necessary by the Secretary. The installation of communications towers is not considered construction under State Homeland Security Grants and the Urban Area Security Initiative.

A provision is included allowing the Center for Domestic Preparedness to train certain emergency personnel provided it does not interfere with the primary mission to train state and local emergency response providers.

Funding for the Emergency Management Institute is provided under this heading, instead of under "Salaries and Expenses" (formerly "Management and Administration") as in previous years.

The Department shall brief the Committees on steps taken to ensure community leaders and grantees have the same threat, vulnerability, and consequence information that is available to the Department to ensure applications reflect true risk.

The GAO is no longer required to monitor the development of any system to measure the effectiveness of the grant programs as directed in the House report.

FEMA is required to provide a report on the accomplishments of the Regional Catastrophic Preparedness Grant Program, including how successes can be transitioned to and sustained through future catastrophic planning efforts.

As addressed in both the Senate and House reports, the continued slow expenditure of funds is concerning. FEMA is directed to brief the Committees no later than 90 days after the date of enactment of this Act on plans to expedite the expenditure of funds for interoperable emergency communications, port security, and transit security grants. Particular attention should be placed on funds that were appropriated prior to fiscal year 2008.

FIREFIGHTER ASSISTANCE GRANTS

A total of \$675,000,000 is provided for Firefighter Assistance Grants including \$337,500,000 for firefighter assistance grants and \$337,500,000 for firefighter staffing grants. FEMA is directed to continue the present practice of funding applications according to local priorities and those established by the United States Fire Administration, to maintain an all-hazards focus, and to grant funds for eligible activities in accordance with the authorizing statute. FEMA is required to continue the current grant application and review process as specified in the House report.

EMERGENCY MANAGEMENT PERFORMANCE GRANTS

A total of \$350,000,000 is provided for Emergency Management Performance Grants.

RADIOLOGICAL EMERGENCY PREPAREDNESS PROGRAM

Statutory language is included providing for the receipt and expenditure of fees collected, as authorized by P.L. 105–276.

UNITED STATES FIRE ADMINISTRATION

A total of \$44,038,000 is provided for the United States Fire Administration.

DISASTER RELIEF FUND

(INCLUDING TRANSFER OF FUNDS)

A total of \$700,000,000 is provided in this conference agreement for the Disaster Relief Fund formerly called “Disaster Relief.” The conferees anticipate that an additional \$6,400,000,000 that is designated for major disasters pursuant to 251(b)(2)(D) of the Balanced Budget and Emergency Deficit Control Act of 1985 will be provided in legislation that is being considered in parallel to this conference agreement. Therefore, a total amount of \$7,100,000,000 will be provided for the Disaster Relief Fund for fiscal year 2012 consistent with estimates provided by the Director of the Office of Management and Budget in a letter dated October 19, 2011, and by the Secretary of Homeland Security in the report titled “Disaster Relief Funding Requirements” dated October 21, 2011, pursuant to the legislative requirement in Section 125 of H.R. 2017 (Public Law 112–36). Of the funds provided in this conference agreement, \$24,000,000 shall be transferred to the DHS OIG for audits and investigations related to disasters.

A provision is included amending Public Law 110–161 which exempts FEMA from the permanent requirement to submit a monthly “Disaster Relief” report. A new provision is included updating the timeframes and information which FEMA must report to the Committees on the Disaster Relief Fund. This provision reduces the burden of reporting by FEMA and allows for better oversight of funding requirements by the Committees. There are several previous reporting requirements which are deleted altogether. FEMA is cautioned that such data could be required in the future after a catastrophic event, and FEMA should therefore not lose the capacity to track and provide such information including: Mission Assignment obligations and expenditures by Federal agency; credit card costs and purchases by DHS agencies; and sole source contracts.

A report on the expenditure of funds for disaster readiness and support, including quarterly updates, is required, as in previous years.

A requirement is included in this statement under FEMA Salaries and Expenses to improve DRF budget estimates.

DISASTER ASSISTANCE DIRECT LOAN PROGRAM ACCOUNT

A total of \$295,000 is provided for the cost of direct loans.

FLOOD HAZARD MAPPING AND RISK ANALYSIS

A total of \$97,712,000 is provided for flood hazard mapping and risk analysis.

FEMA is directed to provide no less than 20 percent of the funds provided under this heading for map updates and maintenance conducted by Cooperating Technical Partners (CTPs) that provide at least a 25 percent cash match and have a strong record of working effectively with FEMA on floodplain mapping activities.

NATIONAL FLOOD INSURANCE FUND

A total of \$22,000,000 is provided for salaries and expenses and \$149,000,000 for flood plain management and mapping. Further, \$10,000,000 is provided for the severe repetitive loss program.

NATIONAL PREDISASTER MITIGATION FUND

A total of \$35,500,000 is provided for the National Predisaster Mitigation Fund. The unobligated balance from previous years is \$173,259,000.

EMERGENCY FOOD AND SHELTER

A total of \$120,000,000 is provided for the Emergency Food and Shelter program.

TITLE IV—RESEARCH AND DEVELOPMENT, TRAINING, AND SERVICES

UNITED STATES CITIZENSHIP AND IMMIGRATION SERVICES

A total of \$102,424,000 is provided in discretionary appropriations for USCIS for E-Verify.

FEE FUNDED PROGRAMS

USCIS operations that have been funded through fee revenue should continue to be funded in that manner, including the processing of refugee and asylum claims, Systematic Alien Verification for Entitlements (SAVE), and immigrant integration activities. USCIS is directed to include these costs in its revised fee schedule in recognition of the fact that no additional appropriations will be available to cover the costs of these activities. Further, the table at the end of this statement is updated to reflect these activities as funded through fee collections and includes new projections from USCIS. The requirement in the House report regarding quarterly briefings on fee revenues and obligations is incorporated into the user fee report requirement addressed in this statement under the heading “Office of the Chief Financial Officer.”

DIGITIZATION EFFORTS

USCIS, ICE, and the Executive Office of Immigration Review are directed to brief the Committees on use of digitized records, as required in the House report, no later than March 1, 2012. USCIS is also directed to provide no less than \$29,000,000 to continue conversion of immigration records to digital format.

SYSTEMATIC ALIEN VERIFICATION FOR ENTITLEMENTS

Due to current budgetary constraints, the SAVE program must continue to be funded through user fees and other USCIS fee revenues. USCIS shall explore all opportunities to reduce the burden on State and local benefits agencies that serve as a disincentive to participation. Additionally, USCIS shall ensure that improvements to the Verification Information System benefit both E-Verify and SAVE users.

REAL ID

The Department is directed to brief the Committees no later than April 13, 2012, on the steps being taken to encourage the States to draw down these funds, the progress on draw down, and the specific reasons by jurisdiction for the delay in draw down, as directed in the House report.

IMMIGRANT INTEGRATION GRANTS

Section 551 is included providing \$10,000,000 for immigrant integration grants from fee revenue. No more than five percent of the amount of funds utilized for immigrant integration grants can be used to administer the program.

FEDERAL LAW ENFORCEMENT TRAINING CENTER

SALARIES AND EXPENSES

A total of \$238,957,000 is provided for "Salaries and Expenses," as requested. Within the funds provided, \$29,716,000 is for Management and Administration and \$1,304,000 is for the Federal Law Enforcement Training Accreditation Board.

ACQUISITIONS, CONSTRUCTION, IMPROVEMENTS, AND RELATED EXPENSES

A total of \$32,456,000 is provided for "Acquisitions, Construction, Improvements, and Related Expenses."

SCIENCE AND TECHNOLOGY

MANAGEMENT AND ADMINISTRATION

A total of \$135,000,000 is provided for "Management and Administration," including not to exceed \$8,500 for official reception and representation expenses.

RESEARCH, DEVELOPMENT, ACQUISITION, AND OPERATIONS

A total of \$533,000,000 is provided for "Research, Development, Acquisition, and Operations," including \$265,783,000 for a new consolidated "Research, Development, and Innovation" (RDI) PPA in lieu of the previous, more detailed program areas. Funding is available for three years, except Laboratory Facilities funding, which is available for five years.

The amount provided for this appropriation by PPA is as follows:

Research, Development, and Innovation	\$265,783,000
Laboratory Facilities (Operations and Construction)	176,500,000

Acquisition and Operations Support	54,154,000
University Programs	36,563,000
	\$533,000,000
Total, Research, Development, Acquisition and Operations	

RESEARCH, DEVELOPMENT, AND INNOVATION

The new PPA for RDI will enable S&T to more quickly shift resources, if necessary, between research activities without formal reprogramming or transfer actions. In some instances, research activity may straddle several different missions and thrust areas. S&T and the Department must prioritize this consolidated research budget, which is substantially reduced from recent fiscal years, to focus on areas with the greatest promise for delivering material improvements or tangible contributions to homeland security missions in the near term. This flexibility in funding should facilitate that effort and partially offset the impact of an overall funding reduction.

However, it remains important for accountability and visibility into the S&T research program that a more detailed reporting of research activity be available. Therefore, S&T is directed to submit to the Committees a detailed breakout of RDI funding by research thrust areas and by project, based on the categories presented in the budget justification materials, no later than 30 days after the date of enactment of this Act, and to submit quarterly updates thereafter.

APEX RESEARCH PROJECTS

The Apex initiative focuses on high-priority, high-value projects expected to produce results to solve a homeland security challenge in the near term. To provide the best oversight over these programs, S&T is directed to brief the Committees before initiating any new Apex projects, as specified in the House report. S&T and the Secret Service shall brief the Committees no later than 60 days after the date of enactment of this Act on the protective technology project, to include a progress report and a schedule for test and evaluation under operational conditions.

RESILIENCE AND CYBERSECURITY

S&T is encouraged to continue to support competitively awarded research into disaster resilience with universities and Federal research centers, as well as cybersecurity research and development, as discussed in the Senate report.

LABORATORY FACILITIES (OPERATIONS AND CONSTRUCTION)

A total of \$176,500,000 is provided for Laboratory Facilities (Operations and Construction), of which \$50,000,000 shall be to support the construction of the National Bio- and Agro-defense Facility (NBAF), and of which \$18,200,000 shall be for infrastructure upgrades at the Transportation Security Laboratory as requested. Section 550 in the Act restricts funds appropriated in this Act for NBAF construction until the Department of Homeland Security completes 50 percent design planning for the NBAF, submits a revised site-specific biosafety and biosecurity mitigation risk assess-

ment, and submits the National Academy of Sciences' review of the revised risk assessment. In addition, the revised site-specific biosafety and biosecurity mitigation risk assessment is to include a plan for expenditure of funds related to NBAF construction and a revised estimate of the total construction costs to complete the facility.

NUCLEAR AND RADIOLOGICAL RESPONSE AND RECOVERY

While funding for general transformational research and development of nuclear and radiological threat detection is funded within the Domestic Nuclear Detection Office (DNDO), S&T is directed as part of its fiscal year 2013 budget to give priority to research and development of technology for response and recovery from nuclear or radiological attacks or disasters, as part of its broader support of homeland security response and recovery requirements.

ACQUISITION AND OPERATIONS SUPPORT

A total of \$54,154,000 is provided for "Acquisition and Operations Support." S&T is directed to provide no less than \$6,641,000, as requested, for the establishment of policies and procedures for test and evaluation activities and to monitor and coordinate them across the Department's acquisition framework.

DOMESTIC NUCLEAR DETECTION OFFICE

MANAGEMENT AND ADMINISTRATION

A total of \$38,000,000 is provided for "Management and Administration." The Secretary is directed to submit to the Committees no later than 180 days after the date of enactment of this Act a strategic plan of investments necessary to implement the Department's responsibilities under the domestic component of the Global Nuclear Detection Architecture (GNDA), as required by this Act.

RESEARCH, DEVELOPMENT, AND OPERATIONS

A total of \$215,000,000 is provided for "Research, Development, and Operations."

Operations Support	33,000,000
National Technical Nuclear Forensics Center	23,000,000
<hr/>	
Total, Research, Development, and Operations	\$215,000,000

SEMI-ANNUAL BRIEFINGS

In lieu of quarterly briefings, as directed in the House and Senate reports, DNDO is directed to brief the Committees semi-annually on program updates and to provide periodic updates on any new threats, research, and studies and assessments related to the GNDA. Semi-annual program briefings shall also cover emergent technology solutions being explored by DNDO, such as the human

portable tripwire program; cargo scanning technologies for air, land, and sea ports of entry; long-range detection; small vessel standoff detection; and related programs. Briefings shall include available test and evaluation results.

SYSTEMS ENGINEERING AND ARCHITECTURE

Funding for DNDO’s proposed Mission Critical Messaging program is provided to enhance situational awareness of the GNDA.

SYSTEMS DEVELOPMENT

In lieu of the requirement for an evaluation of DNDO’s acquisitions funding and the appropriateness of consolidating DNDO’s “Systems Development” and “Test and Evaluation Infrastructure Operations” activities within the Department’s Science and Technology Directorate, language is included under the “Office of the Chief Financial Officer” heading in this statement regarding an assessment of the Department’s acquisition organization and performance in support of its nuclear detection mission.

TRANSFORMATIONAL RESEARCH AND DEVELOPMENT

The Department’s request to transfer radiological and nuclear research and development from DNDO to the Department’s Science and Technology Directorate is denied. Instead, a total of \$40,000,000 is provided for Transformational Research and Development (R&D).

The conferees recognize that transformational R&D is funded at a substantially reduced level when compared to prior fiscal years and urge DNDO to leverage partnerships within the Department and the interagency community to realize the Office’s radiological and nuclear research objectives. DNDO is directed to provide a detailed breakout no later than 60 days after the date of enactment of this Act of how it intends to fund transformational R&D activities at the reduced appropriations level, as directed in the House report.

SYSTEMS ACQUISITION

A total of \$37,000,000 is provided for “Systems Acquisition.”

The amount provided for this appropriation by PPA is as follows:

Total, Systems Acquisition	\$37,000,000

RADIATION PORTAL MONITOR PROGRAM

A total of \$7,000,000 is provided for the Radiation Portal Monitor (RPM) program. Reductions from the request are made in light of the Secretary’s decision to cancel the Advanced Spectroscopic Portal (ASP) program as communicated in the Secretary’s letter of October 3, 2011, to the Committees. As a result of the Secretary’s decision, bill language restricting deployment of ASP is not in-

cluded. If a successor program is initiated by the Department, the Committees are to be notified.

SECURING THE CITIES

A total of \$22,000,000 is provided for the Securing the Cities (STC) program, which includes \$2,000,000 for a new STC location beyond the New York pilot. In lieu of the reports required by the House and Senate on the STC program, DNDO is directed to provide a report, before committing funds to a new STC location, that: (1) Provides an evaluation of the New York STC pilot, including lessons learned for future STC sites and corrective actions that are being taken, or will be taken, to reconcile deficiencies identified in exercises and reviews; (2) details efforts to establish a model for STC lifecycle costs; (3) delineates performance measures that will be used to evaluate STC sites; and (4) outlines plans for a Federal transition strategy for the existing and new STC location.

In lieu of quarterly briefings, as directed in the House report, DNDO is directed to provide periodic briefings on the Securing the Cities program, with the first briefing to be scheduled after the Committees receive the report assessing the 2011 STC exercise in New York City.

TITLE V—GENERAL PROVISIONS

Section 501. A provision proposed by the House and Senate is continued that no part of any appropriation shall remain available for obligation beyond the current year unless expressly provided.

Section 502. A provision proposed by the House and Senate is continued that unexpended balances of prior appropriations may be merged with new appropriation accounts and used for the same purpose, subject to reprogramming guidelines.

Section 503. A provision proposed by the Senate is continued that provides authority to reprogram appropriations within an account and to transfer up to 5 percent between appropriations accounts with 15-day advance notification to the Committees. The House proposed a similar provision. A detailed funding table identifying programs, projects, and activities is included at the end of this statement. This table along with funding levels specified in the report shall serve as the control level for all reprogrammings. These reprogramming guidelines shall be complied with by all agencies funded by this Act.

The Department shall submit reprogramming requests on a timely basis and provide complete explanations of the reallocations proposed, including detailed justifications of the increases and offsets, and any specific impact the proposed changes will have on the budget request for the following fiscal year and future-year appropriations requirements. Each request submitted to the Committees should include a detailed table showing the proposed revisions at the account, program, project, and activity level to the funding and staffing (full-time equivalent position) levels for the current fiscal year and to the levels requested in the President's budget for the following fiscal year.

The Department shall manage its programs and activities within the levels appropriated. The Department should only submit

reprogramming or transfer requests in the case of an unforeseeable emergency or situation that could not have been predicted when formulating the budget request for the current fiscal year. When the Department submits a reprogramming or transfer request to the Committees and does not receive identical responses from the House and Senate, it is the responsibility of the Department to reconcile the House and Senate differences before proceeding, and if reconciliation is not possible, to consider the reprogramming or transfer request not approved.

The Department is not to submit a reprogramming or transfer of funds after June 30 except in extraordinary circumstances, which imminently threaten the safety of human life or the protection of property. If a reprogramming or transfer is needed after June 30, the notice should contain sufficient documentation as to why it meets this statutory exception.

Subsection (e), added in the fiscal year 2011 year-long continuing resolution, is included to ensure that funds that are deobligated by the Department are also subject to the reprogramming and transfer guidelines and requirements set forth in this section.

Section 504. A provision proposed by the House and Senate is continued that prohibits funds appropriated or otherwise made available to the Department to make payment to the Department's Working Capital Fund, except for activities and amounts allowed in the President's fiscal year 2012 request. Funds provided to the WCF are available until expended. The Department can only charge components for direct usage of the WCF and these funds may be used only for the purposes consistent with the contributing component. Any funds paid in advance or reimbursed must reflect the full cost of each service. The WCF shall be subject to the requirements of section 503 of this Act.

Section 505. A provision proposed by the House and Senate is continued that not to exceed 50 percent of unobligated balances remaining at the end of fiscal year 2012 from appropriations made for salaries and expenses shall remain available through fiscal year 2013 subject to section 503 reprogramming guidelines.

The Department is required to brief the Committees 5 full business days prior to announcing the intention to make a grant under State and Local Programs. Notification shall include a description of the project or projects to be funded, including city, county, and State.

tional facilities for Federal law enforcement training without advance approval of the Committees.

DIVISION E—DEPARTMENT OF THE INTERIOR, ENVIRONMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2012

The following statement is an explanation of the effects of Division E, which makes appropriations for the Department of the Interior, the Environmental Protection Agency (EPA), the Forest Service, the Indian Health Service, and related agencies for fiscal year 2012. Language contained in House Report 112–151 providing specific guidance to agencies regarding the administration of appropriated funds and any corresponding reporting requirements carries the same emphasis as the language included in this explanatory statement and should be complied with unless specifically addressed to the contrary herein.

In instances where the House report speaks more broadly to policy issues or offers views that are subject to interpretation, such views remain those of the House and do not reflect the views of the conferees unless otherwise repeated in this statement. In cases where the House report or the statement of managers directs the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations. Where this explanatory statement refers to the Committees or the Committees on Appropriations, unless otherwise noted, this reference is to the House Subcommittee on Interior, Environment and Related Agencies and the Senate Subcommittee on Interior, Environment and Related Agencies.

The conferees expect that each department and agency funded in this Act will follow the directions set forth in this Act and the accompanying statement, and will not reallocate resources or reorganize activities except as provided herein or otherwise approved by the Committees through the reprogramming process as described in this report. Funding levels for appropriations by account, program, and activity, with comparisons to the fiscal year 2011 enacted level and the fiscal year 2012 budget request, can be found in the table at the end of this division.

Unless expressly stated otherwise, any reference to “this Act” or “at the end of this statement” shall be treated as referring only to the provisions of this division.

Oversight—The EPA, Forest Service, and Department of the Interior are directed to report to the Committee no later than 60 days following enactment of this Act on steps taken to address management weaknesses and implement reforms identified by the Government Accountability Office (GAO) and each agency’s IG during House oversight hearings held on March 1, 2011 (Department of the Interior); March 2, 2011 (EPA); and March 10, 2011 (U.S. Forest Service).

Making Litigation Costs Transparent—The EPA, Forest Service, and Department of the Interior are directed to provide to the House and Senate Committees on Appropriations, and make publicly available no later than 60 days after enactment, detailed Equal Access to Justice Act (EAJA) fee information as specified in House Report 112–151.

Reprogramming Guidelines—The following are the procedures governing reprogramming actions for programs and activities fund-

ed in the Department of the Interior, Environment and Related Agencies Appropriations Act.

Definitions.—“Reprogramming,” as defined in these procedures, includes the reallocation of funds from one budget activity, budget line-item or program area, to another within any appropriation funded in this Act. In cases where the House Committee report displays an allocation of an appropriation below that level, that more detailed level shall be the basis for reprogramming.

For construction, land acquisition, and forest legacy accounts, a reprogramming constitutes the reallocation of funds, including unobligated balances, from one construction, land acquisition, or forest legacy project to another such project.

A reprogramming shall also consist of any significant departure from the program described in the agency’s budget justifications. This includes proposed reorganizations, especially those of significant national or regional importance, even without a change in funding. Any change to the organization table presented in the budget justification shall be subject to this requirement.

General Guidelines for Reprogramming.—

(a) A reprogramming should be made only when an unforeseen situation arises, and then only if postponement of the project or the activity until the next appropriation year would result in actual loss or damage.

(b) Any project or activity, which may be deferred through reprogramming, shall not later be accomplished by means of further reprogramming, but instead, funds should again be sought for the deferred project or activity through the regular appropriations process.

(c) Except under the most urgent situations, reprogramming should not be employed to initiate new programs or increase allocations specifically denied or limited by Congress, or to decrease allocations specifically increased by the Congress.

(d) Reprogramming proposals submitted to the House and Senate Committees on Appropriations for approval shall be considered approved 30 calendar days after receipt if the Committees have posed no objection. However, agencies will be expected to extend the approval deadline if specifically requested by either Committee.

Criteria and Exceptions.—A reprogramming must be submitted to the Committees in writing prior to implementation if it exceeds \$1,000,000 annually or results in an increase or decrease of more than 10 percent annually in affected programs, with the following exceptions:

(a) With regard to the tribal priority allocations of the Bureau of Indian Affairs, there is no restriction on reprogrammings among these programs. However, the Bureau shall report on all reprogrammings made during a given fiscal year no later than 60 days after the end of the fiscal year.

(b) With regard to the EPA, State and Tribal Assistance Grants account, the Committee does not require reprogramming requests associated with States and Tribes Partnership Grants.

Assessments.—“Assessment” as defined in these procedures shall refer to any charges, reserves, or holdbacks applied to a budget activity or budget line item for costs associated with general

agency administrative costs, overhead costs, working capital expenses, or contingencies.

(a) No assessment shall be levied against any program, budget activity, sub-activity, budget line item, or project funded by the Interior, Environment, and Related Agencies Appropriations Act unless such assessment and the basis therefore are presented to the Committees on Appropriations in the budget justifications and are subsequently approved by the Committees. The explanation for any assessment in the budget justification shall show the amount of the assessment, the activities assessed, and the purpose of the funds.

(b) Proposed changes to estimated assessments, as such estimates were presented in annual budget justifications, shall be submitted through the reprogramming process and shall be subject to the same dollar and reporting criteria as any other reprogramming.

(c) The conferees direct that each agency or bureau which utilizes assessments shall submit an annual report to the Committees which provides details on the use of all funds assessed from any other budget activity, line item, sub-activity, or project.

(d) In no case shall contingency funds or assessments be used to finance projects and activities disapproved or limited by Congress, or to finance programs or activities that could be foreseen and included in the normal budget review process.

(e) New programs requested in the budget should not be initiated before enactment of the bill without notification to, and the approval of, the Committees on Appropriations. This restriction applies to all such actions regardless of whether a formal reprogramming of funds is required to begin the program.

Quarterly Reports.—All reprogrammings between budget activities, budget line-items, program areas, or the more detailed activity levels shown in the Statement of the Managers, including those below the monetary thresholds established above, shall be reported to the Committees within 60 days of the end of each quarter and shall include cumulative totals for each budget activity, budget line item, or construction, land acquisition, or forest legacy project.

Land Acquisitions, Easements, and Forest Legacy.—Lands shall not be acquired for more than the approved appraised value (as addressed in section 301(3) of Public Law 91-646), unless such acquisitions are submitted to the Committees on Appropriations for approval in compliance with these procedures.

Land Exchanges.—Land exchanges, wherein the estimated value of the Federal lands to be exchanged is greater than \$1,000,000, shall not be consummated until the Committees have had a 30-day period in which to examine the proposed exchange. In addition, the Committees shall be provided advance notification of exchanges valued between \$500,000 and \$1,000,000.

Budget Structure.—The budget activity or line item structure for any agency appropriation account shall not be altered without advance approval of the House and Senate Committees on Appropriations.

TITLE I—DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT
MANAGEMENT OF LANDS AND RESOURCES

The bill provides \$961,900,000 for Management of Lands and Resources. The conferees also provide the following directions:

Wild Horse and Burro Management.—The bill provides \$75,008,000 for wild horse and burro management. The Bureau of Land Management is encouraged to take all necessary steps to keep costs under control for this program.

Range Management.—The bill increases funding to address numerous challenges including completion of grazing permit renewals; hiring of seasonal employees to ensure timely turn-out of livestock; annual and trend monitoring of grazing allotments; and improving the quality of Bureau work on environmental and other documents related to livestock grazing, among other range management activities.

Native Plant Program.—The conferees are supportive of the Bureau of Land Management's existing plant conservation and native plant materials program and expect the Bureau to continue to support a robust program through resources provided under various accounts, including land management, wildlife management and threatened/endangered species.

Wildlife and Fisheries.—Funding is included throughout Bureau of Land Management line items for sage grouse habitat monitoring and updating Resource Management Plans to conserve the sage grouse. The Bureau should prioritize research related to White Nose Syndrome in bats and the inventory and monitoring of bat resources on Bureau-administered lands.

Energy and Minerals.—The conferees are concerned by rising energy prices and believe domestic energy production must increase while also being mindful of the environment and other competing land uses. To better track royalty payments, the Department should consider integrating systems that would allow for remote monitoring and third party verification of Bureau production. The conferees recommend that the Bureau of Land Management continue its policy of keeping renewable energy projects off lands that were donated for conservation regardless of deed status.

Resource Protection and Maintenance.—The bill provides \$101,707,000 for resource protection and maintenance. Within resource management planning, the Bureau should allocate at least \$5,000,000 toward revisions of the Resource Management Plans that contain sage grouse habitat.

In coordination with the Desert Renewable Energy Conservation Plan process, the Secretary is instructed to complete a report evaluating the possible Solar Energy Study Areas in the West Mojave that respect designated off-road vehicle routes and provide the report to the Committee on Appropriations within ninety days of enactment of this Act.

In the case of any land exchange involving public land carried out directly or through a third-party, the Bureau of Land Management is directed to provide written notice of the proposed land exchange to each owner of non-Federal land adjoining a parcel of

public land proposed for exchange and each owner of non-Federal land adjoining the non-Federal land proposed to be acquired in the exchange. The Secretary shall determine adjoining landowners using the most recent available tax records.

CONSTRUCTION

The bill provides \$3,576,000 for Construction of which \$2,019,000 is for line item projects. The amount provided will fully fund construction projects as prioritized by the Bureau pursuant to the Administration's revised request list provided to the Committees on June 24, 2011. Requests for reprogramming will be considered pursuant to the guidelines in the front of this statement.

LAND ACQUISITION

The bill provides \$22,380,000 for Land Acquisition, of which \$1,880,000 is for Acquisition Management; \$1,500,000 is for Inholdings, Emergencies, and Hardships; and \$19,000,000 is for Acquisitions.

This amount will fully fund projects 1 through 5 as prioritized by the Bureau pursuant to the Administration's revised request list provided to the Committees on June 24, 2011. Requests for reprogramming will be considered pursuant to the guidelines in the front of this statement.

OREGON AND CALIFORNIA GRANT LANDS

The bill provides \$112,043,000 for Oregon and California Grant Lands.

RANGE IMPROVEMENTS

The bill provides \$10,000,000 to be derived from public lands receipts and Bankhead-Jones Farm Tenant Act lands grazing receipts.

SERVICE CHARGES, DEPOSITS, AND FORFEITURES

The bill provides an indefinite appropriation estimated to be \$32,125,000 for Service Charges, Deposits, and Forfeitures.

MISCELLANEOUS TRUST FUNDS

The bill provides an indefinite appropriation estimated to be \$19,700,000 for Miscellaneous Trust Funds.

ADMINISTRATIVE PROVISIONS

The bill includes the administrative provisions as proposed by the conferees.

UNITED STATES FISH AND WILDLIFE SERVICE

RESOURCE MANAGEMENT

The bill provides \$1,228,142,000 for Resource Management. The detailed allocation of funding by activity and program element is included in the table at the end of this statement. The conferees have assumed administrative savings proposed in the budget re-

quest but have not provided requested funding increases for fixed costs or general program increases. In addition to the guidance and reporting requirements included in the House report, as noted in the front of this joint explanatory statement, the conference agreement includes the following directions:

Ecosystem Initiatives.—The conferees are aware that the budget request includes new funding for a number of regional restoration initiatives, including the Chesapeake Bay, Gulf Coast, Bay Delta, and the Everglades. Due to funding limitations, the conferees are not able to include new funding for these initiatives within the program levels below. However, subject to reprogramming limitations, the conferees do not object to these initiatives being funded within the levels provided if the Service is able to identify funding offsets from lower priority items.

Endangered Species.—The bill includes \$176,237,000 for Endangered Species. Listing and Critical Habitat is funded at the fiscal year 2011 enacted level of \$20,902,000; however, the conferees have agreed to combine the funding for activities within this program element in order to provide the Service with additional flexibility to target funding to its highest priorities. Consultation and HCPs are funded at \$61,041,000, of which \$2,000,000 is for renewable energy as requested. Recovery is funded at \$82,939,000, of which \$2,000,000 is for the declining species initiative instead of the requested \$4,000,000.

The conferees direct the Service to fund white nose syndrome research and response activities at no less than \$4,000,000 from within Recovery. Funds should be used to: (1) increase research capacity to fund basic and applied research to stop the spread of the disease; (2) provide funding for States to implement response activities; and (3) increase FWS capacity for surveillance, monitoring and coordination activities. The conferees expect these activities to be coordinated with other Federal partners.

The conferees direct the Service to provide \$1,000,000 from within Recovery to reinstate a livestock loss demonstration program as authorized by Public Law 111–11. States with de-listed wolf populations shall continue to be eligible for funding, provided that those States continue to meet the eligibility criteria contained in Public Law 111–11.

The conferees recommend that the Service and Federal action agencies take into account economic impacts when formulating actions and conducting all section 7 consultations pursuant to the Santa Ana Sucker Critical Habitat designation, to the extent authorized under the Endangered Species Act. The economic impacts to be considered by the Service and Federal action agencies should include the costs of local water supply development and imported water costs, infrastructure needs, water conservation efforts, and efforts to increase employment in the region affected by the Santa Ana Sucker Critical Habitat designation.

The conferees are concerned that the Service's region 6 has a backlog of Endangered Species Act section 7 consultations on long-term planning documents to assess grizzly bears, bull trout and their habitats. The conferees urge the Service to assign appropriate resources and staff, including filling any current vacancies, to support timely completion of those consultations.

Northern Rocky Mountain Multispecies Conservation Agreements Initiative.—The conferees recommend that the Fish and Wildlife Service convene a regional policy coordination and outreach effort to improve upon and increase the use of Endangered Species Act conservation agreements between the agency, the States, and private landowners. Nearly two-thirds of the nation's land is privately owned, and the Service cannot accomplish its conservation goals without the help of private landowners. Conservation agreements between non-Federal landowners and the Service help to conserve listed or at-risk species while offering a level of protection from certain Endangered Species Act actions. The conferees recognize the challenges that private landowners often face when confronted with working with a Federal regulatory agency such as the Service, and believe that the States can play a strong intermediary role. The conferees recommend that the Service work with the northern Rocky Mountain States and a diverse coalition of private landowners to find innovative, multispecies, multi-partner approaches to utilizing conservation agreements that simplify the process for private landowners; that empower the States to work directly with private landowners to set up the agreements; and that recognize the Service's final authority. The conferees request that the States and the coalition report to the Committees with recommendations as to how to improve upon and increase the use of conservation agreements.

Habitat Conservation.—The bill provides \$110,814,000 for Habitat Conservation. Partners for Fish and Wildlife is funded at \$54,856,000, of which \$6,000,000 is for the climate change initiative instead of the requested \$8,000,000. Conservation Planning Assistance is funded at \$35,837,000, of which \$2,000,000 is for renewable energy as requested.

In carrying out its renewable energy consultations, the conferees direct the Service to continue coordinating with other agencies within the Department of the Interior, as well as with the Department of Commerce, Department of Energy, and other Federal and State agencies, to ensure that the investments support the further development of the renewable energy industry, including the creation of an offshore wind manufacturing industry and related jobs in the United States.

The conferees support the Secretary's decision to establish an office that will be focused on Endangered Species Act compliance for renewable energy projects. In order to facilitate better species protection and stewardship of public resources, the conferees expect that this office will develop permitting policies that make it less difficult and time-consuming to permit projects on disturbed private lands than on pristine public lands. The conferees are aware that the Service has begun work on a rule under section 4(d) of the Endangered Species Act to address this concern, but the Service has not yet released a draft. The conferees expect the Service to publish its draft and final rules to address this issue during fiscal year 2012. The conferees are aware that the Service is exploring opportunities to expedite the permitting of renewable energy projects and support efforts by the Service to establish a pilot fee program using the Service's existing authorities. The Service is expected to provide a report within 120 days of enactment of this Act

that details how and where the Service plans to institute fees in fiscal year 2012 to improve program delivery and customer service.

National Wildlife Refuge System.—The bill includes \$486,469,000 for the National Wildlife Refuge System. Wildlife and Habitat Management is funded at \$223,797,000, of which \$1,000,000 is for a pilot program to eradicate feral swine on national wildlife refuges; and \$20,000,000 is for climate change inventory and monitoring, as requested. Conservation Planning is funded at \$11,723,000, which is an increase of \$3,440,000 above the request in order to maintain funding for land protection planning within this program element instead of within Land Acquisition, as was proposed.

The conferees are concerned about particular restrictions on overnight houseboat accommodations at concessionaire-operated marinas. In keeping with Executive Order 12866, the conferees direct the Service to carefully consider the impact to concessionaires of such operational changes.

The conferees are aware of local concerns regarding the implementation of certain management activities on the Willapa National Wildlife Refuge and direct the Service to postpone the implementation of those sections of the Final Comprehensive Conservation Plan and Environmental Impact Statement for the refuge that deal with the removal of the dikes at the Porter Point Unit, Reikkola Unit, and Lewis Unit of the refuge until at least April 1, 2012, in order to give the Service more time to work with stakeholders to address the concerns.

Migratory Birds, Law Enforcement and International Conservation.—The bill includes \$126,769,000 for Migratory Birds, Law Enforcement, and International Conservation. Migratory Bird Management is funded at \$51,535,000, which includes a decrease of \$1,366,000 from the request for the North American Waterfowl Management Plan and a general program decrease of \$1,522,000.

Fisheries and Aquatic Resource Conservation.—The bill includes \$135,534,000 for Fisheries and Aquatic Resource Conservation. National Fish Hatchery System Operations is funded at \$46,149,000. The conferees have restored the proposed \$3,388,000 shortfall in the budget for mitigation hatchery operations and critical supplies. An additional \$3,800,000 is appropriated elsewhere in this consolidated Act for the U.S. Army Corps of Engineers to reimburse the Service. Together, these amounts fully fund mitigation hatcheries operated by the Service for the Corps, Tennessee Valley Authority, Bureau of Reclamation's Central Utah Project and the Bonneville Power Administration. The conferees support efforts by the Service to recover costs of programs that are conducted to mitigate the environmental effects of other Federal partners. However, future budget requests must ensure that Federal partners have committed to make sufficient funding available to reimburse the Service before the Service proposes to eliminate funding for mitigation hatcheries so that operations at these hatcheries are not disrupted.

Aquatic Habitat and Species Conservation is funded at \$71,325,000. The bill includes \$1,000,000 towards the implementation of mandatory operational inspection and decontamination stations at Federally-managed or interjurisdictional water bodies con-

sidered to be of highest risk, as called for in the February 2010 Quagga-Zebra Mussel Action Plan for Western U.S. Waters. An additional \$1,000,000 is included to continue and expand funding for the control and eradication of zebra and quagga mussels and other aquatic invasive species, including funding for State aquatic invasive species management plans. Also included is a \$2,000,000 increase above the fiscal year 2011 enacted level for Asian carp monitoring and eradication activities.

Cooperative Landscape Conservation and Adaptive Science.—The bill includes \$32,250,000 for Cooperative Landscape Conservation and Adaptive Science. The conferees recognize that fish and wildlife conservation organizations are facing increasingly complex ecological and fiscal challenges that require resource threats to be addressed in a more efficient and effective way. In light of these challenges, the Service has established a network of Landscape Conservation Cooperatives (LCCs) with other Federal, State, local and tribal partners to better leverage conservation resources and better prioritize and coordinate research and program delivery. The conferees support these efforts but also expect the Service to establish clear goals, objectives and measurable outcomes for LCCs that can be used as benchmarks of success of the program. Further, the conferees direct the Service to clearly articulate how it plans to integrate its LCCs with other successful regional partnerships, including its Joint Ventures and Fish Habitat Partnerships programs, as well as with other Federal and non-Federal partners, including the U.S. Geological Survey's regional Climate Science Centers, the Cooperative Fish and Wildlife Research Units, and the Cooperative Ecosystem Studies Units.

Bill Language.—The bill includes language to cap expenditures at \$7,472,000 for critical habitat designations; \$1,500,000 for listing species that are indigenous to the United States; and \$1,500,000 for listing foreign species. The bill includes language providing for fiscal year 2012 and hereafter: \$400,000 for certain law enforcement activities; and \$1,000,000 for certain environmental contaminant activities.

CONSTRUCTION

The bill includes \$23,088,000 for Construction, as requested, of which \$12,149,000 is for line item projects. The amount provided will fully fund the projects as prioritized by the Service pursuant to the Administration's revised request list provided to the Committees on June 24, 2011. Requests for reprogramming will be considered pursuant to the guidelines in the front of this statement.

LAND ACQUISITION

The bill provides \$54,720,000 for Land Acquisition. The conference agreement includes \$5,000,000 for the Highlands Conservation Act; \$10,555,000 for Acquisition Management; \$2,000,000 for User Pay Cost Share; \$2,500,000 for exchanges; \$4,500,000 for Inholdings, Emergencies, and Hardships; and \$30,165,000 for Acquisitions. The conferees have rejected the proposal to transfer land protection planning funds from the Resource Management account.

The amount provided for Acquisitions will fully fund projects 1 through 13 as prioritized by the Service pursuant to the Administration's revised request list provided to the Committees on June 24, 2011. Requests for reprogramming will be considered pursuant to the guidelines in the front of this statement.

The Secretaries of the Interior and Agriculture are directed to report to the Committees on Appropriations within 180 days of enactment of this Act on potential exchange proposals for approximately 1,700 acres currently managed by the U.S. Fish and Wildlife Service and generally depicted on a map titled "The Sharkey Restoration Research Site, Delta NF," for lands of equal or approximate value managed by the U.S. Forest Service in Mississippi.

Bill Language.—The bill includes language allowing the Service to fund limited administrative costs for the Highlands Conservation Act program administration. Also included is language providing that no funds appropriated for specific projects may be used for overhead, planning or other management costs.

COOPERATIVE ENDANGERED SPECIES CONSERVATION FUND

The bill provides \$47,757,000 for the Cooperative Endangered Species Conservation Fund. The detailed allocation of funding by activity is included in the table at the end of this statement.

Bill Language.—The bill includes language deriving \$22,757,000 from the Cooperative Endangered Species Conservation Fund and \$25,000,000 from the Land and Water Conservation Fund.

NATIONAL WILDLIFE REFUGE FUND

The bill provides \$13,980,000 for payments to counties authorized by the National Wildlife Refuge Fund.

NORTH AMERICAN WETLANDS CONSERVATION FUND

The bill provides \$35,554,000 for the North American Wetlands Conservation Fund.

NEOTROPICAL MIGRATORY BIRD CONSERVATION

The bill provides \$3,792,000 for Neotropical Migratory Bird Conservation.

MULTINATIONAL SPECIES CONSERVATION FUND

The bill provides \$9,481,000 for the Multinational Species Conservation Fund. The detailed allocation of funding by activity is included in the table at the end of this statement.

STATE AND TRIBAL WILDLIFE GRANTS

The bill provides \$61,421,000 for State and Tribal Wildlife Grants, of which \$51,405,000 is for State formula grants, \$5,741,000 is for State competitive grants, and \$4,275,000 is for tribal competitive grants. The Service is directed to report to the Committees within 90 days of enactment of this Act on the amounts of unobligated and reapportioned funds, by State and Territory, for fiscal years 2008, 2009, and 2010. The conferees encourage the Service and the program partners to complete the Wildlife

TRACS database so that the program can better demonstrate its ability to prevent at-risk species from having to be listed under the Endangered Species Act.

Bill Language.—The bill includes language requiring a 25 percent non-Federal cost share for planning grants and a 35 percent non-Federal cost share for implementation grants. Bill language is included allowing unobligated balances to be reapportioned.

NATIONAL PARK SERVICE

OPERATION OF THE NATIONAL PARK SYSTEM

The bill provides \$2,240,152,000 for the Operation of the National Park System account.

Civil War Sesquicentennial.—In observances marking the 150th anniversary of the Civil War, the Service is urged to recognize the historic, social, legal, racial, cultural and political forces that caused the Civil War and influenced its course and outcomes.

Technical Assistance.—The Service is encouraged to support the effort of NPS retirees to provide volunteer technical assistance to national parks in other countries.

Historic Leases.—The Service is encouraged to pursue the use of cost-effective, innovative solutions like historic leases when practical and when the arrangement comports with a park unit's enabling legislation.

Flight 93 Memorial.—The conferees remain firmly committed to the timely completion of the Flight 93 Memorial and direct the Service to devote the resources necessary to properly archive, maintain, and preserve the invaluable collections, including 50,000 personal tributes and 2,000 hours of audio interviews, associated with this memorial.

National Capitol Area Performing Arts Program.—The conferees direct the Service to maintain funding for the National Capitol Area Performing Arts Program and have included \$612,000 for the summer concert series staged on the U.S. Capitol grounds.

Cuyahoga Valley National Park.—The Service is encouraged to continue its work with surrounding communities to support the local road systems and establish maintenance priorities.

Statue of Liberty and Martin Luther King, Jr. Memorial and Visitor Center.—The conferees have provided an increase of \$1,100,000 as requested within Park Protection for additional Park Police protection at the Statue of Liberty and Martin Luther King, Jr. Memorial.

Sequoia National Park.—The conference agreement does not include report language contained in the House report nor bill language proposed by the Senate directing the Department of the Interior to report on the methodology used in calculating hydropower fees on National Park Service lands. The conferees understand that this issue has been settled and the need for the report no longer exists.

Delaware Water Gap National Recreation Area and Middle Delaware National Scenic and Recreational River, Appalachian National Scenic Trail.—The conferees are concerned about delays in completing an Environmental Impact Statement (EIS) announced by the National Park Service and the Department of the Interior

regarding improvement of electric transmission lines partially lying within the boundaries of the Delaware Water Gap National Recreation Area. The National Park Service and the Department are directed to adhere to the previously announced schedule and publish a final Record of Decision (ROD) by October of 2012.

Historic Properties.—The conferees are concerned that a proposal to remove the Fresnel lens currently installed at the Block Island Southeast Lighthouse in Rhode Island will have an adverse impact on this historic property. As such, the conferees direct the Service to report to and consult with the Committees on Appropriations prior to facilitating the transfer of the lens or accepting the lens for display at any unit within the System.

Point Reyes National Seashore.—The conferees are aware that the Service will shortly be issuing a Draft Environmental Impact Statement (DEIS) regarding a possible 10-year extension for oyster operations at Point Reyes National Seashore. Because of concerns relating to the validity of the science underlying the DEIS, the conferees direct the National Academy of Sciences to assess the data, analysis, and conclusions in the DEIS in order to ensure there is a solid scientific foundation for the Final Environmental Impact Statement expected in mid-2012.

NATIONAL RECREATION AND PRESERVATION

The bill provides \$59,975,000 for the National Recreation and Preservation account with the following specific directive:

Heritage Partnership Program.—The bill provides an increase of \$8,408,000 above the request to maintain funding at the fiscal year 2011 enacted level.

HISTORIC PRESERVATION FUND

The bill provides \$56,000,000 for the Historic Preservation Fund account with the following specific directive:

State and Tribal Historic Preservation Offices.—The bill provides \$47,000,000 for State Historic Preservation Offices and \$9,000,000 for Tribal Historic Preservation Offices.

CONSTRUCTION

(INCLUDING RESCISSION OF FUNDS)

The bill provides \$159,621,000 for the Construction account.

Line Item Construction. The bill provides \$77,847,000 in funding for line item construction projects. The amount provided will fully fund NPS construction projects as prioritized by the Service pursuant to the Administration's revised request list provided to the Committees on June 24, 2011. Requests for reprogramming will be considered pursuant to the guidelines in the front of this statement.

Washington Monument Stabilization and Repair, National Capital Region.—The bill provides a total of \$7,500,000 for the stabilization and repair of the Washington Monument. The conferees understand these funds will be matched on a 1:1 basis by a private citizen. The conferees have also included language allowing the National Park Service to enter into a single procurement for repairs to the Washington Monument.

Special Resource Studies.—The conferees urge the Service to complete previously authorized studies before initiating any new studies.

LAND AND WATER CONSERVATION FUND

(RESCISSION)

The bill rescinds \$30,000,000, as in previous years, in annual contract authority. There are no plans to use this authority in fiscal year 2012.

LAND ACQUISITION AND STATE ASSISTANCE

The bill provides \$102,060,000 for Land Acquisition and State Assistance, of which \$9,000,000 is for the American Battlefield Protection Program; \$9,500,000 is for Acquisition Management; \$5,000,000 is for Inholdings and Exchanges; \$3,000,000 is for Emergencies and Hardships; and \$30,560,000 is for Federal Acquisitions. The State Assistance Grant Program is funded at \$45,000,000, of which \$2,794,000 is for Administrative Expenses.

The amount provided for Federal Acquisitions will fully fund the first two projects as prioritized by the Service pursuant to the Administration's revised request list provided to the Committees on June 24, 2011. Requests for reprogramming will be considered pursuant to the guidelines in the front of this statement.

UNITED STATES GEOLOGICAL SURVEY

SURVEYS, INVESTIGATIONS, AND RESEARCH

The bill provides \$1,069,744,000 for Surveys, Investigations, and Research of the U.S. Geological Survey. The detailed allocation of funding by activity and sub-activity is included in the table at the end of this statement and comports with the requested budget structure realignment. Unless otherwise indicated below, the conferees have accepted the proposals for reductions resulting from Department-wide efficiencies, administrative savings, and Enterprise Publishing Network savings. A decrease of \$2,172,000 to the request has been assumed to reflect changes in the final fiscal year 2011 operating plan, which was not available at the time the request was submitted. Support for ecosystem restoration activities throughout the Survey's programs is maintained at the fiscal year 2011 enacted level. Additional changes to the request are specified below.

Ecosystems.—The bill provides \$161,536,000 for Ecosystems activities. Increases above the enacted level include \$1,500,000 for The Chesapeake Bay Executive Order and \$2,500,000 for the Great Lakes Asian Carp Control Framework. The conferees support the President's budget proposal to conduct an in-depth analysis of the extent and sources of endocrine disrupting chemicals impacting fish and wildlife in the Chesapeake basin.

Climate and Land Use Change.—The bill provides \$144,320,000 for Climate and Land Use Change programs. Within Climate Variability, changes to the request include decreases of \$2,000,000 from Research and Development, and \$6,460,000 from

Science Support for DOI Bureaus. Carbon Sequestration is funded at \$9,000,000.

Within Land Use Change, an increase of \$11,500,000 is provided to complete funding for Landsat 8 ground operations development. The conferees have not agreed with the proposal to create a separate "Land Imaging" account and have instead maintained funding for all satellite operations within this subactivity. Estimated administrative savings assumed in the proposed new account have been assumed within the Land Use Change account instead.

The conferees have not agreed to transfer budgetary authority for the launch of Landsat satellites 9 and 10 from the National Aeronautics and Space Administration to the Survey. Of the requested \$48,000,000 increase for its implementation, the conferees have provided \$2,000,000 for program development only. The conferees note that future requests for the project are estimated by the Administration to escalate to over \$400,000,000 by fiscal year 2014. There is little doubt that resources will not be available within the Interior Appropriations bill to support these very large increases without decimating all other Survey programs. The conferees note that the launch of Landsat 9 is not scheduled until 2018. This allows time in the year ahead for all interested parties to re-examine how to proceed with future Landsat missions. In the conferees' view this would be a prudent step, inasmuch as the current budget proposal is based on a report from the Office of Science and Technology Policy issued in 2008, and both technological advances and a vastly different economic environment may point to other, less costly, options for obtaining Landsat data.

Energy, Minerals, and Environmental Health.—The bill provides \$96,368,000 for Energy, Minerals, and Environmental Health. The following amounts have been restored to ongoing programs that were proposed to be reduced in the request: \$250,000 for the Minerals External Research Program; \$5,000,000 for Minerals Resources; \$1,000,000 for Energy Resources; \$500,000 for Contaminants; and \$2,500,000 for Toxic Substances Hydrology. An increase of \$1,000,000 is provided for the New Energy Frontier initiative.

Natural Hazards.—The bill provides \$134,696,000 for Natural Hazards. The conferees have not agreed to proposed reductions in the request and have restored funds to the following programs: \$2,000,000 for Earthquake Grants; \$1,800,000 for the 2012 Multi-Hazards Initiative; and \$1,500,000 for the National Volcano Early Warning System. Decreases from the request include \$800,000 from the 2011 Multi-Hazards Initiative, and \$3,000,000 from Coastal and Marine Spatial Planning.

Water Resources.—The bill provides \$214,996,000 for Water Resources. Funding has been restored for the following programs that were proposed to be reduced in the request: \$2,000,000 for Groundwater Resources; \$6,049,000 for the National Water Quality Assessment Program; \$1,963,000 for the Cooperative Water Program; and \$6,500,000 for the Water Resources Research Act Program. A program increase of \$2,846,000 above the request is provided for the National Streamflow Information Program. Decreases from the request include \$2,500,000 from the WaterSMART initia-

tive within Hydrologic Networks and Analysis. The conferees encourage the Survey to include with its fiscal year 2013 budget request a proposal to establish a national groundwater monitoring network as authorized by the Secure Water Act.

Core Science Systems.—The bill provides \$106,849,000 for Core Science Systems. Increases to the request include \$998,000 for the National Geological and Geophysical Data Preservation Program to continue funding at the current year enacted level, and \$1,500,000 for National Cooperative Geologic Mapping Federal and State Partnerships to partially restore the proposed reduction to that program. Decreases from the request include \$500,000 from WaterSMART.

Administration and Enterprise Information.—The bill provides \$110,397,000 for Administration and Enterprise Information. There is a decrease from the request of \$5,920,000 for separation costs. This amount is significantly below what the Survey would need to implement its proposed reduction in force. If a similar plan is put forward in future budget requests, the conferees expect that sufficient funds will be requested for its implementation.

Facilities.—The bill provides \$100,582,000 for Facilities. The conferees do not agree with the administration's proposal to create a separate "Construction" line item within the budget and consequently have maintained those funds within the "Deferred Maintenance and Capital Improvement" subactivity. In the conferees' view, the Survey has the authorities it requires to manage its facilities and space requirements within the current structure.

BUREAU OF OCEAN ENERGY MANAGEMENT

OCEAN ENERGY MANAGEMENT

The bill provides \$59,792,000 for Ocean Energy Management to be partially offset with the collection of offsetting rental receipts and cost recovery fees totaling \$101,082,000. This new account funds the activities of the Bureau of Ocean Energy Management, including leasing, environmental studies, economic analysis and the Renewable Energy Program. The conferees also provide the following directions:

Renewable Energy.—The bill provides \$22,697,000 for renewable energy leasing activities, including program development, environmental analysis, consultation with Federal, State, and local stakeholders, and development of a multipurpose marine cadastre. The Director should work with the Secretary of Energy and States to exchange information about the development of new technology related to the structural material, environmental, and design safety criteria, as well as design and performance standards, of transitional depth and floating wind turbines. The Bureau is expected to continue working with coastal States and other stakeholders to study new wind energy areas, including in shallow, transitional, and deep (over 200 feet) waters.

Conventional Energy.—The bill provides \$47,283,000 for conventional oil and gas leasing activities, including planning of the Five-year Oil and Gas Leasing Program, surveying Outer Continental Shelf boundaries, implementing the lease sale process, ad-

ministering leases, and reviewing exploration and development plans.

Environmental Assessment—The bill provides \$62,041,000 for environmental assessment activities.

The Bureau is encouraged to continue its efforts in working with partners to collect information about methane hydrates on the sea floor and the relationships between gas hydrates and episodes of sediment instability that may pose a threat to the petroleum industry's infrastructure and safety of operations.

Bill Language.—The bill includes in Title IV a general provision that amends Sec. 328 of the Clean Air Act (42 U.S.C. 7627(a)(1)) to transfer air quality permitting authority, as of the date of enactment of this Act, from the Environmental Protection Agency to the Department of the Interior, giving regulatory parity for the Beaufort and Chukchi Sea planning areas with the Western and Central Gulf of Mexico planning areas. Paragraph (c) ensures that this change in the issuance and administration of air quality requirements will not invalidate or stay any permit, or proceeding related thereto, which is existing or pending as of the date of enactment of this Act.

BUREAU OF SAFETY AND ENVIRONMENTAL ENFORCEMENT

OFFSHORE SAFETY AND ENVIRONMENTAL ENFORCEMENT

The bill provides \$61,473,000 for Offshore Safety and Environmental Enforcement to be partially offset with the collection of offsetting rental receipts, cost recovery fees and inspection fees totaling \$121,081,000. The conferees also provide the following directions:

Funding has been increased with the expectation that much-needed inspectors and engineers will be hired and that permits will be processed expeditiously. The highest priority for BSEE with the funding appropriated is ensuring safety and prompt consideration of permits. Appropriated dollars should not be used for expanding regulation of non-lease holders, with the exception of those involved in the *Deepwater Horizon* accident, unless approved through reprogramming pursuant to the guidelines in the front of this statement.

Environmental Enforcement.—The bill provides \$4,110,000 for environmental enforcement actions, as requested. Activities include environmental compliance activities related to issuing permits associated with plans, inspections of environmental measures and enforcement of incidences of noncompliance, and monitoring industry compliance with mitigation and other environmental requirements through office and field inspections. With the additional resources provided, applications for permits to drill should be processed with all due speed.

Operations, Safety, and Regulation.—The bill provides \$132,139,000 for operations, safety, and regulation.

Inspection Fees.—The bill includes in Title IV a general provision that provides for the collection of \$62,000,000 in inspection fees.

Bill Language.—The bill includes new language requiring that at least fifty percent of collected inspection fees are dedicated to

mission related costs including the review of applications for permits to drill.

The report requested in House Report 112–151 on *Deepwater Horizon* recommendations is no longer required.

OIL SPILL RESEARCH

The bill provides \$14,923,000 for Oil Spill Research.

OFFICE OF SURFACE MINING RECLAMATION AND ENFORCEMENT

REGULATION AND TECHNOLOGY

The bill provides \$122,950,000 for Regulation and Technology. Within this amount, the bill funds regulatory grants at \$68,700,000, equal to the fiscal year 2011 enacted level. The conferees find the proposal to reduce regulatory grants would undermine the State-based regulatory system. It is imperative that States continue to operate protective regulatory programs as delegation of authority to the States is the cornerstone of the surface mining regulatory program. Further, the conference agreement does not provide funds to expand and enhance Federal oversight activities of State programs.

On October 26, 2011 the Secretary of the Interior issued an order to consolidate the Office of Surface Mining (OSM) within the Bureau of Land Management (BLM). The conferees are deeply concerned about the lack of coordination and consultation prior to the issuance of this order. Subsequently, the Department of the Interior initiated discussions with employees, Members of Congress, and stakeholders. Significant issues have been identified with this proposed reorganization, including questions of the wisdom of attempting to combine statutorily created agencies that have responsibilities in law that cannot be combined with or transferred to another agency. The conferees are aware that on November 28, 2011, the Secretary suspended the effective date of his directive in order to gather further information on this potential restructuring. The conferees expect the Department to enhance its consultation and coordination with employees, Members of Congress and stakeholders on this matter and to consult with the appropriate committees of jurisdiction before any final decisions are made.

ABANDONED MINE RECLAMATION FUND

The bill provides \$27,443,000 for the Abandoned Mine Reclamation Fund.

BUREAU OF INDIAN AFFAIRS AND BUREAU OF INDIAN EDUCATION

OPERATION OF INDIAN PROGRAMS

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$2,371,532,000 for the Operation of Indian Programs. The detailed allocation of funding by program area and activity is included in the table at the end of the statement. Specific changes to the request and direction are the following:

Tribal Government.—The bill provides \$520,163,000 for Tribal Government. Contract Support Costs are funded at the fiscal year 2011 enacted level of \$219,560,000. Small and Needy Tribes are funded at \$1,950,000.

Human Services.—The bill provides \$136,579,000 for Human Services. Social Services are funded at \$34,379,000.

Trust—Natural Resources Management.—The bill provides \$157,496,000 for Trust—Natural Resources Management. Rights Protection Implementation is funded at \$29,022,000, and the Tribal Management/Development Program is funded at \$7,717,000; increases to the fiscal year 2011 enacted level should be distributed proportionally across all program elements within these two sub-activities. Forestry is funded at \$43,644,000. Water Resources is funded at \$10,150,000. Fish, Wildlife, and Parks is funded at \$11,340,000.

Trust—Real Estate Services.—The bill provides \$126,963,000 for Trust—Real Estate Services. Trust Services—General is funded at \$11,000,000. The increase above the request is for continued implementation of the Klamath Basin Restoration Agreement.

Education.—The bill provides \$796,753,000 for Education. Elementary and Secondary Programs (Forward Funded) are funded at \$523,083,000, of which \$391,333,000 is for ISEP Formula Funds; \$5,286,000 is for ISEP Program Adjustments; \$12,051,000 is for Education Program Enhancements; \$52,716,000 is for Student Transportation; \$15,370,000 is for Early Childhood Development; and \$46,327,000 is for Administrative Cost Grants. Post-Secondary Programs (Forward Funded) are funded at \$67,401,000. Post-Secondary Programs are funded at \$61,533,000, of which \$18,527,000 is for Haskell and SIPI—an increase of \$1,153,000 over the request that is to be divided proportionally between the two schools.

Public Safety and Justice.—The bill provides \$346,778,000 for Public Safety and Justice, an increase of \$12,688,000 above the fiscal year 2011 enacted level. Law Enforcement is funded at \$322,460,000, of which \$185,315,000 is for Criminal Investigations and Police Services; and \$81,941,000 is for Detention/Corrections. The requested increase for Conservation Law Enforcement is not agreed to.

Indian Employment, Training and Related Services.—The bill does not include section 430 of the House bill pertaining to Indian employment, training, and related services pursuant to Public Law 102–477. This provision was intended to block the Administration from continuing with new, unauthorized and retroactive policies which run counter to how “477” funds have been transferred to tribal governments and how funds have been audited since the program’s inception 19 years ago. The conferees have dropped this provision in order to give the Administration time to honor its recent commitments to suspend new policies while working with Tribes to find alternative solutions.

The conferees understand that recent Administration commitments to the Tribes and the Congress include but are not limited to the following: that it has engaged the Tribes in a new consultative process to address agency and tribal concerns; that it has halted any effort to alter the manner and conditions under which “477” funds have historically been transferred to Tribes; that it has

indefinitely suspended its 2009 supplemental audit requirements for any “477” program audits, covering fiscal years 2009 through 2012, that were not completed on or before September 30, 2011; and that annual “477” program audits will continue to comply with the Single Audit Act of 1984.

The conferees expect the Administration to consult with Tribes on a government-to-government basis, and to only proceed with improvements that reflect general consensus among the impacted Tribes and agencies. The P.L. 102–477 Tribal Work Group shall be consulted on the precise content of all guidance documents and similar issuances prior to their finalization. The House and Senate Appropriations Committees will be closely monitoring the progress of the consultation process, and will expect regular updates from the Administration. If issues concerning the transfer and audit of “477” funds are not permanently resolved administratively, the Committees intend to address this issue in the fiscal year 2013 process.

Other Matters.—The conferees are aware of a lack of local support for two recent off-reservation gaming projects in Yuba, California, and Madera, California, which received Secretarial Determinations on September 1, 2010. The evidentiary record provided by the Bureau of Indian Affairs indicates that only two of the 33 elected officials or bodies that were consulted on these projects expressed support for them. The conferees are also concerned that in one case, the Department appears to have largely ignored a popular vote which indicated a majority of the county was opposed to the construction of a casino on the site which was approved by the Department. Therefore, the conferees direct the Secretary to review these applications to verify the claim of “strong local support” and report those findings to the Committees within 60 days of enactment of this Act.

CONSTRUCTION

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$123,828,000 for Construction. The detailed allocation of funding by program area and activity is included in the table at the end of the statement. Specific changes to the request are the following:

Education.—The bill provides \$70,940,000 for Education. Replacement Schools are funded at \$17,836,000, which funds the next school on the 2004 priority list. Facilities Improvement and Repair is funded at \$48,669,000.

INDIAN LAND AND WATER CLAIM SETTLEMENTS AND MISCELLANEOUS PAYMENTS TO INDIANS

The bill provides \$32,855,000 for Indian Land and Water Claim Settlements and Miscellaneous Payments to Indians, as requested. The detailed allocation of funding by subactivity and program element is included in the table at the end of the statement.

INDIAN GUARANTEED LOAN PROGRAM ACCOUNT

The bill provides \$7,114,000 for the Indian Guaranteed Loan Program Account, an increase of \$4,000,000 above the request. The conferees are aware that there is strong interest among tribally owned construction contractors to have the Bureau of Indian Affairs offer supplemental surety bond guarantees in an effort to increase economic opportunity in Indian country, particularly in the construction trades. In an effort to begin to respond to this interest, the conferees request that the Bureau present a plan within 90 days of enactment of this Act detailing the need for such supplemental surety bond guarantees, how the Bureau would implement such a program, whether or not the Bureau currently has the personnel to implement such authorities, and an analysis of how much additional activity would be generated through the offering of supplemental surety bond guarantees.

DEPARTMENTAL OFFICES

OFFICE OF THE SECRETARY

DEPARTMENTAL OPERATIONS

The bill provides \$262,317,000 for Departmental Offices, Office of the Secretary, Departmental Operations.

The bill includes the proposed restructuring of Departmental Offices, reflecting the incorporation of the Office of Natural Resources Revenue (ONRR) and alignment of the budget with the Department's organization. The increase over the fiscal year 2011 enacted level reflects the move of the ONRR from the former Minerals Management Service. The conferees direct the Department to continue providing the Committees with the level of budget detail that has historically been provided (at the office level). Further, the Department is directed to provide to the Committees within 120 days of enactment of this Act a report on the organization, funding, staffing, and status of reforms with the ONRR.

The conferees direct the Department to work collaboratively with interested parties, including the Congress, States, local communities, Tribal governments and others in making national monument designations.

INSULAR AFFAIRS

ASSISTANCE TO TERRITORIES

The bill provides \$87,997,000 for Assistance to Territories. Within that amount, the bill provides the requested increase for staffing, which shall be used by the Department to fill positions at current Office of Insular Affairs locations rather than at a new location as proposed in the request. At least one of the positions shall be dedicated to working on Compact impact issues as detailed below. Within the resources provided, the conferees urge the Secretary to fill the current staffing vacancy in the Federated States of Micronesia.

The bill includes \$3,000,000 for insular community infrastructure improvements including \$791,000 for water infrastructure projects and \$2,209,000 for the Empowering Insular Communities

initiative. That amount includes the proposed funding levels for Guam infrastructure and \$1,089,000 for sustainable energy strategies projects that will reduce the islands' over-dependence on imported oil and high electricity prices. Projects shall be chosen based on plans specific to each jurisdiction and which are developed and approved in conjunction with the Department of Energy and island stakeholders, with priority given to energy efficiency projects that result in immediate energy savings. The Department is directed to report annually to Congress on the status of activities funded under this program, including data on oil savings and utility rates.

The bill also provides \$5,000,000 to fund discretionary grants to jurisdictions that are affected by Compact migration, as authorized by section 104(e) of Public Law 108-188. The Department shall allocate these grants in conjunction with other currently authorized mandatory grants to help offset educational costs incurred by these jurisdictions. The Department is directed to follow the guidance detailed in Senate Report 112-74 related to the Compact of Free Association agreements with the governments of the Federated States of Micronesia [FSM], the Republic of the Marshall Islands [RMI], and the Republic of Palau. The Department shall also meet regularly with officials from the Freely Associated States, other Federal agencies and affected jurisdictions, and develop and implement a comprehensive plan to mitigate the costs of Compact migration within 90 days of enactment of this Act. This plan shall establish specific goals and action items that include: (1) expanding the education of migrants and potential migrants in order to reinforce that the primary purpose of the Compact migration benefit is to provide educational and employment opportunities to FAS citizens, not for migrants to develop an over-reliance on public services; (2) improving FAS capacity to provide dialysis and other medical services to prevent citizens from needing to seek treatment abroad; and (3) improving screening procedures to identify and restrict migration of individuals who have communicable diseases or who have been convicted of serious crimes. The Department is directed to monitor the progress of meeting these goals and action items and report to Congress every 6 months. The Department is also directed to ensure that the new position dedicated to Compact impact issues will work closely with officials of Compact nations, other Federal areas and affected areas to implement Compact impact priorities identified in the plan detailed above.

The conferees urge the Department to continue funding for the Commonwealth of the Northern Marianas Islands Initiative on Labor, Immigration and Law Enforcement at no less than the enacted level.

COMPACT OF FREE ASSOCIATION

The bill provides \$17,318,000 which includes \$3,318,000 for obligations related to the Compact of Free Association. The conferees have also included language in the Title I general provisions section to extend the eligibility for the Republic of Palau to receive Federal aid while a new Compact of Free Association is enacted by Congress. The amount provided is equal to the fiscal year 2011 appropriation.

ADMINISTRATIVE PROVISIONS

(INCLUDING TRANSFER OF FUNDS)

The bill does not include the requested language that would provide the Secretary with new authority to redistribute capital improvement funds in fiscal year 2012. The conferees are similarly focused on the slow spending rates in the territories and urge all territories to increase expenditure of previously awarded funds. The conferees intend to revisit the issue in fiscal year 2013 if expenditure rates have not substantially increased.

OFFICE OF THE SOLICITOR

SALARIES AND EXPENSES

The bill provides \$66,296,000 for the Office of the Solicitor, including the requested increase for the Department's ethics office.

OFFICE OF INSPECTOR GENERAL

SALARIES AND EXPENSES

The bill provides \$49,471,000 for the Office of Inspector General. The detailed allocation of funding by program and activity is included in the table at the end of the statement.

OFFICE OF THE SPECIAL TRUSTEE FOR AMERICAN INDIANS

FEDERAL TRUST PROGRAMS

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$152,319,000 for the Office of the Special Trustee for American Indians, as requested.

Bill Language.—The bill includes language, as in previous years, limiting the amount of funding that can be used for historical accounting.

DEPARTMENT-WIDE PROGRAMS

WILDLAND FIRE MANAGEMENT

(INCLUDING TRANSFERS AND RESCISSION OF FUNDS)

The bill provides \$566,495,000 for Department of the Interior Wildland Fire Management. The Department is directed to use \$189,577,000 in carryover emergency fire suppression funds before obligating fiscal year 2012 suppression funds. The bill includes a rescission of \$82,000,000 in suppression carry-over funds. The amount provided, combined with \$92,000,000 in the FLAME Wildfire Suppression Reserve Fund, fully funds the Department's 10-year average expenditure for fire suppression. The bill also terminates the Rural Fire Assistance program. The detailed allocation of funding for these accounts is included in the table at the end of this statement. The conferees also provide the following directions:

The Department is directed to complete an assessment of all Department Wildland Fire programs to determine the most cost ef-

fective and efficient means of providing comprehensive fire management services in support of Department and bureau missions and to better direct scarce resources from duplicative administrative management organizations. As provided in the House Report, the Department is directed to report to the Committees on Appropriations no later than 180 days after enactment of this Act.

The Department is directed to remove the requirement that ninety percent of hazardous fuels funding be spent in the Wildland Urban Interface and instead the conferees direct hazardous fuels funding be spent on the highest priority projects in the highest priority areas. The Department must also work more closely with the Forest Service in developing a strategy for the replacement of the current air tanker fleet.

To reduce the cost of fighting fires in Alaska caused by transporting crews from the continental United States, the Office of Wildland Fire Coordination and the Bureau of Land Management are strongly encouraged to develop a program to train crews in Alaska, particularly the existing native crews that might not now be qualified as type I or type II wildland firefighting crews.

FLAME WILDFIRE SUPPRESSION RESERVE FUND

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$92,000,000 for the FLAME Wildfire Suppression Reserve Fund.

CENTRAL HAZARDOUS MATERIALS FUND

The bill provides \$10,149,000 for the Central Hazardous Materials Fund.

NATURAL RESOURCE DAMAGE ASSESSMENT AND RESTORATION

NATURAL RESOURCE DAMAGE ASSESSMENT FUND

The bill provides \$6,263,000 for the Natural Resource Damage Assessment Fund. The detailed allocation of funding by activity is included in the table at the end of this statement. The conferees are aware that the program is conducting an internal review of the status of restoration funds and options for enhanced implementation of restoration projects. The conferees direct the program to report back to the Committees upon completion of this review.

WORKING CAPITAL FUND

The bill provides \$62,019,000 for the Department of the Interior, Working Capital Fund. The conferees have included \$52,019,000 for the Financial and Business Management System (FBMS). The bill also provides \$5,000,000 as requested to support the Department's ongoing IT transformation. Further, the bill provides \$2,500,000 for the Department's effort to identify operating efficiencies and achieve savings across bureaus through consolidation of services, facilities, and infrastructure. Lastly, the bill provides \$2,500,000 for training, recruitment, retention, and hiring of the acquisition workforce.

TITLE II

ENVIRONMENTAL PROTECTION AGENCY

Budget Restructuring.—The conferees note that the Agency has proposed major changes to its budget structure in order to better align program goals and outcomes. The conferees have accepted the proposed budget restructuring, as reflected in the program levels below.

Congressional Budget Justification.—In addition to the three directives provided in the fiscal year 2010 House report 111–80, the conferees direct the Agency to include in future Justifications: a comprehensive, detailed explanation of all changes within a program project; a table showing consolidations, realignments or other transfers of resources and personnel from one program project to another such that the outgoing and receiving program projects offset and clearly illustrate a transfer of resources; and, a table listing the budgets and FTE by major office within each National Program Management area with pay/non-pay breakouts. The conferees note that the Congressional Justification includes the bill language for each account. The conferees direct the Agency to highlight and explain any changes to the proposed bill language in the Congressional Justification.

Reprogramming.—The Agency is held to the reprogramming limitation of \$1,000,000 and should continue to follow the reprogramming directives as provided in the fiscal year 2010 House

report 111–80. Further, the Agency may not use any amount of deobligated funds to initiate a new program, office, or initiative, without the prior approval of the Committees. The conferees note that the Agency’s reprogramming procedures allow the Agency to seek funding to implement its highest-priority items if it identifies offsetting funding reductions during the fiscal year, provided those offsets are not taken from program increases that have specifically been provided herein.

Within 30 days of enactment of this Act, the Agency is directed to submit to the House and Senate Committees on Appropriations its annual operating plan for FY 2012, which shall include detail on how the Agency plans to allocate funds at the program project level.

SCIENCE AND TECHNOLOGY

The bill provides \$795,000,000 for Science and Technology programs and transfers \$23,016,000 from the Hazardous Substance Superfund account to this account. The bill provides the following specific funding levels and direction:

Clean Air and Climate.—The bill provides \$124,576,000 which includes a \$1,000,000 increase for the fuel standards program.

Operations and Administration.—The bill provides \$72,137,000 for Operations and Administration.

Research: Air, Climate, and Energy.—The bill provides \$99,000,000. Within the amount provided, the bill includes \$78,649,000 for Research: Clear Air, \$18,305,000 for Research: Global Change and, \$2,047,000 for Research: Air, Climate, and Energy (Other). The bill does not provide the requested \$3,000,000 increase for air toxics monitors.

Research: Chemical Safety and Sustainability.—The bill provides \$131,498,000 for Research: Chemical Safety and Sustainability. No new funds have been provided for the requested green chemistry or e-waste initiatives.

Research: National Priorities.—The bill provides \$5,000,000 which shall be used for extramural research grants to fund high-priority water quality and availability research by not-for-profit organizations who often partner with the Agency. Funds shall be awarded competitively with priority given to partners proposing research of national scope and who provide a 10 percent match, which may include in-kind contributions. The Agency is directed to allocate funds to grantees within 180 days of enactment of this Act.

Research: Safe and Sustainable Water Resources.—The bill provides \$113,654,000. Within the amount provided, the hydraulic fracturing study is funded at the requested amount, and \$8,500,000 is provided for green infrastructure research.

Research: Sustainable and Healthy Communities.—The bill provides \$171,026,000, as requested. The conferees note that \$2,000,000 has been provided within this amount as requested to fund a long-term evaluation of the Agency’s laboratory network to ensure that the current organization matches the Agency’s strategic needs. The conferees continue to support the Agency’s space strategy efforts, including those options that could lead to further efficiencies and potential reductions to the Agency’s real property footprint. The conferees encourage the Office of Research and De-

velopment (ORD) to institute efficiency improvements that will result in long term savings using the amounts provided.

Additional Guidance.—The conferees include the following additional guidance with respect to funding provided under this account:

Biocrude Research.—The conferees encourage the Agency to work with its university partners to research the potential for producing biocrude from wastewater treatment plants that allow the production of renewable fuels through traditional petroleum refining techniques.

Integrated Risk Information System (IRIS).—In lieu of the directives contained in H. Rept. 112–151 regarding the Integrated Risk Information System, the conferees agree to the following:

(1) Fundamental improvements to the policies and practices of this program are necessary to ensure that IRIS assessments reflect the highest standard of scientific inquiry.

(2) The Agency shall incorporate, as appropriate, based on chemical-specific datasets and biological effects, the recommendations of Chapter 7 of the National Research Council's Review of the Environmental Protection Agency's Draft IRIS Assessment of Formaldehyde into the IRIS process.

(3) The Agency shall issue a progress report to House and Senate Committees on Appropriations and relevant Congressional authorizing committees no later than March 1, 2012, describing its implementation of the National Research Council's Chapter 7 recommendations for ongoing and new assessments.

(4) For draft assessments released in fiscal year 2012, the Agency shall include documentation describing how the Chapter 7 recommendations of the National Academy of Sciences (NAS) have been implemented or addressed, including an explanation for why certain recommendations were not incorporated.

(5) The Agency shall contract with NAS to conduct up to three reviews of IRIS assessments that EPA seeks to make final. Reviews shall include an evaluation of whether the recommendations it made in previous reviews, including in Chapter 7 of the National Research Council's Review of the Environmental Protection Agency's Draft IRIS Assessment of Formaldehyde, have been implemented. Reviews are not intended to unduly delay the Agency's risk assessment process. The conferees further direct NAS to complete any reviews authorized by this paragraph by no later than 18 months after the date that EPA and the NAS have agreed to the terms of the review. One of these NAS reviews shall be a study of the cancer and non-cancer hazards from oral exposure to inorganic arsenic. The NAS review of inorganic arsenic shall incorporate the direction provided in House Report 112–151 regarding parameters of the study. Additional reviews will be chosen by NAS from a representational sample of IRIS assessments and NAS will notify Congress directly of these choices.

(6) Further, the conferees strongly believe any current and future IRIS assessments must not only be grounded in sound, objective, and peer-reviewed science and methodologies but should also provide risk managers with realistic values that will result in enhanced protection of human health.

ENVIRONMENTAL PROGRAMS AND MANAGEMENT

The bill provides \$2,682,514,000 for Environmental Programs and Management and includes following specific funding levels and direction:

Brownfields.—The bill provides \$23,680,000 and funds the Smart Growth program as requested.

Clean Air and Climate.—The bill provides \$286,568,000. Within this amount the bill provides \$99,642,000 for the Climate Protection Program.

The conferees believe EPA may not rely on broad user fee authority as the basis for charging Energy Star fees and therefore lacks such authority. If EPA wishes to collect user fees to offset the costs of the program, such fees should be tied to increased performance or service-related goals, and the Administration should send a legislative proposal to the committees of jurisdiction for consideration in the same manner as they have requested for the electronic manifest system and pesticide user fees.

The conferees note that the SmartWay transportation program has successfully established a partnership among government, businesses, and consumers to reduce fuel consumption and improve air quality and supports a robust funding level.

The bill provides \$27,343,000 for Federal Stationary Source Regulations. From within this amount, EPA is directed to spend \$5,412,000 on New Source Performance Standards. The conferees note that the Administration delayed the issuance of new Ozone NAAQS as urged by House Report 112–151.

The bill provides \$123,666,000 for Federal Support for Air Quality Management. EPA is directed to spend \$3,408,000 of this amount on greenhouse gas permitting of stationary sources. No new funds have been provided for requested compliance monitoring activities.

Lastly, the bill provides \$5,578,000 for Stratospheric Ozone. The conferees direct that \$1,000,000 shall be for the Sunwise program. Other than provided herein, the agreement does not include further directives regarding allocation of funds for Clean Air and Climate programs, but instead directs the Agency to submit an allocation of funds at the program project level as part of the operating plan.

Enforcement.—The bill provides \$249,965,000 for enforcement activities, with funding for environmental justice maintained at the fiscal year 2011 enacted level. The agreement does not include further directives regarding allocation of funds but instead directs the Agency to submit an allocation of funds at the program project level as part of the operating plan.

Environmental Protection: National Priorities.—The bill provides \$15,000,000 for a competitive grant program to provide rural and urban communities with technical assistance to improve water quality and provide safe drinking water. EPA shall award grants on a competitive basis and give priority to not-for-profit organizations that: conduct activities that are national in scope; can provide a 10 percent match, including in-kind contributions; and are supported by a majority of small community water systems, currently provide multi-state regional technical assistance, or currently pro-

vide assistance to private well owners. The Agency is directed to allocate funds to grantees within 180 days of enactment of this Act.

Geographic Programs.—The bill provides \$410,375,000, as distributed in the table at the end of this division. No funds have been provided for the proposed Mississippi River program or to continue the Community Action for a Renewed Environment program. The bill includes the following direction:

Great Lakes Restoration Initiative.—The bill provides \$300,000,000 and EPA shall follow the direction provided in House Report 112–151 for fiscal year 2012. EPA may distribute the funds provided among the five focus areas but shall not spend less than the fiscal year 2011 enacted level for Toxic Substances and Areas of Concern and for the Invasive Species focus areas. The conferees direct the agency to provide a revised spending plan for the Great Lakes program that includes funding levels for the five focus areas at the same time the Agency submits its operating plan. Once submitted, changes to the funding amounts for the focus areas are subject to a reprogramming threshold of \$5,000,000, and the Agency is further directed to report quarterly to the Committees on Appropriations on changes below the threshold.

Chesapeake Bay.—The conference agreement includes \$57,391,000 for the Chesapeake Bay program. Within the amount provided, \$8,000,000 is for nutrient and sediment removal grants and \$2,000,000 is for small watershed grants. The conferees do not provide additional directives regarding the allocation of funds for this program but instead direct the Agency to report a proposed allocation of the remaining funds as part of its operating plan. EPA is further directed to support the local government study through the small watershed grant program as discussed in House Report 112–151.

Puget Sound.—The bill provides \$30,000,000 to manage and implement Washington State's Puget Sound Action agenda, an approved Comprehensive Conservation and Management Plan (CCMP) under Section 320 of the Clean Water Act. The conferees direct that funding to restore Puget Sound be allocated consistent with the near-term priorities established in the CCMP and the existing Lead Organization and Tribal capacity agreements funded in prior years. EPA is directed to expeditiously obligate funds, in a manner consistent with the authority and responsibilities under Section 320 and the National Estuary Program. Not more than 4 percent shall be used for EPA intramural costs to manage the cooperative and interagency agreements to restore and protect Puget Sound.

Information Exchange.—The bill provides \$130,896,000 for the Information Exchange program. From within this amount, \$3,285,000 has been provided for the Administrator's Immediate Office. Funding for Children and Other Sensitive Populations and for Environmental Education programs shall be maintained at the enacted level. The agreement does not include further directives regarding allocation of funds or FTE but instead directs the Agency to submit an allocation of funds at the program project level as part of the operating plan.

International Programs.—The bill provides \$17,632,000 for international programs. The agreement does not include further di-

rectives regarding allocation of funds but instead directs the Agency to submit an allocation of funds at the program project level as part of the operating plan.

Legal/Science/Regulatory/Economic Review.—The bill provides \$110,946,000 and maintains the enacted level for the SmartGrowth program. The bill provides no more than \$15,286,000 for Regulatory/Economic Management and Analysis. The agreement does not include further directives regarding allocation of funds but instead directs the Agency to submit an allocation of funds at the program project level as part of the operating plan.

Operations and Administration.—The bill provides \$487,880,000, including requested funding for rent, security and utilities. The agreement does not include further directives regarding allocation of funds but instead directs the Agency to submit an allocation of funds at the program project level as part of the operating plan.

Resource Conservation and Recovery Act.—The bill provides \$112,643,000 for the RCRA program. The bill does not provide the \$2,000,000 request to develop the e-manifest system despite the conferees' strong support for the establishment of this system because EPA lacks the legal authority to collect user fees to offset system costs as expressed in the House report.

Water: Ecosystems.—The bill provides \$48,257,000 for Water: Ecosystems. Within this amount the bill provides the requested amount for the National Estuary Program and Section 320 grants. The bill provides \$21,199,000 for the Wetlands program and eliminates previously reprogrammed funds for work on the Enhanced Coordination Procedures with the Army Corps of Engineers, and the Office of Surface Mining. The conferees have not included bill language addressing the enhanced coordination procedures given the U.S. District Court's recent ruling that set aside the procedures.

Water: Human Health Protection.—The bill provides \$101,256,000 and directs the reduction below the fiscal year 2011 enacted level to the drinking water regulatory program. The agreement does not include further directives regarding allocation of funds but instead directs the Agency to submit an allocation of funds at the program project level as part of the operating plan.

Water Quality Protection.—The bill provides \$217,101,000, of which up to \$4,738,000 is for the urban waters program. The agreement does not include further directives regarding allocation of funds but instead directs the Agency to submit an allocation of funds at the program project level as part of the operating plan.

Additional Guidance.—The conferees include the following additional guidance with respect to funding provided under this account:

Administrator Priorities.—Funding for Administrator priorities shall not exceed the fiscal year 2011 enacted level. The conferees direct the Agency to submit a report within 90 days of enactment that identifies how the fiscal year 2010 and 2011 funding was used, by account, program area and program project and include a description of the activities and any anticipated results. Future congressional justifications should identify funding in each program

project that has been set aside for Administrator priorities, and include a justification for the effort and any anticipated results.

Arsenic Reporting.—Not later than 180 days after the date of enactment of this Act, the Agency is directed to: (1) Promptly submit to Congress an overdue report—requested as part of the Consolidated Appropriations Act, 2005 (P.L. 108–447)—on the extent to which communities are being affected by the arsenic rule, and proposing compliance alternatives and making recommendations to minimize costs; (2) convene a working group composed of representatives from States, small publicly owned water systems, local public health officials, drinking water consumers and treatment manufacturers to provide input and recommendations on barriers to the use of point-of-use and point-of-entry treatment units, package plants, (including water bottled by the public water system), and modular units, as well as alternative affordability criteria that give extra weight to small, rural, and lower income communities, and (3) based upon input from the working group submit to the Committees a report on actions to make alternative compliance methods (such as point of use, point of entry and package plants) more accessible to water systems and a report on alternative affordability criteria.

Boiler MACT.—The conferees are encouraged by the outcome of EPA’s reconsideration of the Boiler MACT rule and offer no directives regarding Boiler MACT standards. The proposed rule addresses substantive concerns by including additional flexibility with respect to compliance costs, and a biomass exemption.

Eastern Long Island Sound Supplemental Environmental Impact Study.—The conferees are concerned by the lack of progress at the Agency in completing a Supplemental Environmental Impact Statement for eastern Long Island Sound, which has been slated since 2002 and is necessary to ensure that significant military installations do not lose access to dredged disposal sites. The conferees direct the Agency to submit a report no later than 90 days after enactment of this Act outlining its plan to carry out the Supplemental Environmental Impact Statement for the eastern Long Island Sound, including the possible use of existing appropriated funds to begin the study. The conferees also urge the Agency to work collaboratively with appropriate stakeholders, including the Army Corps of Engineers and State partners, to expeditiously determine a dredging solution for eastern Long Island Sound.

Economic Analysis of Reciprocating Engine Rule.—The conferees are aware that EPA has initiated a reconsideration process which the conferees expect will address the concerns expressed in House Report 112–151. Amendments to the reciprocating engine rule are expected in early 2012. The conferees fully expect that EPA will include an analysis of the economic impacts of the rule on small government jurisdictions per the direction in the House report. Therefore the bill does not provide a directive to initiate a separate analysis of the economic impacts of the rule on small government jurisdictions within 60 days of enactment of this Act.

Personnel and Full Time Equivalents.—While the statement does not cap FTE levels for EPA, the conferees do not expect EPA’s actual utilization levels will exceed the 2010 utilization levels given that EPA’s 2012 budget has been reduced. The conferees remain

concerned about the growing disparity between regional and headquarters personnel as well as how EPA develops its personnel requests in its annual budget proposal.

Recycling Programs.—The conferees direct that the Agency submit the report requested in House Report 112–151 within 90 days of enactment of this Act.

Refrigerant Gas Containers.—Within 90 days of enactment of this Act, the conferees direct the agency to initiate a study on the environmental impacts of using disposable containers to transport and store refrigerant gasses, compared to refillable containers, and to submit the study to the House and Senate Committees on Appropriations upon completion.

Regional Haze.—States have raised legitimate concerns about the costs and compliance deadlines within EPA federal implementation plans to address regional haze issues. The Clean Air Act offers substantial flexibility with regard to how States may choose to mitigate regional haze impacts. The conferees are aware that EPA released a court-ordered schedule for finalizing Regional haze rules in November 2011. Therefore, the agreement does not include the specific directives contained in House Report 112–151 but instead directs EPA to work with the States as partners in order to resolve compliance and cost differences while adhering to the schedule.

Southern New England Estuaries.—The conferees recommend that the Agency convene and lead a comprehensive regional policy coordination and outreach effort to protect, enhance, and restore the coastal watersheds of southern New England. No entity or consortium exists to meet these challenges, and there is an urgent and immediate need for such an effort. For example, in Rhode Island's Narragansett Bay, there are documented extensive areas of pollution severely degrading fish and wildlife habitat and water quality; problems that are compounded by the effects of warmer water temperatures and milder winters. The conferees recommend that EPA establish goals for the regional effort, emphasizing water quality and habitat restoration as well as the development and implementation of innovative technologies to meet these challenges and create jobs. The effort should provide for streamlined interagency communication, and involve an inclusive stakeholder process. Specifically, EPA should collaborate with State agencies as well as other Federal partners such as the National Oceanic and Atmospheric Administration, the U.S. Fish and Wildlife Service, U.S. Geological Survey, Natural Resources Conservation Service, and the Small Business Administration. The Agency should also include stakeholders from local governments and agencies, non-governmental organizations, and academic institutions. The conferees also recommend that the Agency, through this regional effort, facilitate the development of strategies to restore and protect the southern New England Estuaries.

OFFICE OF INSPECTOR GENERAL

The bill provides \$42,000,000 for the Office of Inspector General. The conferees appreciate the value of a robust Inspector General and expect the same level of effort as in fiscal year 2011 within the funding provided. The funding level reflects the high unobligated balances that remain in this account and the Inspector Gen-

eral should utilize previously appropriated funds first in fiscal year 2012.

BUILDINGS AND FACILITIES

The bill provides \$36,428,000 for Buildings and Facilities, equal to the fiscal year 2011 enacted level.

HAZARDOUS SUBSTANCE SUPERFUND

(INCLUDING TRANSFERS OF FUNDS)

The bill provides \$1,215,753,000 for the Hazardous Substance Superfund account, and includes bill language to transfer \$9,955,000 to the Inspector General account and \$23,016,000 to the Science and Technology account. Due to budget constraints, the conferees have reluctantly proposed general program reductions to the Superfund emergency response and removal and remedial programs, as detailed below. The bill provides the following additional direction:

Enforcement.—The bill provides \$187,033,000 for Superfund Enforcement.

Operations and Administration.—The bill provides \$135,969,000 for Superfund Operations and Administration. The agreement does not include further directives regarding allocation of funds but instead directs the Agency to submit an allocation of funds at the program project level as part of the operating plan.

Superfund Cleanup.—The bill provides \$789,180,000 for Superfund Cleanup, of which \$189,895,000 is for Superfund: Emergency Response and Removal and \$565,922,000 is for Superfund: Remedial. The conferees expect that future budget requests will propose a higher percentage of cleanup funding as part of the total request in addition to proposing funding sufficient to meet program goals, such as increasing the number of annual “construction completes” and more importantly “sites made ready for reuse”. The conferees direct the Inspector General to report to the Committees on Appropriations within 90 days of enactment of this Act on current agency efforts to strengthen Superfund contracting controls to prevent future waste, fraud and abuse.

Financial Assurance.—In lieu of the directives contained in H. Rept. 112–151 regarding financial assurance requirements, the conferees direct the Administrator to collect and analyze information from the commercial insurance and financial industries regarding the use and availability of necessary instruments (including surety bonds, letters of credit, and insurance) for meeting any new financial responsibility requirements and to make that analysis available to the House and Senate Committees on Appropriations and to the general public on the Agency website 90 days prior to proposing any rule pursuant to section 108(b) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9608(b)).

Special Accounts.—The conferees direct EPA to follow the language in House Report 112–151 with respect to managing the unobligated balances in the Superfund special accounts.

LEAKING UNDERGROUND STORAGE TANK TRUST FUND
PROGRAM

The bill provides \$104,309,000 for the Leaking Underground Storage Tank Trust Fund Program.

INLAND OIL SPILL PROGRAMS

The bill provides \$18,274,000 for Inland Oil Spill Programs.

STATE AND TRIBAL ASSISTANCE GRANTS

The bill provides \$3,618,727,000 for the State and Tribal Assistance Grants (STAG) program and includes the following specific funding levels and direction:

Infrastructure Assistance.—The bill provides \$2,528,169,000 for infrastructure assistance, including \$1,468,806,000 for the Clean Water State Revolving Fund and \$919,363,000 for the Drinking Water State Revolving Fund. The amount provided for the Clean Water State Revolving Fund program will fund approximately 473 new wastewater projects nationwide and more than 81,000 jobs when combined with state matching funds and leverage capabilities, according to Agency estimates. Amounts provided for the Drinking Water State Revolving Funds program will fund approximately 353 new drinking water projects nationwide and more than 50,000 jobs when combined with state matching and leveraged funds.

The conferees do not direct EPA to submit a report on water rates requested in the House report. However, the conferees direct the Agency to report on how EPA and the States have used the additional subsidization authority including information on the number and amounts of loans awarded with additional subsidization, recipient communities, and descriptions of projects funded.

Alaska Native Villages.—The bill provides \$10,000,000 as requested.

Brownfields.—The bill provides \$95,000,000 for the Brownfields program.

Diesel Emissions Reduction Act (DERA) Grants.—The bill provides \$30,000,000 as the conferees do not agree with the proposal to terminate the DERA grants.

Mexico Border.—The bill provides \$5,000,000 for the Mexico border program.

Categorical Grants.—The bill provides \$1,090,558,000 for Categorical Grants and funding levels are specified in the table at the end of this division. This amount includes \$164,757,000 for nonpoint source grants as requested. The amount also includes \$236,107,000 for the State and Local Air Quality Management grant program, and the conferees direct EPA to allocate funds for this program using the same formula as fiscal year 2011.

Bill Language.—The bill includes modified language specifying amounts made available under the state revolving fund programs for additional subsidization, and amounts made available for the green infrastructure reserve in the Clean Water State Revolving Fund program. The bill does not provide the requested mandatory set-aside for green infrastructure projects within the Drinking Water State Revolving Fund program but does include language al-

lowing States to continue to fund these types of projects at their discretion.

ADMINISTRATIVE PROVISIONS, ENVIRONMENTAL PROTECTION AGENCY

(INCLUDING TRANSFER AND RESCISSION OF FUNDS)

The bill rescinds \$50,000,000 from specific unobligated balances. Modified bill language has been included to provide specific wage rate requirements for the Clean Water and Drinking Water State Revolving funds.

Oil Spill Transfer Authority.—The bill includes modified transfer authority language that allows the Agency to meet its obligations to pay contractors responding to inland oil spills. The conferees have included this language for fiscal year 2012 only. The conferees strongly urge EPA, in conjunction with the Office of Management and Budget, to propose a more appropriate legislative fix if the Administration is unable to process routine transfers from the Oil Spill Trust Fund in a timely fashion. The conferees support the approach discussed in the House report to be a more permanent solution.

TITLE III—RELATED AGENCIES

DEPARTMENT OF AGRICULTURE

FOREST SERVICE

FOREST AND RANGELAND RESEARCH

The bill provides \$295,773,000 for Forest and Rangeland Research. The conferees also provide the following directions:

The agreement does not specify allocations for individual research facilities. The conferees encourage the Forest Products Laboratory, as part of the Department of Agriculture's effort to promote and use wood products as a green building material, to invest in wood products life cycle assessment research to improve our understanding of the environmental and economic implications of using wood in building construction.

The Forest Service is commended for its localized needs research and is directed to expand this research in support of project development on national forests. The Forest Service should prioritize research related to White Nose Syndrome as well as inventory and monitoring of bat resources on Forest Service lands. The Service is expected to continue ongoing urban natural resources stewardship research and should produce a joint report with the Department of Energy on the role that this work can play in helping reduce the urban heat island effect, as well as reduce the energy demand to cool buildings.

STATE AND PRIVATE FORESTRY

The bill provides \$253,331,000 for State and Private Forestry. The conferees also provide the following directions:

Within six months of enactment of this Act, the Forest Service is directed to develop a process in consultation with State foresters

that considers State Assessments and Strategies in the annual budget for Cooperative Forestry Assistance Act (CFAA) programs, and to develop a process allowing State foresters flexibility, with appropriate accountability, to reallocate a percentage of authorizations for CFAA programs to address State priorities consistent with the State Assessments and Strategies.

Forest Legacy.—The bill provides \$53,388,000 for the Forest Legacy program. This includes \$6,628,000 for program administration, \$2,500,000 for new State startups, and \$44,260,000 for forest legacy projects. The Service should fund projects in priority order according to their competitively selected national priority list for fiscal year 2012.

NATIONAL FOREST SYSTEM

The bill provides \$1,556,628,000 for the National Forest System. The agreement includes a proof of concept pilot for Integrated Resource Restoration (IRR). The conferees also provide the following directions:

Land Management Planning.—The bill provides \$40,000,000 for land management planning. The agreement does not approve the consolidation of this line item with the Inventory and Monitoring line item. The Planning Rule should provide for a cost-effective and timely process for forest plan revisions.

Inventory and Monitoring.—The bill provides \$161,980,000 for inventory and monitoring. The Forest Service is encouraged to allocate more funding towards monitoring of grazing allotments and work with State agencies, universities, professional societies and other USDA agencies, such as the Natural Resources Conservation Service, to efficiently and effectively increase allotment monitoring.

Recreation, Heritage, and Wilderness.—The bill provides \$281,627,000 for recreation, heritage and wilderness programs. In place of House direction on the travel management rule, the Forest Service is encouraged to revise travel management plans where significant issues have arisen and resolve the Maintenance Level-3 road problem in Region 5. The agreement does not provide direction on the Wyoming Wilderness Act.

Grazing Management.—The bill provides \$55,445,000 for the grazing management program. The conferees are concerned that the best science should be used in making decisions concerning grazing on the Dakota Prairie Grasslands. Currently, North Dakota State University is conducting research that should benefit the agency in making these determinations. The agency is strongly encouraged to work cooperatively with the university and utilize its research to the extent practicable, to better inform its grazing management decisions.

Forest Products.—The bill provides \$336,049,000 for the forest products program. The Forest Service is directed to improve the health and resilience of national forests and through these efforts, work to achieve three billion board feet of timber sold. The conferees note that over the last ten years, the timber supply in Region 10 has been constrained to less than 10 percent of the allowable sale quantity in the current land management plan. The Forest Service is encouraged to prepare and offer, within three years, the four 10-year timber sales as previously indicated.

Vegetation and Watershed Management.—The bill provides \$184,341,000 for vegetation and watershed management activities. The Service is strongly encouraged to provide sufficient resources for leafy spurge eradication.

Wildlife and Fish Habitat Management.—The bill provides \$140,260,000 for wildlife and fish habitat management activities.

Collaborative Forest Landscape Restoration.—The bill provides \$40,000,000 for the Collaborative Forest Landscape Restoration Fund.

Minerals and Geology Management.—The bill provides \$83,560,000 for minerals and geology management activities.

The Service should implement the recommendations included in the report, “Assessing the Potential for Renewable Energy on National Forest System Lands” and initiate a planning process for a renewable energy development program and, where appropriate, apply guidelines already developed by the Bureau of Land Management.

Landownership Management.—The bill provides \$85,875,000 for landownership management activities. In the case of any land exchange involving National Forest System land carried out directly or through a third-party, the Forest Service is directed to provide written notice of the proposed land exchange to each owner of non-Federal land adjoining a parcel of National Forest System land proposed for exchange and each owner of non-Federal land adjoining the non-Federal land proposed to be acquired in the exchange. The Secretary shall determine adjoining landowners using the most recent available tax records.

Integrated Resource Restoration.—The conferees have agreed to the House proposal to allow the Administration to conduct an Integrated Resource Restoration pilot in Regions 1, 3, and 4. Within 90 days of enactment of this Act, the Forest Service should present a plan and guidance to the pilot regions for measuring performance and accountability. The plan and guidance should ensure program transparency, monitoring, fair allocation of funding, a consistent approach across the three regions, and that restoration is the primary goal of any projects funded through the pilot. The plan should also include traditional measures, such as timber targets and acres treated, while also including new measures such as watershed condition framework.

CAPITAL IMPROVEMENT AND MAINTENANCE

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$394,721,000 for capital improvement and maintenance programs offset by a \$12,000,000 scoring credit related to the road and trail fund. The conferees also provide the following directions:

Facilities.—The bill provides \$75,785,000 for facilities including \$13,124,000 for construction and \$62,661,000 for maintenance. For future year planning, the Forest Service should include both new construction and maintenance in its list of major facilities projects based on its facility master plans and the most efficient use of taxpayer dollars.

Roads.—The bill provides \$182,818,000 for roads including \$27,327,000 for construction and \$155,491,000 for maintenance.

Trails.—The bill provides \$81,982,000 for trails including \$63,422,000 for maintenance and \$18,560,000 for construction.

Legacy Roads.—The bill provides \$45,000,000 for the legacy roads and trails program. The agreement retains this program within Capital Improvement and Maintenance. The Forest Service should report on the jobs associated with this program and publicly post this information.

Back-country airstrips.—In place of the reporting requirements in the House Report for back-country airstrips, within one year after the date of enactment of this Act, the Forest Service is directed to provide the Committees with a general assessment of back-country airstrips on National Forest System lands with recommendations for improving their function as an important component of the forest transportation and recreation system.

Bill Language.—The bill includes language allowing the transfer of funding from Capital Improvement and Maintenance to the National Forest System for the Integrated Resource Restoration pilot.

LAND ACQUISITION

The bill provides \$52,605,000 for Land Acquisition, of which \$7,500,000 is for acquisition management; \$3,500,000 is for critical inholdings/cash equalization; and \$41,605,000 is for acquisitions.

This amount will fully fund projects 1 through 30 as prioritized by the Service pursuant to the Administration's revised request list provided to the Committees on August 26, 2011. Requests for re-programming will be considered pursuant to the guidelines in the front of this statement.

The conferees direct the Forest Service to use inholding funding to acquire high priority lands within Federal boundaries that maximize benefits to the public through consolidated Federal ownership that provides access, creates management efficiencies, or protects critical resources.

The Secretary of Agriculture is directed to submit a report to the Committees on Appropriations within 90 days of enactment of this Act describing current negotiations between the Forest Service and private landowners for projects receiving prior year and current appropriations within the Tongass National Forest, including the overall scope and timing of these acquisitions.

ACQUISITION OF LANDS FOR NATIONAL FORESTS SPECIAL ACTS

The bill provides \$955,000 for the Acquisition of Lands for National Forests Special Acts.

ACQUISITION OF LANDS TO COMPLETE LAND EXCHANGES

The bill provides \$227,000 for the Acquisition of Lands to Complete Land Exchanges.

RANGE BETTERMENT FUND

The bill provides \$3,262,000 for the Range Betterment Fund.

GIFTS, DONATIONS AND BEQUESTS FOR FOREST AND RANGELAND
RESEARCH

The bill provides \$45,000 for Gifts, Donations and Bequests for Forest and Rangeland Research.

MANAGEMENT OF NATIONAL FOREST LANDS FOR SUBSISTENCE USES

The bill provides \$2,577,000 for the Management of National Forest Lands for Subsistence Uses.

WILDLAND FIRE MANAGEMENT

(INCLUDING TRANSFERS OF FUNDS)

The bill provides \$1,737,631,000 for Forest Service Wildland Fire Management. In addition to the funding provided, the Forest Service is directed to use \$240,000,000 in carryover emergency fire suppression funds before obligating fiscal year 2012 suppression funds. The amount provided, combined with \$315,886,000 in the FLAME Wildfire Suppression Reserve Fund, fully funds the Forest Service's 10-year average expenditures for fire suppression. The conferees also provide the following directions:

The Forest Service should complete a plan to replace the aging fleet of federal air tankers as soon as possible. While the Forest Service and others have produced study after study on the critical shortage of firefighting aircraft, there has been a complete lack of substantive progress this year. The Service must work more closely with the Department of the Interior in developing the strategy for replacing the current air tanker fleet.

Hazardous Fuels.—The bill provides \$317,584,000 for hazardous fuels activities. The Forest Service is directed to remove the requirement that seventy-five percent of hazardous fuels funding be spent in the Wildland Urban Interface and instead the conferees direct hazardous fuels funding be spent on the highest priority projects in the highest priority areas.

FLAME WILDFIRE SUPPRESSION RESERVE FUND

(INCLUDING TRANSFERS OF FUNDS)

The bill provides \$315,886,000 for the FLAME Wildfire Suppression Reserve Fund.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

INDIAN HEALTH SERVICE

INDIAN HEALTH SERVICES

The bill provides \$3,872,377,000 for Indian Health Services. Of the amount requested for current services, the conferees have included \$56,019,000 above the fiscal year 2011 enacted level, which

covers the cost of staffing new facilities. Program increases above the fiscal year 2011 enacted level include \$12,000,000 for the Indian Health Care Improvement Fund; \$3,400,000 for Health IT Security; \$65,000,000 for Contract Health Services; \$3,185,000 for Direct Operations; and \$74,500,000 for Contract Support Costs. In agreement with the request, a reduction of \$7,000,000 has been assumed from savings in grant programs. The conferees direct the Service to meet its annual Contract Support Costs reporting requirement due date, and to provide the Committees with current Contract Support Costs estimates in conjunction with its annual budget submission.

The Service is directed to update the Committees at least annually on the progress of the Early Childhood Caries initiative and the ability of the Service to meet its goals in the allowed time frame. The conferees note that the Service has already complied with the request contained in the House report to provide a detailed schedule for implementation of the Electronic Dental Record system.

Within the overall amount identified in the "Indian Health Services" account for the staffing of new facilities, funds are directed to the following projects, as requested in the President's budget request: \$1,809,000 for the Carl Albert Hospital replacement, Ada, Oklahoma; \$783,000 for the Lake County Tribal Health Center, Lakeport, California; \$6,294,000 for the Elbowoods Health Center, New Town, North Dakota; \$21,185,000 for the Cheyenne River Health Center, Eagle Butte, South Dakota; \$8,226,000 for the Absentee Shawnee Health Center, Little Axe, Oklahoma; \$7,879,000 for the Cherokee Nation Vinita Health Center, Vinita, Oklahoma; and \$9,843,000 for joint venture projects. This distribution is in agreement with the budget estimate as it has been revised to reflect distributions made under the fiscal year 2011 operating plan, which was not available at the time the Service's request was submitted to Congress.

The conferees understand that a number of joint venture construction projects are nearing completion and will require support for the staffing of these new facilities. The Service is urged to request sufficient funding in future budgets to fulfill its obligations to participating tribes in the joint venture program.

Within the Indian Health Professions activity, the conferees have continued support for the Recruitment/Retention of American Indians into Nursing program; the Indians into Psychology program; and the Indians into Medicine program.

INDIAN HEALTH FACILITIES

The bill provides \$441,052,000 for Indian Health Facilities. Of the amount requested for current services, the conferees have included \$7,032,000 above the fiscal year 2011 enacted level, which covers the cost of staffing new facilities. Program changes to the fiscal year 2011 enacted level include a decrease of \$15,955,000 from Sanitation Facilities Construction, as requested, and an increase of \$46,028,000 for Health Care Facilities Construction.

Within the overall amount identified in the "Facilities Services" account for the staffing of new facilities, funds are directed to the following projects, as requested in the President's budget re-

quest: \$678,000 for the Carl Albert Hospital replacement, Ada, Oklahoma; \$305,000 for the Lake County Tribal Health Center, Lakeport, California; \$1,021,000 for the Elbowoods Health Center, New Town, North Dakota; \$3,487,000 for the Cheyenne River Health Center, Eagle Butte, South Dakota; \$755,000 for the Absentee Shawnee Health Center, Little Axe, Oklahoma; and \$786,000 for the Cherokee Nation Vinita Health Center, Vinita, Oklahoma.

The amount provided for health care facilities construction includes, as requested in the President's budget request: \$62,184,000 to complete the Barrow Hospital, Barrow, Alaska; \$10,000,000 for the Kayenta Health Center, Kayenta, Arizona; \$10,000,000 for the San Carlos Health Center, San Carlos, Arizona; \$2,000,000 for the Southern California Youth Regional Treatment Center, Hemet, California; and \$1,000,000 to complete a feasibility report on the use of modular construction for health facilities.

The conferees are concerned about the large unobligated balances in the "Indian Health Services" and the "Indian Health Facilities" accounts. The conferees direct the Service to review the programs that have carried high unobligated balances in recent years and provide a detailed report to the Committees within 90 days of enactment of this Act on the causes for these unobligated balances and present a plan for reducing them.

The conferees support the joint venture between the Library of Congress and the Smithsonian Institution creating a comprehensive compilation of personal histories and testimonials of individuals who participated in the Civil Rights movement. The conferees remain committed to the preservation of priceless, irreplaceable Smithsonian Institution collections and direct the Smithsonian to take steps toward implementing the recommendations of a recently completed audit by the Smithsonian's Office of Inspector General (OIG) on collections stewardship at the National Museum of American History. The conferees also support the decision by the OIG to use the Institution's Strategic Plan as a standard by which to measure the Institution's performance in its proposed audits and reviews. The Smithsonian Institution is directed to work with the Committees to standardize its annual budget submission justifications and supporting materials.

FACILITIES CAPITAL

The bill provides \$175,000,000 for the Facilities Capital account of which \$75,000,000 is to complete the design and begin the construction of the National Museum of African American History and Culture (NMAAHC). NATIONAL FOUNDATION ON THE ARTS AND HUMANITIES

NATIONAL ENDOWMENT FOR THE ARTS

GRANTS AND ADMINISTRATION

The bill provides \$146,255,000 for the National Endowment for the Arts (NEA). The conferees agree that initiatives begun in prior years, such as the *Big Read and Shakespeare in American Communities*, are programs of demonstrated worth that reach a broad geographic audience. The Endowment is urged to maintain these grants at an appropriate funding level to allow a vibrant, competitive program to be maintained.

The conferees understand that the proposal included in the budget request to eliminate the National Heritage Fellowship program and the American Jazz Masters Fellowship program was reconsidered by the Endowment and subsequently withdrawn. The conferees support this decision and expect the Endowment to continue its annual recognition of individuals with outstanding achievements in these disciplines in a similar manner to past years. The conferees disagree with the proposal to exempt funds for the "Our Town" initiative from the overall calculation for providing base funding to State arts agencies and direct that funds be distributed based on the longstanding agreement that States receive

40 percent of all appropriated grant funds. Reforms originally instituted by the Committees more than a decade ago relating to program priorities and grant guidelines are fully restated in Sections 418 and 419. These reforms maintain broad bipartisan support and the conferees expect the NEA to adhere to them fully. Further, the conferees encourage the Administration and the appropriate committees of jurisdiction in Congress to address the vacancies on the National Council on the Arts in a timelier manner than has been the case to date.

NATIONAL ENDOWMENT FOR THE HUMANITIES
GRANTS AND ADMINISTRATION

The bill provides \$146,255,000 for the National Endowment for the Humanities (NEH). The conferees urge the NEH to provide no less than 40 percent of program funds to support the critical work of state humanities councils. The conferees support the Endowment's efforts to encourage a better understanding of our Nation's history and the democratic principles upon which it was founded by supporting grants for the teaching and study of American history. The conferees, therefore, have included \$3,000,000 for the longstanding, successful *We the People* initiative. The NEH is encouraged to include Native American communities in the *Bridging Cultures* initiative and to work with tribes in the preservation of Native American languages through the Documenting Endangered Languages grant program.

PRESIDIO TRUST FUND

The bill provides \$12,000,000 for the Presidio Trust Fund.

DIVISION F—DEPARTMENTS OF LABOR, HEALTH AND
HUMAN SERVICES, AND EDUCATION, AND RELATED
AGENCIES APPROPRIATIONS ACT, 2012

The Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2012, put in place by this division incorporates the following agreements of the managers. Funds for the individual programs and activities within the accounts in this division are displayed in the detailed table at the end of the statement of the managers for this Act. Funding levels that are not displayed in the detailed table are identified within this statement of the managers. In implementing this conference agreement, the Departments and agencies should be guided by the language and instructions set forth in Senate Report 112–84 accompanying the bill, S. 1599, unless specifically addressed in this statement. In cases where the language and instructions in the Senate report specifically address the allocation of funds, each has been reviewed by the conferees and those that are jointly concurred in have been endorsed in this statement of managers.

TITLE I

DEPARTMENT OF LABOR

EMPLOYMENT AND TRAINING ADMINISTRATION

TRAINING AND EMPLOYMENT SERVICES

(INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$3,195,383,000 for Training and Employment Services (TES). Of the amount appropriated under the heading TES, \$1,423,383,000 shall be available for obligation for the period July 1, 2012 through June 30, 2013, and the remaining \$1,772,000,000 shall be available as an advance appropriation for the period October 1, 2012 through June 30, 2013.

The conferees direct that, beginning with the fiscal year 2013 budget request, the TES detailed workload and performance tables in the congressional justification materials be modified to include, as a subset of the “Participants Served in Employment and Training Activities,” the number of participants who participated in core and intensive services, the number of participants who participated in training services, the number of exiters, and the number of exiters who gained employment.

The conference agreement includes \$1,008,432,000 for Dislocated Worker Assistance employment and training activities, of which \$148,432,000 shall be available for obligation for the period July 1, 2012 through June 30, 2013, and the remaining \$860,000,000 shall be available as an advance appropriation for the period October 1, 2012 through June 30, 2013. The conferees continue to support the use of National Emergency Grants to meet unanticipated increases in demand for employment and training services and encourage a rapid execution of funding throughout the program year to address these needs throughout the country.

The conference agreement includes \$84,451,000 for migrant and seasonal farmworker formula grants. The conferees direct that

\$5,689,000 shall be for migrant and seasonal farmworker housing grants, of which not less than 70 percent of this amount shall be used for permanent housing grants. The conferees further direct the Department of Labor to submit annual reports documenting the use of farmworker housing funds. The reports should include information on the amount of funds used for permanent and temporary housing activities, respectively; a list of the communities served; a list of the grantees and the states in which they are located; the total number of individuals or families served; and a list of allowable temporary housing activities.

The conference agreement includes \$50,000,000 for the Workforce Innovation Fund.

The conference agreement includes new language that provides that funding previously made available under Public Law 112–10 designated for young parents training grants may be used for research and implementation activities related to the VOW to Hire Heroes Act of 2011 and other pilots, demonstrations, and research activities.

The conferees note that the National Guard’s Youth ChalleNGe program at the Department of Defense provides a structured high school curriculum in a residential setting for 16- to 18-year old high school dropouts across 27 states. However, the success of this program is hindered by the lack of a formalized employment training component. As the Department of Labor has a long history with such endeavors, the conferees encourage the Secretary of Labor to work with the Department of Defense, providing technical assistance and guidance where needed, in establishing a vocational training component within the Youth ChalleNGe program.

The conference agreement includes a directive for the Government Accountability Office to assess the capabilities of the Adult and Dislocated Worker Employment and Training programs to adequately prepare participants for currently available jobs. The study shall include, but is not limited to, the following:

1. An evaluation of the means by which Workforce Investment Act (WIA) local areas identify currently available jobs and the skills required for those jobs in potential growth sectors of the economy. This may include an evaluation of decisions by regional and local WIA areas and an assessment of the quality of available labor market information and job projections.

2. An evaluation of the means by which WIA local areas direct program participants to prepare or train for currently or soon-to-be available jobs in the WIA area. To the extent that prospects for employment are greater outside the WIA area, the evaluation will assess the extent to which WIA areas help the participants of the programs prepare or train for these jobs.

3. A compilation of any recommendations on how participants may be better prepared for current openings and for openings in growth sectors of the economy.

Working Capital Fund.—The conferees have included bill language that allows CDC to begin creating a Working Capital Fund

(WCF) to achieve greater cost efficiencies across the administrative operations of the agency. The conferees expect this WCF to begin making disbursements no sooner than fiscal year 2014. CDC shall notify the House and Senate Committees on Appropriations prior to any funds being transferred to or deposited in the WCF.

The conferees direct CDC to create a strong auditing system for the WCF, which shall include annual auditing of the calculation by which programs are charged to ensure that WCF funds are used solely for administrative costs and that CDC Centers and Offices are not over-charged for services. The conferees instruct that the structure of the WCF shall assume no more than a 2 year availability of any funds within it, that no construction of facilities shall be allowable costs, and that all allowable costs are clearly defined. The conferees further direct that the governance system be designed to include a role for all Center Directors in overseeing the costs incurred. The Committees on Appropriations expect quarterly briefings on the progress being made in drafting the charter and the methodology being used to set up the WCF.

Within the amount provided for Business Services, the conferees have made \$30,000,000 available until September 30, 2013.

NATIONAL INSTITUTES OF HEALTH

The conference agreement includes \$30,689,990,000 for the accounts that comprise the National Institutes of Health (NIH) total appropriation. This total does not include any funding for the Global Fund to Fight AIDS, Tuberculosis and Malaria; the conferees understand that all fiscal year 2012 funding for the Global Fund is provided through Division I (Department of State, Foreign Operations, and Related Programs). The conference agreement continues the allocation to NIH of \$8,200,000 in program evaluation set-aside funding. Appropriation levels for individual institutes and centers are described in the table at the end of this statement of managers.

The conferees recognize NIH's mission to invest in basic biomedical research and apply that knowledge to enhance our Nation's health and well-being, lengthen life, and reduce the burdens of illness and disability. NIH is strongly urged to ensure its policies continue to support a robust extramural community and make certain sufficient research resources are available to the more than 300,000 NIH-supported scientists at over 3,100 institutions across the country. The conferees affirm the critical importance of new and competing research project grants (RPGs) to the mission of NIH and are concerned that in the past few years, NIH has failed to support the number of new, competing RPGs that it estimated would be awarded in its annual congressional budget justifications. The conferees expect NIH to evaluate its new grant-estimating methodology to improve its accuracy and support as many scientifically meritorious new and competing RPGs as possible, at a reasonable award level, with the funding provided in this Act.

In recent years, extramural research has accounted for nearly 90 percent of NIH's budget. The conferees strongly urge NIH to maintain at least that level in fiscal year 2012. NIH should also establish safeguards to ensure the percentage of funds used to support basic research across NIH is maintained.

The Office of the Director (OD) shall ensure, as practicable, the programs and offices within OD receive increases proportional to the overall increase, unless otherwise specified. The conferees request quarterly notification on obligations from the NIH Director's Discretionary Fund to the Committees on Appropriations of the House of Representatives and the Senate.

The conferees expect NIH to continue the long-standing policy for Common Fund projects to be short-term, high-impact awards, with no projects receiving funding for more than 10 years. The conferees recognize that certain investigator-initiated programs such as Pioneer Awards may be exceptions to the 10-year limit. Any other proposed exceptions should be explained in the fiscal year 2013 congressional budget justification.

The conference agreement includes language to eliminate the National Center for Research Resources (NCRR) and create the National Center for Advancing Translational Sciences (NCATS).

NCATS will study steps in the therapeutics development and implementation process, consult with experts in academia and the biotechnology and pharmaceutical industries to identify bottlenecks in the processes that are amenable to re-engineering, and develop new technologies and innovative methods for streamlining the processes. In order to evaluate these innovations and new approaches, NCATS will undertake targeted therapeutics development and implementation projects. In all of these efforts, the conferees expect that NCATS will complement, not compete with, the efforts of the private sector.

While the conferees welcome the creation of NCATS, they were disappointed by the way the administration requested it. The President's proposed budget for fiscal year 2012 included a vague description of NCATS but did not formally request funding for the restructuring or provide any details about which components of NIH would be consolidated into the new Center. The failure to do so caused unnecessary uncertainty about the proposal and contributed to the impression that it was being rushed. The conferees are also aware of concerns that the NIH process for evaluating the merits of the NCATS reorganization did not comply with the NIH Reform Act of 2006 with respect to the role of the Scientific Management Review Board (SMRB).

Lessons learned with NCATS should guide NIH as it considers another proposed restructuring, one that would involve consolidating NIDA, NIAAA and components of other Institutes and Centers (ICs) into a new Institute devoted to research on substance use, abuse and addiction. The conferees understand that NIH plans to adopt a more deliberate approach in evaluating the need for this Institute. The conferees strongly recommend that this approach should include full consideration by the SMRB and that if the administration ultimately decides to seek such a restructuring, it should provide sufficient details in a formal budget request to Congress.

The following table provides the specific funding levels for the institutes and centers and displays the comparable adjustments related to the reorganization.

Cures Acceleration Network (CAN)		0		

Note: The FY 2011 enacted level does not include transfers.

Cures Acceleration Network (CAN).—The conferees provide NCATS with up to \$10,000,000 to support the CAN Board and related activities. The conferees expect a high bar for any use of waiver authority for CAN grant matching funds; any use should be extremely limited to maximize funds towards the CAN goals. The conferees encourage the CAN Board to create general principles and measurable outcomes to track success. The conferees request NCATS to charter an Institute of Medicine (IOM) work group to review, evaluate, and identify issues related to the CAN authority and provide a report for use by the CAN Board to help it identify ways to accelerate and expand the number of cures. The report should include a survey and inventory of activities at NIH, FDA, AHRQ, CDC, the Patent and Trademark Office (PTO), and in the private sector that relate to the CAN program. The conferees urge IOM to include balanced participation by the entities listed above as well as the representatives of the pharmaceutical and biotechnology industry and the biotech venture capital community. The report should address patent authority, marketability, use of high-throughput analysis, regulatory timelines, and cost structure issues related to the purpose of CAN.

Accelerating Commercialization of Therapies to Patients.—The conferees understand the need to develop models to assist research universities and institutes on the best ways to leverage and commercialize federally supported basic and applied biomedical re-

search discoveries. This is a key reason why the conferees have agreed to create NCATS. The conferees note the market has started to develop public-private sector models that are beginning to show results in translating basic research far more quickly than traditional models. These types of models use pre-defined technology-licensing terms to rapidly license new products and build a core of options for commercialization partnerships with pharmaceutical and biotechnology companies to establish joint ventures to further advance products to the market. The conferees strongly urge NIH to study and foster these models.

The conferees expect any NIH-supported partnerships to expand translational pharmaceutical development in a manner that does not inhibit creative market models. Top priorities of the Center should include developing tools to improve the “de-risking” process and advancing the drug development process to the point at which it can reasonably be expected to be picked up by the private sector. The conferees suggest the selection of Center projects should consider future market acceptance as one component of the criteria to evaluate and select potential Center projects. The conferees direct NIH to host a trans-NIH workshop with key research organizations, venture capitalists, pharmaceutical firms, the PTO, the FDA, and a sample of research universities and institutes to work together with NIH and the drug development market. The workshop should also consider how existing NIH and government mechanisms can be used to encourage models around the country to speed commercialization of therapies through a market-based approach.

Clinical and Translational Science Awards (CTSAs).—The conferees are encouraged by the success of the CTSA consortium and recommend the program receive full funding as it nears full implementation. The conferees expect the NCATS Director to ensure the current focus on the full spectrum of translational research is maintained, and CTSA resources are not diverted. The inclusion of patient-centered research, community engagement, training, dissemination science, and behavioral research is extremely important to the translation and application of basic science discoveries and success of the CTSAs. CTSAs now represent an investment of half a decade of innovation in translational research. To ensure the benefits of this investment are maintained, the conferees urge NIH to support a study by the IOM that would evaluate the CTSA program and recommend whether changes to the current mission are needed. The review should include stakeholders’ input and be available no later than 18 months after the enactment of this bill.

Therapeutics for Rare and Neglected Disease (TRND) Program.—The conferees continue support for TRND at a level of \$24,000,000 within NCATS. The conferees urge NIH to provide an annual report on the TRND program that identifies the number of projects started each year, cost per project, and the outcome of each project. The first report should be provided to the Committees on Appropriations by July 1, 2012.

Institutional Development Awards.—The conferees provide \$276,480,000 to increase support for the Institutional Development Awards (IDeA) program. The conferees recognize the importance of the Centers of Biomedical Research Excellence (COBRE) and the

IDEA Networks of Biomedical Research Excellence (INBRE) programs. The conferees believe the IDEA program has made a significant contribution to biomedical research and creating a skilled workforce. Therefore, the conferees provide a \$45,882,000 increase and recommend it be divided equally toward a new COBRE competition and to support new awards for the IDEA Clinical Trial and Translation Program to develop infrastructure for clinical and translational research in IDEA States. The conferees encourage the NIH Director to expand the program to support co-funding of IDEA projects across NIH ICs to foster the development of efforts in IDEA State programs. Further, as an Office of Experimental Program to Stimulate Competitive Research (EPSCoR) program, the focus of IDEA should continue to be on improving the necessary infrastructure and strengthening the biomedical research capacity and capability of research institutions. Unfortunately, many institutions in EPSCoR-qualifying States who could benefit from the IDEA program are ineligible for funding. The conferees encourage NIH to revise current eligibility criteria to take into account how the decreasing success rate for R01 grants NIH-wide is affecting IDEA eligibility. In particular, the conferees believe the IDEA Director should have the authority to consider funding institutions in any State that is EPSCoR eligible. The conferees urge NIH to develop criteria to incorporate flexibility into the program to address these concerns. The conferees request an update on both the IDEA eligibility criteria proposals and funding level by State and major activities, to include the co-funding activity, in the fiscal year 2013 congressional budget justification.

Third Party Collections 3-Year Pilot.—Since fiscal year 1997, Congress has included bill language authorizing NIH to “collect third party payments for the cost of clinical services that are incurred in NIH research facilities.” NIH has not yet exercised that authority. A recent study released in September that was conducted by PricewaterhouseCoopers LLP (PwC) found that there are numerous potential advantages as well as potential disadvantages to implementing a third party billing program. “The potential use of third party billing represents a significant investment and enduring change for the NIH Clinical Center,” the study states. “As such, additional efforts beyond the 14-week study represented in this report may be undertaken to more fully consider the challenges associated with the use of third party billing and the opportunities that may exist.” The conferees concur with this observation and therefore direct NIH to conduct a 3-year pilot study to assess the viability of third party reimbursement at NIH by looking at one of the services commonly used by a significant number of outpatients at some point in the patient’s protocol. One possible example would be radiology services, but this is not the only option. The Committees on Appropriations expect to be briefed on the proposed subject area and scope of the pilot before it is finalized. The conferees include \$10,000,000 for the Clinical Center for the costs of building the billing infrastructure for the pilot.

Neuroblastoma.—The conferees note the promising results of a recent clinical trial using a chimeric antibody to treat newly diagnosed neuroblastoma patients. The conferees support efforts to fa-

facilitate access to this new therapy for relapsed patients and request an update in the fiscal year 2013 congressional budget request.

Clinical Trials.—The conferees are aware of a 2010 IOM study on clinical trials that identified a number of concerns which may apply across all ICs.

The conferees direct NIH to conduct a trans-NIH review of the applicability of the 12 IOM recommendations to all NIH ICs that conduct clinical trials. The review should examine ways to develop and strengthen NIH-wide policies with a focus on opportunities to improve the incorporation of innovative science, increase speed of initiation and completion, improve the means of setting priorities, and develop better incentives for participation in clinical trials.

The conferees note the report found it takes over 900 days to open a clinical trial, but trials supported through the American Recovery and Reinvestment Act developed methods to open studies within 90 days. The conferees encourage NIH to consider guidance to incorporate the 90-day opening model into other NIH-wide clinical trial activity.

The review should examine the policies of each IC regarding funding for variable accrual costs per case, and ensure consistent guidelines across NIH. Specifically, the review should examine the viability and effect on speed of opening trials of a multi-tier system in which payments for cost-per-accrual vary according to the time required to open the trial. Furthermore, the review should examine the methods and processes ICs use to prioritize clinical trials based on peer-review input, funding, and other ways to optimize selection of studies.

The conferees request a report by September 30, 2012, that identifies the findings, proposed policy changes, implementation timeline, and key measures NIH will use to monitor clinical trial activity.

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES ADMINISTRATION

The conference agreement includes \$3,354,313,000 for the Substance Abuse and Mental Health Services Administration (SAMHSA). In addition, the conference agreement makes available \$129,667,000 under section 241 of the Public Health Service (PHS) Act.

The conference agreement includes bill language that divides SAMHSA into several accounts to improve transparency and accountability. The conferees direct that future budget requests, to include the fiscal year 2013 budget request, reflect this new structure. Further, the conferees direct SAMHSA to include in its budget justification the specific funding increases, decreases and FTE changes being requested by program, project or activity, along with a detailed description of activities funded under each program, the number of new and continuing grants made; the average grant size; and a State-by-State table for any formula-based funding for all budget lines included in this Statement of the Managers. The conferees expect that SAMHSA shall not make changes to any program, project, or activity as outlined by the budget tables included in this Statement of the Managers without prior notification to the House and Senate Committees on Appropriations.

The conferees have provided funding for Programs of Regional and National Significance under each of SAMHSA’s statutorily-created Centers rather than consolidate funding into a single account for Innovation and Emerging Issues, as proposed in the budget request.

MENTAL HEALTH

The conference agreement includes \$934,853,000 for Mental Health. In addition, \$21,039,000 is made available under section 241 of the PHS Act.

The conferees intend that funds provided to Project LAUNCH should not duplicate activities eligible for funding elsewhere in HHS.

The conferees intend that all grants awarded for the Primary and Behavioral Health Integration program are funded under the authorities in section 520(K) of the PHS Act. In addition, the conferees have provided \$2,000,000 under a separate budget line for SAMHSA to provide technical assistance related to this program.

Within the funds provided for the Minority Fellowship Program, the conferees have provided an increase in funding to allow SAMHSA to increase the pool of culturally competent mental

health professionals by granting professional counselors eligibility to participate in the program.

Minority Fellowship Program	71,000

The conferees direct SAMHSA to fund the remaining cohort of Strategic Prevention Framework State Incentive Grant grantees at amounts not less than what they received in fiscal year 2011.

The conferees note that building on the infrastructure of current and past Drug Free Communities grantees is an effective way to invest minimal federal dollars to address underage drinking issues at the community level.

HEALTH SURVEILLANCE AND PROGRAM SUPPORT

The conference agreement includes \$109,106,000 for health surveillance and program support activities. In addition, \$27,428,000 is made available under section 241 of the PHS Act.

The conferees have included \$3,500,000 to conduct Military Families Initiatives policy academies.

AGENCY FOR HEALTHCARE RESEARCH AND QUALITY

HEALTHCARE RESEARCH AND QUALITY

The conference agreement includes a program level of \$369,053,000 for the Agency for Healthcare Research and Quality. The conference agreement makes these funds available through section 241 of the Public Health Service (PHS) Act.

Within the total for the Crosscutting Activities Related to Quality, Effectiveness and Efficiency Research portfolio, the conferees provide \$43,364,000 for investigator-initiated research.

CENTERS FOR MEDICARE AND MEDICAID SERVICES

GRANTS TO STATES FOR MEDICAID

The conference agreement includes \$184,279,110,000 for the Federal share of current law State Medicaid costs. In addition, the agreement includes \$90,614,082,000 for program costs in the first quarter of fiscal year 2013.

PAYMENTS TO HEALTH CARE TRUST FUNDS

The conference agreement includes \$230,741,378,000 for the Payments to Health Care Trust Funds account.

PROGRAM MANAGEMENT

The conference agreement includes \$3,879,476,000 for the Program Management account. The agreement maintains the State Health Insurance Assistance Program within the Program Management account. The conferees recommend the following levels within the Program Management account:

Program Management	
Research, Demonstration and Evaluation	\$21,200,000
Program Operations	2,663,935,000
State Survey and Certification	355,876,000
State High Risk Insurance Pools	44,000,000
Federal Administration	794,465,000

The conferees include funding for Research, Demonstration, and Evaluation activities, including the Medicare Current Beneficiary Survey. The conferees encourage CMS to review the programs within this account to determine if they are funded in the appropriate budget line. Specifically, CMS is encouraged to evaluate the advantages and disadvantages of moving the Medicare Current Beneficiary Survey into the Program Operations activity.

Ambulatory Surgical Centers (ASC).—The conferees understand that in 2008, ASCs provided 3.3 million Medicare recipients with outpatient surgical services, including screening services. The conferees have heard concerns related to the use of the consumer price index for urban consumers (CPI-U) to update the payment rates of ASCs, a different method than is used for other comparable service providers. The conferees request that CMS develop a report that compares other potential options for updating the payment rates of ASCs and report back the findings in the fiscal year 2013 budget request.

CMS Test Environment for Testing Industry Solutions in Secure Settings.—The conferees direct and provide \$5,000,000 for CMS to provide a test environment “sandbox” where vendors can work independently and with CMS to seek solutions and execute “proof of concept” tests to Medicare issues in a secure environment, using Medicare data, on CMS technical architecture. The conferees recommend support within the Enterprise IT Activities function to establish an isolated, stand-alone test environment for independent vendor testing of industry solutions that could provide significant benefit to CMS operations. The test environment will provide controlled access to Medicare data to run “proof of concept” tests that determine solution effectiveness in addressing Medicare issues such as improper payment and quality measurement. The test environment must ensure data privacy and security, comply with CMS technical architecture standards, provide temporary access and secure connectivity for vendor testing, and make relevant data sets available for product testing. The conferees request a report and timeline in the fiscal year 2013 budget request.

Comparison of Residency Position.—The conferees request CMS conduct an analysis evaluating the implementation of Section 5503 of Public Law 111–148 on the allocation of Medicare Graduate Medical Education (GME) resident slots to hospitals. This analysis shall compare how residency slots are allocated according to two assignment strategies. Strategy one is the allocation of GME slots according to the current final CMS Federal Rule as published in the *Federal Register* on November 24, 2010. The current final rule states that fiscal year 2009 report data not be included if it was reported after March 23, 2010. Strategy two involves an assessment of GME slot allocation which includes all fiscal year 2009 cost reports, including data for hospitals whose fiscal year ended on December 31, 2009, and as such have cost data reported after March

23, 2010. The report of this analysis shall include the number of Medicare GME slots allocated to each hospital under the two different allocation strategies. The conferees request CMS provide the final report with the detailed hospital level information under each option to the House and Senate Appropriations Committees not later than 6 months after enactment.

Dialysis Facilities.—The conferees are concerned by reports of delays in the processing for surveys and certifications for dialysis facilities and encourage CMS to reduce the wait times. Further, the conferees request CMS report back to the Congress within 6 months on major impediments related to processing applications timely and provide its plan to address these impediments.

The conferees urge CMS to develop an overall strategic plan that links its vision for operations, program integrity, information technology, and other areas into a comprehensive approach with measurable objectives and resources. The conferees request a copy of this plan no later than 180 days after enactment.

HEALTH CARE FRAUD AND ABUSE CONTROL ACCOUNT

The conference agreement includes \$310,377,000 from the Medicare trust funds for the Health Care Fraud and Abuse Control Account.

ADMINISTRATION FOR CHILDREN AND FAMILIES

LOW INCOME HOME ENERGY ASSISTANCE

The conference agreement includes \$3,478,246,000 for the Low Income Home Energy Assistance Program.

REFUGEE AND ENTRANT ASSISTANCE

The conference agreement includes \$769,789,000 for Refugee and Entrant Assistance programs.

Within the total provided for Transitional and Medical Services, the conferees include \$65,000,000 for the voluntary agency matching grant program.

Within the total for Unaccompanied Alien Children, the conference agreement includes up to \$6,100,000 for the pro bono legal services pilot to ensure legal representation for both released and detained children.

CHILD CARE AND DEVELOPMENT BLOCK GRANT

The conference agreement includes \$2,282,627,000 for the Child Care and Development Block Grant.

The conferees direct that not later than 120 days after enactment, ACF shall submit to the Committee on Health, Education, Labor and Pensions of the Senate and the Committee on Education and the Workforce of the House of Representatives the results of the study related to suspected and known instances of child abuse

and neglect, as required under section 110(d) of the Child Abuse Prevention and Treatment Reauthorization Act of 2010.

The conference agreement includes up to \$10,000,000 for the Healthy Foods Financing Initiative within the Community Economic Development Program.

ADMINISTRATION ON AGING

AGING SERVICES PROGRAMS

The conference agreement includes \$1,473,703,000 for Aging Services Programs. The conferees urge the Administration on Aging to improve its consultation with the Committees on Appropriations regarding any reallocation of funds that may occur after the submission of its congressional justification. The conferees have not transferred the SHIP program from CMS.

OFFICE OF THE SECRETARY

GENERAL DEPARTMENTAL MANAGEMENT

The conference agreement includes \$475,221,000 for General Departmental Management. In addition, the conference agreement includes \$69,211,000 in funding from the Public Health Service program evaluation set-aside.

DEPARTMENT OF EDUCATION

The conference agreement includes \$15,750,983,000 for Education for the Disadvantaged. The conference agreement provides \$4,909,806,000 in fiscal year 2012 and \$10,841,177,000 in fiscal year 2013 funding for this account.

For Title I School Improvement Grants, the conference agreement continues bill language permitting fiscal year 2012 appropriations to be used by local educational agencies to serve any Title I, part A-eligible school that has not made adequate yearly progress for at least two years or is in a State's lowest quintile of performance based on proficiency rates and, in the case of secondary schools, priority shall be given to those schools with graduation rates below 60 percent.

The conference agreement includes language permitting the Secretary to establish a maximum subgrant size of \$2,000,000 for Title I School Improvement Grants and allows the Secretary to reserve up to 5 percent of school improvement funds for State and local capacity building.

The conferees note that many children in schools receiving SIG funds face myriad personal, familial, and community challenges (including poverty-related stressors), and these challenges follow students into their schools, often resulting in distracting, disruptive, and ineffective learning environments. Even the best school leaders and teachers cannot achieve optimal results unless poverty-

related barriers to teaching, learning, and school organization are addressed and effective conditions for learning are established. These barriers to teaching and learning must be addressed in addition to in-school factors in order to achieve sustained academic success.

The conferees direct the Department to require that all schools receiving SIG funds have a plan in place for addressing the academic and non-academic needs of their students, including improving the overall school climate where necessary, in addition to addressing factors such as the usage of time, instructional practices, and professional development and supports. The conferees expect the plan to assess and address as appropriate the mental health needs and interventions of the students at the school in an integrated manner within the overall turnaround strategy; related training and professional development for all staff that increase classroom efficacy such as classroom organization and management, including teachers and administrators; access to school-based counseling services; the development of school-based systems, such as teams, to identify and address individual student academic, behavioral, health, or social needs and to support a positive and developmentally appropriate school climate; and how parents, families and the community will be engaged in this and other aspects of the school turnaround process.

For the Striving Readers program, the conference agreement includes \$160,000,000 and bill language to continue a comprehensive literacy program for States.

The conference agreement also includes bill language that requires the Alaska Native Education program to be awarded without regard to earmarks included in the program's authorizing stat-

ute. The conference agreement also allows funds within this program to be used for construction.

The conferees intend that in providing the technical assistance and guidance described in Senate Report 112–84, the Department of Education should not give priority to, show preference for, or provide direction about whether communities use 21st Century Community Learning Center funds for after school, before school, summer school or extended school day programs, unless specifically requested by a State or local educational agency.

Accordingly, the conference agreement includes \$2,000,000 under the National Activities line for a pilot project to increase the role of tribal education departments in Native American education. In the pilot, tribal education agencies would directly administer some Elementary and Secondary Education Act programs to enter into collaborative agreements with States to work closely with school districts located on Indian reservations or former Indian reservations located in Oklahoma. The conferees expect the Department of Education to collaborate with the Bureau of Indian Affairs on this effort.

The conference agreement includes \$1,530,429,000 for Innovation and Improvement.

The conference agreement includes \$550,000,000 for the Race to the Top program and authorizes the Secretary to make grants under this authority to local educational agencies. The conference agreement also authorizes the Secretary to use up to five percent of funds under the Race to the Top and Investing in Innovation authorities for technical assistance and evaluation of these programs.

tions and other entities that are not-for-profit entities for replication and expansion of successful charter school models.

private, non-profit entities and extends availability of these funds to September 30, 2013.

The conference agreement provides \$2,000,000 for competitive grants to support alternative financing programs that provide for the purchase of assistive technology (AT) devices. The conferees' goal in providing these funds is to allow greater access to affordable financing to help people with disabilities purchase the specialized technologies needed to live independently, to succeed at school and work and to otherwise live active and productive lives. The conferees intend that applicants incorporate credit building activities in their programs, including financial education and information about other possible funding sources. Successful applicants must emphasize consumer choice and control and build programs that will provide financing for the full array of AT devices and services and ensure that all people, regardless of type of disability or health condition, age, level of income and residence have access to the program.

SPECIAL INSTITUTIONS FOR PERSONS WITH DISABILITIES

NATIONAL TECHNICAL INSTITUTE FOR THE DEAF

The conference agreement includes \$65,546,000 for operations for the National Technical Institute for the Deaf. HIGHER EDUCATION

The conference agreement includes \$1,873,196,000 for Higher Education.

The conference agreement provides \$74,177,000 for International Education and Foreign Language Studies. The conferees acknowledge that funding provided in the conference agreement for international education will likely only allow funding for continuation costs. The conferees encourage the Department to look for ways to support undergraduate study abroad programs as authorized by section 604 of the Higher Education Act (HEA).

The conference agreement includes language that allows international education funds to be used to support visits and study in foreign countries to develop language skills and allows up to one percent of international education funds to be used for evaluation, outreach and information dissemination. The conferees direct the Secretary to use international education domestic program funding to maintain a focus on continuing instruction in foreign languages that are less commonly taught, emphasize those critical for national security, and to maintain a pool of international experts for national security needs.

The conference agreement continues language that requires recipients of a multi-year award under the tribal colleges program to continue to receive the amount they would have received prior to the Higher Education Act's reauthorization in accordance with the original award terms.

The conference agreement includes language which consolidates the Javits Fellowship program within the Graduate Assistance in Areas of National Need Program as proposed by the Administration.

The conferees are aware that the Government Accountability Office issued a report this year which identified 82 federal programs designed to improve teacher quality spread across several federal agencies, including 64 at the Department of Education. The conferees note that the report “recognize[d] that there could be instances where some degree of program duplication, overlap, or fragmentation may be warranted due to the nature or magnitude of the federal effort”. The conferees also note that under the fiscal year 2011 bill and this conference agreement nearly 25 percent of the identified programs within the Department have been consolidated or eliminated. The conferees request the Department to issue a report within 180 days of enactment of this Act that identifies remaining programs designed to improve teacher quality, which agency administers the program, the most recent program evaluation data available for each (if any), and includes recommendations on how agencies can better collaborate and coordinate on administration of these programs.

DIVISION G—LEGISLATIVE BRANCH APPROPRIATIONS ACT,
2012

The following is an explanation of the effects of Division G, which makes appropriations for the Legislative Branch for fiscal year 2012. Unless otherwise noted, reference to the House and Senate reports are to House Report 112–148 and Senate Report 112–80. The language included in House Report 112–148 and Senate Report 112–80 should be complied with and carry the same emphasis as the language included in the explanatory statement, unless specifically addressed to the contrary in this explanatory statement. While repeating some report language for emphasis, this explanatory statement does not intend to negate the language referred to above unless expressly provided herein.

TITLE I

LEGISLATIVE BRANCH

SENATE

The conferees agree to appropriate \$868,593,000 for Senate operations. This item relates solely to the Senate, and is in accordance with long practice under which each body determines its own housekeeping requirements and the other concurs without intervention.

The conferees note one technical correction to the chart included in Senate Report 112–80 under the heading Senators’ Official Personnel and Office Expense Allowance Fiscal Year 2012 to take into account a population change for the state of Colorado that was inadvertently omitted.

State	Administrative and clerical assistance allowance 10/1/2011	Legislative assistance allowance 10/1/2011	O.O.E.A. allowance 10/1/2011	Total allowance 10/1/2011
Colorado	2,431,275	477,874	180,096	3,089,245

HOUSE OF REPRESENTATIVES

The conferees agree to appropriate \$1,225,680,000 for House operations. This item relates solely to the House, and is in accordance with long practice under which each body determines its own housekeeping requirements and the other concurs without intervention.

SECURITY IN CONGRESSIONAL DISTRICT OFFICES

The conferees are aware of efforts underway by the House Sergeant At Arms (HSAA) and the Capitol Police (USCP) to improve security in Congressional district offices. With the assistance of the HSAA and USCP, many Member offices had security assessments conducted and were provided a list of recommended security upgrades as a result of those assessments. Member offices currently pay for their office leases, including physical security, through their office budgets, also called the Members’ Representational Allowance, which have been reduced. While the payment for district se-

curity is decentralized, the guiding principles and policies should not be. Therefore, the HSAA, along with USCP, shall assist offices in prioritizing improvements and highlighting alternative office locations that yield greater security with less cost. In addition the House's Chief Administrative Officer is directed to provide outreach to Member offices and offer assistance in lease negotiations as Member offices look to relocate or negotiate more favorable terms that incorporate heightened security concerns.

JOINT ITEMS

JOINT ECONOMIC COMMITTEE

The conference agreement includes \$4,203,000 for salaries and expenses.

JOINT COMMITTEE ON INAUGURAL CEREMONIES OF 2013

The conference agreement includes \$1,237,000 for salaries and expenses associated with conducting the inaugural ceremonies of the President and Vice President of the United States.

JOINT COMMITTEE ON TAXATION

The conference agreement includes \$10,004,000 for salaries and expenses.

OFFICE OF THE ATTENDING PHYSICIAN

The conference agreement includes \$3,400,000.

OFFICE OF CONGRESSIONAL ACCESSIBILITY SERVICES

The conference agreement includes \$1,363,000.

ADMINISTRATIVE PROVISION

The conferees have included an administrative provision which authorizes employees of the Office of Congressional Accessibility Services to participate in the Senate employee student loan repayment program.

CAPITOL POLICE

SALARIES

The conference agreement includes \$277,133,000 for salaries of officers, members, and employees of the Capitol Police. This level will support a staffing level of 1,775 sworn officers and 370 civilian personnel.

GENERAL EXPENSES

The conference agreement includes \$63,004,000 for general expenses of the Capitol Police.

WORKFORCE MANAGEMENT/MISSION REQUIREMENTS

The conferees support the directive contained in House Report 112-148 regarding workforce management and mission requirements in lieu of the directive in Senate Report 112-80.

OVERTIME

The conferees recommend no more than 634,667 hours of additional duty in fiscal year 2012 as depicted below. The conferees direct that the Department report on the expenditure of overtime within individual accounts by pay period to the House and Senate Committees on Appropriations, and that the Committees are notified prior to any transfer within accounts, including the associated hours of additional duty.

CONGRESSIONAL YOUTH PARK

The conferees note that the fiscal year 2002 Legislative Branch appropriations bill, Public Law 107-68 included a provision designating a special parcel of the Capitol Grounds as the Congressional Youth Park. The conferees commend the Architect of the Capitol (AOC) for developing the Capitol Complex Master Plan as a guiding document for the future development of the Capitol grounds. The plan embraces Frederick Law Olmstead's original landscape design establishing grounds that enhance and elevate the U.S. Capitol. Integral to this plan should be the original intent of the Botanic Garden to educate visitors about the aesthetic, cultural, economic, therapeutic, and ecological importance of plants. In this spirit, the conferees direct the AOC to develop, as part of the Capitol Complex Master Plan, the cultural landscape plan for the Congressional Youth Park that aligns the use of the Park with Olmstead's historically important vision about the importance of the natural world in their daily lives. This segment of the Master Plan shall also take into consideration landscape requirements necessary to ensure the continued security of the Capitol complex.

CAPITOL VISITOR CENTER

The conference agreement includes \$21,276,000 for the Capitol Visitor Center (CVC).

CVC GIFT SHOP

The conferees note that the CVC gift shop operating budget exceeds the revenues generated within the gift shop revolving fund. The conferees understand that there are mitigating circumstances such as “Buy American” requirements that account for the CVC gift shop operating differently than other gift shops, such as the Library of Congress gift shop. Given that the CVC gift shop has been operating for a few years, the conferees believe it would be beneficial at this juncture for the AOC to review and report on the operations and steps that can be taken to improve operations within the revolving fund understanding the distinctive parameters under which the CVC gift shop operates. This report should be provided to the Committee on Appropriations of the House and Senate no later than March 31, 2012.

ADMINISTRATIVE PROVISIONS

(INCLUDING TRANSFER OF FUNDS)

REIMBURSABLE OVERTIME COSTS

The conference agreement includes an administrative provision, section 1201, which authorizes the Architect of the Capitol to reimburse the Capitol Police for the cost of overtime associated with construction projects.

The conferees direct the Architect of the Capitol and the United States Capitol Police to enter into a memorandum of understanding to establish the appropriate mechanisms necessary to implement this reimbursable process. The memorandum of understanding shall include, but not be limited to, the identification of the type and scope of construction projects subject to reimbursement, the projected overtime and related benefits costs for security requirements necessitated by a specific project before the project commences, and the reporting to the Architect of the Capitol actual costs for reimbursement on a regular basis during and upon completion of a security project. It is the conferees intent that this practice will commence with the submission of the fiscal year 2013 budget request. The Architect of the Capitol shall submit the requested overtime for ongoing and future construction projects for fiscal year 2013. During fiscal year 2013, and for future fiscal years, if overtime costs exceed those requested, the Architect of the Capitol, with the concurrence of the Capitol Police, will submit such costs to the House and Senate Committees on Appropriations for approval.

The conferees have agreed to include administrative provisions (sections 1301–1304) related to reimbursable and revolving fund activities, transfer authority, availability of funds for Workers Compensation Payments, and disposition of surplus or obsolete personal property.

GOVERNMENT PRINTING OFFICE

Operational Review

Over the past 10 years, the Government Printing Office has regularly contracted out approximately 75% of the dollar value of all work ordered annually (other than U.S. passports and secure credentials). The vast majority of the work that is contracted out is for the Executive Branch. Printing for the Congress, passports for State Department, secure credentials for Federal agencies and Congress, products for the Office of the Federal Register, and several important jobs of the Executive Branch, such as the President's Annual Budget and printing for the White House, are conducted in-house, as are all of GPO's digital information operations serving all three branches of the Federal Government. The conferees note that several studies evaluating GPO's production, procurement, and information dissemination programs and operations, including the Federal Depository Library Program, have been conducted in the past. The conferees also note that past reviews have supported the GPO's business model as the most efficient way in which the government should operate its printing and information dissemination responsibilities. The conferees believe that the GPO

and the Congress would benefit from an update of these reviews, particularly given the growth in printing and digital technology in recent years, including the feasibility of Executive Branch printing being continued to be performed by the GPO, and other cost saving operational alternatives that might be worthy of consideration. Within available funds under the heading, "Congressional Research Service", the conferees direct the Congressional Research Service to award a grant or contract to the National Academy of Public Administration, an independent, nonpartisan organization that was chartered by Congress to assist Federal, State, and local governments in improving their effectiveness, efficiency, and accountability, to conduct a study on updating a review of GPO operations and additional cost saving opportunities beyond what GPO has already instituted, if any, and report its findings to the Committee on Appropriations of the House and Senate no later than one year after enactment of this Act.

CONGRESSIONAL PRINTING AND BINDING

(INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$90,700,000 for authorized printing and binding for the Congress.

OFFICE OF THE SUPERINTENDENT OF DOCUMENTS

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$35,000,000.

GOVERNMENT PRINTING OFFICE REVOLVING FUND

The conference agreement includes \$500,000.

GOVERNMENT ACCOUNTABILITY OFFICE

SALARIES AND EXPENSES

The conference agreement includes \$511,296,000 in direct appropriations for salaries and expenses, Government Accountability Office. In addition, \$22,304,000 is available from offsetting collections.

ADMINISTRATIVE PROVISION

The agreement includes an administrative provision, section 1401, that allows GAO to be treated the same as other Legislative Branch agencies regarding employee buyout authority.

The conferees direct that GAO cease all work and no funds are provided for any GAO study related to the study requested in House Report 112-148 regarding the future of the Government Printing Office. That work is being conducted by NAPA through CRS.

Cost Analysis

The conferees believe that in order to provide the GAO with the appropriate funding level to conduct its audits efficiently, the

conferees need a complete understanding of the costs associated with conducting the audits. The concern that certain costs associated with the reports cannot be accounted for was heightened by the GAO Office of Inspector General report noting that "GAO's travel card program could be strengthened by adopting selected best practices identified in related Office of Management and Budget (OMB) guidance. . . . Further, we found that OMB's travel card guidance was not used by GAO to manage or assess the effectiveness of its travel card program controls." Therefore, the conferees direct the GAO to report to the Senate and House Committees on Appropriations on a semi-annual basis, with a cost analysis by function of its work products, a total funding level for any completed report during the fiscal year, and the number of reports previously conducted on the particular issues for which reports are being conducted.

OPEN WORLD LEADERSHIP CENTER TRUST FUND

The conference agreement includes \$10,000,000 for payment to the Open World Leadership Center Trust Fund.

In June 2003 the House Committee on Appropriations directed the Government Accountability Office (GAO) to assess the overall effectiveness and efficiency of the Open World Leadership Center (OWLC) in fulfilling its responsibilities and role in achieving the overall intent and purposes of the program. In March 2004 the GAO issued a report (GAO-04-436) containing recommendations that OWLC establish strategic and performance plans, strengthen assessing and reporting on program performance, and improve its financial management and accountability mechanisms. In the report the OWLC took issue with the GAO emphasis on performance measures, noting that its success is only measurable in the medium or long term. The conferees direct the GAO to reexamine the OWLC regarding the recommendations to determine what action has been taken to meet the GAO recommendations with special emphasis on financial management and performance measures. It has been a number of years since this report was issued, and the conferees believe enough time has lapsed to determine progress in both these fields. Therefore, the conferees direct the GAO to reexamine the recommendations of the March 2004 report with emphasis on financial management and accountability mechanisms and the measurable benefits of the OWLC. GAO shall consult with the Committees on Appropriations as it develops the methodology and scope of the review. GAO shall issue its final report by August 2012 and provide regular updates to the Committees prior to issuing the final report.

JOHN C. STENNIS CENTER FOR PUBLIC SERVICE TRAINING AND DEVELOPMENT

The conference agreement includes \$430,000. The conferees direct that future budget requests from the John C. Stennis Center be accompanied by an appropriately detailed budget justification.

TITLE II—GENERAL PROVISIONS

The conference agreement continues, in sections 201 to 209, nine routine provisions carried in prior years. In addition the agreement includes section 210 related to delivery of printed copies of bills, joint resolutions, and resolutions, section 211 related to delivery of printed copies of the Congressional Record being delivered to a Member's House office, and section 212 related to Members of the House, which places a limitation on the amount that can be expended for the lease of a vehicle.

REPROGRAMMING GUIDELINES FOR LEGISLATIVE BRANCH AGENCIES

The conferees expect all agencies to notify the Committees on Appropriations of the House and Senate of any significant departures from budget plans presented to the Committees of the House and Senate. In particular, agencies funded in this bill are required to notify the Committees prior to each reprogramming of funds in excess of the lesser of 10 percent or \$500,000 between programs, projects, or activities, or in excess of \$500,000 between object classifications (except for shifts within the pay categories, object class 11, 12, and 13, or as further specified in each agency's respective section). This includes cumulative reprogrammings that together total at least \$500,000 from or to a particular program, activity, or object classification, as well as reprogramming of FTEs or funds to create new organizational entities within the Agency or to restructure entities which already exist. These guidelines remain effective unless modified by a subsequent conference.

Report language included by the House, which is not changed by the report of the Senate or this explanatory statement, and Senate report language, which is not changed by this explanatory statement, is approved by the Committees on Appropriations of both Houses of Congress. This explanatory statement, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein. In cases where the House or the Senate has directed the submission of a report, such report is to be submitted to both Houses of Congress. House or Senate reporting requirements with deadlines prior to, or within 15 days after, enactment of the conference agreement shall be submitted no later than 60 days after enactment of this Act. All other reporting deadlines not changed by this explanatory statement are to be met.

TITLE I

DEPARTMENT OF DEFENSE

ITEMS OF GENERAL INTEREST

Reprogramming Guidelines.—The following reprogramming guidelines apply for all military construction and family housing projects. A project or account (including the sub-elements of an account) which has been specifically reduced by the Congress in acting on the budget request is considered to be a congressional interest item and as such, prior approval is required. Accordingly, no reprogrammings to an item specifically reduced below the threshold by the Congress are permitted, except that the Department of Defense may seek reprogrammings for appropriated increments.

The reprogramming criteria that apply to military construction projects (25 percent of the funded amount or \$2,000,000, whichever is less) continue to apply to new housing construction projects and to improvements over \$2,000,000. To provide the services the flexibility to proceed with construction contracts without disruption or delay, the costs associated with environmental hazard remediation such as asbestos removal, radon abatement, lead-based paint removal or abatement, and any other legislated environmental hazard remediation may be excluded, provided that such remediation requirements could not be reasonably anticipated at the time of the budget submission. This exclusion applies to projects authorized in this budget year, as well as projects authorized in prior years for which construction has not been completed. Planning and design costs associated with military construction and family housing projects may also be excluded from these guidelines. In instances where prior approval to a reprogramming request for a project or account has been received from the Committees on Appropriations, the adjusted amount approved becomes the new base for any future

increase or decrease via below-threshold reprogrammings (provided that the project or account is not a congressional interest item as defined above).

In addition to these guidelines, the services are directed to adhere to the guidance for military construction reprogrammings and notifications, including the pertinent statutory authorities contained in DOD Financial Management Regulation 7000.14-R and relevant updates and policy memoranda. The conferees encourage the Office of the Director of National Intelligence to use a format similar to that used by the Office of the Secretary of Defense to submit reprogramming requests.

Incrementally Funded Projects.—The conferees note that the Administration requested several large military construction projects that can be incrementally funded, but were instead submitted as large single-year requests, in accordance with a directive from the Office of Management and Budget to the Department of Defense to severely restrict the use of incremental funding for military construction. The Committees on Appropriations of both Houses of Congress have previously notified the Administration that they reserve the prerogative to provide incremental funding where appropriate, in accordance with authorizing legislation. The conferees continue to believe that military construction projects should be fully funded or separated into stand-alone phases when practical. In some cases, however, incremental funding makes fiscal and programmatic sense. The conference agreement therefore incrementally funds the following projects: Aviation Complex Phase 3A, Fort Wainwright, Alaska; Mountainview Operations Facility, Buckley AFB, Colorado; Hospital Replacement, Increment 3, Fort Bliss, Texas; Ambulatory Care Center Phase 3, Joint Base San Antonio, Texas; STRATCOM Replacement Facility, Increment 1, Offutt AFB, Nebraska; Data Center, Increment 3, Camp Williams, Utah; Ambulatory Care Center, Ph 3, Joint Base Andrews, Maryland; and Strike Fuel Systems Maintenance Hanger, Anderson AFB, Guam.

Quarterly Summary of Notifications.—The conferees direct the services and the Office of the Secretary of Defense (on behalf of itself and Defense agencies) to continue to submit a quarterly report listing all notifications, to include bid savings by service and Defense agencies, that have been submitted to the Committees during the preceding three-month period.

Report on Design Obligations.—The conferees direct that the Secretary of Defense, and the secretaries of the Army, Navy, and Air Force, each submit separate semi-annual reports on the obligation and expenditure of planning and design funds. The Secretary of Defense's report shall cover Military Construction, Defense-Wide, and the reports by the Army, Navy, and Air Force shall cover active, guard, and reserve military construction accounts. Each report shall provide data on the total amount available from each and all fiscal years for planning and design activities, as well as the amounts currently obligated and expended. The reports shall be submitted no later than 30 days following the end of the second and fourth quarters of fiscal year 2012 and semi-annually no later than 30 days following the second and fourth quarters of each fiscal year thereafter.

Quadrennial Defense Review/Nuclear Posture Review (QDR/NPR).—The conference agreement does not reference language requiring the Secretary of Defense to submit a report regarding future funding for the QDR/NPR programs because the reporting requirement has already been fulfilled.

Army Stationing in Europe.—In order to better understand future requirements for U.S. military construction in Germany in light of current and projected realignment activities, the conferees direct that no later than 90 days after enactment of this Act, the Secretary of Defense shall provide a report, in writing, on installations and properties in Germany that the Department of Defense intends to return to the host nation. This report should include (1) intended timelines for closures of U.S. Army installations along with a list of military construction projects required at other installations to facilitate the downsizing and consolidation of Army forces in Germany; (2) identification of the brigade combat team that will be withdrawn from Germany; (3) an estimate of costs (including operation and maintenance costs and military construction costs) to be incurred during fiscal years 2012 through 2015 in connection with keeping the brigade identified in Germany through September 30, 2015, versus stationing a similar brigade in the United States; and (4) identification of the Army installations in the United States with the capability, existing infrastructure, and training facilities to support a brigade combat team similar to the one referenced above. The report should be submitted to the Committees on Appropriations of both Houses of Congress and may include a classified annex if necessary.

Guam Realignment.—The conferees support the Administration's focus on strengthening the U.S. military posture in the Pacific region. One of the most ambitious undertakings by the Department of Defense is the joint U.S.-Japanese plan to move 8,000 Marines and their families from Okinawa to Guam. The conferees note that a number of unforeseen obstacles, including lengthy environmental studies, legal challenges, and land use issues, have hampered the Department's ability to execute planned military construction projects associated with the realignment that have been funded in previous appropriations bills. In light of these delays, the conference agreement does not include funding, as requested, for two projects associated with the realignment. The conferees encourage the Department to complete the Guam master plan and provide a revised cost estimate and timetable for the Guam relocation so that the realignment can proceed without further delay.

MILITARY CONSTRUCTION, ARMY

The conference agreement appropriates \$3,006,491,000 for Military Construction, Army, instead of \$3,041,491,000 as proposed by the House and \$3,066,891,000 as proposed by the Senate. Within this amount, the agreement provides \$229,741,000 for study, planning, design, architect and engineer services, and host nation support, the same amount as proposed by the House and Senate.

MILITARY CONSTRUCTION, NAVY AND MARINE CORPS

The conference agreement appropriates \$2,112,823,000 for Military Construction, Navy and Marine Corps, instead of \$2,436,547,000 as proposed by the House and \$2,187,622,000 as proposed by the Senate. Within this amount, the agreement provides \$84,362,000 for study, planning, design, architect and engineer services, the same amount as proposed by the House and Senate.

MILITARY CONSTRUCTION, AIR FORCE

The conference agreement appropriates \$1,227,058,000 for Military Construction, Air Force, instead of \$1,247,358,000 as proposed by the House and \$1,227,058,000 as proposed by the Senate. Within this amount, the agreement provides \$81,913,000 for study, planning, design, architect and engineer services, the same amount as proposed by the House and Senate.

MILITARY CONSTRUCTION, DEFENSE-WIDE

(INCLUDING TRANSFER OF FUNDS)

The conference agreement appropriates \$3,431,957,000 for Military Construction, Defense-Wide, instead of \$3,533,757,000 as proposed by the House and \$3,380,917,000 as proposed by the Senate. Within this amount, the agreement provides \$430,602,000 for study, planning, design, architect and engineer services, the same amount as proposed by the House and Senate.

Fort Gordon, Georgia, National Security Agency (NSA) Project Adjustment.—The President's budget submission included \$11,340,000 for the NSA Whitelaw Wedge Building addition at Fort Gordon, Georgia. Subsequent to the budget submission NSA determined that the cost of the project had increased to \$17,705,000 and requested a \$6,365,000 funding adjustment for the project. The Director of the NSA transmitted a formal request for this adjustment to the Committees on Appropriations of the House and Senate on June 2, 2011. Therefore, the conference agreement includes an additional \$6,365,000 for this project as requested, with a corresponding decrement from the NSA minor construction account.

Department of Defense Education Activity (DODEA) Schools.—The conferees note that over 86,000 children attend DODEA schools in the United States and overseas, but according to the 2009 DOD Report to Congress on Department of Defense Education Activity's Military Construction Program, 79 percent of DODEA schools were structurally rated as poor or failing. The conferees note that DOD's Future Years Defense Plan (FYDP) for fiscal years 2012 through 2016 includes funding to recapitalize many, but not all, of these schools. The conferees urge the Secretary of Defense to prioritize the recapitalization of all poor or failing DODEA schools, and accelerate funding for this purpose in future FYDPs.

Energy Conservation Investment Program (ECIP).—The conference agreement provides \$135,000,000 for ECIP, as proposed by both the House and the Senate. Additionally, the conference agreement provides \$10,000,000 in dedicated funding for ECIP planning and design, as proposed by the Senate. The conferees strongly sup-

port the efforts of the Department of Defense to promote energy conservation, green building initiatives, energy security, and investment in renewable energy resources, and commend the leadership of the Department and the services for making energy efficiency a key component of construction on military installations. The conferees urge the Department to use the the dedicated planning and design funds to invest in innovative renewable energy projects as well as projects that enhance energy security at military installations and encourages the Department to request dedicated planning and design funding for ECIP in future budget submissions.

Landstuhl Regional Medical Center.—The conferees strongly support the construction of the new Landstuhl Regional Medical Center in Germany to replace the current aging facility, which is inefficient, and structurally a failing facility. However, the conferees note that the size, scope and design of the proposed replacement hospital was initiated several years ago, before the withdrawal schedule for U.S. troops in Iraq and Afghanistan was established, and before looming budget restraints prompted the Department of Defense (DOD) to reconsider all overseas basing of U.S. military forces. Given the potential for major force structure reductions in Europe, the conferees believe that the planning assumptions for the new Landstuhl Regional Medical Center should be re-evaluated to ensure that the facility is properly sized and scoped to meet the emerging contingency and force structure requirements in Europe.

Because of the importance of this project, the conference agreement fully funds the Department's request to proceed with site preparation and utility infrastructure for the replacement hospital. However, the conference agreement restricts the Department from awarding a design contract for the hospital that exceeds the 20 percent design level until the Secretary of Defense has provided a plan to the Committees on Appropriations of the House of Representatives and the Senate describing how it intends to implement the recommendations of a Government Accountability Office study with regard to the plans, baseline data, and estimated cost of the new facility, and certifies that the replacement hospital is properly sized and scoped to meet the projected health care requirements.

The conferees further direct DOD to provide to the Committees, in conjunction with the certification, justification supporting the size and scope of the replacement hospital that includes, at a minimum, (1) documentation that clearly shows how health care requirements were used to calculate the size, configuration, and associated costs of the facility, and (2) a risk or sensitivity analysis that assesses, at a minimum, how potential global posture changes in the area of responsibility of the European Command may impact the health care requirements for the proposed facility.

MILITARY CONSTRUCTION, ARMY NATIONAL GUARD

The conference agreement appropriates \$773,592,000 for Military Construction, Army National Guard, as proposed by the Senate instead of \$798,592,000 as proposed by the House. Within this amount, the agreement provides \$20,671,000 for study, planning, design, architect and engineer services.

MILITARY CONSTRUCTION, AIR NATIONAL GUARD

The conference agreement appropriates \$116,246,000 for Military Construction, Air National Guard, as proposed by both the House and the Senate. Within this amount, the agreement provides \$12,225,000 for study, planning, design, architect and engineer services.

MILITARY CONSTRUCTION, ARMY RESERVE

The conference agreement appropriates \$280,549,000 for Military Construction, Army Reserve, as proposed by both the House and the Senate. Within this amount, the agreement provides \$28,924,000 for study, planning, design, architect and engineer services.

MILITARY CONSTRUCTION, NAVY RESERVE

The conference agreement appropriates \$26,299,000 for Military Construction, Navy Reserve, as proposed by both the House and the Senate. Within this amount, the agreement provides \$2,591,000 for study, planning, design, architect and engineer services.

MILITARY CONSTRUCTION, AIR FORCE RESERVE

The conference agreement appropriates \$33,620,000 for Military Construction, Air Force Reserve, as proposed by both the House and the Senate. Within this amount, the agreement provides \$2,200,000 for study, planning, design, architect and engineer services.

NORTH ATLANTIC TREATY ORGANIZATION SECURITY INVESTMENT PROGRAM

The conference agreement appropriates \$247,611,000 for the North Atlantic Treaty Organization Security Investment Program, the same amount as proposed by the House, instead of \$272,611,000 as proposed by the Senate.

FAMILY HOUSING CONSTRUCTION, ARMY

The conference agreement appropriates \$176,897,000 for Family Housing Construction, Army, instead of \$186,897,000 as proposed by both the House and the Senate.

FAMILY HOUSING OPERATION AND MAINTENANCE, ARMY

The conference agreement appropriates \$493,458,000 for Family Housing Operation and Maintenance, Army instead of \$494,858,000 as proposed by both the House and the Senate.

General Officer Flag Officer Quarters.—The conferees reduced the request for Family Housing Operation and Maintenance by \$1,400,000 based on the Secretary of the Army's notification that the exterior repairs in Stuttgart, Germany, are no longer necessary.

FAMILY HOUSING CONSTRUCTION, NAVY AND MARINE
CORPS

The conference agreement appropriates \$100,972,000 for Family Housing Construction, Navy and Marine Corps as proposed by both the House and the Senate.

FAMILY HOUSING OPERATION AND MAINTENANCE, NAVY
AND MARINE CORPS

The conference agreement appropriates \$367,863,000 for Family Housing Operation and Maintenance, Navy and Marine Corps as proposed by both the House and the Senate.

FAMILY HOUSING CONSTRUCTION, AIR FORCE

The conference agreement appropriates \$60,042,000 for Family Housing Construction, Air Force instead of \$84,804,000 as proposed by both the House and the Senate. The funding adjustment was requested by the Air Force to offset a shortfall in family housing operation and maintenance funding. To cover the shortfall, the Air Force requested the cancellation of a family housing construction improvement project at Misawa, Japan, resulting in a decrease of \$24,762,000 from the budget submission.

FAMILY HOUSING OPERATION AND MAINTENANCE, AIR
FORCE

The conference agreement appropriates \$429,523,000 for Family Housing Operation and Maintenance, Air Force instead of \$404,761,000 as proposed by both the House and the Senate. The \$24,762,000 increase was requested by the Air Force to cover a projected shortfall in family housing operation and maintenance funding. The funding increase is offset by a corresponding reduction of \$24,762,000 in Air Force family housing construction funding.

FAMILY HOUSING OPERATION AND MAINTENANCE,
DEFENSE-WIDE

The conference agreement appropriates \$50,723,000 for Family Housing Operation and Maintenance, Defense-Wide as proposed by both the House and the Senate.

DEPARTMENT OF DEFENSE FAMILY HOUSING
IMPROVEMENT FUND

The conference agreement appropriates \$2,184,000 for the Department of Defense Family Housing Improvement Fund as proposed by both the House and the Senate.

HOMEOWNERS ASSISTANCE FUND

The conference agreement appropriates \$1,284,000 for the Homeowners Assistance Fund as proposed by both the House and the Senate. The conference agreement also includes language that the Secretary of Defense shall not issue any regulation or otherwise take any action to limit the submission of applications prior to September 30, 2012, for benefits, including permanent change of sta-

tion benefits, as provided under section 1013 of the Demonstration Cities and Metropolitan Development Act of 1966, (42 U.S.C. 3374), as amended.

CHEMICAL DEMILITARIZATION CONSTRUCTION, DEFENSE-WIDE

The conference agreement appropriates \$75,312,000 for Chemical Demilitarization Construction, Defense-Wide as proposed by both the House and the Senate.

DEPARTMENT OF DEFENSE BASE CLOSURE ACCOUNT 1990

The conference agreement appropriates \$323,543,000 for the Department of Defense Base Closure Account 1990, as proposed by the Senate instead of \$373,543,000 as proposed by the House.

DEPARTMENT OF DEFENSE BASE CLOSURE ACCOUNT 2005

The conference agreement appropriates \$258,776,000 for the Department of Defense Base Closure Account 2005, as proposed by both the House and Senate. The conferees note that significant bid savings have been realized in the BRAC 2005 military construction program, primarily as a result of the favorable bid climate over the past several years, and believe that these savings should be used to offset current BRAC 2005 requirements as well as current and projected requirements of the Homeowners Assistance Program. The conferees therefore are rescinding \$258,776,000 from previous BRAC 2005 appropriations (Sec. 132 of Administrative Provisions) to offset the fiscal 2012 request. Additionally, the conferees direct the Department to use the transfer authority provided elsewhere in this Act to transfer sufficient unobligated balances from the BRAC 2005 account to the Homeowners Assistance Program to address eligible claims for benefits, including permanent change of station benefits, submitted through September 30, 2012.

BRAC 133.—On November 30, 2011, the Department of Defense Inspector General (DODIG) released report number DODIG 2012–024, which found that the Army’s transportation management plan for Base Closure and Realignment (BRAC) recommendation #133 (Mark Center) was based on faulty data, rendering the transportation plan’s findings and conclusions unreliable. Further, the Inspector General found that the traffic studies used to develop the plan do not address the totality of issues related to site ingress and egress, nor will the plan achieve its goal of reducing single-occupancy vehicle utilization. The conferees find the analysis as outlined in the DODIG’s report deeply troubling. Equally troubling is the Army’s refusal to even consider the DODIG’s recommendations.

In an effort to mitigate traffic congestion surrounding the Mark Center site, the conference agreement includes a limitation on the number of parking spaces the Department may utilize at the Mark Center to no more than 2,000, with the exception of disabled parking spaces. The limitation may be waived in part, but not in whole, if the Secretary of Defense certifies that none of the intersections surrounding the Mark Center reach failing levels of service “e” or “f,” as defined by the Transportation Research Board Highway Capacity Manual, during a consecutive 90-day period.

Should the intersections currently undergoing traffic monitoring surrounding the Mark Center be deemed as not to have reached failing levels of service, the Department of Defense (DOD) and the Virginia Department of Transportation (VDOT) must agree to the number of additional spaces that may be utilized at the Mark Center, which would then be subject to another 90-day traffic monitoring program. To ensure that the Department adequately plans and mitigates traffic generated by the BRAC #133 development, the Department is directed to implement the DODIG's recommendations outlined in report number DODIG-2012-024, and certify to Congress not later than 180 days after enactment of this Act that the recommendations have been implemented.

The conferees recognize that the employees that work at the Mark Center bear no fault in the poor planning and execution of the transportation management plan. The conferees therefore strongly encourage the Department of Defense to examine mandatory commuting alternatives such as telework, flexible work schedules, satellite parking facilities with dedicated shuttle service to the Mark Center, parking capacity at the Pentagon, additional ridesharing and public transit incentives and all other means to ensure that Mark Center employees can commute to and from work without undue burden.

TITLE II

DEPARTMENT OF VETERANS AFFAIRS

VETERANS BENEFITS ADMINISTRATION

COMPENSATION AND PENSIONS

(INCLUDING TRANSFER OF FUNDS)

The conference agreement appropriates \$51,237,567,000 for Compensation and Pensions instead of \$58,067,319,000 as proposed by both the House and the Senate. The agreement reflects new estimates provided in the Administration's mid-session review. Of the amount provided, not more than \$32,187,000 is to be transferred to General Operating Expenses, Veterans Benefits Administration, Medical Support and Compliance, and Information Technology Systems for reimbursement of necessary expenses in implementing provisions of title 38, as proposed by both the House and the Senate.

READJUSTMENT BENEFITS

The conference agreement appropriates \$12,108,488,000 for Readjustment Benefits instead of \$11,011,086,000 as proposed by both the House and the Senate. The agreement reflects new estimates provided in the Administration's mid-session review.

VETERANS INSURANCE AND INDEMNITIES

The conference agreement appropriates \$100,252,000 for Veterans Insurance and Indemnities as proposed by both the House and the Senate.

VETERANS HOUSING BENEFIT PROGRAM FUND

The conference agreement appropriates such sums as may be necessary for costs associated with direct and guaranteed loans for the Veterans Housing Benefit Program Fund, as proposed by both the House and the Senate. The agreement limits obligations for direct loans to not more than \$500,000 and provides that \$154,698,000 shall be available for administrative expenses, as proposed by both the House and the Senate.

VOCATIONAL REHABILITATION LOANS PROGRAM ACCOUNT

The conference agreement appropriates \$19,000 for the cost of direct loans from the Vocational Rehabilitation Loans Program Account, plus \$343,000 to be paid to the appropriation for General Operating Expenses, Veterans Benefits Administration, as proposed by both the House and the Senate. The agreement provides for a direct loan limitation of \$3,019,000 as proposed by both the House and the Senate.

NATIVE AMERICAN VETERAN HOUSING LOAN PROGRAM
ACCOUNT

The conference agreement appropriates \$1,116,000 for administrative expenses of the Native American Veteran Housing Loan Program Account as proposed by both the House and the Senate.

VETERANS HEALTH ADMINISTRATION

AREAS OF INTEREST

Rural access. The conferees are deeply concerned about the difficulties veterans in rural areas face in finding appropriate and accessible Department of Veterans Affairs (VA) health care. As identified in the House and Senate reports, the conferees urge the VA to focus on infrastructure improvements at small and mid-sized medical centers, to consider offering mobile health services, to promulgate regulations allowing veterans service organizations to provide better transportation options for rural veterans, and to partner with State and local organizations to identify veterans in rural and highly rural areas. The conferees also expect to see a long-range strategic plan for the Office of Rural Health, as well as that Office's response to recommendations in the Inspector General's April 2011 report. The conferees emphasize that all reports on rural access issues requested by either the House or Senate are required to be submitted to the Committees on Appropriations of the House of Representatives and the Senate ("Committees") 90 days after enactment of this Act, as described in the first section of this explanatory statement. In addition to the strategic plan, the conferees strongly urge the Department to improve the accessibility, efficiency, and effectiveness of rural healthcare by detailing options available for veterans who need to access healthcare from facilities which are "split campus" models where outpatient care and specialty services are not collocated.

Licensing. The conferees urge the Department of Defense (DOD) and the VA to examine ways to eliminate duplicative licensing requirements as described in Senate Report 112-29.

MEDICAL SERVICES

The conference agreement appropriates \$41,354,000,000 in advance for fiscal year 2013 for Medical Services, as proposed by both the House and the Senate. The agreement does not extend the availability of any of this funding until September 30, 2014, as proposed by the House. The conferees do not include the language proposed by the House limiting the use of \$664,000,000 of fiscal year 2012 medical services funding to the fourth quarter and only once approval is obtained from the Committees.

The conference agreement fully funds the family caregivers program at the request level of \$248,000,000 for fiscal year 2013. The conferees urge the VA to ensure that the caregivers program remains a top priority.

The conference agreement provides sufficient resources to fully implement VA homeless assistance programs, including the providers grant and per diem, domiciliary care for homeless veterans, and the HUD-VA supported housing program. In particular, the

conferees urge the VA to focus on homeless veterans living in rural and highly rural areas.

The conferees concur with the direction of the House regarding an annual report detailing the distribution of medical services funding among the Veterans Integrated Service Networks, central headquarters, and medical centers.

The conferees concur with the House report language directing the VA not to convert dialysis service from contract-provided care to in-house care until after completion and evaluation of its pilot demonstration. The conferees include an exception to this directive if there are any locations where it would result in a diminution of clinical care.

The conferees urge the VA to continue implementation of the Integrated Mental Health Strategy.

The conferees note that VA HIV testing rates significantly improved at VA facilities which used a clinical reminder to prompt routine HIV testing. The conferees urge the VA to employ HIV testing clinical reminders at all VA medical centers to accelerate the implementation of routine HIV testing, consistent with VHA Directive 2009-036. The conferees also encourage the VA to continue to award laboratory and clinical grants to implement routine HIV testing.

MEDICAL SUPPORT AND COMPLIANCE

The conference agreement appropriates \$5,746,000,000 in advance for fiscal year 2013 for Medical Support and Compliance, as proposed by both the House and the Senate. The agreement does not extend the availability of any of this funding until September 30, 2014, as proposed by the House.

MEDICAL FACILITIES

The conference agreement appropriates \$5,441,000,000 in advance for fiscal year 2013 for Medical Facilities, as proposed by both the House and the Senate. The agreement does not extend the availability of any of this funding until September 30, 2014, as proposed by the House. The conferees urge the Department to submit an additional fiscal year 2013 budget request for Medical Facilities with the submission of the 2013 budget to address the need for increased non-recurring maintenance funding. Additionally, the conferees direct the Department to submit no later than April 6, 2012, a comprehensive list by location of all established multi-specialty outpatient clinics and any proposed to be opened in fiscal year 2012.

MEDICAL AND PROSTHETIC RESEARCH

The conference agreement appropriates \$581,000,000 for Medical and Prosthetic Research as proposed by the Senate instead of \$530,774,000 as proposed by the House.

The conferees continue to support the development of advanced prosthetic devices and direct that, no later than 90 days after the enactment of this Act, the Secretary, in coordination with the Defense Advanced Research Projects Agency, shall submit to the Committees on Appropriations, the Committees on Veterans Affairs,

and the Committees on Armed Services of both Houses of Congress a report on the Department's plans to make the next generation of advanced prosthetics available for injured veterans and members of the Armed Forces. The report shall include the strategic plan and timetable to make the next generation prosthetic devices available and a description of the challenges (both technical and administrative) that could impact the schedule, as well as the Department's plans to mitigate these challenges.

NATIONAL CEMETERY ADMINISTRATION

The conference agreement appropriates \$250,934,000 for the National Cemetery Administration (NCA) as proposed by both the House and the Senate. Of the amount provided, \$25,100,000 is available until September 30, 2013, as proposed by both the House and the Senate.

The conferees are concerned that the NCA has failed to adequately serve the burial needs the nation's veterans in rural areas. The NCA fiscal year 2012 budget submission acknowledges that 10 percent of all veterans will not have access to a burial option in a national, State or tribal cemetery. The majority of these underserved veterans live in rural areas, and the conferees are concerned that the NCA's Urban Initiative will exacerbate the disparity of burial services between urban and rural veterans. The conferees have included a provision in the bill prohibiting funds from being used to expand the Urban Initiative beyond the sites already outlined in the budget until the NCA submits to the Committees a detailed strategy to meet the burial needs of veterans residing in rural and highly rural areas. The report shall include a timeline for implementation of such a strategy and cost estimates of establishing new burial sites in at least five rural or highly rural locations. This report shall be submitted no later than February 6, 2012.

In the short term, because the Secretary has the authority to waive Department guidance establishing a population threshold for creating national cemeteries, the conferees urge the Secretary to use this waiver authority to address the pressing needs for access to VA cemeteries in some rural areas.

DEPARTMENTAL ADMINISTRATION

GENERAL ADMINISTRATION

(INCLUDING TRANSFER OF FUNDS)

The conference agreement appropriates \$416,737,000 for General Administration, instead of \$400,500,000 as proposed by the House and \$431,257,000 as proposed by the Senate. Of the amount provided, \$20,837,000 is available for obligation until September 30, 2013, instead of \$22,144,000 as proposed by the House and \$21,562,000 as proposed by the Senate. The conference agreement includes bill language permitting the transfer of funds from this account to "General Operating Expenses, Veterans Benefits Administration", as proposed by both the House and Senate. Bill language is not included to identify specific resources to improve acquisition

workforce capacity. The House and Senate had included such language, but with different funding amounts.

The Administration's budget request proposed that funding for administrative expenses associated with executive offices be included in a single account with the general operating expenses of the Veterans Benefits Administration. The conference agreement includes funding for these two distinct functions in two separate accounts: General operating expenses, Veterans Benefits Administration; and General administration, as proposed by both the House and Senate. The conferees believe that differences in the mission and purpose of the Department's executive offices and the Veterans Benefits Administration justify providing funding in two separate accounts. Further, separating these two broad categories will provide the Congress with greater visibility of budgetary resources and oversight of expenditures for these two vital missions.

The conference agreement includes the following funding levels:

[In thousands of dollars]

Office	House	Senate	Conference
The Secretary	9,270	10,104	10,085
Board of Veterans Appeals	78,273	78,006	78,006
General Counsel	80,778	84,073	83,099
Management	43,956	45,686	45,598
Human Resources	68,590	70,516	70,379
Policy and Planning	26,015	26,127	26,015
Operations Security and Prep	16,746	19,543	18,510
Public and Intergovernmental Affairs	22,079	23,330	23,286
Cong and Legislative Affairs	6,065	6,065	6,053
Acquisition, Logistics and Construction	70,728	67,807	55,706
Undistributed	-22,000		
Total	400,500	431,257	416,737

The total for the Office of the General Counsel includes \$1,889,000 for staffing to speed the appeals process and regulation promulgation, as requested by the Administration and proposed by the Senate. The House had no similar provision.

Within the total for the Office of Management, the conference agreement provides \$1,600,000 to conduct audits of the Veterans Health Administration Fee Care program, as requested by the Administration and proposed by the Senate. The House did not include a similar provision. The conferees concur in the Fee Care report requirement proposed by the Senate and expect the report to be submitted within 90 days of enactment of this Act.

The conferees provide \$1,900,000 within the Office of Operations, Security and Preparedness to implement the Homeland Security Presidential Directive 12 mandate. The Senate provided \$2,900,000 for this activity, as proposed in the Administration request; the House did not provide specific funding. The agreement also provides \$705,000 to activate the Integrated Operations Center and the Capital Region Readiness Center, as requested by the Administration and proposed by the Senate. The House did not include a similar provision.

The conference agreement provides \$1,150,000 within the Office of Public and Intergovernmental Affairs for the tribal government outreach and new media offices, as requested by the Adminis-

tration and proposed by the Senate. The House did not include similar provisions.

The conference agreement provides \$5,000,000 within the Office of Acquisition, Logistics, and Construction for the 2012 President's acquisition initiative and the facilities management transformation. The House provided \$20,000,000 for these activities; the Senate provided \$17,000,000.

The conferees require the VA to include in budget justification documents each year a detailed summary of the marketing campaign budget, as proposed in the House report. The Senate report did not include a similar requirement.

The conferees concur in the Senate report directive requiring a report on adopting payment recapture audits, with the report to be submitted within 90 days of enactment of this Act.

GENERAL OPERATING EXPENSES, VETERANS BENEFITS ADMINISTRATION

The conference agreement appropriates \$2,018,764,000 for General Operating Expenses, Veterans Benefits Administration, as proposed by the Senate instead of \$2,020,128,000, as proposed by the House. The agreement makes available not to exceed \$105,000,000 of this funding until the end of fiscal year 2013, as proposed by the Senate, instead of \$105,856,000 as proposed by the House. The conferees concur with Senate report language regarding Decision Review Officers.

INFORMATION TECHNOLOGY SYSTEMS

The conference agreement appropriates \$3,111,376,000 for Information Technology (IT) Systems instead of \$3,025,000,000 as proposed by the House and \$3,161,376,000 as proposed by the Senate. The agreement follows the Senate format of identifying separately in bill language the funding available for pay (\$915,000,000); operations and maintenance (\$1,616,018,000); and systems development, modernization, and enhancement (\$580,358,000). The Senate bill provided \$915,000,000 for pay; \$1,709,953,000 for operations and maintenance; and \$536,423,000 for development. The House provided all IT funding in one lump sum. The agreement also adopts the Senate proposal of making \$25,000,000 of pay funding available until the end of fiscal year 2013; \$110,000,000 of operations and maintenance funding available until the end of fiscal year 2013; and all IT systems development, modernization and enhancement funding available until the end of fiscal year 2013. The House proposed to make the entire IT appropriation available until the end of fiscal year 2013.

On May 2, 2011, the Secretary of Veterans Affairs and the Secretary of Defense entered into an agreement to implement an integrated electronic health record (iEHR) system rather than pursue separate strategies for modernizing the two existing health record systems. The conferees are encouraged by this agreement and believe that successful development and implementation is crucial for both Departments to continue to provide high-quality medical care in the 21st century and to enhance seamless transition from active duty to the VA.

The conferees strongly encourage the Secretaries of the Department of Veterans Affairs and the Department of Defense to continue to work together throughout the development of this new system to ensure an unambiguous and unified message is clearly articulated to both Departments. It is imperative the new iEHR system be agreed to and driven by senior leadership at both Departments to ensure system development is on time and within budget.

Given that the two Departments entered into this agreement after the Administration had transmitted the fiscal year 2012 budget request to Congress, the VA has had to alter its original Information Technology budget submission to account for iEHR. According to the VA, the requirement for iEHR in fiscal year 2012 is \$100,000,000, which includes \$73,200,000 in development funds. The conference agreement fully funds this request and includes an updated development chart displaying the iEHR development requirement.

The conferees direct the Department of Veterans Affairs, in conjunction with the Department of Defense, to identify the time-frame for completion of an integrated electronic health record system and develop detailed benchmarks to track progress. Additionally, the conferees direct the Office of Information Technology to provide quarterly updates on the progress of this project to the Committees on Appropriations of both Houses of Congress.

The conference agreement includes language proposed in both the House and Senate bills requiring that no IT funding may be obligated until the VA submits to the Committees, and the Committees approve, an expenditure plan meeting the four criteria outlined. The conferees are disturbed that the VA has not complied with this language in previous years and expect prompt compliance in fiscal year 2012.

The conference agreement includes bill language proposed by the Senate but not the House prohibiting the obligation of IT development, modernization, and enhancement funding until the VA submits a certification of the amounts to be obligated, in part or in full, for each development project.

The conference agreement includes bill language proposed by the Senate but not the House permitting funding made available for the three IT subaccounts to be transferred among them after the VA requests and receives approval from the Committees.

The conferees include bill language making funds available for IT development, modernization, and enhancement for the projects and in the amounts specified in the following table:

As proposed in the Senate bill, the conferees intend this table to serve as the Department's approved list of development projects; any requested changes are subject to reprogramming guidelines. The agreement does not include the House proposed bill language requiring the VA to submit to the Committees a reprogramming base letter by project within 30 days of enactment of this Act.

The conference agreement directs the Department to submit an expenditure plan to the Committees within 30 days of enactment of this Act as proposed by both the House and the Senate. This plan should be in the same format as the table above. The conferees also expect all future IT budget displays provided to the Committees to use this format.

The conferees concur in the Senate report language concerning metrics for evaluating the Veterans Benefits Management System pilot.

OFFICE OF INSPECTOR GENERAL

The conference agreement appropriates \$112,391,000 for the Office of Inspector General as proposed by the Senate instead of \$109,391,000 as proposed by the House. Of the amount provided, \$6,000,000 is available for obligation until September 30, 2013, as proposed by the House instead of \$6,600,000 as proposed by the Senate.

CONSTRUCTION, MAJOR PROJECTS

The conference agreement appropriates \$589,604,000 for Construction, Major Projects as proposed by both the House and the Senate.

The agreement makes this funding available until expended, as proposed by the Senate, rather than with a limitation of five years as proposed by the House. The conferees are concerned about the very large unobligated balances that have built up in the major construction account and believe that the account's "no year" funding framework must be changed. In contrast, military construction funds provided in this bill are made available on a five-year basis.

The Department of Defense (DOD) is able to manage these funds and construct its buildings in a timely way. The conferees understand that the VA will need to make process changes in planning, budgeting, and execution to make the DOD five-year obligation approach viable. The conferees direct the VA to develop a plan to transition to five-year availability of funds for both major and minor construction and deliver the plan to the Committees within 180 days of enactment of this Act. The plan should identify any legislative language needed to make the plan workable. The conferees' goal is to implement this plan when finalizing the fiscal year 2013 budget in the fall of 2012.

The conference agreement funds the following items as requested in the budget submission and as proposed by both the House and Senate:

Project	Conference agreement
Veterans Health Admin (VHA):	
New Orleans, LA new medical facility	\$60,000,000
Denver, CO new medical facility	42,000,000
San Juan, PR seismic corrections	100,720,000
St. Louis, MO medical facility improvements	80,000,000
Palo Alto, CA polytrauma/ambulatory care	75,900,000
Bay Pines, FL in-/outpatient improvements	43,970,000
Seattle, WA seismic deficiencies	47,500,000
Reno, NV expansion of clinical services	21,380,000
W. Los Angeles, CA new tower/renovation	50,790,000
San Francisco, CA seismic deficiencies	22,480,000
Advance Planning Fund	59,145,000
Asbestos	40,000,000
Facility Security	8,000,000
CFM Staff	24,200,000
Judgment Fund	5,000,000
Total VHA	681,085,000
National Cemetery Admin (NCA):	
National Memorial Cemetery of Pacific columbarium/administration	23,700,000
Advance Planning Fund	4,500,000
NCA Land Acquisition Fund	10,000,000
Total NCA	38,200,000
General Admin staff offices	6,000,000
Available from existing projects	(135,681,000)
Major construction total	589,604,000

The conferees direct the VA to submit a master plan at the time of the budget submission describing each major construction project included in the budget. The plan should include the projected time line for completion of each component of each of the projects and the annual and total cost of each project. The format of the DOD Form 1391 is a good model for the VA to use to describe clearly and completely the expected obligations for each project.

The conferees encourage the VA to examine its practices on rehabilitation and re-use of national landmarks within the VA infrastructure that are aging, outdated, or obsolete and report to the Committees on any actions taken or planned to be taken on these facilities.

CONSTRUCTION, MINOR PROJECTS

The conference agreement appropriates \$482,386,000 for Construction, Minor Projects, instead of \$475,091,000 as proposed by the House and \$550,091,000 as proposed by the Senate. The agreement makes this funding available until expended, as proposed by the Senate, rather than with a limitation of five years as proposed by the House. As indicated in the narrative for Construction, Major Projects, the VA is directed to develop a plan to transition to five-year availability of funds for both major and minor construction and deliver the plan to the Committees within 180 days of enactment of this Act.

As proposed by the Senate, the conferees direct the Department to provide to the Committees an expenditure plan for this account within 30 days of enactment of this Act. The House did not propose a similar requirement.

The conferees expect the fiscal year 2013 budget submission to include a separate list of all minor construction projects proposed to be funded in fiscal year 2013 in priority order, consistent with the integrated Strategic Capital Investment Plan.

GRANTS FOR CONSTRUCTION OF STATE EXTENDED CARE FACILITIES

The conference agreement appropriates \$85,000,000 for Grants for Construction of State Extended Care Facilities, as proposed by both the House and the Senate.

GRANTS FOR CONSTRUCTION OF VETERANS CEMETERIES

The conference agreement appropriates \$46,000,000 for Grants for Construction of Veterans Cemeteries, as proposed by both the House and the Senate.

The conference agreement includes section 217 as proposed by the Senate providing for the transfer of funds from the Department of Veterans Affairs Capital Asset Fund to the Construction, Major Projects and Construction, Minor Projects accounts and makes those funds available until expended. The House proposed that these funds be made available for five years.

The conference agreement includes section 218 as proposed by both the House and the Senate prohibiting the use of funds for any

policy prohibiting the use of outreach or marketing to enroll new veterans.

The conference agreement includes section 219 as proposed by both the House and the Senate requiring the Secretary to submit quarterly reports on the financial status of the Veterans Health Administration.

The conference agreement includes section 220 as proposed by both the House and the Senate requiring the Department to notify and receive approval from the Committees of any proposed transfer of funding to or from the Information Technology Systems account.

The conference agreement includes section 221 as proposed by the Senate providing for transfer of funds among development, modernization and enhancement projects or to newly identified projects within the Information Technology Systems account. The House proposed similar but more general language.

The conference agreement includes section 222 as proposed by the Senate prohibiting any funds to be used to contract out any function performed by more than ten employees without a fair competition process. The House did not propose a similar provision.

The conference agreement includes section 223 as proposed by both the House and the Senate limiting the obligation of non-recurring maintenance funds during the last two months of the fiscal year.

The conference agreement includes section 224 as proposed by both the House and the Senate providing up to \$241,666,000 for transfer to the joint DoD-VA Medical Facility Demonstration Fund.

The conference agreement includes section 225 as proposed by both the House and the Senate which authorizes transfers from the Medical Care Collections Fund to the joint DoD-VA Demonstration Fund.

The conference agreement includes section 226 as proposed by both the House and the Senate which transfers at least \$15,000,000 from VA medical accounts to the DoD-VA health care sharing incentive fund.

The conference agreement includes section 227 which is similar to a provision proposed by both the House and the Senate. It rescinds fiscal year 2012 medical account funding and re-appropriates it to be available for two years. The provision rescinds and re-appropriates \$1,400,000,000 for Medical Services, \$100,000,000 for Medical Support and Compliance, and \$250,000,000 for Medical Facilities. The House bill provided slightly different amounts.

The conference agreement includes section 228 as proposed by the Senate requiring that the Department notify the Committees of bid savings in major construction projects of at least \$5,000,000 or 5 percent within 14 days of a contract identifying the programmed amount. The House bill proposed similar language.

The conference agreement includes section 229 as proposed by both the House and the Senate which prohibits the VA from increasing the scope of work for a major construction project above the scope specified in the original budget request.

The conference agreement includes section 230 which is similar to a provision proposed by the House regarding VA provision of information about controlled substance prescriptions to State con-

trolled substance monitoring programs. The Senate bill did not contain a similar provision.

The conference agreement does not include section 230 as proposed by the Senate, requiring the Secretary, in coordination with the Defense Advanced Research Projects Agency (DARPA), to submit a report on the next generation of advanced prosthetics. This issue is addressed under the Medical and Prosthetic Research account.

The conference agreement includes section 231 requiring the Secretary to report to the Committees each quarter about any single national outreach and awareness marketing campaign exceeding \$2,000,000. The House bill contained similar language. The Senate did not have a comparable provision.

The conference agreement includes, as VA administrative provision section 232, a general provision proposed by the House prohibiting the VA from using any funds to declare as excess to the needs of the VA Federal land and improvements to the St. Albans campus in New York. The Senate bill did not include a similar provision.

The conference agreement includes, as VA administrative provision section 233, a general provision proposed by the House prohibiting the use of funds in the Act for any contract using procedures that do not give to small business concerns owned and controlled by veterans any preference with respect to such contract, except for a preference given to small business concerns owned and controlled by service-disabled veterans. The Senate bill did not include a similar provision.

The conference agreement includes section 234 extending the authorization for the VA office in the Philippines through December 31, 2012. Neither the House nor the Senate bill contained a comparable provision.

TITLE IV
OVERSEAS CONTINGENCY OPERATIONS
DEPARTMENT OF DEFENSE

The conference agreement includes a new title IV, Overseas Contingency Operations. Title IV provides funding for certain mili-

tary construction projects in the Central Command and Africa Command Areas of Responsibility that was requested in title I, Military Construction, in the budget submission. The conferees agree that the projects transferred to title IV are necessary to support the global war on terrorism and should be designated as overseas contingency operations functions.

MILITARY CONSTRUCTION, ARMY

The conference agreement appropriates \$80,000,000 for Military Construction, Army in this title instead of title I of this Act as proposed by both the House and Senate.

MILITARY CONSTRUCTION, NAVY AND MARINE CORPS

The conference agreement appropriates an additional \$189,703,000 for Military Construction, Navy and Marine Corps in this title instead of title I of this Act as proposed by both the House and Senate.

ADMINISTRATIVE PROVISIONS

(INCLUDING RESCISSION OF FUNDS)

The conference agreement includes section 401 rescinding unobligated balances from title IV, Division E of Public Law 111-117 in the specific amount of \$269,703,000. The House and Senate bill included no similar provision.

GENERAL PROVISIONS

Section 501 prohibits the obligation of funds in the Act beyond the current fiscal year unless expressly so provided.

Section 502 prohibits the use of the funds in this Act for programs, projects or activities not in compliance with Federal law relating to risk assessment, the protection of private property rights, or unfunded mandates.

Section 503 requires pay raises to be absorbed within the levels appropriated in the Act.

Section 504 prohibits the use of funds in the Act to support or defeat legislation pending before Congress.

Section 505 encourages all Departments to expand their use of "E-Commerce".

Section 506 specifies the Congressional Committees that are to receive all reports and notifications.

Section 507 prohibits the transfer of funds to any instrumentality of the United States Government without authority from an appropriations Act.

Section 508 prohibits the use of funds for a project or program named for a serving Member, Delegate, or Resident Commissioner of the United States House of Representatives.

Section 509 requires all reports submitted to the Congress to be posted on official websites of the submitting agency.

Section 510 prohibits the use of funds to establish or maintain a computer network unless such network blocks the viewing, downloading, and exchanging of pornography, except for law enforcement investigation, prosecution, or adjudication activities.

Section 511 prohibits the use of funds in this Act for the renovation, expansion, or construction of any facility in the continental United States for the purpose of housing any individual who has been detained at the United States Naval Station, Guantanamo Bay, Cuba.

Section 512 prohibits the use of funds for the payment of first-class travel by an employee of the executive branch.

Section 513 prohibits the use of funds in this Act for any contract where the contractor has not complied with E-Verify requirements.

The conference agreement includes a modified House provision, Section 514, which prohibits the use of funds in this Act for any contract, memorandum of understanding, or cooperative agreement with any corporation convicted of a felony criminal violation within the preceding 24 months, where the awarding agency is aware of the conviction.

The conference agreement includes House provision 416 as an administrative provision under title II.

The conferees have not included a House provision, section 417 which prohibited funds for the enforcement of section 526 of the Energy Independence and Security Act of 2007. The conferees note that the enforcement of section 526 of the Energy Independence and Security Act of 2007 may lead to higher fuel costs for federal fleets in the absence of competitively priced new generation fuels that emit fewer emissions. In carrying out this statute, the Sec-

retary of Defense and the Secretary of Veterans Affairs should work to ensure that costs associated with fuel purchases necessary to carry out the missions of their respective departments should be minimized to the extent possible under the law.

The conference agreement includes House provision 418 as an administrative provision under title II.

The conference agreement does not include House provision 419 which prohibited funds to be used in contravention of the War Powers Resolution.

DIVISION I—DEPARTMENT OF STATE, FOREIGN OPERATIONS, AND RELATED PROGRAMS APPROPRIATIONS ACT, 2012

In implementing this conference agreement, the departments and agencies shall comply with the Senate report (S. Rept. 112–85) accompanying S. 1601 as though stated in this joint explanatory statement unless specifically directed to the contrary. Matters addressed in the report of the House Subcommittee on State, Foreign Operations, and Related Programs (Full Committee Print, circulated on July 29, 2011) are restated in this joint explanatory statement where the conferees concur.

TITLE I

DEPARTMENT OF STATE AND RELATED AGENCY

DEPARTMENT OF STATE

ADMINISTRATION OF FOREIGN AFFAIRS

DIPLOMATIC AND CONSULAR PROGRAMS

(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$6,550,947,000 for Diplomatic and Consular Programs (D&CP), of which up to \$1,355,000,000 is for Worldwide Security Protection. The conference agreement provides an additional \$4,389,064,000 in title VIII under this heading, which is designated for Overseas Contingency Operations/Global War on Terrorism (OCO/GWOT) pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

Within the total provided under this heading, the conference agreement includes:

\$2,277,862,000 for Human Resources (of which \$121,814,000 is for public diplomacy);

\$2,109,293,000 for Overseas Programs (of which \$347,572,000 is for public diplomacy);

\$822,513,000 for Diplomatic Policy and Support; and

\$1,341,279,000 for security programs.

The conference agreement does not include funding for the 185 new positions requested in fiscal year 2012. The conference agreement assumes continuation of the pay freeze in fiscal year 2012 for all Department of State employees, including Foreign Service Officers.

The conference agreement includes language amending the heading “Civilian Stabilization Initiative” included in prior acts to “Conflict Stabilization Operations” (CSO) and provides transfer authority of up to \$35,000,000 of the funds appropriated under this heading to funds made available under the CSO heading. The conference agreement provides an additional \$8,500,000 in title VIII under the CSO heading, which is designated for OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985. The conferees remain concerned with CSO’s limited activities, specifically the minor role it has played in response to the

earthquake in Haiti and the revolution in Libya. The conferees will further assess the performance of the CSO during fiscal year 2012.

The conferees request the Secretary of State to be prepared to report to the Committees on Appropriations in hearings on the fiscal year 2013 budget on the use of the Secretary's authority to determine whether an American citizen has voluntarily renounced United States citizenship as a result of engaging in activities with a Foreign Terrorist Organization.

The conferees recognize that B-1 and B-2 visitor visa applications in some countries, such as the People's Republic of China (PRC) and Brazil, are significantly and rapidly increasing. The number of visa applications increased 53 percent in Brazil and 64 percent in the PRC from fiscal year 2010 to fiscal year 2011, resulting in increased delays in interviewing applicants and longer approval times. The Department of State is taking steps to reduce the wait time but more needs to be done. Section 7076 of this Act directs the Secretary of State to take steps to reduce delays in processing tourist visas in the PRC, Brazil, and India, and to consider extending the expiration period for B-1 and B-2 visas for applicants before requiring a consular officer interview. The conferees recognize that wait times for interviews can fluctuate due to unforeseen circumstances, including assisting United States citizens abroad during an emergency, but expect the Department to continue to implement steps to minimize wait times. The conferees expect the Secretary of State to determine the appropriate extension beyond the current one-year limit in a manner consistent with security controls. The conference agreement also permits the Secretary to conduct a pilot program for processing tourist visas via secure remote videoconferencing technology if doing so would not pose a security risk.

The conferees direct the Secretary of State to report to the Committees on Appropriations, not later than 90 days after enactment of this Act, on steps taken to reduce visa processing wait times; the Department of State's 5-year forecast of non-immigrant visas for each country; the number of consular officers necessary to meet the Department's standards; a comparison of the Department's forecast with the Department of Commerce's 5-year visitor arrival projections; and the impact of the different projections on visa processing times and the required number of consular officers.

The conferees direct the Secretary of State to provide to the Committees on Appropriations, not later than 90 days after the end of any videoconference pilot program, an assessment of the efficacy, efficiency, and security of this technology for conducting visa interviews.

The conferees endorse Senate report language regarding the Coordinator for Cyber Issues, and recommend \$1,000,000, in addition to funds otherwise made available for such purposes, for operations and programs under the Coordinator's authority. The conferees recommend that the fiscal year 2013 congressional budget justification materials include a request for program funds under the Coordinator's authority in the accounts included in title III of this Act.

The conferees urge the Department of State to examine alternative approaches to furnishing residences for Foreign Service Offi-

cers posted overseas, including consideration of options for substantially reducing costs and delivery times and increasing available choices.

The conferees are concerned with the unnecessary idling of parked motor vehicles that is wasteful and harms the environment. The conferees direct that, not later than 90 days after enactment of this Act, the Secretary of State, in consultation with the head of each United States Government agency that uses funds appropriated by this Act to purchase or lease motor vehicles, shall establish a policy to eliminate the unnecessary idling of parked motor vehicles and provide a copy of such policy to the Committees on Appropriations. Such policy may include exceptions to accommodate important security, health, or safety concerns, and if necessary to perform an important job function, ensure safe operating conditions, or to operate a motor vehicle in accordance with manufacturer specifications.

The conferees support the Secretary of State's expanded engagement with governments to improve the inter-country adoption process, to finalize implementation agreements with such governments, where appropriate, and to resolve impediments to the completion of adoptions for waiting families and children.

The conferees encourage the Secretary of State to continue to support the United States-Colombia Action Plan on Racial and Ethnic Equality and the United States-Brazil Joint Action Plan on Racial and Ethnic Equality.

The conference agreement includes new language prohibiting the use of funds under this heading for the preservation of religious sites unless the Secretary of State determines and reports to the Committees on Appropriations that: (1) The site is historically, artistically, or culturally significant; (2) the purpose of the project is neither to advance nor to inhibit the free exercise of religion; and (3) the project is in the national interest of the United States.

The conferees are also concerned with ongoing gender-based crimes in Mexico, and encourage the Department of State to provide forensic equipment and training to Mexican states and localities that have the highest rate of homicide and other violent crime to ensure local law enforcement agencies have tools to solve and prosecute these cases. Additionally, the conferees direct the Secretary of State to provide a report, not later than 90 days after enactment of this Act, on how programs funded under this heading are achieving judicial and law enforcement reforms in Mexico. The report should include objectives to be met, benchmarks for measuring progress, intended re-

sults, and the extent to which such programs are coordinated with the federal and state governments in Mexico.

The conferees support continued assistance to strengthen civilian law enforcement and judicial institutions to reduce violent crime and narcotics trafficking in Mexico and Honduras. The conference agreement includes sections 7045(d) and 7045(e) that require the withholding of a portion of the assistance for military and police forces in these countries until the Secretary of State makes certain findings and submits them in a report to the Committees on Appropriations.

The conferees direct the Department of State to ensure the prompt delivery of equipment and training provided under this heading for Mexico. Additionally, the conferees continue to support cooperation between the United States and Mexico to combat organized crime and drug trafficking along the border. The conferees direct the Secretary of State to develop and implement a coordinated border security strategy.

The conferees continue to support demand reduction programs and direct the Secretary of State to provide assistance at levels consistent with prior fiscal years.

The conferees request that the country-by-country report required under this heading integrate the additional funds appropriated under this heading in title VIII for OCO/GWOT where appropriate, and the OCO/GWOT amounts should be separately identified in the integrated report.

NONPROLIFERATION, ANTI-TERRORISM, DEMINING AND RELATED PROGRAMS

The conference agreement provides \$590,113,000 for Nonproliferation, Anti-terrorism, Demining and Related Programs (NADR), and an additional \$120,657,000 in title VIII under this heading is designated for OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

The conference agreement does not include assistance for the Countering Violent Extremism program as included in the budget request, but includes funding for these programs within the ESF account.

The conferees recognize the importance of mine removal, mine victim assistance, and the proper storage and disposition of small arms/light weapons, and support the Department of State’s efforts to expand this work.

The conference agreement prioritizes the clearance of unexploded ordnance (UXO) in areas where such ordnance was caused by the United States. The conferees endorse Senate report language directing that \$9,000,000 be made available for UXO clearance in Laos, and intend that funds also be prioritized for UXO clearance in locations in the Oceania region that have high concentrations of United States UXO dating to World War II.

Section 7078 of this Act requires a spend plan for this account not later than 30 days after enactment of this Act. The conferees request that the spend plan integrate the funds appropriated under this heading in title VIII of this Act for OCO/GWOT, and the OCO/GWOT amounts should be separately identified in the integrated plan.

The conferees direct the Secretary of State to submit a report to the Committees on Appropriations, prior to the obligation of funds provided under this heading, for the Africa Maritime Security Initiative (AMSI), including a description of how the AMSI will address piracy, terrorist activity, and trafficking in drugs, arms, and persons along the African coast, as well as a description of coordination efforts with the Department of Defense.

The conference agreement provides \$28,000,000 for the Multinational Force and Observers (MFO) including \$2,000,000 to address force protection enhancements. The conference agreement provides the budget request for Israel, Egypt, Jordan, and Tunisia.

The conferees note the recent progress of PRC military modernization, and the increasing frequency of aggressive assertions in territorial disputes, including on the seas and in cyberspace. In re-

sponse, regional neighbors, including India, Japan, and Singapore, are reviewing defense postures and updating their military hardware. The conferees encourage the Administration to continue to engage the People's Liberation Army in these matters, as well as allies in the region on the political, economic, and military implications of the strategic rise of the PRC, including through military assistance and sales programs.

The conferees recommend parity in the allocation of funds for Armenia and Azerbaijan.

The conferees note the existence of multiple laws that prohibit assistance to Foreign Terrorist Organizations (FTOs). The conferees support programs for the Guatemalan Coast Guard, Navy, and Army Corps of Engineers that enhance regional naval cooperation and maritime security and that increase disaster response and peacekeeping capabilities.

The conference agreement continues restrictions in current law on assistance for the Guatemalan Army. The conferees will consider a request for funding for such activities in fiscal year 2013 if the army has a narrowly defined mission focused on border security and external threats, is implementing a reform strategy that has broad support within Guatemalan society, is respecting human rights, is cooperating with civilian investigations and prosecutions of cases involving current and retired officers and with the CICIG, and is publicly disclosing all military archives pertaining to the internal armed conflict.

The conferees note that section 7041 limits the purposes for which funds may be made available, and the conferees further direct that United States security assistance not affect Israel's qualitative military edge in the region.

Sec. 7002. Unobligated Balances Report (Modified)

Section 7002 of the conference agreement requires any department or agency funded by this Act to provide a quarterly report on unobligated and unexpended balances to the Committees on Appropriations. The conferees expect the report to specify, where feasible, funds obligated pursuant to bilateral agreements which have not been further sub-obligated. The conferees note that current reports from USAID designate expired and unexpired funds by account and fiscal year, and expect the Department of State to continue to work on modifying their financial systems to enable them to submit a report in a similar format. The conferees also direct the Department of State and USAID to provide periodic briefings on the information in this report, including on the status of sub-obligations related to bilateral agreements.

Sec. 7004. Embassy Construction (Modified)

Section 7021 of the conference agreement combines sections 7021 and 7022 in division F of Public Law 111–117 relating to prohibitions on the export of lethal military equipment and on providing bilateral assistance to countries supporting international terrorism. Additionally, section 7021 prohibits bilateral assistance to any foreign government controlled by a designated terrorist organization.

Sec. 7024. Authorities for the Peace Corps, Inter-American Foundation and African Development Foundation (Modified)

Sec. 7025. Commerce, Trade and Surplus Commodities

The conference agreement includes language expanding exceptions to the application of subsection (b). When relying on this expanded exception, the USAID Administrator should, in order to maximize program effectiveness, consult with relevant agriculture industry representatives regarding the same, similar, or substitute commodities and products.

Sec. 7029. International Financial Institutions (Modified)

Sec. 7031. Financial Management and Budget Transparency (Modified)

For the purposes of this section the term “direct government-to-government assistance” shall include cash transfers, nonproject sector assistance, and other forms of assistance where funds appropriated by this Act are provided directly to the recipient government.

Section 7031(c) includes language related to anti-kleptocracy. The conferees note that this provision revises current law (section 7084 of division F of Public Law 111–117) and includes a national interest waiver. The conferees note that ineligibility for entry into the United States under this provision is not dependent on a decision or other action by any Federal agency other than the Department of State.

Sec. 7033. Multi-Year Commitments (New)

The conferees understand that the Secretary of the Treasury does not intend to increase the quota resources of the IMF in fiscal year 2012. If the Secretary does intend to commit the United States to additional contributions to the IMF, the conference agreement includes a provision that would, at a minimum, require consultation with the Committees on Appropriations not less than 7 days before such pledge is made.

Sec. 7034. Special Provisions (Modified)

Section 7034(h)(5) states that funds appropriated by this Act that are made available to promote democracy and human rights shall also be made available to support freedom of religion, especially in the Middle East and North Africa.

Section 7034(k) redesignates section 620J of the Foreign Assistance Act of 1961 to section 620M, and modifies it by substituting "credible information" for "credible evidence" in order to clarify that the information need not be admissible in a court of law to be credible and to conform to similar wording in a comparable provision in the Defense Appropriations Act, and by adding guidelines for: tracking United States assistance to foreign security forces; the collection, receipt, evaluation, and preservation of information about gross violations of human rights; vetting both individuals and units; and, to the maximum extent practicable, publicly identifying units for which no assistance shall be furnished pursuant to section 620M.

Sec. 7040. Limitation on Assistance for the Palestinian Authority (Modified subsection (f))

Sec. 7041. Near East (Modified)

Section 7041(a)(1) of this Act provides limitations on assistance for Egypt, and includes authorities for an Egypt debt initiative.

Section 7041(a)(3) provides authority and conditions for an Egypt initiative. The conferees make available up to \$500,000,000 of the funds appropriated under the Economic Support Fund heading in this Act and prior acts for such purposes. However, the conferees note that all funds are subject to the regular notification procedures of the Committees on Appropriations and expect that funds will be provided in tranches, at the minimum rate necessary, and in a manner consistent with the advancement of United States-Egyptian strategic interests. The conferees note that this initiative demonstrates United States support for Egypt's democratic transition and economic development, and should serve as an incentive to the Government of Egypt (GOE) to pursue policies of mutual interest. The conferees intend that prior to the use of the authority under this initiative the transition to a civilian government will have substantially progressed, and the GOE will implement economic development policies consistent with the objectives of such initiative.

The conferees direct that the notification submitted to the Committees on Appropriations include a detailed description and estimate of the economic benefits of projects anticipated to be undertaken, the role of the GOE in implementing projects, an expla-

nation of how such projects contribute to economic and democratic reforms in Egypt, and the means by which the uses of funds and results achieved will be monitored and measured. The conferees intend that the notification may be submitted to other congressional committees, as appropriate.

The conferees direct the Secretary of State to use prior appropriated funds to the maximum extent practicable with respect to supporting projects and initiatives in Egypt, and to structure the timing and amounts of disbursements of funds for activities regarding the Egypt debt initiative. The Secretary of State shall consult with the Committees on Appropriations and other congressional committees, as appropriate, on the planned uses of the funds prior to obligating funds under such structured disbursement. The conferees expect the Secretary of State to spend down prior appropriated funds in an efficient manner, and to keep the Committees on Appropriations informed on a regular basis on the balances of such funds.

Section 7041(b) of this Act includes language authorizing the establishment of enterprise funds in Egypt, Tunisia, and Jordan. The conferees intend that at the termination of the respective funds, 50 percent of the proceeds realized by each fund from the liquidation of its assets should be returned to the United States Treasury. The conferees request that the Comptroller General of the United States conduct a review, one year after the establishment of any enterprise fund, to examine the management and oversight of the funds and to determine if appropriate and sufficient safeguards exist against financial misconduct.

The conference agreement includes language regarding democracy promotion in Libya and Syria, and restricts infrastructure assistance for Libya.

Sec. 7042. Serbia (Modified)

Sec. 7043. Africa (Modified)

The conferees direct the Secretary of State to provide to the Committees on Appropriations the report detailed in section 7061(b)(3) of S. 1601 (112th Congress).

The conferees direct the Secretary of State to ensure that no United States training, equipment, or other assistance is provided to any Kenyan military personnel or units who have been credibly alleged to have violated human rights at Mount Elgon in March 2008, and to report to the Committees on Appropriations within 90 days of enactment of this Act on steps taken by the Government of Kenya to conduct a thorough, credible investigation of such violations.

The conferees endorse language in the Senate report regarding the disappearance of journalist Ebrimah Manneh in The Gambia.

Sec. 7044. Asia (Modified)

Sec. 7045. Western Hemisphere (Modified)

The conferees direct that of the funds appropriated by this Act that are available for assistance for the Colombian Armed Forces, 25 percent may be obligated only after the Secretary of State

consults with, and subsequently certifies and submits a written report to, the Committees on Appropriations that—

(1) The Colombian Armed Forces are suspending those members, of whatever rank, who have been credibly alleged to have violated human rights, or to have aided, abetted or benefitted from paramilitary organizations or other illegal armed groups; all such cases are promptly referred to civilian jurisdiction for investigation and prosecution, and the Colombian Armed Forces are not opposing civilian jurisdiction in such cases; and the Colombian Armed Forces are cooperating fully with civilian prosecutors and judicial authorities.

(2) The Government of Colombia has taken all necessary steps to sever links with paramilitary organizations or other illegal armed groups.

(3) The Government of Colombia is dismantling paramilitary networks, including by arresting and prosecuting under civilian criminal law individuals who have provided financial, planning, or logistical support, or have otherwise aided, abetted or benefitted from paramilitary organizations or other illegal armed groups, and by returning land and other assets illegally acquired by such organizations or their associates to their rightful occupants or owners.
